_____

**Please Continue on Reverse Side

I understand that in order to provide the safest possible environment and most complete educational program for my child, the school needs to be informed of any health or medical conditions that may affect my child's school day or impact their learning.

I understand that for the safety of my student, or to provide for their educational achievement, the school nurse may need to share information about my child with the appropriate school staff and/or associated agencies. Under the regulations of FERPA (Family Education Rights and Privacy Act of 1974), this information shall be shared in confidential manner only as necessary. If I do not want information shared, I must request this in writing and file this request with the school nurse.

In order for a child to receive over the counter medication (such as Tylenol, Motrin), the parent/guardian will be contacted for permission to administer. Prescription medications, including inhalers and EpiPens, require completion of GCLS Authorization to Administer form by your physician and specific procedure for administering medication at school. Please ask for appropriate forms if needed.

This written validation will be in effect until otherwise noted or changed.
