

# Bring Your Own Device Policy

## WHAT YOU NEED TO KNOW

### About Bring Your Own Device

Pupils are required to use their device in the classroom for various tasks, research and assignments. It is therefore important that you use a device that is suited to you.

In order to bring and use your own device at Culford School, it must meet the minimum hardware and software requirements detailed over the page.

To ensure our IT network is secure, safe and efficient for everybody to use, all guest devices are scanned by our system to ensure they are compliant with the School's policy. If your device does not meet the specified requirements, it will not be permitted to join the Culford IT network.

It is essential that the specified requirements are met in order to use the device effectively in and out of the classroom at Culford School.

If you experience any problems connecting to the Culford network, please contact the IT Services Department for assistance and they will be pleased to help you.

### Software Not Permitted

**Peer-to-Peer software of any kind is strictly prohibited whilst connected to the Culford network. Any device running this software, or attempting to download torrent files, will be banned from the system until the software is removed.**

### General Recommendations

#### We Recommend The Following:

- A device using a conventional full British hardware keyboard for ease of use during lessons
- A screen size between 12"-15"
- A suitable weather proof protective case or sleeve
- Manufacturer's warranty
- Accidental damage insurance cover
- A suitable means of backup, either cloud or USB based, in case your device breaks down

#### Pupils Should Be Familiar With Their Device and Be Able To:

- Switch on the device
- Charge the battery
- Connect to a Wi-Fi network
- Navigate the operating system
- Use the software installed such as Google Chrome web browser and Office applications
- Manage folders and files
- Create word processed documents and save appropriately
