

Minor injuries due to accidents occur on a daily basis at all of our schools. You can be assured that appropriate care will be given to your child. Parents will be notified of any injuries as the case warrants.

If your child has been injured at home please seek the appropriate medical attention. Do not send your child to school to see the nurse for an injury sustained at home. We are not equipped to diagnose or treat all injuries. If we feel your child's injury needs immediate medical attention we will contact you to come and get your child.
