ACTION: High School and Elementary District <u>DISCUSSION</u>

February 11, 2019

#### DISCUSSION:

In 2015 our District began a PreK program at Whittier and Hyalite. We began our program using Title I resources and have continued the program with grant money from OPI and partnerships with HRDC, head start.

We now have several years of literacy data to examine how our Running Start students perform once they enter kindergarten.

The topic of PreK funding has once again become an important topic in the 2019 Legislature.

This time has been set aside for the Board to gain an understanding of the literacy data from our Running Start program. We believe it will be important for Board members to have knowledge of our program when discussing PreK funding with Legislators during the 2019 session.

This discussion supports the following Long Range Strategic Plan strategic objectives:

- 1.01 Personalize learning for each student to help all realize sustained academic growth in all content areas.
- 3.04 Engage in a collaborative dialogue surrounding topics of educational importance (Mega Issues) to our community and their impact on the LRSP.
- 3.06 Advocate for laws, rules, policies, procedures and resources needed to meet the high quality educational goals of our community.

#### **High School Transition Update & Discussion**

Superintendent Watson introduced this item and discussed the Transition Committee's work. He reminded the Board this is a Discussion item and they are not being asked to take action. Watson reviewed Best & Worst outcomes and summarized reasons why Boundary Options A, C & E were eliminated. Watson reviewed the High School Boundary Data Sheet presented the boundary map for each option.

Watson and Johnson answered Trustee's questions.

Public Comment was given by:

- Mary Hampton Stated she values the continuity of schools and suggested that who students go to school with is more important than creating a walking/biking area.
- Tara Preston Thanked Trustees for allowing Community members time to speak. Ms. Preston appreciates
  the walking and biking areas included in the Options, but does not like Option D because of the island it
  creates.
- Karen Hedglin Would like Trustees and Administration to think about the challenges we are giving to the students affected if the Transition Committee chooses Option D. Those students will attend a high school with a large percentage of seniors, construction and not a lot of familiar faces. Ms. Hedglin asked that the District look out for those kids.
- Peter Scott Presented research from Iowa State university on parent impact and ACT scores. Mr. Scott stated he feels there is a lot of academic disparity within the options the Transition Committee is considering. He would like to see an analysis by fractions so both schools are equal and requested the lines are redrawn to make this happen. Mr. Scott also requested an analysis of where Board and committee members reside to see if personal interest has taken over the process.
- Kendall Child Ms. Child expressed gratitude for the time and effort that has been given to this issue. She
  made a statement to parents that our children are resilient and parents underestimate how adaptable they
  are. Ms. Child suggested parents be positive and tell their children that this is a challenge and that they can
  do this. They will rise to the challenge.
- Lauren Dee Ms. Dee stated that she feels the statistics and data given to the Transition Committee is
  outdated and not a good predictor for the future. Kids thrive in safe, familiar environments and urged the
  Board not to split Elementary schools.
- Cheryl Eshbaugh Hawthorne has a large geography and expressed that continuity of community through
  middle school is important, as is keeping kids together. Ms. Eshbaugh stated the difference between the
  percentages of middle school students attending each school is too great and it should be more evenly split.
  She urged the Trustees to think of the human side; familiarity, safety & community and the potential damage
  of splitting the area.

Board of Trustees Meeting January 22, 2019

- Erika Cannon Ms. Cannon encouraged Administration to make sure the Transition Committee is aware
  they are splitting small groups apart. She feels if the committee knew they were splitting spall groups, they
  would not do it. For Hawthorne students, there will be approximately 20 students from their Elementary
  school attending the same high school. Ms. Cannon stated that splitting groups is traumatic and feels the
  Hawthorne community is not being heard. If the Transition Committee understands what it means to the
  kids, they will make a different choice.
- Crystal Stanionis Ms. Stanionis stated she doesn't want to argue for or against either option. Empathizes
  with the Hawthorne parents but understands there is no perfect boundary. Ms. Stanionis asked if we are
  striving for academics or keeping peer groups together? She stated with Option B, there was a substantial
  disparity between the two schools. Ms. Stanionis suggested the Committee review additional data, perhaps
  including some data from the OPI Gems website. Ms. Stanionis also requested that someone with a PHD in
  psychology speak about research that has been done in regards to splitting peers.

Trustees thanked Community Members for speaking.	
Meeting adjourned at 7:40p.m.

The Transition Committee started with five options and narrowed them down to Option B and Option D. At the meeting on January 23 the committee spend time discussing both Options and finally agreed on Option D (2 committee members voted sideways and one committee member thumbs down). Work continues on the design and District administration and its professional teams are confident changes will be made to bring the project within budget.

Members of the panel along with Director of Facilities Swinehart and Deputy Superintendent Operations Johnson answered Trustees questions.

Public Comment was given by Joe Duval. Mr. Duval is representing the 11<sup>th</sup> Street neighbors. He thanked Trustees and those involved in the process. Mr. Duval discussed the communication between the District and the neighborhood and wanted to make sure that would continue in the future. He stressed that the health and safety of the students is a priority. Duval asked Trustees what happens if parents do not use 15<sup>th</sup> Avenue and they continue to use 11<sup>th</sup> Avenue as a drop off. The District has a plan, but how can we make sure the plan works and parents use the plan?

Trustee Reinhardt moved the Board of Trustees approve the Design Development and that the District pursue the Sustainable Building Design Certification from the Collaborative for High Performance Schools for the renovation efforts at Bozeman High School. Trustee Lusin seconded the motion. Motion carried 8-0.

#### **Hawthorne School Board Report**

Hawthorne Principal Casey Bertram welcomed the Trustees and introduced the session. His presentation began with a review of the building's recent successes which include increasing student achievement and the integrated use of the PLC model, for which the school was recently recognized as a model PLC school.

Current year focuses include refining the MTSS Process, continuing to perfect systematic PLCs, and working with students through a trauma-informed lens. He provided more detail on the MTSS steps and the strategies the school uses to ensure all students' needs are met.

Mr. Bertram concluded the presentation with a discussion of the building's current challenges. Those challenges include fostering a sense of community, anticipating PLC issues in BEA negotiations this spring,

getting the most out of social emotional learning options, managing the need for increased mental health supports, being mindful of how adult issues impact student interactions, and managing competing priorities, especially regarding the building's art focus.

Following the presentation, the Trustees and staff visited various classrooms. The complete report will be on the February 11, 2019 consent agenda for approval.

#### ISSUE:

Shall the Board apply for an Anticipated Unusual Enrollment Increase as the basis for funding its 2019-20 High School General Fund Budget?

#### FACTS:

- 1. High School District enrollment has been increasing each year since 2003.
- 2. Districts expecting an enrollment increase exceeding the lesser or four percent or 40 students may apply for an Anticipated Unusual Enrollment Increase in accordance with 20-9-311 and 20-9-314, MCA.
- 3. Administration expects 9-12 enrollment to increase by 41 students by the October 1, 2019 enrollment count.
- 4. The increased ANB resulting from the enrollment increase in excess of four percent or forty students will drive the ensuing year (2019-20) budget.
- The increased ANB will result in additional High School General Fund spending authority. That spending authority will be financed through higher permissive local property taxes, higher voted levy authority, and additional state funding.
- 6. If a District applies for an Anticipated Unusual Enrollment Increase but the enrollment increase does not materialize, the District would lose the state funding resulting from the portion of the projected increase that did not materialize. Additionally, any overpayment in taxes resulting from an unmaterialized anticipated enrollment increase must be used to reduce the General Fund levy in the ensuing school year.

#### SUPERINTENDENT'S RECOMMENDATION:

It is recommended the Trustees apply for an Anticipated Unusual Enrollment Increase of 41 students grades 9-12.

#### OTHER ALTERNATIVES:

- 1. Apply for an Anticipated Unusual Enrollment Increase for a different enrollment count.
- 2. Do not apply for an Anticipated Unusual Enrollment Increase.

#### **DISCUSSION:**

School General Fund operating budgets are determined by applying legislatively-determined rates to a series of factors. Of these factors, enrollment is the single most important for determining school General Fund budgets.

SB175 from the 2013 legislative session granted additional funding to districts with enrollment increases exceeding the lesser of four percent or 40 students. Districts may either anticipate enrollment increases or wait for them to actually happen. Anticipating enrollment increase affords Districts access to higher spending authority, but involves some risk. Specifically, schools must repay state funding granted and reappropriate excess tax amounts received for any portion of the anticipated enrollment increase that does not materialize.

We estimate the Anticipated Unusual Enrollment Increase will generate an additional \$7,246 in spending authority for Bozeman High School. That amount is projected to be funded as follows:

Funding Source	Projected Increase Due to Anticipated Unusual Enrollment Increase
State Funding/Non-Levy Revenue	\$ 3,284
Permissive (i.e., unvoted) Local Property Tax Levy	\$ 2,481
Voted Local Property Tax Levy	\$ 1,481
Total Additional Spending Authority	\$ 7,246

## OFFICE OF PUBLIC INSTRUCTION STATE OF MONTANA

## PAA3 - APPLICATION FOR ADDITIONAL ANB

DISTRICT:

BOZEMM HIGH SCHOOL

LEGAL ENTITY:

0351

**COUNTY NAME:** 

GALLATIN

This form provides the Office of Public Instruction with the necessary information to approve additional Average Number Belonging (ANB) used for calculating BASE funding amounts. Applicable instructions and definitions follow.

#### **GENERAL INFORMATON**

Additional approved ANB is used in the funding formula to account for special circumstances.

#### WHO MUST RESPOND

All public elementary, high school and K-12 districts which request approval of additional ANB for funding purposes must submit this form to the Superintendent of Public Instruction. Section 20-9-313, MCA list the conditions when a district is eligible to apply for additional ANB.

#### **RETURN OF COPIES - DUE DATE**

School districts requesting additional ANB must submit this form to the county superintendent who will transmit a signed, certified original to the Superintendent of Public Instruction by June 1 for the specific requested circumstance.

#### **DEFINITIONS**

Average Number Belonging (ANB): A number which reflects the average school membership. ANB is used primarily for funding purposes. NOTE: ANB is calculated by determining the average adjusted enrollment on the first Monday in October and the first Monday in February, times the total pupil instruction (PI) and pupil instruction related (PIR) days divided by 180. Three-year average ANB is calculated by adding current year ANB and two prior years' ANB and dividing by three.

#### ISSUE:

Shall the Board apply for an Anticipated Unusual Enrollment Increase as the basis for funding its 2019-20 Elementary General Fund Budget?

#### FACTS:

- 1. Elementary District enrollment has been increasing each year since 2003.
- 2. Districts expecting an enrollment increase exceeding the lesser or four percent or 40 students may apply for an Anticipated Unusual Enrollment Increase in accordance with 20-9-311 and 20-9-314, MCA.
- 3. Administration expects K-8 enrollment to increase by 108 students by the October 1, 2019 enrollment count.
- 4. The increased ANB resulting from the enrollment increase in excess of four percent or forty students will drive the ensuing year (2019-20) budget.
- 5. The increased ANB will result in additional Elementary General Fund spending authority. That spending authority will be financed through higher permissive local property taxes, higher voted levy authority, and additional state funding.
- 6. If a District applies for an Anticipated Unusual Enrollment Increase but the enrollment increase does not materialize, the District would lose the state funding resulting from the portion of the projected increase that did not materialize. Additionally, any overpayment in taxes resulting from an unmaterialized anticipated enrollment increase must be used to reduce the General Fund levy in the ensuing school year.

#### SUPERINTENDENT'S RECOMMENDATION:

It is recommended the Trustees apply for an Anticipated Unusual Enrollment Increase of 108 student's grades K-8.

#### OTHER ALTERNATIVES:

- 1. Apply for an Anticipated Unusual Enrollment Increase for a different enrollment count.
- 2. Do not apply for an Anticipated Unusual Enrollment Increase.

#### DISCUSSION:

School General Fund operating budgets are determined by applying legislatively-determined rates to a series of factors. Of these factors, enrollment is the single most important for determining school General Fund budgets.

SB175 from the 2013 legislative session granted additional funding to districts with enrollment increases exceeding the lesser of four percent or 40 students. Districts may either anticipate enrollment increases or wait for them to actually happen. Anticipating enrollment increase affords Districts access to higher spending authority, but involves some risk. Specifically, schools must repay state funding granted and reappropriate excess tax amounts received for any portion of the anticipated enrollment increase that does not materialize.

We estimate the Anticipated Unusual Enrollment Increase will generate an additional \$243,781 in spending authority for Bozeman Elementary. That amount is projected to be funded as follows:

Funding Source	Projected Increase Due to Anticipated Unusual
	Enrollment Increase
State Funding/Non-Levy Revenue	\$ 146,297
Permissive (i.e., unvoted) Local Property Tax Levy	\$ 47,497
Voted Local Property Tax Levy	\$ 49,987
Total Additional Spending Authority	\$ 243,781
