### Advancing Our School Mission

As Principal of Immaculata Catholic School, I am thrilled and inspired by our record year of fundraising support that has helped to propel our school forward.

Through your generous contributions, we've improved our STEM program by adding labs, technology tools, and programming to become the **FIRST middle school program in North Carolina to be AdvancED STEM Certified!** Your donations have also helped welcome students whose families would not otherwise be able to afford tuition, expand our music program by purchasing new instruments and music stands, enhance our athletics, PE, and Field Day experiences, as well as maintain and improve campus facilities.

As we continue to move forward with your support this school year, we hope to add even more community outreach projects for students and professional development opportunities for faculty and staff. I'm excited to see what new items will be posted on this board in next year's report. If there is something specific you'd like to see pinned up, please contact our Director of Advancement, Robyn Soffera, to learn how you can be a part of our efforts. Thank you!

God Bless,

Book Nook in 3B

Dear Robyn,

Enclosed is our donation towards the classroom Reading Nooks. We love the idea and are happy to be able to be a part of this. Thank you for allowing those of us who are separated from our grandchildren by distance, to be involved in their lives in a special way.

We have learned throughout our many years of life, that giving is not only a blessing to the receiver but an extra special blessing to the giver. Thank you for keeping us informed of needs and the many activities going on at ICS. It is a blessing to us to be able to give back to God, a small portion of what He has so abundantly given to us.

Blessings to you and all of the ICS family,  
Mike & Patti Holloway
