

**Gateway Regional School District
Financial Report
Through Month Ending 9/30/19**

The purpose of this report is to highlight the status of the FY '20 budget as of the end of September. This report is intended to provide brief explanations of accounts that are anticipated to have a large surplus or deficit balance at the end of the year. This report will be distributed to the school committee and posted on the Gateway website in an effort to keep everyone up to date on the financial condition of the Gateway School District.

<u>Revenue Item</u>	<u>Budget</u>	<u>Actual or Estimated</u>	<u>Difference</u>
Chapter 70	5,658,699	5,658,699	0
Town Assessments	9,495,609	9,495,609	0
Worthington Obligations	77,108	77,108	0
Interest Income	10,230	9,036	(1,194)
Medicaid Receipts	124,447	124,447	0
Excess & Deficiency	421,000	421,000	0
Bond Premium Money	5,377	5,377	0
Charter Tuition Reimbursement	4,319	20,390	16,071
Transportation Reimbursement	611,600	618,000	6,400
Miscellaneous	4,000	8,000	4,000

At this point in time it looks as though most revenue accounts will be at the budgeted amounts. Depending upon the December adjustment payment, charter school tuition reimbursement may be higher than the cherry sheet estimates. Regional transportation reimbursement will also depend on the total cost of transportation for all regional schools, which drives the total percentage reimbursement. The district would need to use the transportation reimbursement fund to make up any differences in regional transportation reimbursement, if reimbursement comes in lower than budgeted. Excess transportation reimbursement will be deposited into the transportation reimbursement fund to offset future transportation budget.

ADMINISTRATION/SCHOOL COMMITTEE

Accounts in this fund are running as expected. Legal cost expenditures always depend on issues that arise throughout the year.

INSTRUCTION

Most instructional accounts are also running as expected at this time. Staffing changes, changes in placement of paraprofessionals, etc. are flexible throughout the school year. Therefore, there is a very good possibility that account transfers will be necessary throughout the year as the needs of the students are met. If staff members who indicated that they would be receiving a degree change have not met all requirements, there could be a small balance in some of the teaching accounts. Additionally, any staff that have unpaid days will result in balances in staffing line items as well. Substitute account spending varies throughout the year depending on coverage needs.

OTHER SCHOOL SERVICES

The regional transportation should be underexpended due to the reduction of the use of any blizzard bag days. Homeless transportation varies depending on the needs that arise during the school year. At this point, it appears that Title I funding will not fully fund homeless transportation, and this account will be overexpended. Special education transportation should be underexpended due to some in-district transportation shifting.

MAINTENANCE/OPERATIONS

Accounts in this category are running as expected at this time. Internet Service could possibly be underexpended depending on the timeframe of the E-Rate reimbursement. Electricity accounts may be underexpended depending on the end result of net metering credits.

FIXED COSTS

At this time all accounts are running as expected. Active employee health insurance varies depending on open enrollment toward the end of the year as well as any premium increases. There could be a balance in the Employee Separation Costs account if all employees that indicated that they were intending on retiring do not retire at the end of the year.

ACQUISITION, IMPROVEMENT AND REPLACEMENT OF FIXED ASSETS

Both accounts are running as expected and should through the entire year.

CAPITAL COSTS

All accounts are running as expected and should through the entire year.

PROGRAMS WITH OTHER SCHOOLS

The school choice and charter school accounts vary depending on the number of students opting for each. Any adjustments are made from the state midyear and then again in the spring.

SUMMARY

As of the first quarter report, the FY '20 budget status is positive.
