FUNDRAISING GUIDELINES

Initial

-----	All school sales to individuals by recognized student activity groups or other departments or entities must be approved in advance by the Activity Director or Principal, the Superintendent's Office and the Board of Trustees before they begin.
-----	Sales of any kind may not be in conflict with the normal merchandise and services of the school or district.
-----	Each organization is responsible for any fund-raising activity it sponsors and must put its name on all advertising associated with the sale.
-----	Applications for fundraising activities by recognized student organizations should be completed and submitted to the Activity Director or Principal at the beginning of the quarter prior to the fundraiser to insure that there is enough time to evaluate the request and plan for the event.
-----	A report indicating the amount of money raised (profit and loss) must be submitted to the Activity Director or Principal within 7 days after the close of each fundraising activity.
-----	All funds should be deposited daily, not taken home or left anywhere outside of a locked space in the office.
-----	Fundraising projects that involve solicitation of parents, staff, and community must be clearly labeled.
-----	Because <i>Kalispell Public Schools</i> often contact local businesses to ask them for support, it is important that the school know when area businesses are being requested to provide support in excess of \$100.
-----	<i>Kalispell Public School's</i> approval logo must be used in conjunction with student fundraising to indicate district endorsement.
-----	Students must <u>not</u> be required to sell a certain number of items.
-----	Students will <u>not</u> be penalized for lack of sales.
