

BCS Elementary Summer Math Packet

Fifth Grade for 2022-2023

This is your child's summer math packet. The material contained in this packet is a review from fourth grade. Feel free to assist if your child needs help. The student should show his/her work on the pages given; however, if he/she needs more room, feel free to attach extra pages. The math packet is due on the first day of school, Tuesday, August 9. It will count as a daily grade.

Please practice addition and subtraction families (0-18) along with the multiplication and division facts (0-12). Basic addition and subtraction facts as well as multiplication facts (0-12) should be memorized before entering 5th grade.

We will have a timed multiplication task of 100 problems in 5 minutes as done in 4th grade. This will be a daily grade. We will practice for the first two weeks before the grade is taken.

Thank you,
Fifth Grade Teachers
