SLCSE Community Wellbeing Data from Surveys

Last spring when SLCSE students participated in this survey that monitors student wellbeing and provides the school with information on school climate, students overall schoolwide wellbeing came in at 30%. In the fall, the school set a goal of getting student wellbeing to 85%. The midyear results showed that 90% of students were experiencing joy at school, 80% experience connectedness at school, 81% experienced purpose at school, and 79% felt efficacy for what they were doing at school. Overall student well being is at 82.5%. This is a massive increase. Teacher wellbeing is also monitored and for a school year that, nationwide, teachers are trending an all-time low for wellbeing, teacher wellbeing at SLCSE is holding strong. Efficacy is at 88%. Connectedness is at 76%. We will look for opportunities for connection among faculty and staff.

Parent shared that QPR Training was excellent. They recommend running it again for all parents and staff and giving plenty of notice to increase participation.

Review parent compact and email [Britnie.powell@slcschools.org](mailto:Britnie.powell@slcschools.org) with any recommended changes, things you would like to see added, things that aren't helpful, aside from the updates of dates.

### Issues of Interest

Parents are always welcome to contact the chair, co-chair, or administration to request items.

One item from the chat: please make sure the graduation progress page in powerschool is enabled. Some students still do not have access.
