

Latin Summer Assignments for Students going into Latin 2 and 2H

Both the Latin 2 and the Latin 2 Honors courses will start to cover more complex grammatical structures and themes. To enable you to approach these courses with confidence, it is very important for you to review the basic areas of grammar we have covered so far. Over the summer break, study the two attached resources (*English Grammar for Students of Latin - EGFSOL*) very carefully and complete the short, basic reviews at the end of each topic. Complete the reviews by hand in your own notebook and make sure you bring your completed work to your first Latin lesson of the new semester. Your first grades of the new semester will be taken from a few short quizzes based on the resources you will have studied over the summer break.

Resources to be studied:

Latin Summer Assignment (EGFSOL) 1

Latin Summer Assignment (EGFSOL) 2
