Referral Services

R2417 Pupil Intervention and Referral Services

The Mount Olive Township School District, by and through its Superintendent and program stakeholders, has developed a Response to Intervention ("RTI") Plan, which sets forth the manner by which Policy 2417 shall be implemented. The RTI Plan addresses student support systems and intervention and referral services for students.

Accordingly, Policy 2417 is operationalized via the Board of Education-approved RTI Manual found on the district website, available for review at:
