Building Update

- Brief history of the design work
 - 165 building, gym facility, classrooms, parking, full landscaping
 - attempt to create phases of original project
 - ~ \$22M
 - Combination building of gym and 5 science labs
 - ~ \$18M
- We have determined that:
 - During Phase 1, we can't have both academic AND gym space

We have 3 choices:

1. Focus on an Academic stand alone building
2. Focus on a stand alone gym
3. (Add more money to the project - from reserve)

We are looking for a “direction” for the Design Team

My recommendation is to focus on a stand alone academic building.
