

The SWMHS Academy
for Future careers in
Education!

FACT

Foundations of Academic and Community Training in Education

See your school counselor
for more information!

The SWMHS Academy for future careers in education provides a focused course sequence that appeals to students who are interested in exploring a future in education. Coursework meets NJDOE graduation requirements while providing content and experiential learning related to child development and education. Students apply for the FACT during their freshman year and the program culminates with participation in Tomorrow's Teachers in junior and senior year.
