APPENDIX A:	Instructions to Bidders
APPENDIX B:	Definitions
APPENDIX C:	General Conditions
APPENDIX D:	Specifications and General Information
APPENDIX E:	Form of Contract
APPENDIX F:	Certificate of Non-Collusion
APPENDIX G:	Form of Bid

These Bid Documents and all related appendices, attachments, bid forms, compliance forms, addenda and the Bidder's completed Form of Bid and supporting submissions are an integral part of the Bidder's bid proposal and contract for services. The Bidder offers to furnish school bus transportation services to the Westport Community Schools in accordance with all provisions incorporated herein.

Submission of a Bid shall be conclusive evidence that the Bidder has examined this Invitation for Bids and is familiar with all the conditions of the proposed Contract. Upon finding any omissions or discrepancy in this Invitation for Bids, each Bidder shall notify the Westport Community Schools immediately so that any necessary addenda may be issued. Failure of a Bidder to investigate completely the Invitation for Bids and/or to be thoroughly familiar with this Invitation for Bids shall in no way relieve any such Bidder from any obligation with respect to the Bid.

Changes, modifications or withdrawal of Bids shall be submitted in writing to the Westport Community Schools prior to the deadline for submission of bids and shall be contained in a sealed envelope clearly marked "CORRECTION, MODIFICATION OR WITHDRAWAL OF SEALED BID FOR STUDENT TRANSPORTATION SERVICES PROCUREMENT." No corrections, modifications, or withdrawal of Bids shall be permitted after Bids have been opened.

Bid opening will occur at this same location at 1:00 P.M., EST, on Tuesday, June 07, 2022. In the event of inclement weather where the school day is officially shortened or cancelled by the Superintendent, the bid opening will occur at 1:00 P.M., EST, on the next full day of school. All documents, after opening, will be available for examination at the office of the Superintendent of Schools, Westport Community Schools Central Administration Offices, 17 Main Road, Westport, MA.

A recommendation for award will be made by the Superintendent or his/her designee to the Westport School Committee and award shall take place at a meeting of the Committee not more than thirty (30) calendar days following the date of the Bid opening. In the event of inclement weather where a Committee meeting shall be cancelled, the Committee shall have an extension beyond thirty (30) calendar days and until the next regularly-scheduled meeting to award the contract.

In determining responsiveness and responsibility, the Westport Community Schools reserves the right to consider experience, service, and reputation in the student transportation field, particularly within the Commonwealth of Massachusetts, as well as the financial responsibility and specific qualifications set out herein of the prospective bidder.

The Westport School Committee is the Awarding Authority. One (1) Contract will be awarded, if at all, to the lowest responsible and responsive Bidder who offers the best price to provide the regular education transportation services as outlined in this invitation for Bids for the one (1)-year intended contract period.

The Westport School Committee reserves the right to reject any and all Bids which it deems not responsive to this Invitation for Bids.

To determine the lowest responsible and responsive Bid, the total expected cost of the contract, from July 1, 2022 to June 30, 2023, will be calculated using the per bus/per day unit prices of each Bidder, applied to the number of routes and school days stated in the specifications. Costs of transportation will remain the same for the second year of the contract if the Westport School Committee exercises its option to extend the contract for one additional year. Bidders are asked to provide prices that will remain the same for the original one year term as well as the option year. Costs for the option year of the Contract are not competitive and do not play any role in determining the lowest qualified Bidder. Fuel costs adjustments will be calculated per the fuel cost adjustment clause.

The numbers submitted by the Bidder on Appendix G, Form of Bid, of this document will be the numbers used to calculate the lowest price. The Westport School Committee will award a Contract, if at all, to the lowest responsive and responsible Bidder overall. The criteria for this determination are specified in the Invitation for Bids. The award of this Contract and the continued operation of the Contract are contingent upon annual appropriation of sufficient funds therefor by Westport Town Meeting. Nothing herein, however, shall compel the Westport School Committee to award a Contract pursuant to this Invitation for Bids. Nothing in this Invitation for Bids will preclude the Westport Community Schools from using its own vehicles or those under its control for transportation purposes.

The Westport School Committee may cancel this Invitation for Bids, may waive, to the extent allowed by law, any informalities, and may reject any and all Bids, if the Westport School Committee, in its sole discretion, determines said action to be in the best interest of the Westport Community Schools.

Failure to comply with any of the conditions and specifications of this Invitation for Bids and any subsequent contract will subject the contract to cancellation forthwith upon written notice by the Westport School Committee. In event of cancellation of the Contract for transportation services, the Successful Bidder will be responsible for indemnifying the Town of Westport, the Westport Community Schools, and the Westport School Committee for costs incurred in obtaining a new contract for bus transportation service for the duration of the term of the original contract and the option year, notwithstanding whether or not the Westport School Committee should require a performance guarantee.

The Westport School Committee and the Westport Community Schools do not discriminate against or exclude any person from participation herein on grounds of race, color, religious creed, national origin, gender, sexual orientation (which shall not include persons whose sexual orientation involves minor children as the sex object), age, genetic information, ancestry, children, marital status, veteran status or membership in the armed services, the receiving of public assistance, and handicap. ## **General Conditions (Continued)**

### **1.10 Bid Costs**

The Westport Community Schools shall not be liable for any cost incurred by the Contractor in the preparation or delivery of its response to this Invitation for Bids or any other costs incurred because of this Invitation for Bids.

### **1.11 Awarding Procedures**

Bids will be taken under advisement after the opening. Bids will be reviewed for completeness and compliance with the specifications listed herein. The Superintendent or his/her designee will make a determination as to whether the Bid is complete and the Bidder is qualified. Any Bid which is incomplete or not in compliance with the specifications listed herein, including but not limited to those qualifications listed as Qualifications of Bidders on page 13, will be considered not qualified.

To determine the lowest qualified Bid, the total expected cost of the contract, from July 1, 2022 to June 30, 2023, will be calculated using the per bus/per day unit prices of each Bidder, applied to the number of routes and school days stated in the specifications. Fuel costs adjustments will be calculated per the fuel cost adjustment clause on page 33.

The numbers submitted by the Bidder on Form of Bid on page 2 of the Bid Form (shown on page 55 of this document) will be the numbers used to calculate the lowest price. The Westport School Committee will award the contract to the lowest responsive and responsible Bidder overall.

In the event that the Westport Community Schools receives tied Bids, where two (2) or more Bidders provide the same lowest price, the School Committee will use a fair, objective method to break the tie. The Westport Community Schools will notify the tied Bidders by telephone, who will have two (2) business days from the time the last Bidder is notified, to submit a second Form of Bid. An opening of the second Form of Bid will be scheduled and the time and date conveyed to the Bidders. A contract will be awarded by the Westport School Committee, if at all, to the lowest responsive and responsible Bidder, based on the second Form of Bid.

As suggested by the Office of the Inspector General of the Commonwealth of Massachusetts, in the event that the Westport Community Schools still receives tied Bids, a coin will be tossed in the presence of all Bidders as well as the Superintendent or his/her designee and two (2) or more members of the School Committee, including the Committee chairperson. This is considered an open and impartial measure to break tie. The eventual winner of the coin toss will be considered the lowest Bidder.

A recommendation for award will be made to the Westport School Committee and award shall take place at a meeting of the Westport School Committee not more than thirty (30) calendar days following the date of the Bid opening. By mutual agreement with the lowest bidder, the time for award may be extended by up to 30 days. The Westport School Committee will award the contract to the lowest responsive and responsible Bidder as determined by the formula set forth above, using the information provided by each Bidder on the Form of Bid on page 2 thereof.

The Westport School Committee reserves the right to waive any informalities in any or in all Bids and to reject any and all Bids if deemed to be in their best interests to do so. In determining responsibility, consideration will be given to price, experience, references, and ability to meet the specifications as presented. The Committee reserves the right to reject any and all Bids, or to accept any quotation, which, in the opinion of the Committee, is in the best interest of the Westport Community Schools.

**General Conditions (Continued)**

Bids will remain firm for a period of ninety (90) days following the date of the opening, and shall thereafter remain firm until the Bidder provides written notice to the Westport Community Schools that the Bid has been withdrawn.

**APPENDIX D**  
**SPECIFICATIONS AND GENERAL INFORMATION**

**2.0      Scope**

The Westport Community Schools currently transports approximately one thousand seven hundred (1,700) students to four schools within the Town of Westport in fifteen (15) regular buses.

The requirements on the Successful Bidder incorporated in these specifications are designed to provide for the continuation of quality school bus service for the transportation of students in the District for the 2022-2023 school year and, if the applicable option is exercised by the Westport Community Schools, for the 2023-2024 school year. The current transportation routes of the District can be found in Attachment "A" annexed to these specifications. Mileage figures listed in Attachment "A" are approximate; the Westport Community Schools assumes no responsibility for the precise measure of mileage figures or for errors resulting from their use; the bidder is responsible to verify mileage estimates. Mileage required to provide the transportation services under the Contract is subject to change from that listed in Attachment "A" as transportation requirements change. The Westport Community Schools reserves the right to add or subtract bus routes at its sole discretion. The Successful Bidder shall assist the Superintendent in the determination of actual routes, distances and number of stops taking into account the school locations and hours of classes, the space available, bus capacity, time schedules and other factors identified by the Superintendent. The Superintendent or a designee will determine specific arrival and departure times. During the first weeks of school each year, bus loads and routes will be reviewed and changes may be made at that or at any time during the school year as the need arises. Such changes shall not affect the Contract price except in the event that routes are added or deleted as described hereafter.

Should the Westport Community Schools determine that the addition of a route to this contract is necessary to safely transport all District students as required by policy and/or state law regulation, the cost of such addition will be calculated by the following formula:

- Average cost/per day/per bus ÷ average miles traveled for all current routes = cost per mile/per bus/per day.
- Cost of additional route = cost per mile/per bus/per day x number of miles in new route x number of days remaining in the student school year.

Should the Westport Community Schools determine that the deletion of a route from the existing set of current routes would still allow the Successful Bidder to safely transport all District students as required by policy and/or state law regulations, the Westport Community Schools will reduce its payment for transportation based on the following formula:

- Average cost/per day/per bus ÷ average miles traveled for all current routes = cost per mile/per bus/per day.
- Reduction of cost for route deletion = cost per mile/per bus/per day x number of miles not traveled due to the reduction x number of days remaining in the student school year. The current routes shall be the basic measure for the purposes of the bid.

Each Bidder shall fully inform himself as to the conditions relative to the fulfillment of the contract. The Successful Bidder agrees to provide, at the sole expense of the Successful Bidder, all and complete student transportation for the general purposes of the Westport Community Schools including, but not limited to all services expressly or impliedly required herein, all buses, materials, supplies, machinery, tools, other equipment, insurance, superintendence, labor, bus drivers, Terminal Managers, support

personnel and other accessories and services incidental theretowhich may be necessary to perform and complete the duties and obligations of the Successful Bidder contained in the Bid documents, including without limitation, the Conditions and Specifications of this Bid.

The Superintendent or his/her designee reserves the right to change the minimum number of buses required in each year of the contract if an increase or decrease in bus usage dictates such a change, or a change is needed to meet safety regulations relative to the laws of Massachusetts regarding school bus transportation, or the use of pupil transportation routing software indicates that a reduction or increase in the number of routes is possible/needed in order to increase efficiency in this contract or is needed to meet changes in state law or regulations. No doubling up of routes shall be allowed either because of bus or driver shortage. If a change is made in the number of buses required to perform the contract obligations, the contract price shall be adjusted in accordance with the per bus price stated in the Successful Bidder's Bid, and the calculations indicated in this section.

### **2.1 Vehicles**

It shall be the Successful Bidder's legal and financial responsibility to see that all vehicles and equipment, and operation of the same, shall conform to all requirements of the laws of the United States and the Commonwealth of Massachusetts and the regulations of the Department of Transportation and amendments thereto, and/or any other federal or state agency having jurisdiction, in such cases made and provided, or which shall be made during the term of this contract. If and when the Westport School Committee establishes requirements that exceed any of those mentioned herein, it shall be the Successful Bidder's responsibility to honor any and all such requirements.

The Successful Bidder shall agree to keep each vehicle clean, in good appearance and in good working condition and to furnish at Successful Bidder's expense all necessary fuel, oil, grease, tires, maintenance, and repairs throughout the entire period of the contract. The Successful Bidder shall submit, as part of the Bid, a plan for maintenance of buses and where that maintenance will be performed.

The Successful Bidder shall procure and maintain all applicable permits, licenses, and approvals necessary for the performance of services under this contract at Successful Bidder's expense. The School Committee, or its designee, reserves the right to inspect any or all vehicles at any reasonable time(s). At any time during the term of this contract, all major components (body, chassis, or engine) or vehicles used in the transportation of students and/or authorized personnel shall not be more than **▶▶ three (3) years old ◀◀** and shall not have accumulated odometer mileage in excess of sixty thousand (60,000) miles.

Further, after accumulated mileage has reached sixty thousand (60,000) miles for any vehicle, or in the event that any vehicle fails two consecutive Registry of Motor Vehicles inspections, such vehicle shall not be used to fulfill the obligations of these contracts and such vehicle shall immediately be replaced by a vehicle which fully conforms to all specifications. The Westport Community Schools has determined that the vehicle requirements for this contract will consist of the following:

Should transportation services be required for more days, the Successful Bidder shall be responsible for furnishing transportation to schools and locations as required by the District. Payable mileage for regular runs shall be when assigned pupils are riding the bus on established routes. No compensation shall be paid hereunder for so-called "dead head mileage", i.e., a bus traveling without assigned pupils.

Buses assigned by contract to the Westport Community Schools will not be used for the transportation of any students or passengers other than those associated with the Westport Community Schools without the prior written consent of the Westport Community Schools.

After first providing notice to, and consulting with the Successful Bidder, the Westport Community Schools may utilize transportation services provided by collaboratives or other school districts. Upon the failure of the Successful Bidder to provide the necessary number of buses for transportation, the Westport Community Schools reserves the right to utilize the buses from other sources and to require an adjustment to the Contract Price to reflect such use.

## **2.2 Schedule Variations**

The service contracted on regular routes is mutually understood to be contingent on the time schedules set forth in the regular route specifications with no more than a 1 hour ride time for students. The Successful Bidder shall also provide early dismissals and delayed starts when required at no additional charge to the Westport Community Schools. The school hours will be established by the Westport School Committee. The time schedule shall be worked out so as to assure arrival of pupils at times directed by the Superintendent. Contract prices shall not be modified and no additional charges shall be imposed or paid based on any schedule variations and changes made at the option of the District. The Successful Bidder shall not be entitled to payment for services not actually performed, including but not limited to scheduled bus routes which the Successful Bidder fails to complete on any given day.

### **2.3 Prevailing Wage**

Westport's population does not exceed 16,000, therefore the Westport Community Schools does not fall under the provisions of Massachusetts General Laws, Chapter 71, Section 7A.

### **2.4 Monitors**

Westport Community Schools reserves the right to place their own bus monitors on buses at anytime.

The Successful Bidder agrees not to allow any person to drive a school bus whose conduct might in any way expose any child to any impropriety of word or conduct whatsoever. Nor shall the Successful Bidder allow any person to drive a school bus who is not physically and/or emotionally capable of performing the essential functions of their job.

The responsibility for hiring and discharging personnel with respect to all obligations arising from the Contract shall rest entirely upon the Successful Bidder, subject to the right of the Superintendent to approve all bus drivers, and the Successful Bidder agrees not to enter into any agreement or arrangement with any employee, person, group, or organization which will in any way interfere with the ability to comply with this requirement, except as otherwise required or permitted by law. The Successful Bidder further agrees that the Superintendent or his/her designee reserves the right to withhold and/or withdraw at any time its approval of any driver if, in their sole opinion, these standards have not been met and in such event the Successful Bidder shall furnish another bus driver satisfactory to the School Committee. It is agreed that all drivers serve at the pleasure of the Westport Community Schools. Without limitation of such discretion, dismissal may be made for any of the following reasons: temperament, personality, judgment, neatness in appearance, failure to maintain pupil control, check passes, observe and comply with safety regulations, careful operation of any motor vehicle, driving record, and courtesy.

Bus drivers are expected to operate on schedule. The first pick-up on each run should be at the same time each day and subsequent stops should be in keeping with a strict time schedule.

### **2.14 Fuel Adjustment Clause**

Prices are subject to adjustment Transportation Fuel Index (TFI) for New England. The Contractor, however, shall continue to be paid the original contract sum, notwithstanding any such monthly adjustment, for each month until the final month of the contract. If the price of fuel is over the base price, the total cost increase will be added and paid in the fuel adjustment unit payment (if needed, no later than August 31 of each school year covered by a contract). If the price of fuel is less than the base price, total difference will be subtracted from the last monthly payment of each school year covered by a contract.

The basis of the fuel adjustment computation will be the average monthly price for fuel paid during each school month plus state taxes based on the Transportation Fuel Index (TFI) for New England as reported by the Transportation Fuel Index (TFI) plus the current diesel fuel state taxes. This shall be the base price for the purpose to determine the fuel adjustment calculation.

Average MPG = number of gallons used. Number of gallons used x monthly price  
increase/decrease = monthly adjustment.
