

ENGINEERING DISTINCTION

...acknowledges graduating seniors that complete a course of study emphasizing an **engineering focus**.

To apply for Engineering Distinction, students must meet the following requirements:

COURSES

Successful completion of all of the following:

- **2** credits Career and Technical Education courses taken in Computer Science, Technical Education, or Drafting/CAD
- **4** credits of math
- **4** credits of science including IB Physics I

CUMULATIVE GPA 3.2 or higher

FLATHEAD
High School

COMMUNITY

Contribute to the Engineering Community by participating in **1** or a combination of the following:

- **Science club** including two science fairs or club presentations
- **Business Professionals of America** competing in two state competitions in computer related events
- Three state **Math competitions** with achievement beyond participation
- **Engineering related internship** with a minimum of 30 documented hours (*see Mrs. Johnson in Room 234 for the proper documentation form*)

Interested students will need to submit an application to Mrs. Johnson in room 234, including a transcript and community documentation, which shows the student has met the requirements.

See any business, math, or science teacher for more information!

Students earning this distinction are eligible to wear a **navy blue color cord** at graduation.
