Product Formulation Statement (PFS) for Documenting Vegetables and Fruits

School Food Authorities (SFAs) should include a copy of the label from the purchased product package in addition to the following information on letterhead signed by an official company representative. Specific vegetable subgroups must be offered weekly and fruit must be served daily for the National School Lunch Program. For more detailed information on meal pattern requirements see the Nutrition Standards for School Meals Website at <http://www.fns.usda.gov/cnd/Governance/Legislation/nutritionstandards.htm>.

Product Name: 200 mL Orange Tangerine

Code: 84523 / 84523TPFA

Manufacturer: APPLE & EVE

Serving Size: 6.75 oz

I. Vegetable Component

Please fill out the chart below to determine the creditable amount of vegetables.

Description of Creditable Ingredient per Food Buying Guide (FBG)	Vegetable Subgroup	Ounces per Raw Portion of Creditable Ingredient	Multiply	FBG Yield/ Purchase Unit	Creditable Amount ¹ (quarter cups)	
			X			
			X			
			X			
			X			
Total Creditable Vegetable Amount:						
<ul style="list-style-type: none"> ¹FBG calculations for vegetables are in quarter cups. See chart on following page for quarter cup to cup conversions. Vegetables and vegetable purees credit on volume served. Tomato paste and puree will continue to credit as a calculated volume based on the yields in the FBG. At least 1/8 cup of recognizable vegetable is required to contribute towards the vegetable component or a specific vegetable subgroup. The other vegetable subgroup may be met with any additional amounts from the dark green, red/orange, and beans/peas (legumes) vegetable subgroups. School food authorities may offer any vegetable subgroup to meet the total weekly requirement for the additional vegetable subgroup. Please note that raw leafy green vegetables credit as half the volume served in school meals (For example: 1 cup raw spinach credits as 1/2 cup dark green vegetable. Legumes may credit towards the vegetable component or the meat alternate component, but not as both in the same meal. The school menu planner will decide how to incorporate legumes into the school meal. However, a manufacturer should provide documentation to show how legumes contribute towards the vegetable component and the meat alternate component. See chart on the following page for conversion factors The PFS for meat/meat alternate may be used to document how legumes contribute towards the meat alternate component. 					Total Cups Beans/Peas (Legumes)	
					Total Cups Dark Green	
					Total Cups Red/Orange	
					Total Cups Starchy	
					Total Cups Other	

I certify the above information is true and correct and that _____ ounce serving of the above product contains _____ cup(s) of _____ vegetables.
(vegetable subgroup)

II. Fruit Component

Please fill out the chart below to determine the creditable amount of fruits.

Description of Creditable Ingredient per Food Buying Guide (FBG)	Ounces per Raw Portion of Creditable Ingredient	Multiply	FBG Yield/ Purchase Unit	Creditable Amount ¹ (quarter cups)
Apple Juice	5.065	X		2.53
Pear Juice	0.319	X		0.16
Orange Juice	1.08	X		0.54
Passionfruit Juice	0.06	X		0.03
Tangerine Juice	0.22	X		0.11
		X		
Total Creditable Fruit Amount:				3.37
<ul style="list-style-type: none"> ¹ FBG calculations for fruits are in quarter cups. See chart below for quarter cup to cup conversions. Fruits and fruit purees credit on volume served. At least ½ cup of recognizable fruit is required to contribute towards the fruit component. Please note that dried fruits credit as double the volume served in school meals (For example, ½ cup raisins credits as 1 cup fruit). 				

I certify the above information is true and correct and that 6.75 ounce serving of the above product contains 3/4 cup(s) of fruit.

Quarter Cup to Cup Conversions*

0.5 Quarter Cups = ½ Cup vegetable/fruit or 0.5 ounces of equivalent meat alternate

1.0 Quarter Cups = ¼ Cup vegetable/fruit or 1.0 ounce of equivalent meat alternate

1.5 Quarter Cups = ¾ Cup vegetable/fruit or 1.5 ounces of equivalent meat alternate

2.0 Quarter Cups = ½ Cup vegetable/fruit or 2.0 ounces of equivalent meat alternate

2.5 Quarter Cups = ⅝ Cup vegetable/fruit or 2.5 ounces of equivalent meat alternate

3.0 Quarter Cups = ¾ Cup vegetable/fruit or 3.0 ounces of equivalent meat alternate

3.5 Quarter Cups = ⅞ Cup vegetable/fruit or 3.5 ounces of equivalent meat alternate

4.0 Quarter Cups = 1 Cup vegetable/fruit or 4.0 ounces of equivalent meat alternate

*The result of 0.9999 equals ⅞ cup but a result of 1.0 equals 1 cup

Dear Valued Customer:

The Buy American provision of the National School Lunch Program requires school food authorities (SFAs) to purchase, to the maximum extent practicable, “domestic commodity or product.” A “domestic commodity or product” is either: (1) an agricultural commodity produced in the U.S; or (2) a food product processed in the U.S. using “substantial” (i.e. over 51%) agricultural commodities that are produced in the U.S.

There are exceptions to the Buy American provision which allow for purchases of products not meeting the “domestic” standard described above, including when “the product is not produced or manufactured in the U.S. in sufficient and reasonable available quantities of a satisfactory quality.”

Apple & Eve juice products comply with the Buy American provision pursuant to this exception including, but not limited to:

- 100% Juice / 4.23 fl oz (125mL): Apple Juice, Fruit Punch, Orange Tangerine, White Grape, Mixed Berry, Cranberry Raspberry, and Strawberry Kiwi
- Fruitables Plus 6.75 fl oz (200mL) and 4.23 fl oz (125mL): Brilliant Burst, Tropical Twist, Power Punch, and Gold Rush
- 100% Juice / 6.75 fl oz (200mL): Apple Juice, Fruit Punch, Orange Tangerine, Very Berry, Cranberry Raspberry, Cranberry, Grape, White Grape Raspberry and Strawberry Kiwi
- Switch 100% Juice / 8 fl oz (240mL): Black Cherry, Orange Tangerine, Hardcore Apple, Watermelon Strawberry, Fruit Punch, Concord Grape, Kiwi Berry, and Tropical Pineapple
- Switch Smoothies / 8 fl oz (240mL): Strawberry Banana, Mango

All Apple & Eve juice products are manufactured in the United States; however, less than 51% of the agricultural commodities used in those juices are produced in the United States. Apple & Eve uses apple juice concentrate as the main ingredient in our juice products. Most U.S. apple supply is used to produce food, not juice concentrate. The U.S. juice category is so large and the demand for concentrate so high that Apple & Eve (along with most other juice manufacturers) is not able to source all of its concentrate needs domestically or produce sufficient quantities of product containing substantial U.S. ingredients.

If you have any additional questions or concerns, please feel free to reach me at the contact information below.

Sincerely,

Bill Harrison (mh)
