

Davis Education Foundation Donation Items List

Essentials for Students in Need & Teen Center Supplies

A large number of at-risk students in Davis School District lack access to essential hygiene items. Your donations are distributed to schools throughout the district as needed. We thank you in advance for your generosity to help our most vulnerable population of children.

Teen Centers: There are more than 1,200 children in Davis County who experience homelessness. Davis Education Foundation repurposed an existing space on the campus at Clearfield High School that provides students in need with a safe place to shower, do laundry, and study as part of their class schedule. The center is now operational and serves 50-60 students each day. Additional centers are being built at Northridge, Woods Cross, Layton, Mountain High, Renaissance Academy, Syracuse, and Viewmont. Your donations will help to fill these centers with basic essentials.
