FOREWORD

Contained herein are the policy statements formulated by the Board of Education of the Ontario Central School District.

Policy is defined as a basic plan of action. It establishes limits within which freedom of judgment can be exercised.

Policy is a governing principle of management. It is a statement that has an effect on the interests of those who come under its jurisdiction. A policy may originate from the constitution, from statute, from local determinations and/or from customary patterns of formal behavior.

Policy should accomplish the following:

- a) State a position taken by the District;
- b) Grant the authority to act;
- c) Be sufficiently detailed to give adequate direction;
- d) Be achievable within the real environment of the school and community;
- e) Provide for impartial procedures.

In addition to the adopted policies, the operation of the School District is governed by and subject to all applicable Laws, Regulations of the Commissioner of Education, Civil Service requirements, Board of Education Resolutions, School Administrative Regulations and Contracts of Agreement.

If any part of this manual is made invalid by judicial decision or legislative or administrative enactment, all other parts shall remain in full effect unless and until they are amended or repealed by the Board of Education. The official record of the adoption, amendment, or repeal of the by-laws and policies of the Ontario Central School District shall be the minutes of the meetings of the Board of Education.

PHILOSOPHY STATEMENT

In preparing individuals to develop their fullest potential for living in the society of today and tomorrow, the Board of Education and the staff of the School District:

- I. Recognize their responsibility to help meet the physical, intellectual and emotional needs of children; particularly the needs to inquire, learn, think, and create; to establish aesthetic, moral and ethical values; and to relate satisfactorily to others in social situations involving family, work, government and recreation.
- II. Accept primary responsibility for giving students a mastery of the basic skills of learning, thinking and problem-solving; for teaching them to use the various media of self-expression; for instilling in them a knowledge of the social and natural sciences; for acquainting them with the richness of our heritage; and for stimulating them to productive work in the various areas of human endeavor.
- III. Acknowledge the importance of their supplemental role to the home and other social agencies in developing habits and attitudes which make for effective personal living, the maintenance of optimum physical and mental health, and the establishment of sound moral, ethical, and aesthetic values.

Realizing that education, as here defined, is a lifelong process, the School System seeks to orient its graduates toward various types of post-secondary education and further formal training and study of many types; and to provide educational opportunities particularly suited to the needs of adults, both as individuals and as citizens in a democracy.

BOARD OF EDUCATION LEGAL STATUS

The Board of Education is a seven-member Board elected by district residents. Each member of the Board serves for three years. The terms of office of Board members shall not all expire in the same year. Board members are responsible for school district management, policy-making and all matters related to the employment of the Superintendent.

DUTIES OF THE EXTERNAL (INDEPENDENT) AUDITOR

The responsibility for engaging a qualified and competent Certified Public Accountant (CPA) or Public Accountant (PA) to perform the annual audit of the District's financial statements resides with the Board of Education. State laws and regulations require that the annual audit be "accepted" by a resolution of the Board of Education. This resolution along with the audit report must be filed with State Education Department (SED) in a timely manner. In addition, the independence and objectivity of the auditor may be enhanced when the Board of Education and Audit Committee perform an oversight role with respect to the hiring and performance of the auditor, as required by law.

The independent auditor must conduct the audit in accordance with Generally Accepted Government Auditing Standards (GAGAS) issued by the Comptroller General of the United States. Standards of GAGAS are organized as general, fieldwork, and reporting.

Below are some important considerations the District shall expect of the auditor in preparing the audit; however, they should not be considered all-inclusive or a substitute for the auditor's professional judgment.

- a) Independence: The auditor must document that they are independent of the District and free of personal and external impairments. The auditor must establish an internal quality control system to identify any personal and external impairment and assure compliance with GAGAS independence requirements.
- b) Internal Quality Control System: The auditor must document that their internal quality control processes adequately demonstrate compliance with government auditing standards. they must establish an organizational structure, policies and procedures to provide reasonable assurance of complying with applicable standards governing audits.
- c) Internal Controls: The auditor must obtain a sufficient understanding of the District's internal controls and document such understanding covering the five interrelated components: the control environment, risk assessment, control activities, information and communication, and monitoring.
- d) Planning and Supervision: The auditor's work is to be properly planned and supervised and consider materiality in order to provide reasonable assurance of detecting misstatements resulting from direct and material illegal acts and material irregularities to financial statements. The auditor should also be aware of the possibility that indirect illegal acts may have occurred.
- e) Audit documentation: In order to meet the GAGAS requirements, the audit documentation should provide a clear understanding of its purpose, the source, and the conclusions the auditor reached. It should be organized to provide a clear link to the findings, conclusions, and recommendations contained in the audit report.
- f) Reporting on Internal Controls and Compliance: The auditor must report on and present the results of their testing of the District's compliance with laws and regulations and its internal controls over financial reports in light of irregularities, illegal acts, other material noncompliance, significant deficiencies, and material weaknesses in internal controls.
- g) Safeguard Of Assets: The auditor verifies that a current asset inventory system is in place and that there is adequate insurance coverage for assets and for employees with authorized access to those assets.

The district shall hold an annual election and budget vote at which the district's authorized voters will elect members of the Board of Education and vote on the district budget for the coming school year. The annual district election and budget vote will be held on the third Tuesday in May, unless, due to a conflict with religious observance, the Board requests that the Commissioner approve changing the election date to the second Tuesday in May. The request is due to the Commissioner by March 1st.

The District Clerk shall publish a notice of the time and place of the annual election and budget vote at least four times within the seven weeks prior to the election, in two newspapers having general circulation within the district. The first publication of the notice shall be at least 45 days prior to the election. The notice shall also contain notice of any other matter required by law.

Copies of the budget to be voted upon at the annual election and budget vote will be available upon request in each district school building, at the school district offices, and at any public library or free association library within the district, for district residents at the time of the annual election and budget vote and the 14 days preceding (other than Saturday, Sunday and holidays), as well as on the school district's website.

The Board shall appoint assistant clerks and election inspectors necessary for the annual election and budget vote at a Board meeting held before the annual election and budget vote.

Propositions

The Board has the authority, under the Education Law, to adopt reasonable rules and regulations concerning the submission of petitions to the Board to place propositions on the ballot which may amend the budget. Pursuant to those provisions, the Board establishes the following guidelines:

1. Unless otherwise provided by the Education Law, petitions for the submission of a proposition must contain a minimum of [insert the number/percent of signatures the district requires; for example, 25 signatures of qualified voters of the district or 5 percent of the eligible voters who voted in the previous annual election of the members of the Board of Education, whichever is greater.]
2. Petitions must be filed with the District Clerk at least 30 days prior to the annual election, except for petitions relating to a proposition which must be included in the notice of the annual election (e.g., changing the number of board members). 3. Propositions must include the specific appropriations necessary for the purposes listed.

(Continued)

ANNUAL DISTRICT ELECTION AND BUDGET VOTE (cont'd)

4. Wording of a petition must comply with legal requirements. If the wording does not comply, it may be changed or altered by the Board, or the Board may reject a petition for failure to comply.

Propositions received in accordance with these specifications will be placed on the ballot as amendments and will be voted upon by the voters in the same manner as the proposed budget, except that the Board shall not be required to place any proposition on the ballot which is within the exclusive province of the Board, or otherwise forbidden by law. No proposition involving the budget may be submitted to the voters more than twice within a twelve month period.

The Board may also, on its own motion, submit propositions.

Improper Advocacy

The district may provide informational material to the voters concerning budgets, propositions, or other matters before the electorate. However, school district funds and resources may not be used to exhort voters to support a particular position. For example, the district will not engage in activities including, but not limited to, sending flyers supporting the budget home with students, providing mailing labels for materials supporting a proposition or using the district e-mail to deliver promotional material for candidates.

PROCEDURE FOR THE ANNUAL DISTRICT ELECTION

Voting will be conducted by voting machines or paper ballot at the Poll Centers between the hours of 2 p.m. – 9 p.m.

Each machine or ballot box shall have at least two election inspectors appointed by the Board in attendance during all voting hours. It shall be the duty of the District Clerk and assistant clerk or clerks to keep a poll list containing the name and legal residence of each person before such person is permitted to vote.

Election inspectors shall not advise or induce such voter to vote on any proposition or candidate, and if the election inspector were to learn how the individual voted, the election inspector shall never reveal the vote(s) recorded to any other person at any time.

The machines are to be arranged for a write-in vote. When a write-in vote is used, it automatically nullifies any other vote that is made on the machine for that particular candidate or issue.

Write-in ballot spaces are required. Ballots containing the names of nominated candidates will be provided by the Board. There will be as many write-in spaces as there are vacancies at the time of election.

The writing in of a name in the blank space so provided, will sufficiently indicate a vote. The district cannot require a voter to place any other mark beside the name of a write-in candidate.

If a voter is challenged, in order to vote they must complete a Challenge Statement at the Registrar's desk. Their name and the name of the Challenger will be recorded on a Challenge list.

Only those voters who are registered with the Ulster County Board of Elections will be eligible to vote.

Inspectors of Election are to receive the votes cast, canvass same, and report the results of the voting following the closing of Polls.

Closing of Poll Centers

After every voter present has had a chance to vote and Polls are closed, the Inspectors are authorized to send the results of the voting to the District Clerk in Boiceville. The results of the election will be made public at that time. A special meeting of the Board of Education is to be called within 24 hours following the closing of the Polls to certify the voting results submitted by the Chairman.

BOARD COMMUNITY COMMUNICATIONS

The Board of Education encourages transparent engagement and communication with the school community.

One of the most direct ways to communicate with the Board as a whole is during the Public Be Heard portion of the Board's public meetings (see Policy #1512)

The Board can be reached as a whole via email at onteoraboe@onteorak12.ny.us.

While members of the Board may receive individual communications from the public, individual trustees cannot make decisions for, or represent positions of the Board as a whole, unless they have previously been publicly determined.

The Board directs the District Clerk to receive and review physical letters sent as correspondence to the Board. Anonymous letters will be reviewed and filed by the District Clerk, except as may be required pursuant to law or Board policy when correspondence pertains to: whistleblower complaints, retaliatory behavior, sexual harassment, allegations of fraud, health and safety issues, and legal issues.

COMMITTEES OF THE BOARD

The Board may at its discretion establish committees for the purpose of undertaking a specific task in connection with Board activity. These committees, however, cannot make legal decisions for the entire Board.

At the request of the Board, the President shall appoint temporary committees consisting of less than a quorum of the full membership for special purposes. These committees shall be discharged on the completion of their assignment. The President of the Board shall be an ex-officio member of such committees.

The Board of Education recognizes that it may be necessary from time to time to authorize advisory committees for the purpose of enlisting opinions and counsel of the general public. Such committees shall be appointed by the Board of Education. The Board has the right to accept, reject or modify all or any part of a committee recommendation.

Visitation Committees

The Board of Education may appoint one (1) or more committees annually to fulfill its obligations articulated in Policy 1310, subsections n and/or o.

Internal Operations

COMMUNITY INVOLVEMENT IN ADVISORY COMMITTEES

The Board of Education recognizes that the public has resources of training and experience useful to the schools. The strength of the local School District is in large measure determined by the degree to which these resources are tapped in supporting the improvement of the local educational program. For the purposes of this policy, community shall mean not only the lay and public community, but also the personnel and student community of the School District.

When it is deemed appropriate by the Board of Education, Lay Advisory Committees may be appointed for a clearly specific time period and to address an identified concern(s).

The membership of any and all interim committees appointed will be determined by the Board of Education, and will be appropriate in terms of functionality with respect to the concern(s) and/or reason(s) for forming the committee.

It is not the intent of the Board of Education to maintain standing lay advisory committees, nor does the Board of Education intend to abdicate its responsibility for all final decisions.

Internal Operations

**ATTENDANCE BY BOARD MEMBERS AT CONFERENCES,
CONVENTIONS AND WORKSHOPS**

The Board believes that continuing in-service training and development are important for its members. The Board, therefore, encourages the participation of all members at appropriate school board conferences, conventions and workshops which are believed to be of benefit to the School District. However, in order to control both the investment of time and funds necessary to implement this policy, the Board establishes the following guidelines:

- a) A calendar of school board conferences, conventions and workshops shall be maintained by the Board Clerk. The Board will periodically decide which meetings appear to be most likely to produce direct and indirect benefits to the School District. At least annually, the Board will identify those new ideas or procedures and/or cost benefits that can be ascribed to participation at such meetings.
- b) Funds for participation at such conferences, conventions, workshops and the like will be budgeted for on an annual basis. When funds are limited, the Board will designate which members are to participate at a given meeting.
- c) Reimbursement to Board members for all actual and necessary registration fees, expenses of travel, meals and lodging, and all necessary tuition fees incurred in connection with attendance at conferences and the like will be in accordance with established regulations for expense reimbursement. All reimbursement requests must be submitted by June 30th of that school year.
- d) When a conference, convention or workshop is not attended by the full Board, those who do participate will be requested to share information, recommendations and materials acquired at the meeting.

The authorization for Board members to attend a conference, convention, workshop and the like shall be by Board resolution adopted prior to such attendance. However, the Board, in its discretion, may delegate the power to authorize attendance at such conferences to the President of the Board of Education.

Where authorization has been delegated to the President of the Board, no expense or claim form shall be paid unless a travel order or similar document signed by the President is attached to such form, authorizing the claimant to attend the conference.

SUBJECT: PARENT AND FAMILY ENGAGEMENT

The Board of Education believes that positive parent and family engagement is essential to student achievement, and thus encourages such involvement in school educational planning and operations. Parent and family engagement may take place either in the classroom or during extra-curricular activities. However, the Board also encourages parent and family engagement at home (e.g., planned home reading time, informal learning activities, and/or homework “contracts” between parents, family members and children). The Board directs the Superintendent of Schools to develop a home-school communications program in an effort to encourage all forms of parent and family engagement.

The federal definition of the term “parents” refers to a natural parent, legal guardian or other person standing in *loco parentis* (such as a grandparent or stepparent with whom the child lives, or a person who is legally responsible for the child’s welfare).

For purposes of this policy, parental involvement refers to the participation of parents in regular, two-way, and meaningful communication, involving student academic learning and other school activities.

At a minimum, parent and family engagement programs, activities and procedures at both the district and individual school level must ensure that parents and family members:

- Play an integral role in assisting their child’s learning;
- Are encouraged to be actively involved in their child’s education at school; and
- Are full partners in their child’s education and are included, as appropriate, in decision-making and on advisory committees to assist in the education of their child.

Title I Parent and Family Engagement- District Level Policy

Consistent with the parent and family engagement goals of Title I, Part A of the federal No Child Left Behind Act of 2001 (NCLB) and its reauthorization in the Every Student Succeeds Act (ESSA), the Board of Education will develop and implement programs, activities and procedures that encourage and support the participation of parents and family members of students eligible for Title I services in all aspects of their child’s education. The Board also will ensure that all of its schools receiving Title I, Part A funds develop and implement school level parent and family engagement procedures, as further required by federal law.

District and school level Title I parent and family engagement programs, activities and procedures will provide opportunities for the informed participation of parents and family members (including those who have limited English proficiency, parents and family members with disabilities, and parents and family members of migratory children).

As further required by federal law, parents and family members of students eligible for Title I services will be provided an opportunity to participate in the development of the district’s
(Continued)

SUBJECT: PARENT AND FAMILY ENGAGEMENT (cont'd)

Title I plan, and to submit comments regarding any aspect of the plan that is not satisfactory to them. Their comments will be forwarded with the plan to the State Education Department.

Parents and family members also will participate in the process for developing either a comprehensive or targeted “support and improvement plan” when the school their child attends is identified by the State as needing this plan.

Parent and Family Member Participation In Development of District Wide Title I Plan

The Board, along with its superintendent of schools and other appropriate district staff will undertake actions to ensure parent and family member involvement in the development of the district wide Title I plan.

Development of School Level Parent and Family Engagement Approaches

The superintendent of schools will ensure that all district schools receiving federal financial assistance under Title I, Part A are provided coordination, technical assistance and all other support necessary to assist them in planning and implementing effective parent and family engagement programs and activities that improve student achievement and school performance.

Building Capacity for Parental Involvement

To build parent capacity for strong parental involvement to improve their child’s academic achievement, the district and its Title I, Part A schools will, at a minimum:

1. Assist parents in understanding such topics as the state’s academic content challenging academic standards, state and local academic assessments, Title I requirements, how to monitor their child’s progress and how to work with educators to improve the achievement of their child.
2. Provide materials and training to help parents work to improve their child’s academic achievement such as literacy training and using technology (including education about the harms of copyright piracy).
3. Educate its teachers, specialized instructional support personnel, principals and other school leaders, and other staff, with the assistance of parents, in understanding the value and utility of a parent’s contributions and on:
 - a) The development of an infrastructure to continually assess, plan and implement strategies that build the partnership.
 1. The use of the District-wide shared decision-making team, a committee of parents, community members, teachers, and administrators, to guide overall program efforts and serve as a home-school partnership network.

(Continued)

SUBJECT: PARENT AND FAMILY ENGAGEMENT (cont'd)

Shared decision making cannot usurp the regulations of the Education Commissioner of New York State

2. Coordination of activities through the staff development system in areas of teacher inservice, assessment of teaching strengths, and communication with parents toward creation of the best possible learning experience for each child.
- b) Self-study of parental involvement practices by the building site teams of parents, teachers and the administrator in each school using the following seven (7) basic principles considered essential to home-school partnerships.
 1. Every aspect of the school climate is open, helpful and friendly.
 2. Communications with parents (whether about school policies and programs or about their own children) are frequent, clear, and two-way.
 3. Parents are treated as collaborators in the educational process, with a strong complementary role to play in their children's school learning and behavior.
 4. Parents are encouraged, both formally and informally, to comment on school policies and share in the decision making.
 5. The Principal and other school administrators actively express and promote the philosophy of partnership with all families.

- b. By February 1, 1994, each public school district board of education and each board of cooperative educational services (BOCES) shall develop and adopt a district plan for the participation by teachers and parents with administrators and school board members in school-based planning and shared decisionmaking. Such district plan shall be developed in collaboration with a committee composed of the superintendent of schools, administrators selected by the district's administrative bargaining organization(s), teachers selected by the teachers' collective bargaining organization(s), and parents (not employed by the district or a collective bargaining organization representing teachers or administrators in the district) selected by school-related parent organizations, provided that those portions of the district plan that provide for participation of teachers or administrators in school-based planning and shared decisionmaking may be developed through collective negotiations between the board of education or BOCES and local collective bargaining organizations representing administrators and teachers. In the City School District of the City of New York, the superintendent of each community school district, of each district that reports directly to the chancellor and of each high school superintendency shall develop such district plan in collaboration with a committee composed of administrators selected by the district's administrative bargaining organization(s), teachers selected by the teachers' collective bargaining organization(s), and parents (not employed by the district or a collective bargaining organization representing teachers or administrators in the district) selected by school-related parent organizations. Members of community school boards may be members of such committees. For the purpose of this subdivision, school-related parent organization means a nonprofit organization of parents of children attending the schools of the school district whose purposes include the promotion of parental involvement in public education and that is chartered or incorporated under the laws of New York, or is affiliated with a statewide or regional parent organization that is so chartered or incorporated or is an unincorporated association authorized to do business under an assumed name in New York. In districts in which teachers or administrators are not represented by a collective bargaining organization or there are no school-related parent organizations, teachers, administrators and/or parents shall be selected by their peers in the manner prescribed by the board of education or BOCES to participate in the development of such district plan. In the City School District of the City of New York, the superintendent of each community school district, of

each district that reports directly to the chancellor and of each high school superintendency shall develop a plan in the manner prescribed by this subdivision, and each such plan shall be incorporated into a plan by the central board of education, which plan shall comply with this section.

4. the means by which all parties will be held accountable for the decisions which they share in making;
5. the process whereby disputes presented by the participating parties about the educational issues being decided upon will be resolved at the local level; and
6. the manner in which all State and Federal requirements for the involvement of parents in planning and decisionmaking will be coordinated with and met by the overall plan.

d.

1. The district's plan shall be adopted by the board of education or BOCES at a public meeting after consultation with and full participation by the designated representatives of the administrators, teachers, and parents, and after seeking endorsement of the plan by such designated representatives. In the city school district of the City of New York, each plan shall be approved by the superintendent pursuant to subdivision (b) of this section after consultation with and full participation by the designated representatives of the administrators, teachers and parents, and after consultation with the members of the board of education of the community school district, and after seeking endorsement of the plan by such designated representatives. The plan shall be made available to the public. Each board of education or BOCES shall file such plan with the district superintendent or, in the case of city school districts having a population of 125,000 inhabitants or more or a BOCES, with the commissioner within 30 days of adoption.
2. Each board of education or BOCES shall submit its district plan to the commissioner for approval within 30 days of adoption of the plan. The commissioner shall approve such district plan upon a finding that it complies with the requirements of this section and makes provision for effective participation of parents, teachers, and administrators in school-based planning and decisionmaking.

e.

1. In the event that the board of education or BOCES fails to provide for consultation with, and full participation of, all parties in the development of the plan as required by subdivisions (b) and (d) of this section, the aggrieved party or parties may commence an appeal to the commissioner pursuant to section 310 of the Education Law. Such an appeal may be instituted prior to final adoption of the district plan and shall be instituted no later than 30 days after final adoption of the district plan by the board of education or BOCES.
2. Any aggrieved party who participated in the development of the district plan may also

appeal to the commissioner pursuant to section 310 of the Education Law from action of the board of education or BOCES in adopting, amending, or recertifying the plan. The grounds for such an appeal may include, but shall not be limited to, noncompliance with any requirement of subdivision (c) of this section and failure to provide within the district plan for meaningful participation in school-based planning and shared decisionmaking within the intent of this section.

- f. The district's "Plan for the Participation by Teachers and Parents in School-Based Planning and Shared Decisionmaking" shall be reviewed biennially by the board of education or BOCES in accordance with subdivision (b) of this section. Any amendment or recertification of a plan shall be developed and adopted in the manner prescribed by subdivision (b) and paragraphs (d)(1) and (2) of this section. The amended plan or a recertification of the previous plan, together with a statement of the plan's success in achieving its objectives, shall be filed with the district superintendent where applicable, and submitted to the commissioner for approval no later than February 1st of each year in which such biennial review takes place, commencing with February 1, 1996, except that in the City School District of the city of New York, the central board of education shall submit any biennial review required during the 1999-2000 school year by September 1, 2000.
- g. The board of education or BOCES shall develop the remainder of the district plan, including the portion relating to parental involvement, in the manner prescribed by subdivision (b) of this section.

VISITORS TO THE SCHOOL

The Board recognizes that the success of the school program depends, in part, on support by the larger community. The Board wishes to foster a positive climate where members of the community have the opportunity to observe the hard work and accomplishments of the students, teachers and other staff. Since schools are a place of work and learning, however, certain limits must be set for such visits. The Principal or his or her designee is responsible for all persons in the building and on the grounds. For these reasons, the following rules apply to visitors to the schools:

1. Anyone who is not a regular staff member or student of the school will be considered a visitor.
2. All visitors to the school must enter through the designated single point of entry and report to the office of the Principal upon arrival at the school. There they will be required to present photo identification, sign the visitor's register and will be issued a visitor's identification badge, which must be worn at all times while in the school or on school grounds. The visitor must return the identification badge to the Principal's office before leaving the building.
3. Visitors attending school functions that are open to the public after regular school hours, such as parent-teacher organization meetings or public gatherings, are not required to register.
3. Parents or citizens who wish to observe a classroom or school activity while school is in session are required to arrange such visits in advance with the classroom teacher(s) and Building Principal, so that class disruption is kept to a minimum.
5. Teachers are expected not to take class time to discuss individual matters with visitors.
6. Any unauthorized person on school property will be reported to the Principal or his or her designee. Unauthorized persons will be asked to leave. The police may be called if the situation warrants.
7. All visitors are expected to abide by the rules for public conduct on school property contained in this code of conduct.

PUBLIC COMPLAINTS

Complaints by citizens regarding any facet of the school operation, including but not limited to instruction or personnel, often can be handled more satisfactorily by the administrative officer in charge of the unit closest to the source of the complaint. In most instances, therefore, complaints will be made to the Building Principal and/or their assistant if the matter cannot be resolved by the teacher, coach, or other school employee.

If the complaint and related concerns are not resolved at this level to the satisfaction of the complainant, the complaint may be carried to the Superintendent and/or one (1) of their assistants. Unresolved complaints at the building level must be reported to the Superintendent by the Building Principal. The Superintendent may require the statement of the complainant in writing.

If the complaint and related concerns are not resolved at the Superintendent level to the satisfaction of the complainant, the complaint may be carried to the Board of Education. Unresolved complaints at the Superintendent level must be reported to the Board of Education by the Superintendent. The Board of Education reserves the right to require prior written reports from appropriate parties.

PARENT-TEACHER ASSOCIATION

The Board of Education recognizes and supports that the goal of the Parent-Teacher Association is to develop a united effort between educators and the school community to secure for every child the highest achievement in physical, academic and social education. Therefore, staff members and parents are encouraged to join the Parent-Teacher Association and to participate actively in its programs.

BOOSTER CLUBS

Purpose

The Board of Education recognizes and appreciates the cooperation and support given by booster clubs and parent organizations. The Board of Education, the administration and all other personnel of the district shall each endeavor to foster a positive and productive relationship with booster clubs and parent organizations.

Title IX

The School District has a responsibility under Title IX to ensure that boys' and girls' programs are provided with equivalent benefits, treatment, services and opportunities regardless of their source. When determining equivalency, benefits, services and opportunities attained through the use of private funds (e.g., "booster clubs"), such funds are considered in combination with all benefits, services and opportunities.

Private fundraising, including student-initiated fundraising, is permissible under Title IX. Further, compliance with Title IX does not mean that teams must "share" proceeds from fundraising activities. It does, however, place a responsibility on the District to ensure that benefits, services, treatment and opportunities overall, regardless of funding sources, are equivalent for male and female athletes.

In accordance with the Office for Civil Rights, in order for the District to be in continuing compliance with Title IX requirements, the District must assure that services, benefits and opportunities in its athletic programs are provided on an equivalent basis to both boys and girls, including those services, benefits and opportunities that are provided through the use of outside financial assistance such as donations, fundraising by coaches, and booster clubs or other related organizations.

Guidelines

While booster clubs and parent organizations are not controlled by the District, in order for this process to flow appropriately, the following guidelines are put in place by the Board:

Organization

1. The Board shall provide booster clubs and parent organizations opportunities to support local school athletic, extracurricular, and student club efforts. Each booster club and parent organization must maintain current by-laws. Booster clubs and parent organizations shall also follow the district policies and Code of Conduct regulations when engaging in events on school property.

(Continued)

BOOSTER CLUBS (cont'd)

2. The district's Athletic Director or Superintendent's designee shall be the administrative contact for booster clubs and parent organizations that support district athletic programs.
3. Building principals shall be the administrative contact for building-based booster clubs and parent organizations that support district extracurricular and student club activities. The Superintendent shall designate the administrative contact for all nonathletic district-wide booster clubs.
4. Each booster club and parent organization shall yearly submit a listing of its officers to the appropriate district administrative contact after the annual organizational meeting of the booster club or the parent organization.

Other Guidelines and Restrictions

1. District students are not eligible for membership in booster clubs or parent organizations.
2. When using any school facility for meetings, fundraising, socials, banquets, and other activities, booster clubs and parent organizations must make a request in writing as per Board Policy 3280 "Community Use of School Facilities."
3. Booster clubs and parent organizations are not permitted to use the district's marks (name, mascot or logo) without license or express permission granted in writing by the Superintendent. If an organization desires to use a mark other than the designated district mark for use by the club or organization on merchandise or for any other reason, such use must be approved in writing by the Superintendent.

Financial Records

1. All booster clubs and parent organizations must elect or otherwise designate a Treasurer.
2. Financial records must be maintained and made available, upon request, for Board and/or public inspection;
3. The organization must have its own tax identification number and may not use the school district's tax identification number.

Concerns

Concerns or issues of individual members of booster clubs regarding the organization should be made to the organization's officers. If the member has a concern that relates to how the booster club interacted with the District, the member should contact the designated contact as described above.

Fundraising

1. All fundraising activities shall comply with Policy #7450 "Fundraising by Students."
2. Parents/Guardians should be given the option to participate, donate money of equal value, or not participate in any fundraiser. In other words, mandatory fundraisers are not permitted.

BOOSTER CLUBS (cont'd)

Any improvements will be done by the Board of Education through the acceptance of a gift or donation in accordance with policy 5230 "Gifts, Grants and Donations to the School District."

Recognition Functions (Banquets)

Each booster club or parent organization may sponsor athletic, extracurricular, or club banquets to which all participating students shall be invited either with or without charging admission to such students. All banquets must be approved by the Superintendent and/or their designee.

Printed Programs

Booster clubs and parent organizations which print programs for any reason shall follow the procedures as outlined in the administrative regulation related to this policy in regard to such printed programs.

Expenditures for Equipment, Supplies, Etc.

1. All game uniforms shall be purchased by the district.
 - a. The "game uniform" includes any clothing that is worn during the athletic contest and that:
 - b. Displays the school colors or logo (except shoes) and
 - c. Is purchased by the district and
 - d. Is intended to be collected by the school at the conclusion of the season.
2. Any ancillary gear and apparel such as coaching aid equipment items, bags, totes, pre-game warm-ups, sweatshirts, etc., purchased by booster clubs, parent organizations, corporate sponsors, or other non-school sanctioned entities to the district for use by the district team or student club must meet NYSPHSAA rules and guidelines and be approved by the Board of Education in accordance with paragraph 3 below before they can be utilized by the students.
3. Items purchased or donated by an outside organization must meet the criteria as established in Policies 3271 "Solicitation of Charitable Donations from School Children," 3272 "Advertising in the Schools" and 5230 "Gifts, Grants and Donations to the School District .

Disbanding Booster Clubs or Parent Organizations

A booster club or parent organization may disband on its own accord by submitting a written notice to the designated administrative liaison. All monies remaining in the organization's account must be handled appropriately by the organization. This may include donating the money to the Board of Education.

BOOSTER CLUBS (cont'd)

Compliance

1. Violation of Board policy, Board administrative regulation, Title IX of the U.S. Code, as well as any other applicable state or federal laws and regulations may lead to revocation of a booster club's or parent organization's function in district activities.
2. Should any issues of compliance regarding this or other district policy or administrative regulation emerge between a booster club or parent organization and the district, the Superintendent shall resolve the situation.
3. The Board retains final responsibility and authority for the management and operations of school-sponsored activities and curriculum.

USE OF SCHOOL-OWNED MATERIALS AND EQUIPMENT

Except when used in connection with or when rented under provisions of Education Law Section 414, school-owned materials or equipment may be used by members of the community or by District employees and/or students for school related purposes only. Private and/or personal use of school-owned materials and equipment is strictly prohibited.

The Board will permit school materials and equipment to be loaned to staff members when such use is directly or peripherally related to their employment and loaned to students when the material and equipment is to be used in connection with their studies or extracurricular activities. Community members will be allowed to use school-owned materials and equipment only for educational purposes that relate to school operations.

Education Law Section 414

SOLICITATION OF CHARITABLE DONATIONS FROM SCHOOL CHILDREN

Direct solicitation of charitable donations from children in the District schools on school property during regular school hours shall not be permitted. It will be a violation of District policy to ask District school children directly to contribute money or goods for the benefit of a charity during the hours in which District students are compelled to be on school premises.

However, this policy does not prevent the following types of fund raising activities:

- a) Fund raising activities which take place off school premises, or outside of regular school hours during before-school or after-school extracurricular periods;
- b) Arms-length transactions, where the purchaser receives a consideration for his/her donation. For example, the sale of goods or tickets for concerts or social events, where the proceeds go to charity, shall not be prohibited as the purchaser will receive consideration – the concert or social event – for the funds expended;
- c) Indirect forms of charitable solicitation on school premises that do not involve coercion, such as placing a bin or collection box in a hallway or other common area for the donation of food, clothing, other goods or money. However, collection of charitable contributions of food, clothing, other goods or funds from students in the classroom or homeroom is prohibited.

The Board of Education reserves the right to determine which organizations, groups, etc. can solicit charitable donations and for what purposes, as long as the activities comply with the terms of this policy and the Rules of the Board of Regents.

A commercial photographer who is taking school photographs on school premises for a school purpose may advise students, by means of a card, brochure or other appropriate device, that copies may be purchased directly from the photographer. School District Records

It is recognized that the confidentiality of student records must be maintained. The terms used in this regulation are defined in the accompanying policy. The following necessary procedures have been adopted to protect the confidentiality of student records.

Section 1. Pursuant to the Family Educational Rights and Privacy Act (FERPA) and state law it is the policy of this school district to permit parents/guardians and eligible students to inspect and review any and all official records, files and data directly related to that student, including all materials that are incorporated into each student's cumulative record folder.

The rights created by FERPA and state law transfer from the parents/guardians to the student once the student attains eligible student status. However, districts can disclose information to parents of eligible students under certain circumstances, including when the student is a dependent under the IRS tax code, when the student has violated a law or the school's rules regarding alcohol or substance abuse (and the student is under 21); when the information is needed to protect the health or safety of the student or other individuals.

Section 2. Parents/guardians or the eligible student will have an opportunity for a hearing to challenge the content of the student's school records, to insure that the records are not inaccurate, misleading, or otherwise in violation of the privacy or other rights of the student, and to provide an opportunity for the correction or deletion of any such inaccurate, misleading, or otherwise inappropriate data contained therein.

Section 3. A letter will be sent annually to parents/guardians of students currently in attendance and students currently in attendance informing them of their rights pursuant to FERPA and state law, and will include a Parents' Bill of Rights. See Exhibits 5500-E.1 and 8635-E. The district will effectively notify parents, guardians and students who have a primary or home language other than English.

Section 4. To implement the rights provided for in sections 1 and 2, the following procedures are adopted:

1. A parent/guardian or an eligible student who wishes to inspect and review student records must make a request for access to the student's school records, in writing, to the Building Principal. Upon receipt of such request, once the district verifies the identity of the parent/guardian or eligible student, arrangements will be made to provide access to such records within 45 days after the request has been received. If the record to which access is sought contains information on more than one student, the parent/guardian or eligible student will be allowed to inspect and review only the specific information about the student on whose behalf access is sought.

- a. Before providing access to student records, the district will verify the identity of the parent/guardian or eligible student.
 - b. The district may provide the requested records to the parent/guardian or eligible student electronically, as long as the parent/guardian or eligible student consents. The district will transmit PII electronically in a way that maintains its confidentiality, using safeguards such as encryption and password protection.
2. A parent/guardian or an eligible student who wishes to challenge the contents of the student's school records must submit a request, in writing, to the Building Principal identifying the record or records which they believe to be inaccurate, misleading or otherwise in violation of the privacy or other rights of the student together with a statement of the reasons for their challenge to the record.
3. Upon receipt of a written challenge, the Building Principal will provide a written response indicating either that they:
 - a. finds the challenged record inaccurate, misleading or otherwise in violation of the student's rights and that the record will be corrected or deleted; or
 - b. finds no basis for correcting or deleting the record in question, but that the parent/guardian or eligible student will be given an opportunity for a hearing. The written response by the Building Principal will be provided to the parent/guardian or eligible student within 14 days after receipt of the written challenge. The response will also outline the procedures to be followed with respect to a hearing regarding the request for amendment.
4. Within 14 days of receipt of the response from the Building Principal, a parent/guardian or eligible student may request, in writing, that a hearing be held to review the determination of the Building Principal.
5. The hearing will be held within 10 days after the request for the hearing has been received. The hearing will be held by the Superintendent of Schools, unless the Superintendent has a direct interest in the outcome of the hearing, in which case the Superintendent will designate another individual who does not have a direct interest in the outcome of the hearing to hold the hearing.
6. The parent/guardian or eligible student will be given a full and fair opportunity to present evidence at the hearing. The parent/guardian or eligible student may, at their own expense, be assisted or represented by one or more individuals of their own choice, including an attorney.
7. The Superintendent or other individual designated by the Superintendent will make a decision in writing within 14 days after the hearing.
8. After the hearing, if the Superintendent or the individual designated by the Superintendent decides not to amend the record, the district will inform the parent/guardian or eligible student that they have the right to place a statement in the record commenting on the contested information or stating why they disagree with the decision of the district. Any statement placed in the record will be

maintained with the contested part of the student record for as long as the record is maintained. Further, the statement will be disclosed by the district whenever it discloses the portion of the record to which the statement relates.

Section 5. Except to the extent that FERPA authorizes disclosure of student records without consent, student records, and any material contained therein which is personally identifiable, are confidential and will not be released or made available to persons other than parents/guardians or eligible students without the prior written consent of the parents/guardians or eligible student.

Exceptions to FERPA's prior consent requirement include, but are not limited to disclosure:

1. To other school officials within the district who have been determined to have legitimate educational interests.
2. To officials of another school, school system or post secondary institution where the student seeks or intends to enroll.
3. To authorized representatives of the Comptroller General of the United States, the U.S. Secretary of Education, the U.S. Attorney General, or state and local education authorities in connection with an audit or evaluation of a federal- or state-supported education program or in compliance with legal requirements related to those programs.
4. In connection with the student's application for or receipt of financial aid.
5. To state and local officials or authorities in compliance with state law that concerns the juvenile justice system and the system's ability to effectively serve, prior to adjudication, the student whose records are being released.
6. To organizations conducting studies for, or on behalf of, education agencies or institutions, in order to develop tests, administer student aid, or improve instruction.
7. To accrediting organizations to carry out their accrediting functions.
8. To parents of a dependent student, as defined by the Internal Revenue Code.
9. To comply with a judicial order or lawfully issued subpoena, including ex parte court orders under the USA Patriot Act. Prior to complying with a judicial order or subpoena, the district will make a reasonable effort to notify the parent/guardian or eligible student, unless the district has been ordered not to disclose the existence or content of the order or subpoena, or unless the parent is the subject of a court proceeding involving child dependency or child abuse and neglect matters, and the order is issued in context of that proceeding.
10. In connection with a health or safety emergency, the district will disclose information when, taking into account the totality of circumstances, a determination is made that there is an articulable and significant threat to the health or safety of the student or other individuals.
11. To teachers and school officials in other schools who have legitimate educational interests in the behavior or the student when the information concerns disciplinary action taken

To any caseworker or representative of a state or local child welfare agency or tribal organization who has the right to access a student’s case plan, where the agency or organization is legally responsible for the care and protection of that student, not to be redisclosed except as permitted by law.

The district will use reasonable methods to provide access to student educational records to only those authorized under the law and to authenticate the identity of the requestor. The district will use an array of methods to protect records, including physical controls (such as locked cabinets), technological controls (*include those that are applicable:* such as role-based access controls for electronic records, password protection, firewalls, encryption), and administrative procedures. The district will document requests for and release of records, and retain the documentation in accordance with law.

If the district enters into a contract with a third party that calls for receipt of student PII by the contractor, the agreement will include a data security and privacy plan that includes a signed copy of the Parents’ Bill of Rights and addresses the following, among other contractual elements:

1. training of vendor employees regarding confidentiality requirements;
2. limiting access to PII to those individuals who have a legitimate educational interest or need access to provide the contracted services;
3. prohibiting the use of PII for any other purpose than those authorized under the contract;
4. prohibiting the disclosure of PII without the prior written consent of the parent/guardian or eligible student, unless it is to a subcontractor in carrying out the contract, or unless required by statute or court order, in which case they must provide notification to the district (unless notice is prohibited by the statute or court order);

The district will, via written agreements, designate authorized representatives who have access to educational records. The written consent must specify the records to be released, the reasons for such release, and to whom. If the parent or eligible student so requests, the district will provide them with a copy of the records disclosed. In addition, if the parent of a student who is not an eligible student so requests, the district will provide the student with a copy of the records disclosed.

Section 7. Unless specifically exempted by FERPA, all persons requesting access to such records will be required to sign a written form which indicates the legitimate educational interest that such person has in inspecting the records. Such form will be kept with the student's file and will be maintained with the student's file as long as the file is maintained.

Additional Rights Under New York State Law Related to the Protection of Student Data and Third Party Contractors

The Board prohibits all forms of discrimination and harassment against students on any basis, including but not limited to protect classed and others such as: race, color, weight, national origin, ethnic group, religion, religious practice, disability, sexual orientation, gender and sex. Allegations of violations of Policy 7380, Dignity for All Students Act shall be investigated pursuant to the 7380 Regulation.

The Board also prohibits retaliation based on an individual's opposition to discrimination or participation in a related investigation or complaint proceeding. This policy of nondiscrimination and anti-harassment will be enforced on School District premises and in school buildings; and at all school-sponsored events, programs and activities, including those that take place at locations off school premises.

The intent is to provide an environment of mutual respect for all individuals to be free of harassment and intimidation.

For purposes of this policy, harassment shall mean communication (verbal, written or graphic) and/or physical conduct based on an individual's actual or perceived protected trait which:

ANTI-HARASSMENT IN THE SCHOOL DISTRICT (cont'd)

- c) Any student or employee in the School District who wishes to file a complaint regarding discrimination or report discriminatory conduct is encouraged to make such a complaint/report in writing on forms available in any of the school offices. Allegations of Sexual Harassment shall be made under Policy 3421 for Students and Policy 3422 for Employees.

Such communication should be made as soon as possible after the incident in order to enable the District to effectively investigate and resolve the complaint.

When a student or employee has a complaint of discrimination they should refer to and use the Grievance Procedure (found in District Regulation 3420P). However, complaints may be made verbally. In order to assist the investigation, victims should document the discrimination as soon as it occurs and with as much detail as possible including: the nature of the discriminatory behavior, dates, times, places, name of person responsible for the conduct, witnesses, and victim's response to the discriminatory behavior.

In accordance with Regulation 3420P, the District will act to promptly investigate all complaints, either verbal or written, formal or informal, of allegations of harassment based on any of the characteristics described above; and will promptly take appropriate action to protect individuals from further harassment.

Upon receipt of an informal/formal complaint (even an anonymous complaint), the District will conduct a thorough investigation of the charges. However, even in the absence of an informal/formal complaint, if the District has knowledge of any occurrence of harassment, the District will investigate such conduct promptly and thoroughly. The confidentiality of investigations cannot be guaranteed, but a good faith effort shall be made to maintain confidentiality.

Both the complainant and the accused are entitled to fair treatment in the handling of the complaint. Based upon the results of this investigation, if the District determines that an employee and/or student has violated the terms of this policy and/or accompanying regulations, corrective action will be taken as warranted. Should the offending individual be a student, appropriate disciplinary measures will be applied, up to and including suspension, in accordance with applicable laws and/or regulations, District policy and regulation, and the District Code of Conduct. Should the offending individual be a school employee, appropriate disciplinary measures will be applied, up to and including termination of the offender's employment, in accordance with legal guidelines, District policy and regulation, and the applicable collective bargaining agreement(s). Third parties (such as school volunteers, vendors, etc.) who are found to have violated this policy and/or accompanying regulations and/or the Code of Conduct, will be subject to appropriate sanctions as warranted and in compliance with law. The application of such disciplinary measures by the District does not preclude the filing of civil and/or criminal charges as may be warranted.

ANTI-HARASSMENT IN THE SCHOOL DISTRICT

Prohibition of Retaliatory Behavior

The Board prohibits any retaliatory behavior directed against complainants, victims, witnesses, and/or any other individuals who participated in the investigation of a complaint of harassment. Follow-up inquiries shall be made to ensure that harassment has not resumed and that all those involved in the investigation of the harassment complaint have not suffered retaliation.

Finding That Harassment Did Not Occur

Even if a determination is made that harassment did not occur, the Superintendent/designee reserves the right to initiate staff awareness and training, as applicable, to help ensure that the school community is not conducive to fostering harassment in the workplace.

Knowingly Makes False Accusations

Employees and/or students who *knowingly* make false accusations against another individual as to allegations of harassment may also face appropriate disciplinary action.

Privacy Rights

As part of any investigation, the District has the right to search all school property and equipment including District computers. Rooms, desks, cabinets, lockers, computers, etc. are provided by the District for the use of staff and students, but the users do not have exclusive use of these locations or equipment and should not expect that materials stored therein will be private.

Training and Dissemination of Administrative Regulations

The Superintendent/designee(s) will affirmatively discuss the topic of harassment with all employees and students, express the District's condemnation of such conduct, and explain the sanctions for such harassment. Appropriate training and/or "awareness" programs will be established for staff and students to help ensure knowledge of and familiarity with the issues pertaining to harassment in the schools, and to disseminate preventative measures to help reduce such incidents of prohibited conduct. Furthermore, special training will be provided for designated supervisors and managerial employees, as may be necessary, for the investigation of harassment complaints.

A copy of this policy and its accompanying regulations will be available upon request and may be posted at various locations in each school building. The District's policy and regulations on anti-harassment will be published in appropriate school publications such as teacher/employee handbooks, student handbooks, and/or school calendars.

SEXUAL HARASSMENT OF STUDENTS

The Board of Education recognizes that harassment of students on the basis of actual or perceived sex, sexual orientation, and/or gender identity and expression is unacceptable behavior that harms targets and negatively impacts the school culture by creating an environment of fear, distrust, intimidation and intolerance. The Board further recognizes that preventing and remedying such harassment in schools is essential to ensure a healthy, nondiscriminatory environment in which students can learn.

Sexual harassment is a form of sex discrimination and is unlawful under federal and state law. For purposes of this policy, sexual harassment includes harassment on the basis of actual or perceived sex, sexual orientation, and/or gender identity and expression. Sexual harassment of a student can deny or limit the student's ability to participate in or to receive benefits, services, or opportunities from the school's program. The District shall appoint one or more Title IX Coordinators each year and provide the Title IX Coordinator's contact information in the regulation that accompanies this policy (3421-R).

Sexual harassment is covered by a number of laws including Title IX and New York State Law and the Dignity for All Students Act. Accordingly, each incident will be evaluated by the Title IX Coordinator. The Complainant shall have the right to determine how they want to proceed. Even if a Complainant chooses not to pursue a Title IX complaint, the District has the right to pursue the matter through its Code of Conduct and Policies and Procedures.

Title IX applies to situations in which the district exercises substantial control over both the respondent (i.e. the person accused of sexual harassment) and the context (e.g. the school setting, a school field trip or an off-campus school event in the United States) in which the sexual harassment occurred.

Pursuant to Title IX sexual harassment is defined as:

- An employee of a district conditioning the provision of an aid, benefit or service on an individual's participation in unwelcome sexual conduct;
- Unwelcome conduct which a reasonable person would determine to be so severe, pervasive, and objectively offensive that it effectively denies a person equal access to the district's educational program or activity; or
- Sexual assault, dating violence, domestic violence, and stalking as defined under the Clery Act and the Violence Against Women Act.

Sexual harassment can include unwelcome sexual advances, requests for sexual favors, and other verbal, nonverbal, or physical conduct of a sexual nature, or verbal, nonverbal or

(Continued)

SEXUAL HARASSMENT OF STUDENTS (cont'd)

physical aggression, intimidation or hostility that is based on actual or perceived gender and sexual stereotypes. Examples of sexual harassment can be found in the accompanying regulation (3421R).

The Board is committed to providing an educational environment that promotes respect, dignity and equality and that is free from all forms of sexual harassment. To this end, the Board condemns and strictly prohibits all forms of sexual harassment on school grounds, school buses and at all school-sponsored activities, programs and events, including those that take place at locations outside the district, or outside the school setting if the harassment impacts the individual's education in a way that violates their legal rights, including when harassment is done by electronic means (including on social media). Sanctions will be enforced against all those who engage in sexual harassment or retaliation, and against district personnel who knowingly allow such behavior to continue.

Sexual harassment may subject the district to liability for harm done to targets. Harassers may also be individually subject to civil liability if sued in a court of law or criminal liability if prosecuted.

Under various state and federal laws, students have legal protections against sexual harassment in the school environment as described above. Those laws are listed in the references section. The district's Code of Conduct also addresses appropriate behavior in the school environment. Sexual harassment can occur between persons of all ages and genders.

The District does not discriminate on the basis of sex in the educational programs or activities that it operates. In addition, pursuant to Title IX the District is required to not discriminate on the basis of sex.

In order for the Board to effectively enforce this policy and to take prompt both corrective and supportive measures, it is essential that all targets of sexual harassment and persons with knowledge of sexual harassment report the harassment immediately. The District shall have actual knowledge when any school employee: (1) witnesses sexual harassment first hand; (2) hears about an allegation of sexual harassment from any source; or (3) receives a complaint about sexual harassment by any means (e.g. written, verbal, electronic). The District's Title IX Coordinator shall be informed immediately.

To the extent possible, all complaints will be treated in a confidential manner. Limited disclosure may be necessary to complete a thorough investigation. If the complainant reports that they feel unsafe at school due to the nature of the complaint, the district will determine if accommodations need to be made until the issue is resolved.

(Continued)

SEXUAL HARASSMENT OF STUDENTS (cont'd)

If, after appropriate investigation, the district finds that a person has violated this policy, prompt corrective action will be taken in accordance with the applicable collective bargaining agreement, contract, district policy and laws.

All complainants and those who participate in sexual harassment complaints or the investigation of a complaint of sexual harassment have the right to be free from retaliation of any kind, when they do so with a good faith belief that sexual harassment has occurred. Such prohibited retaliation can include, but is not limited to, discipline, discrimination, demotion, denial of privileges, or any action that would keep a person from coming forward to make or support a sexual harassment claim. Such actions need not be job- or education-related, or occur in the workplace or educational environment, to constitute unlawful retaliation.

The Superintendent of Schools is directed to develop and implement regulations for reporting, investigating and remedying allegations of sexual harassment. These regulations are to be attached to this policy. If Title IX regulations change, the regulations will default to the requirements under the law. In addition, the Board directs that training programs be established for students, and annually for employees, to raise awareness of the issues surrounding sexual harassment and to implement preventative measures to help reduce incidents of sexual harassment. Age-appropriate instructional materials will be incorporated into the curriculum to educate students so that they can recognize and reduce the incidence of sexual harassment.

This policy, or a simplified version, will be posted in a prominent place in each district facility, on the district's website, and will also be published in other appropriate school publications.

SEXUAL HARASSMENT OF STUDENTS REGULATION

This regulation is intended to create and preserve an educational environment free from unlawful sexual harassment on the basis of actual or perceived sex, sexual orientation, and/or gender identity and expression, in furtherance of the district's commitment to provide a healthy and productive environment for all students that promotes respect, dignity and equality. Sexual harassment is defined in the accompanying policy.

Unacceptable Conduct

School-related conduct that the district considers unacceptable and which may constitute sexual harassment includes, but is not limited to, the following:

1. rape, attempted rape, sexual assault, attempted sexual assault, forcible sexual abuse, hazing, and other sexual and gender-based activity of a criminal nature as defined under the State Penal Law;
2. unwelcome sexual advances or invitations or requests for sexual activity, including but not limited to those in exchange for grades, preferences, favors, selection for extracurricular activities, homework, etc., or when accompanied by implied or overt threats concerning the target's school evaluations, other benefits or detriments;
3. unwelcome or offensive public sexual display of affection, including kissing, hugging, making out, groping, fondling, petting, inappropriate touching of one's self or others (e.g., pinching, patting, grabbing, poking), sexually suggestive dancing, and massages;
4. any unwelcome communication that is sexually suggestive, sexually degrading or derogatory or implies sexual motives or intentions, such as sexual remarks or innuendoes about an individual's clothing, appearance or activities; sexual jokes; sexual gestures; public conversations about sexual activities or exploits; sexual rumors and "ratings lists;" howling, catcalls, and whistles; sexually graphic computer files, messages or games, etc.;
5. unwelcome and offensive name calling or profanity that is sexually suggestive or explicit, sexually degrading or derogatory, implies sexual intentions, or that is based on sexual stereotypes or sexual orientation, gender identity or expression;
6. unwelcome physical contact or closeness that is sexually suggestive, sexually degrading or derogatory, or sexually intimidating such as the unwelcome touching of another's body parts, cornering or blocking an individual, standing too close, spanking, pinching, following, stalking, frontal body hugs, etc.;
7. unwelcome and sexually offensive physical pranks or touching of an individual's clothing, such as hazing and initiation, "streaking" (running naked in public), "mooning" (exposing one's buttocks), "snuggies" or "wedgies" (pulling underwear up at the waist so it goes in between the buttocks), bra-snapping, skirt "flip-ups," "pantsing" or "spiking" (pulling down someone's pants or swimming suit); pinching; placing hands inside an individual's pants, shirt, blouse, or dress, etc.;
8. unwelcome leers, stares, gestures, or slang that are sexually suggestive; sexually degrading or derogatory or imply sexual motives or intentions;

9. clothing with sexually obscene or sexually explicit slogans or messages;
10. unwelcome written or pictorial display or distribution (including via electronic devices) of pornographic or other sexually explicit materials such as signs, graffiti, calendars, objects, magazines, videos, films, Internet material, etc.;
11. other hostile actions taken against an individual because of that person's actual or perceived sex, sexual orientation, gender identity or expression, such as interfering with, destroying or damaging a person's school area or equipment; sabotaging that person's school activities; bullying, yelling, or name calling; or otherwise interfering with that person's ability to participate in school functions and activities; and
12. any unwelcome behavior based on sexual stereotypes and attitudes that is offensive, degrading, derogatory, intimidating, or demeaning, including, but not limited to:
 - a. disparaging remarks, slurs, jokes about or aggression toward an individual because the person displays mannerisms or a style of dress inconsistent with stereotypical characteristics of the person's sex;
 - b. ostracizing or refusing to participate in group activities with an individual (for example, during class projects, physical education classes or field trips) because of the individual's actual or perceived sex, sexual orientation, and/or gender identity or expression;
 - c. taunting or teasing an individual because they are participating in an activity not typically associated with the individual's actual or perceived sex, sexual orientation, or gender.

For purposes of this regulation, action or conduct will be considered "unwelcome" if the student did not request or invite it and regarded the conduct as undesirable or offensive.

Sexual harassment may occur on school grounds, school buses and at all school-sponsored activities, programs and events, including those that take place at locations outside the district, or outside the school setting if the harassment impacts the individual's education in a way that violates their legal rights, including when the harassment is done by electronic means (including on social media).

Sexual harassment is defined differently by different laws. Accordingly, any complaint of sexual harassment that does not meet the jurisdiction of Title IX may still be addressed as sexual harassment but under the District's Code of Conduct and/or New York State law.

Determining if Prohibited Conduct is Sexual Harassment

Complaints of sexual harassment will be thoroughly investigated to determine whether the totality of the behavior and circumstances meet any of the elements of the definitions of sexual harassment as outlined in the policy and should therefore be treated as sexual harassment. Not all unacceptable conduct with sexual connotations may constitute sexual harassment under a specific federal or state law. If the behavior doesn't rise to the level of sexual harassment under the law, but is found to be objectionable behavior, the behavior may

SEXUAL HARASSMENT OF STUDENTS REGULATION

be addressed under other components of the Code of Conduct and, when appropriate the individual will be educated and counseled in order to prevent the behavior from continuing.

For example, an allegation that if taken as true is not severe, pervasive, and objectively offensive or that does not fall under the jurisdiction of Title IX, may still be a violation of sexual harassment. Such a complaint will be investigated at the building level.

In evaluating the totality of the circumstances and making a determination of whether conduct constitutes sexual harassment, the following may be considered:

1. the degree to which the conduct affected the ability of the student to participate in or benefit from their education or altered the conditions of the student's learning environment;
2. the type, frequency and duration of the conduct;
3. the identity of and relationship between the alleged harasser and the subject of the harassment (e.g., sexually based conduct by an authority figure is more likely to create a hostile environment than similar conduct by a peer);
4. the number of individuals involved;
5. the age and sex of the alleged harasser and the target of the harassment;
6. the location of the incidents and context in which they occurred;
7. other incidents at the school; and
8. incidents of gender-based discrimination.

Reporting Complaints

Students who believe they been the target of sexual harassment related to the school setting are encouraged to report complaints to the Title IX coordinator as soon as possible after the incident in order to enable the district to promptly and effectively investigate and resolve the complaint. Any person who witnesses or is aware of sexual harassment of a student is required under the law to report the incident or behavior to the district, via the Building Principal/Department Head who will contact the Title IX Coordinator or directly to the District's Title IX Coordinator.

The Title IX Coordinator is:

Stephanie Laffin

Assistant Superintendent for Curriculum & Instruction

SEXUAL HARASSMENT OF STUDENTS REGULATION

The District is obligated to act once it has actual knowledge of an allegation in violation of Title IX. Accordingly, the Title IX Coordinator must be immediately informed. The student target will meet with the Title IX Coordinator for several reasons: (1) to receive any reasonable supportive measures; (2) to be informed of the District's Title IX policy, including their right to file a formal complaint;; and (3) to learn how to file a formal complaint. Targets are encouraged to submit the complaint in writing; however, complaints may be filed verbally. However, the target must formalize their complaint in order for it to be investigated under Title IX.

Complaints should be filed with the Principal or the Title IX coordinator; however, students may go to any district employee with sexual harassment complaints.

Any school employee who receives a complaint of sexual harassment from a student must inform the student of the employee's obligation to report the complaint to the school administration, and must then immediately notify the Title IX coordinator.

In order to assist investigators, targets should document the harassment as soon as it occurs and with as much detail as possible including: the nature of the harassment; dates, times, places it has occurred; name of harasser(s); witnesses to the harassment; and the target's response to the harassment.

The Title IX coordinator will offer supportive measures which may include a referral of the target, as appropriate, to school social workers, school psychologists, crisis team managers, other school staff, or appropriate outside agencies for counseling services.

Confidentiality

It is district policy to respect the privacy of all parties and witnesses to complaints of sexual harassment. To the extent possible, the district will not release the details of a complaint or the identity of the complainant or the individual(s) against whom the complaint is filed to any third parties who do not need to know such information. However, because an individual's need for confidentiality must be balanced with the district's legal obligation to provide due process to the accused, to conduct a thorough investigation, or to take necessary action to resolve the complaint, the district retains the right to disclose the identity of parties and witnesses to complaints in appropriate circumstances to individuals with a need to know. The staff member responsible for investigating formal complaints will discuss confidentiality standards and concerns with all complainants.

If a target, after meeting with the Title IX Coordinator, determines to not file a formal complaint the alleged behavior may still be addressed by the District under its other policies and procedure.

ONTEORA CENTRAL SCHOOL DISTRICT

PO Box 300 • Boiceville, NY 12412

Regulation Number: 3421R

Date: 3/17/22

SEXUAL HARASSMENT OF STUDENTS REGULATION

If a target does file a formal complaint, the following process shall be followed. Please be aware that should the federal regulations under Title IX pertaining to the Title complaint procedures the District shall default to the current law.

Investigation and Resolution Procedure

A. Level One Procedure

If the student target decides to file a formal complaint, the Title IX Coordinator will issue a notice of allegations pursuant to a formal complaint to all parties. In the notice of allegation all parties will be informed that they have a right to an advisor of their choice. In addition, the parties will be advised of the possibility of informal resolution by a trained facilitator. Both parties need to volunteer and give written consent to participate in informal resolution. Informal resolution may not be used with employee-student matters. Informal resolution is not an option after a decision has been made under this policy.

In addition, the Title IX Coordinator will appoint a Title IX investigator. The Title IX investigator shall provide written notice of the investigation.

All persons involved in an investigation (complainants, witnesses and alleged harassers) will be accorded due process to protect their rights to a fair and impartial investigation. This investigation shall be prompt and thorough, and shall be completed as soon as possible. There shall be a presumption that the accused is not responsible for the alleged conduct until after a determination is made. No questions or evidence may be permitted that are protected under a legally recognized privilege, unless the person holding the privilege has waived the privilege.

Immediately, but no later than two working days following receipt of a formal complaint, the Title IX coordinator shall notify the parties, prospective witness, and any individual who may have evidence important to the investigation. The Title IX investigator shall begin an investigation of the complaint according to the following steps:

1. Interview the target and document the conversation. Recommend the target to have no contact or communication regarding the complaint with the alleged harasser. Ask the target specifically what action they want taken in order to resolve the complaint.
2. Review any written documentation of the harassment prepared by the target. If the target has not prepared written documentation, ask the target to do so, providing alternative formats for individuals with disabilities and young children, who have difficulty writing and need accommodation.
3. Request, review, obtain and preserve any evidence of harassment (e.g., documents, emails, phone records, etc.), if any exist.
4. Interview the alleged harasser regarding the complaint and inform the alleged harasser that if the objectionable conduct has occurred, it must cease immediately. Document

the conversation. Provide the alleged harasser an opportunity to respond to the charges both verbally and in writing.

5. Inform the alleged harasser to have no contact or communication regarding the complaint with the target and to not retaliate against the target. Warn the alleged harasser that if they make such contact with or retaliate against the target, they will be subject to immediate and/or additional disciplinary action.
6. Interview any witnesses to the complaint. Where appropriate, obtain a written statement from each witness. Caution each witness to keep the complaint and their statement confidential. Employees may be required to cooperate as needed in investigations of suspected sexual harassment.
7. Review all documentation and information relevant to the complaint and provide to the parties for review. Each party shall have 10 days to provide a written response to the Title IX investigator. The Title IX investigator will have 10 days to summarize and prepare the final investigation report. The Title investigator will not reach a determination of fault.
8. Involvement and Notification
 - a. Parents/guardians of student targets and accused students will be notified within one school day of allegations that are serious or involve repeated conduct.
 - b. The parents/guardians of students who file complaints are welcome to participate at each stage of both informal and formal investigation and resolution procedures.
 - c. If either the target or the accused is a student receiving special education services under an IEP or section 504/Americans with Disabilities Act accommodations, the committee on special education will be consulted to determine the degree to which the student's disability either caused or is affected by the discrimination or policy violation. In addition, due process procedures required for persons with disabilities under state and federal law will be followed.
 - d. The Title IX investigator will submit a copy of all investigation and interview documentation to the Title IX decision-maker.
 - e. The Title IX decision-maker will report back to both the target and the accused, notifying them in writing, and also in person as appropriate, regarding the decision-makers process for determining the outcome of the investigation, including the question and answer format available to both parties and that the decision maker will share with both parties in writing the questions and answers. Once the question and answer process is completed, the decision maker will make a determination as to fault based upon the preponderance of the evidence standard. The decision maker will notify both parties of the outcome of the investigation and the action necessary to resolve the complaint. For example, if the respondent is found to be responsible for the behavior in violation of the Sexual Harassment Policy, the decision maker will refer the

matter to a Superintendent's hearing if the behavior could warrant discipline greater than five days suspension. The decision-maker will instruct the parties to report immediately if the objectionable behavior occurs again or if the anyone retaliates against them.

- f. The decision-maker will notify the parties that if they desire further action based on the grounds for appeal set forth below, they may request a level two review by contacting the Superintendent of Schools. The investigator will also notify the target of their right to contact the New York State Division of Human Rights, or the U.S. Department of Education's Office for Civil Rights.
9. The Decision maker shall create a written documentation of the investigation, kept in a secure and confidential location, shared with the parties simultaneously, containing:
 - a. Identification of the allegations potentially constituting sexual harassment.
 - b. A description fo the procedural steps taken from the receipt of the formal complaint through the determination, including any notifications to the parties, interview with parties and witnesses, site visits, methods used to gather other evidence and the question and answer method used.
 - c. Findings of fact supporting the determination;
 - d. Conclusions regarding the application of the code of conduct to the facts;
 - e. A statement of, and rationale for, the result as to each allegation, including a determination regarding responsibility;

If the decision maker determines that sexual harassment did occur, based on a preponderance of the evidence, the decision-maker will promptly notify the Superintendent, including but not limited to suspension from school, who will then take prompt disciplinary action in accordance with district policy, the applicable collective bargaining agreement or state law (e.g. 3214 hearing for students).

Where the Title IX coordinator/investigator has a reasonable suspicion that the alleged harassment involves criminal activity, they must immediately notify the Superintendent, who will then contact appropriate child protection and law enforcement authorities. Where criminal activity is alleged or suspected by a district employee, the accused employee will be suspended pending the outcome of the investigation, consistent with all contractual or statutory requirements.

Appeals may be made by either the target or the accused on the following grounds and must be submitted in writing to the Superintendent within 10 days of receipt of the written decision:

- Procedural irregularities affected the outcome of the matter

- New evidence that was not reasonably available at the time of the determination regarding responsibility or dismissal was made that would affect the outcome of the matter; and
- The Title IX Coordinator, investigator(s), or decision-maker(s) had a conflict of interest or was bias.

At anytime during the grievance procedure the Title IX investigator or coordinator determine that the matter does not fall within the jurisdiction of Title IX, they may be mandated to or have the discretion to dismiss the complaint. Mandatory dismissal is for allegation not occurring in an educational program or activity, conduct that does not fall under the Title IX definition of sexual harassment, or conduct that occurred outside the jurisdiction of Title IX. Discretionary dismissal is permitted if the complainant withdraws, the respondent is no longer affiliated with the District, or evidence is unavailable.

B. Level Two Procedure

The Superintendent will promptly notify the Parties that an appeal has been made. The Superintendent shall review those complaints appealed to the Superintendent following the determination of the decision maker. In the event the complaint of sexual harassment involves the Superintendent or the Superintendent was involved in the level one procedure, the complaint will be filed with or referred to the Board President, who may refer the complaint to a trained investigator not employed by the district for investigation.

The level two review should begin as soon as possible but not later than three working days following receipt of the complaint by the Superintendent or Board President.

The Superintendent of Schools or outside investigator will review all documentation from the level one investigation and from the decision-maker. The Superintendent or outside investigator may request that the target, alleged harasser, the Title IX investigator, decision-maker, student, non- employee, or any member of the District's staff present a written statement setting forth any information that such person has relative to the complaint and the facts surrounding it or may, in their discretion, decide to speak with any individuals regarding the complaint.

When reviewing cases involving volunteers and non-employees, the investigator shall consider the extent of the District's control and any other legal responsibility the District may have with respect to the conduct of the accused.

If a level two review in a determination that sexual harassment did occur, prompt corrective action will be taken to end the harassment. Where appropriate, district investigators may suggest mediation as a means of exploring options of corrective action and informally resolving the complaint.

SEXUAL HARASSMENT OF EMPLOYEES

The Board of Education recognizes that harassment of employees (including all staff, applicants for employment, both paid and unpaid interns, exempt and non-exempt status, part-time, seasonal, and temporary workers, regardless of immigration status) and certain “non-employees” (which includes contractors, subcontractors, vendors, consultant and other persons providing services pursuant to a contract, or their employees, as well as volunteers) on the basis of actual or perceived sex, sexual orientation, and/or gender identity and expression is unacceptable behavior that harms targets and negatively impacts the school culture by creating an environment of fear, distrust, intimidation and intolerance. The Board further recognizes that preventing and remedying such harassment in the workplace is essential to ensure a healthy, nondiscriminatory environment in which employees and non-employees can work productively.

Definitions of Sexual Harassment

The District is obligated to follow federal, state, and (where applicable), local laws pertaining to sexual harassment, including Title VII, Title IX and the New York Human Rights Law. Each law has a different definition of sexual harassment. Accordingly, each claim of sexual harassment will be reviewed under each pertinent law to determine whether sexual harassment has occurred. For purposes of this policy, sexual harassment includes harassment on the basis of perceived or self-identified sex, sexual orientation, gender identity and expression, and transgender status.

Sexual harassment includes unwelcome conduct which is either of a sexual nature, or which is directed at an individual because of that individual's sex, sexual orientation, gender identity and expression, and transgender status, when:

- a. submission to that conduct is made either explicitly or implicitly a term or condition of an individual's employment;
- b. submission to or rejection of such conduct is used as the basis for decisions affecting an individual's employment; or
- c. the conduct has the purpose or effect of unreasonably interfering with an employee's or non-employee's work or creating an intimidating, hostile or offensive work environment, even if the complaining individual is not the intended target of the sexual harassment;

However, under New York State Human Rights Law, sexual harassment need not be severe or pervasive to be unlawful, and can be any harassing conduct that consists of more than petty slights or trivial inconveniences. Rather, sexual harassment is unlawful when it subjects an individual to inferior terms, conditions, or privileges of employment.

(Continued)

SEXUAL HARASSMENT OF EMPLOYEES (cont'd)

Sexual harassment can include unwelcome sexual advances, requests for sexual favors, and other verbal, nonverbal, or physical conduct of a sexual nature, or verbal, nonverbal or physical aggression, intimidation or hostility that is based on actual or perceived gender and sexual stereotypes. Examples of sexual harassment can be found in the accompanying regulation.

Title IX

The District shall appoint one or more Title IX Coordinators each year and provide the Title IX Coordinator's contact information in the regulation that accompanies this policy (3422-R).

Title IX applies to situations in which the district exercises substantial control over both the respondent (i.e. the person accused of sexual harassment) and the context (e.g. the school setting, a school field trip or an off-campus school event in the United States) in which the sexual harassment occurred.

Pursuant to Title IX Sexual Harassment is defined as:

- An employee of a district conditioning the provision of an aid, benefit or service on an individual's participation in unwelcome sexual conduct;
- Unwelcome conduct which a reasonable person would determine to be so severe, pervasive, and objectively offensive that it effectively denies a person equal access to the district's educational program or activity; or
- Sexual assault, dating violence, domestic violence, and stalking as defined under the Clery Act and the Violence Against Women Act.

The District does not discriminate on the basis of sex in the educational programs or activities that it operates. In addition, pursuant to Title IX the District is required to not discriminate on the basis of sex.

Sexual Harassment Prohibited

The Board is committed to providing a working environment that promotes respect, dignity and equality and that is free from all forms of sexual harassment. To this end, the Board condemns and strictly prohibits all forms of sexual harassment on school grounds, school buses and at all school- sponsored activities, programs and events, including those that take place at locations outside the district, or outside the work setting if the harassment impacts the individual's employment in a way that violates their legal rights, including when employees and non-employees travel on district business, or when harassment is done by electronic means (including on social media). For employees, sexual harassment is considered a form of employee misconduct. Corrective action will be enforced against all

SEXUAL HARASSMENT OF EMPLOYEES (cont'd)

those who engage in sexual harassment or retaliation, and against supervisory and managerial personnel who knowingly allow such behavior to continue.

Sexual harassment may subject the district to liability for harm done to targets. Harassers may also be individually subject to civil liability if sued in a court of law or criminal liability if prosecuted.

Under various state and federal laws, students, employees and non-employees have legal protections against sexual harassment in the school environment as described above. Those laws are listed in the references section. Additionally, local laws (e.g., county, city, town, village) may apply to the district. The district's Code of Conduct also addresses appropriate behavior in the school environment. Sexual harassment can occur between persons of all ages and genders.

In order for the Board to effectively enforce this policy and to take prompt corrective measures, it is essential that all targets of sexual harassment and persons with knowledge of sexual harassment report the harassment immediately. The district will promptly investigate all complaints of sexual harassment, either formal or informal, verbal or written. To the extent possible, all complaints will be treated in a confidential manner. Limited disclosure may be necessary to complete a thorough investigation. If the complainant reports that they feel unsafe at work due to the nature of the complaint, the district will determine if accommodations need to be made until the issue is resolved.

If, after appropriate investigation, the district finds that a person has violated this policy, prompt corrective action will be taken in accordance with the applicable collective bargaining agreement, contract, district policy and laws. Individual nondisclosure agreements may only be used as permitted by law, described in the accompanying regulation.

All complainants and those who participate in sexual harassment complaints or the investigation of a complaint of sexual harassment have the right to be free from retaliation of any kind, when they do so with a good faith belief that sexual harassment has occurred. Such prohibited retaliation can include, but is not limited to, discipline, discrimination, demotion, denial of privileges, or any action that would keep a person from coming forward to make or support a sexual harassment claim. Such actions need not be job-related, or occur in the workplace, to constitute unlawful retaliation.

The Superintendent of Schools is directed to develop and implement regulations for reporting, investigating and remedying allegations of sexual harassment. These regulations are to be attached to this policy. In addition, the Board directs that training programs be established for students, and annually for employees, to raise awareness of the issues surrounding sexual harassment and to implement preventative measures to help reduce

SEXUAL HARASSMENT OF EMPLOYEES REGULATION

This regulation is intended to create and preserve a working environment free from unlawful sexual harassment on the basis of perceived or self-identified sex, sexual orientation, and/or gender identity and expression, in furtherance of the district's commitment to provide a healthy and productive environment for all employees (including all staff, applicants for employment, both paid and unpaid interns, exempt and non-exempt status, part-time, seasonal, and temporary workers, regardless of immigration status) and “non-employees” (i.e., contractors, subcontractors, vendors, consultant and other persons providing services pursuant to a contract, or their employees) that promotes respect, dignity and equality. Sexual harassment is defined in the accompanying policy.

Unacceptable Conduct

Conduct that the district considers unacceptable and which may constitute sexual harassment includes, but is not limited to, the following:

1. rape, attempted rape, sexual assault, attempted sexual assault, forcible sexual abuse, hazing, and other sexual and gender-based activity of a criminal nature as defined under the State Penal Law;
2. unwelcome sexual advances or invitations or requests for sexual activity, including but not limited to those in exchange for promotions, preferences, favors, selection for job assignments, etc., or when accompanied by implied or overt threats concerning the target's work evaluations, other benefits or detriments;
3. unwelcome or offensive public sexual display of affection, including kissing, hugging, making out, groping, fondling, petting, inappropriate touching of one's self or others (e.g., pinching, patting, grabbing, poking), sexually suggestive dancing, and massages;
4. any unwelcome communication that is sexually suggestive, sexually degrading or derogatory or implies sexual motives or intentions, such as sexual remarks or innuendoes about an individual's clothing, appearance or activities; sexual jokes; sexual gestures; public conversations about sexual activities or exploits; sexual rumors and "ratings lists;" howling, catcalls, and whistles; sexually graphic computer files, messages or games, etc.;
5. unwelcome and offensive name calling or profanity that is sexually suggestive or explicit, sexually degrading or derogatory, implies sexual intentions, or that is based on sexual stereotypes or sexual orientation, gender identity or expression;
6. unwelcome physical contact or closeness that is sexually suggestive, sexually degrading or derogatory, or sexually intimidating such as the unwelcome touching of another's body parts, cornering or blocking an individual, standing too close, spanking, pinching, following, stalking, frontal body hugs, etc.;
7. unwelcome and sexually offensive physical pranks or touching of an individual's clothing, such as hazing and initiation, “streaking” (running naked in public), “mooning” (exposing one’s buttocks), “snuggies” or “wedgies” (pulling underwear up at the waist so it goes in between the buttocks), bra-snapping, skirt “flip-ups,” “pantsing” or “spiking” (pulling down someone's pants or swimming suit); pinching;

- placing hands inside an individual's pants, shirt, blouse, or dress, etc.;
8. unwelcome leers, stares, gestures, or slang that are sexually suggestive; sexually degrading or derogatory or imply sexual motives or intentions;
 9. clothing with sexually obscene or sexually explicit slogans or messages;
 10. unwelcome written or pictorial display or distribution (including via electronic devices) of pornographic or other sexually explicit materials such as signs, graffiti, calendars, objects, magazines, videos, films, Internet material, etc.;
 11. other hostile actions taken against an individual because of that person's perceived or self-identified sex, sexual orientation, gender identity or transgender status, such as interfering with, destroying or damaging a person's work area or equipment; sabotaging that person's work activities; bullying, yelling, or name calling; or otherwise interfering with that person's ability to work or participate in school functions and activities; and
 12. any unwelcome behavior based on sexual stereotypes and attitudes that is offensive, degrading, derogatory, intimidating, or demeaning, including, but not limited to:
 - a. disparaging remarks, slurs, jokes about or aggression toward an individual because the person displays mannerisms or a style of dress inconsistent with stereotypical characteristics of the person's sex;
 - b. ostracizing or refusing to participate in group activities with an individual (including, but not limited to, projects or trips) because of the individual's perceived or self-identified sex, sexual orientation, gender identity or expression or transgender status;
 - c. taunting or teasing an individual because they are participating in an activity not typically associated with the individual's sex, sexual orientation or gender.

For purposes of this regulation, action or conduct will be considered "unwelcome" if the employee or "non-employee" did not request or invite it and regarded the conduct as undesirable or offensive.

Sexual harassment may occur on school grounds, school buses and at all school-sponsored activities, programs and events, including those that take place at locations outside the district, or outside the work setting if the harassment impacts the individual's employment in a way that violates their legal rights, including when employees or "non-employees" travel on district business, or when the harassment is done by electronic means (including on social media).

Determining if Prohibited Conduct is Sexual Harassment

Complaints of sexual harassment will be thoroughly investigated to determine whether the totality of the behavior and circumstances meet any of the elements of the above definition of sexual harassment and should therefore be treated as sexual harassment. Not all unacceptable conduct with sexual connotations or based on sex may constitute sexual

harassment under specific laws. Such conduct must rise above what a reasonable victim of discrimination with the same protected characteristics would consider petty slights or trivial inconveniences to be considered sexual harassment. If the behavior doesn't rise to the level of sexual harassment, but is found to be objectionable behavior, the behavior may be addressed under another employee policy or the individual will be educated and counseled in order to prevent the behavior from continuing.

In evaluating the totality of the circumstances and making a determination of whether conduct constitutes sexual harassment, the individual investigating the complaint should consider:

1. the degree to which the conduct altered the conditions of the employee's or "non-employee's" working environment;
2. the type, frequency and duration of the conduct;
3. the identity of and relationship between the alleged harasser and the subject of the harassment (e.g., sexually based conduct by an authority figure is more likely to create a hostile environment than similar conduct by a peer);
4. the number of individuals involved;
5. the age and sex of the alleged harasser and the target of the harassment;
6. the location of the incidents and context in which they occurred;
7. other incidents at the school; and
8. incidents of gender-based discrimination.

Reporting Complaints

Employees and "non-employees" who believe they have been the target of sexual harassment in the workplace are encouraged to report complaints as soon as possible after the incident in order to enable the district to promptly and effectively investigate and resolve the complaint. Any person who witnesses or is aware of sexual harassment of an employee or "non-employee" is required to report the incident or behavior to the district. Targets are encouraged to submit the complaint in writing; however, complaints may be filed verbally.

Complaints should be filed with the Title IX coordinator. The District's Title IX coordinator is Stephanie Laffin

source; or (3) receives a complaint about sexual harassment by any means (e.g. written, verbal, electronic). The District's Title IX Coordinator shall be informed immediately.

School employees receiving complaints of sexual harassment from employees and "non- employees" must report the incident to the Title IX coordinator. Supervisory and managerial personnel are required to report complaints of sexual harassment, and will be subject to discipline for failing to report suspected or reported sexual harassment, knowingly allowing sexual harassment to continue, or engaging in any retaliation.

In order to assist investigators, targets should document the harassment as soon as it occurs and with as much detail as possible including: the nature of the harassment; dates, times, places it has occurred; name of harasser(s); witnesses to the harassment; and the target's response to the harassment.

Once the Title IX Coordinator receives the complaint or allegation, the Title IX Coordinator shall meet with the target to review three things: (1) explain and provide reasonable supportive measures; (2) inform the individual of the District's Title IX policy, including their right to file a formal complaint; and (3) explain how to file a formal signed Title IX complaint.

The Title IX coordinator will offer reasonable supportive measures to the target. If appropriate, the Title IX coordinator may refer the target, as appropriate, to school social workers, school psychologists, crisis team managers, other school staff, or appropriate outside agencies for counseling services.

Confidentiality

It is district policy to respect the privacy of all parties and witnesses to complaints of sexual harassment. To the extent possible, the district will not release the details of a complaint or the identity of the complainant or the individual(s) against whom the complaint is filed to any third parties who do not need to know such information. However, because an individual's need for confidentiality must be balanced with the district's legal obligation to provide due process to the accused, to conduct a thorough investigation, or to take necessary action to resolve the complaint, the district retains the right to disclose the identity of parties and witnesses to complaints in appropriate circumstances to individuals with a need to know. The staff member responsible for investigating complaints will discuss confidentiality standards

and concerns with all complainants.

If a complainant requests that their name not be revealed to the individual(s) against whom a complaint is filed, the staff member responsible for conducting the investigation will inform the complainant that:

1. the request may limit the district's ability to respond to their complaint;
2. district policy and federal law prohibit retaliation against complainants and witnesses;
3. the district will attempt to prevent any retaliation; and
4. the district will take strong responsive action if retaliation occurs.

If the complainant still requests confidentiality after being given the notice above, the investigator will take all reasonable steps to investigate and respond to the complaint consistent with the request as long as doing so does not preclude the district from responding effectively to the harassment and preventing the harassment of others.

Investigation and Resolution Procedure

Please note, if the Title IX regulations change, the District's procedure will default to the requirements under the law.

A. Level One Procedure

When the investigation **is not being reviewed** under Title IX, the assigned Title IX coordinator will conduct a preliminary review when they receive a verbal or written complaint of sexual harassment, or if they observe sexual harassment. Except in the case of severe or criminal conduct, the Title IX coordinator should make all reasonable efforts to resolve complaints informally at the school level. The goal of informal investigation and resolution procedures is to end the harassment and obtain a prompt and equitable resolution to a complaint. All persons involved in an investigation (complainants, witnesses and alleged harassers) will be accorded due process to protect their rights to a fair and impartial investigation. This investigation shall be prompt and thorough, and shall be completed as soon as possible. There shall be a presumption that the accused is not responsible for the alleged conduct until after a determination is made. No questions or evidence may be permitted that are protected under a legally recognized privilege, unless the person holding the privilege has waived the privilege. If an allegation that if taken as true is not severe, pervasive, and objectively offensive or that does not fall under the jurisdiction of Title IX, may still be a violation of sexual harassment. Such a complaint will be investigated by the individual's supervisor unless the supervisor is part of the allegation.

When a complainant decides to **file a formal Title IX complaint, or if the investigation does not get resolved above, immediately, but no later than five working**

days following receipt of a complaint, the Title IX investigator shall begin an investigation of the complaint according to the following steps:

1. Provide appropriate notice of allegation to each party, including their right to an advisor throughout the process.
2. Assign a Title IX investigator to the matter who will provide a notice of interview and evidence collection to each individual who will be interviewed or asked to provide evidence.
3. Interview the target and document the conversation. Recommend the target to have no contact or communication regarding the complaint with the alleged harasser. Ask the target specifically what action they want taken in order to resolve the complaint.
4. Review any written documentation of the harassment prepared by the target. If the target has not prepared written documentation, ask the target to do so, providing alternative formats for individuals with disabilities who may need accommodation. If the complainant refuses to complete a complaint form or written documentation, the Title IX investigator shall complete a complaint form based on the verbal report.
5. Request, review, obtain and preserve relevant evidence of harassment (e.g., documents, emails, phone records, etc.), if any exist.
6. Interview the alleged harasser regarding the complaint and inform the alleged harasser that if the objectionable conduct has occurred, it must cease immediately. Document the conversation. Provide the alleged harasser an opportunity to respond to the charges in writing.
7. Instruct the alleged harasser to have no contact or communication regarding the complaint with the target and to not retaliate against the target. Warn the alleged harasser that if they make such contact with or retaliate against the target, they will be subject to immediate disciplinary action.
8. Interview any witnesses to the complaint. Where appropriate, obtain a written statement from each witness. Caution each witness to keep the complaint and their statement confidential. Employees may be required to cooperate as needed in investigations of suspected sexual harassment.
9. Review all documentation and information relevant to the complaint. If this is a Title IX formal complaint and investigation, the investigator will provide the parties with all of the evidence collected and interview notes. The parties will have 10 days to return a written document to the investigator regarding the relevance of each item. The Title IX investigator will have 10 days to then summarize the evidence it obtained during the investigation. The Title IX investigation summary will be provided to each party and arrangements will be made for a decision-maker to review the matter, use a question and answering process between the parties to gather to permit indirect cross examination of a party or witness and make a conclusion regarding whether sexual harassment under Title IX was violated.
10. If both parties provide voluntary written notice that they would like to resolve the matter outside of the formal process, an informal resolution may occur to resolve the complaint, including but not limited to:

If a complaint received by the Title IX Coordinator contains evidence or allegations of serious or extreme harassment, such as employee to student harassment, criminal touching, quid pro quo (e.g., offering an employment reward or punishment as an inducement for sexual favors), or acts which shock the conscience of a reasonable person, the complaint will be referred promptly to the Superintendent, who shall determine how the investigation will proceed. In addition, where the Title IX investigator has a reasonable suspicion that the alleged harassment involves criminal activity, they must immediately notify the Superintendent, who will then contact appropriate law enforcement authorities. Where criminal activity is alleged or suspected by a district employee, the accused employee will be suspended pending the outcome of the investigation, consistent with all contractual or statutory requirements.

Appeals may be made by either the target or the accused on the following grounds and must be submitted in writing to the Superintendent within 10 days of receipt of the written decision:

- Procedural irregularities affected the outcome of the matter;
- New evidence that was not reasonably available at the time of the determination regarding responsibility or dismissal was made that would affect the outcome of the matter; and
- The Title IX Coordinator, investigator(s), or decision-maker(s) had a conflict of interest or was bias.

All purchases will be confirmed promptly in writing to the school district.
2. The following written contracts are required:

 - b. A written contract will be required with the Custodial Bank(s).

No specific repurchase agreement will be entered into unless a master repurchase agreement has been executed between the school district and the trading partners. While the term of the master repurchase agreement may be for a reasonable length of time, a specific repurchase agreement will not exceed thirty (30) days.

D. Designation of Custodial Bank

1. The Board will designate a commercial bank or trust company authorized to do business in the State of New York to act as Custodial Bank of the school district's investments. However, securities may not be purchased through a Repurchase Agreement with the Custodial Bank.

GIFTS, GRANTS, SCHOLARSHIPS AND DONATIONS TO THE SCHOOL DISTRICT

The term “Gift” is understood to mean any bequest, gift, money, property good, scholarship, donation or grant.

Only the Board of Education may accept any gift for the school district.

Any gift accepted by the Board shall become the property of the District, may not be returned without the approval of the Board, and is subject to the same controls and regulations as are other properties of the district.

It shall be the policy of the district to accept a gift, provided it is made within the statutory authority granted to school districts and has received the approval of the Board of Education.

The Board reserves the right to refuse any gift which does not contribute towards the achievement of the district’s goals or the ownership of which would tend to deplete the resources of the district.

In granting or withholding its consent, the Board will review the following factors:

1. The terms of the gift must identify:
 - a. the subject of the gift
 - b. the purpose of the gift
 - c. the beneficiary or beneficiaries if any
 - d. all conditions or restrictions that may apply.
2. The gift must not benefit a particular or named individual or individuals.
3. If the purpose of the gift is an award to a single student, the determination of the recipient of such award shall be made on the basis that all students shall have an equal opportunity to qualify for it in conformance with federal and state law.
4. If the gift is in trust, the obligation of the investment and reinvestment of the principal shall be clearly specified and the application of the income or investment proceeds shall be clearly set forth.
5. No gift or trust will be accepted by the Board unless:
 - a. it is in support of and a benefit to all or to a particular public school in the district, or
 - b. it is for a purpose for which the school district could legally expend its own funds, or
 - c. it is for the purpose of awarding scholarships to students graduating from the district.

Any gift rejected by the Board shall be returned to the donor or his/her estate within 60 days together with a statement indicating the reasons for the rejection of such gift.

Soliciting and Accepting Grants or Donations

Prior to seeking any grant or donation, the applicant must obtain prior approval from the district. Teachers seeking grants or donations for their classroom must obtain approval from the Building

Approval shall depend on factors including, but not limited to: compatibility with the district's educational program and standards; availability of existing district resources; whether ownership would deplete district resources; and its impact on the equitable distribution of district resources.

All grants and donations must benefit the district and be congruent with the following principles:

1. The district's mission and vision.
2. The district and school goals that positively impact student performance.
3. The district's instructional priorities and strategies.

The Board reserves the right to deny approval of any funding, scholarship or grant application which does not contribute towards the achievement of the district's goals, or which would deplete the resources of the district. Any application for a grant which requires a match of district funds or resources when the initiative has been identified as a priority of the Board and when such funds are planned as part of the district budget process or can be accommodated by the current budget, must be pre-approved by the Board.

All solicited grants, scholarships and donations must be formally accepted by the Board.

Accounting for, and Oversight of, all Donations, Gifts and Grants

All gifts, donations, grants, funds, scholarships, property and materials received by the district become the property of the district. All items are subject to the same controls and regulations as other district property, and shall be deposited or inventoried accordingly.

Non-Instructional/Business
Operations**SUBJECT: PURCHASING**

The District's purchasing activities will be part of the responsibilities of the Business Office, under the general supervision of the Purchasing Agent designated by the Board of Education. The purchasing process should enhance school operations and educational programs through the procurement of goods and services deemed necessary to meet District needs.

Competitive Bids and Quotations

As required by law, the Superintendent will follow normal bidding procedures in all cases where needed quantities of like items will total the maximum level allowed by law during the fiscal year, (similarly for public works-construction, repair, etc.) and in such other cases that seem to be to the financial advantage of the School District.

A bid bond may be required if considered advisable.

No bid for supplies shall be accepted that does not conform to specifications furnished unless specifications are waived by Board action. Contracts shall be awarded to the lowest responsible bidder who meets specifications. However, the Board may choose to reject any bid.

Rules shall be developed by the administration for the competitive purchasing of goods and services. The Superintendent may authorize purchases within the approved budget without bidding if required by emergencies and are legally permitted.

The Superintendent is authorized to enter into cooperative bidding for various needs of the School District.

Purchase contracts and public works contracts subject to competitive bidding will be awarded to the lowest responsible bidder, however, the Board authorizes that purchase contracts may be awarded on the basis of best value, as defined in State Finance Law §163.

Alternative proposals or quotations will be secured by requests for proposals, written or verbal quotations or any other appropriate method of procurement, except as permitted by state law for procurements:

1. under a county contract;
2. under a state contract;
3. under a federal contract;
4. under a contract of another political subdivision;
5. of articles manufactured in state correctional institutions; or
6. from agencies for the blind and severely disabled.

The district will provide justification and documentation of any contract awarded to an offer or other than the lowest responsible dollar offer or, setting forth the reasons why such award is in the best interests of the district and otherwise furthers the purposes of section 104-b of the General Municipal Law.

Request for Proposal Process for the Independent Auditor

In accordance with law, no audit engagement shall be for a term longer than five (5) consecutive years. The District may, however, permit an independent auditor engaged under an existing contract for such services to submit a proposal for such services in response to a request for competitive proposals or be awarded a contract to provide such services under a request for proposal process.

The Purchasing Agent shall be authorized to open and record bids.
- f) Opportunity shall be provided to all responsible suppliers to do business with the District. To this end, the Purchasing Agent shall develop and maintain lists of potential bidders for the various types of materials, equipment and supplies. Such lists shall be used in the development of an mailing list for distribution of specifications and invitations to bid. Any supplier may be included on the list, upon request.
- g) When soliciting bids, a statement of "General Conditions" shall be included with all specifications submitted to suppliers. These conditions shall be incorporated in all contracts awarded for the purchase of materials, equipment and supplies.
- h) All contracts which require public advertising and competitive bidding shall be awarded as provided by law and the rules and regulations of the Board of Education. Recommendations for awarding contracts shall be submitted by the Purchasing Agent.

As required by federal law and New York State Regulations, the District has adopted the National Instructional Materials Accessibility Standard (NIMAS) to ensure that curriculum materials are available in a usable alternative format for students with disabilities. Each school district has the option of participating in the National Instructional Materials Access Center (NIMAC). Whether a district does or does not participate in NIMAC, the district will be responsible to ensure that each student who requires instructional materials in an alternate format will receive it in a timely manner and in a format that meets NIMAS standards. The New York State Education Department (NYSED) recommends that school districts choose to participate in NIMAC, because this national effort to centralize the distribution of instructional materials in alternate formats will help guarantee timely provision of such materials to students.

For school districts, Boards of Cooperative Educational Services (BOCES), State-operated schools,

State-supported schools and approved private schools that choose to participate in NIMAC, **contracts with publishers executed on and after December 3, 2006** for textbooks and other printed core materials *must* include a provision that requires the publisher to produce NIMAS files and send them to the NIMAC (this will not add any cost to the contract).

For more information regarding NIMAC including model contract language, Steps for Coordinating with NIMAC and an IDEA Part B Assurances Application, see website:

Such facilities include any building or facility used for instructional purposes and the surrounding grounds or other sites used for playgrounds, athletics or other instruction.

The District shall identify and procure environmentally sensitive cleaning and maintenance products which are available in the form, function and utility generally used. Coordinated procurement of such products as specified by the Office of General Services (OGS) may be done through central state purchasing contracts to ensure that the District can procure these products on a competitive basis.

SUBJECT: MEDICAID FRAUD WASTE AND ABUSE DETECTION AND PREVENTION COMPLIANCE

As New York State has legislated requirements for certain school districts receiving reimbursement or submitting Medicaid claims regarding the detection and prevention of fraud, waste and abuse, the Board of Education of the Onteora Central School District hereby enacts the following policy:

I. INTRODUCTION

The Onteora Central School District has developed this Fraud, Waste and Abuse (“FWA”) Compliance Policy as a comprehensive statement of the responsibilities and obligations of all employees and contractors regarding submissions of information on which payment is made or submitted to Medicaid. This policy is intended to apply to business arrangements with physicians, vendors, subcontractors, hospitals, related service providers, agents, and other persons who may be subject to federal or state laws relating to FWA.

Detecting and preventing FWA is the responsibility of everyone, including employees, members, providers and sub-contractors. The District also provides compliance training.

1. Definitions of FWA

Fraud - An intentional deception or misrepresentation made by a person with the knowledge that the deception could result in some unauthorized benefit to themselves or some other person. It includes any act that constitutes fraud under applicable federal or state law.

Waste and Abuse - Incidents or practices that are inconsistent with legal, ethical, accepted and sound business, fiscal or medical practices that result in unnecessary cost to health programs, or in reimbursement for services that are not medically necessary or that fail to meet professionally recognized standards for health care. It also includes Medicaid, School Supportive Health Services Program (“SSHSP”), and commercial plan member practices that result in unnecessary costs to a health program.

Listed below are some examples of potential FWA:

- Falsifying Claims/Encounters
- Alteration of Claim
- Incorrect Coding
- Double Billing
- Billing for services not provided
- Misrepresentation of services/supplies
- Substitution of services

II. CODE OF ETHICS

Any employee who in good faith believes they have knowledge of a potential violation of this policy, must report this information to the District directly to the Compliance Officer. Alternatively, an employee may report the violation to the District’s Legal Counsel. Violations of this policy or failure to report a known violation of the policy is considered to be a serious infraction of District procedures, and may result in the imposition of disciplinary action up to and including termination. No employee

SUBJECT: MEDICAID FRAUD WASTE AND ABUSE DETECTION AND PREVENTION COMPLIANCE (cont'd)

shall be subjected to intimidation or retaliation solely for the good faith reporting of a suspected violation.

III. EMPLOYEE PARTICIPATION AND REPORTING

It is the responsibility of every District employee to abide by applicable laws and regulations and support the District's compliance efforts by:

1. being alert to potential compliance issues relevant to their activities;
2. seeking advice from the Compliance Officer or the District's Legal Counsel regarding compliance issues as appropriate;
3. reporting their good faith belief of any suspected, actual or potential compliance violations including FWA;
4. cooperating in the investigation of compliance reports; and
5. being completely honest in all dealings with federal and state agencies and representatives.

The District shall maintain confidentiality and provide anonymity to the employee(s) to the extent possible under the circumstances, and consistent (in the judgment of the District) with its obligations to investigate employee concerns and take necessary corrective action. Any retaliation or intimidation against an employee as a result of such good faith reporting or as a result of an employee's cooperation in the investigation of such a report shall be strictly prohibited.

IV. COMPLIANCE OFFICER

The Compliance Officer is the individual within the District responsible for the day to day operation of the compliance program. The Compliance Officer shall be the coordinator for special seminars and education on compliance issues, expectations, and the compliance program operation to ensure that:

1. All employees, including new employees, are receiving adequate education and training and that such education and training is documented;
2. All employee complaints and other concerns regarding compliance are promptly investigated; and
3. Adequate steps are taken to correct any identified problems and prevent the reoccurrence of such problems.

V. REPORTING SUSPECTED VIOLATIONS

Employees shall report their good faith belief of suspected, actual, or potential violations of the compliance program, including FWA or applicable laws, either orally or in writing to the Compliance Officer. Alternatively, the employee may report the violation to the District's Legal Counsel. The District shall maintain confidentiality and provide anonymity to the employee(s) making such report to the extent possible under the circumstances.

VI. DISCIPLINARY POLICIES

Should an employee intentionally fail to report suspected problems with FWA, participate in FWA under this policy, or encourage, direct, facilitate or permit active or passive non-compliant FWA behavior, such action or inaction may lead to disciplinary action in accordance with provisions of applicable collective bargaining agreements and state and federal law.

SUBJECT: MEDICAID FRAUD WASTE AND ABUSE DETECTION AND PREVENTION COMPLIANCE (cont'd)**VII. MONITORING AND AUDITING****Procedures for Internal Monitoring and Auditing of FWA**

As an integral part of its commitment to prevent FWA, the District has developed, and shall continue to develop and refine procedures for effective internal monitoring and auditing for FWA and shall conduct Risk Assessments to detect and prevent FWA.

1. Internal Auditing and Monitoring

In order to detect non-compliance with the Compliance Program and to detect FWA, the District shall periodically monitor, internally audit, and as appropriate, externally audit the business activities of the District including, but not limited to, the auditing of the health and pharmacy claims and other compliance audits. Audits may also consist of evaluation of potential or actual non-compliance as a result of such self-evaluations, credentialing of providers and persons associated with providers, mandatory reporting, governance, and quality of care of medical assistance program beneficiaries.

Auditing and monitoring of FWA may be performed utilizing any of the following:

- a. unannounced internal audits or “spot checks;”
- b. review of areas previously found non-compliant to determine if the corrective actions taken have fully addressed the underlying problem;
- c. use of objective, independent auditors that are knowledgeable of the Medicare, Medicaid program requirements and who are not employed in the area under review; and
- d. access to existing audit resources, relevant personnel, and relevant areas of operation by both internal and independent auditors.

2. Informal Audits and Monitoring

Monitoring activities refer to reviews that are repeated on a regular basis during the normal course of operations. Monitoring may occur to ensure corrective actions are undertaken or when no specific problems have been identified to confirm ongoing compliance.

3. Risk Assessment

The District shall have a risk assessment system that determines where the District is at risk for FWA, and shall prioritize the risks. The Compliance Officer shall participate in or contribute to the risk assessment process. The District shall have a system of ongoing monitoring and auditing that is coordinated or executed by the Compliance Officer to assess performance in, at a minimum, areas identified as being at risk.

SUBJECT: MEDICAID FRAUD WASTE AND ABUSE DETECTION AND PREVENTION COMPLIANCE (cont'd)**VIII. RESPONDING TO COMPLIANCE ISSUES****1. General**

The District is committed to investigating any incident of noncompliance with the District's Compliance policy, significant failures to comply with applicable federal or state law, and other types of misconduct which threatens or calls into question the District's status as a reliable, honest, and trustworthy entity. Fraudulent or erroneous conduct that has been detected, but not corrected, can seriously endanger the reputation and legal status of the District. In this regard, the District has developed internal and external audit procedures and encourages employees to report FWA on their own initiative.

2. Investigation of and Correcting Potential Violations

Upon receipt of reports or reasonable indications of suspected noncompliance or FWA, the Compliance Officer, or their designee, will investigate the allegation(s) to determine whether a material violation of applicable law or requirements of the District's Compliance Program has occurred. Generally, investigation of a violation will be conducted by the Compliance Officer or their designee, and will normally include conferring with the parties involved, any named or apparent witnesses, review of all relevant records and documentation, and analysis of applicable laws and regulations.

In the event any material violation of this Compliance Program, or if any incident of fraud is determined by the Compliance Officer, the Compliance Officer shall immediately take appropriate actions, including:

- a. refer any abusive or potentially fraudulent conduct or inappropriate utilization activities, once identified via proactive data analysis or other processes, for further investigation to the Center for Medicare and Medicaid Services ("CMS"), the Office of Inspector General ("OIG"), the New York State Attorney General, or other state or federal agency as appropriate;
- b. immediately report potential violations of Federal law to the CMS, OIG, or, alternatively, to appropriate law enforcement authorities;
- c. cooperate with the above mentioned agencies;
- d. identify and repay any overpayments to the appropriate party; and
- e. discipline any employees or plan members who engage in fraud or abusive practices in accordance with applicable collective bargaining agreements, up to and including termination.

The results of any investigations shall be thoroughly documented. Investigation records shall include a description of the investigative process, copies of interview notes and key documents, a log of individuals interviewed and documents reviewed, the results of the investigation, and any disciplinary or corrective actions taken. Precautions shall be taken to ensure that critical documents are not destroyed without permission of the Compliance Officer and approval of Legal Counsel, and are retained in accordance with statutory guidelines regarding retention.

**SUBJECT: MEDICAID FRAUD WASTE AND ABUSE DETECTION AND PREVENTION
COMPLIANCE (Cont'd)****3. Corrective Action**

Corrective Action should be taken promptly following completion of the investigation. If an audit or investigation reveals a material violation of this policy, the Compliance Officer shall draft a corrective plan of action, and establish deadlines by which corrective action must take place. Possible corrective actions include, but are not limited to, refunds of any overpayment received, employee disciplinary action up to and including termination, and reporting to federal or state authorities.

All corrective actions shall be documented, and include progress reports with respect to each error identified. Any decision whether to disclose the results of investigations or audits to federal or state authorities shall be made in consultation with Legal Counsel.

SUBJECT: FACILITIES: INSPECTION, OPERATION AND MAINTENANCE

Operation and Maintenance

The Superintendent is charged with the responsibility for administering plant operations in the most efficient and economical manner possible, while placing high priority on health and safety of students and conservation of natural resources. The Board, through the Superintendent and their staff, has the responsibility of protecting the District facilities through a systematic maintenance program. The program shall include periodic preventive maintenance activities, long-range maintenance schedules and emergency repair procedures. The District will make reasonable attempts to ensure that all maintenance work will be carried out in a manner that will cause the least interference with the educational program.

Construction and Remodeling of School Facilities

The District will ensure all capital projects and maintenance comply with the requirements of the New York State Uniform Fire Prevention and Building Code, the Manual of Planning Standards, and the Commissioner's regulations. Relevant documentation regarding all new buildings must be formally submitted to the State Education Department (SED) no matter the size or cost. The SED Office of Facilities Planning has provided an Instruction Guide on its official website. Plans and specifications for the erection, enlargement, repair, or remodeling of facilities of the District will be submitted to the Commissioner consistent with applicable law.

Plans and specifications submitted to the Commissioner shall bear the signature and seal of an architect or engineer licensed to practice in the State of New York. The architect or engineer who sealed the plans and specifications shall also certify that the plans and specifications conform to the standards set forth in the State Uniform Fire Prevention and Building Code and the State Energy Conservation Construction Code.

For remodeling or construction projects the District will assure compliance with the requirements of the State Uniform Fire Prevention and Building Code and the Building Code and Commissioner's Regulations.-The District will also retain the services of an architect or engineer licensed to practice in New York State as required by law or regulation, or as necessary given the scope and cost of the project.

Carbon Monoxide Detection Requirements

All new and existing District buildings that have appliances, devices, or systems that may emit carbon monoxide, and all attached garages, must have a means to detect carbon monoxide. Buildings include school buildings, administrative buildings, bus maintenance facilities, concession stands, and field houses. Carbon monoxide may be produced by fuel-fired heating systems (boilers, HVAC units, and makeup air units), emergency or standby electric generation within a building, fuel-fired kitchen equipment (ranges, ovens, steamers, dishwashers, and makeup air units serving hoods), fuel-fired domestic hot water heaters, laboratory/shop equipment (gas outlets, torches, gas-fired kilns, and stationary or portable engines), maintenance and storage areas with fuel-fired equipment, and in garages.

(Continued)

SUBJECT: FACILITIES: INSPECTION, OPERATION AND MAINTENANCE (cont'd)

The District may use a self-contained carbon monoxide alarm, a carbon monoxide detection system, or both. The District will comply with all laws and regulations regarding alarms or detectors, including where they must be located, their power sources, and labeling requirements. The District should develop written standard operating procedures to follow when a carbon monoxide detector is activated.

Inspections

The District is mindful of the health and safety of its students, staff, and visitors and, as such, the District administration will cooperate with officials conducting health, fire, asbestos, bus, and boiler inspections. In addition, the administration shall keep the Board of Education informed of the results of such inspections in a timely fashion.

In accordance with the Asbestos Hazard Emergency Response Act (AHERA), the District will inform all employees and building occupants (or their legal guardians) at least once each school year about all asbestos inspections, response actions, post-response action activities, as well as triennial reinspection activities and surveillance activities that are either planned or in progress. The District will provide yearly notification to parent, teacher, and employee organizations on the availability of the District's asbestos management plan and any asbestos-related actions taken or planned in the school.

The District will test potable water for lead contamination from all outlets as required by law. If an outlet exceeds the action level for lead content, the District will prohibit use of the outlet for drinking and cooking purposes, and it will remediate the outlet before allowing these uses. The District will make all required notifications and issue all mandated reports to the public, local health department, or the SED. For ten years following creation, the District will retain all records of test results, lead remediation plans, lead-free building determinations, and waiver requests. The District may seek a waiver from testing requirements from the local health department by demonstrating prior substantial compliance with testing requirements.

Comprehensive Public School Building Safety Program (Rescue)

To ensure that all District facilities are properly maintained and preserved and provide suitable educational settings, the Board of Education requires that all occupied school facilities which are owned, operated or leased by the District comply with the provisions of the Comprehensive Public School Safety Program and the Uniform Code of Public School Building Inspections, Safety Rating and Monitoring as prescribed in Commissioner's Regulations. For this reason, the School District shall develop a Comprehensive Public School Building Safety Program in accordance with Commissioner's Regulations.

Non-Instructional/Business Operations

SUBJECT: TOBACCO-FREE, SMOKE-FREE ENVIRONMENT POLICY

The following tobacco policy was developed in accordance with the Goals 2000 Educate America Act, § 1043 (Non-Smoking Policy for Children Services), the New York State Public Health Law's Expanded Clean Indoor Air Act 2003, § 1399-opt and New York State Education Law - Article 9 Section 409.

Intent

All students shall possess the knowledge and skills necessary to avoid all tobacco use, and school leaders shall actively discourage all use of tobacco products by students, staff, and school visitors while on school property, at a school-sponsored event, or in a school-owned or school- contracted vehicle. To achieve these ends, Onteora leaders shall prepare, adopt, and implement a comprehensive plan to prevent tobacco use that includes:

- a) A sequential educational program to prevent tobacco use that is integrated within the school health education curriculum; that is aimed at influencing student' attitudes, skills, and behaviors; and that is taught by well-prepared and well-supported staff;
- b) Establishment and strict enforcement of completely tobacco-free school environments at all times;
- c) Prohibition of tobacco advertising;
- d) Appropriate counseling services and/or referrals for students and staff to help them overcome tobacco addiction;
- e) Cooperation with community-wide efforts to prevent tobacco use; and
- f) Strategies to involve family members in program development and implementation.

Rationale

Cigarette smoking is considered the chief preventable cause of premature disease and death in the United States. Schools have a responsibility to help prevent tobacco use for the sake of students' and staff members' health and the well being of their families. Research conclusively proves that:

- a) Regular use of tobacco is ultimately harmful to every user's health, directly causing cancer, respiratory and cardiovascular diseases, adverse pregnancy outcomes, and premature death;
- b) Second-hand smoke is a threat to the personal health of everyone;
 - 1) Nicotine is a powerfully addictive substance;
 - 2) Tobacco use most often begins during childhood or adolescence; and use of tobacco interferes with students' attendance and learning.

The Superintendent of Schools or designee is directed to post appropriate signage to implement this policy consistent with applicable laws. Handbooks, directional signs, memos, safety plans, and maps will also be updated as necessary.

- b) Refuse excess materials and packaging in all purchases, whenever possible.
- c) Reduce the amount of materials and energy used.
- d) Reuse all materials as appropriate instead of discarding them after a single use.

SUBJECT: SCHOOL MEAL SERVICE PROGRAM (LUNCH AND BREAKFAST)

The Board of Education recognizes that the nutrition of district students is an important factor in their educational progress. The Board therefore shall participate in federally funded school lunch programs, and shall provide free or reduced price meal services to qualified district students.

Availability, Application and Notification

Notice of the availability of the free and reduced price meal programs will be sent to the homes of students, local media, the local unemployment office and large employers experiencing layoffs in the area from which the district draws its attendance. Any child who is a member of a family unit whose income is below the federally established scale shall be eligible to receive such services.

To apply for the free [or reduced price] meal program:

- a. Application forms will be available in the main office of each school building and on the district web site <http://www.onteorak12.ny.us/domain/20> and can be completed and submitted at any time during the year.
- b. Completed forms must be submitted to the main office of the school which the student attends prior to any determination of eligibility.
- c. The parent or guardian will be informed of the determination within one week of receiving a properly completed application.

Applications will be kept confidential.

Upon written request, the Assistant Superintendent for Business will hear appeals of determinations regarding such services in compliance with federal regulations governing the National School Lunch Program.

In addition, in order to reach students who are categorically eligible for free [and reduced price] meals and to comply with state law, three times per school year the School Lunch Manager will review the list made available by the State Education Department of children ages three to 18 who are in households receiving federal food assistance, Medicaid benefits (for certain recipients), or Temporary Assistance for Needy Families (TANF) to identify students within the district. The district will send a notice to those families apprising them of their student's eligibility to participate in the school meal programs without further application. Parents may decline participation by informing the district in writing. If the service is declined, the student will be removed from the eligibility list.

Meal Charge Policy

The goal of the Onteora Central School District is to provide student access to nutritious no- or low-cost meals each school day and to ensure that a pupil whose parent/guardian has unpaid school meal fees is not shamed or treated differently than a pupil whose parent/guardian does not have unpaid meal fees.

The intent of this policy is to establish procedures to address unpaid meal charges throughout the Onteora Central School District in a way that does not stigmatize, distress or embarrass students. The provisions of this policy pertain to regular priced school breakfast and lunch meals only. The Onteora Central School District provides this policy as a courtesy to those students in the event that they forget or lose their lunch money. Charging of items outside of the reimbursable meals (a la carte items, adult meals, etc.) is expressly prohibited.

(Continued)

SUBJECT: SCHOOL MEAL SERVICE PROGRAM (LUNCH AND BREAKFAST) (cont'd)

- Free Meal Benefit - Free eligible students will be allowed to receive a free breakfast and lunch each day. A la carte purchases must be paid/prepaid.

Reduced Meal Benefit - Reduced eligible students will be allowed to receive a breakfast for \$.25 and lunch for \$.25 each day. The charge meals offered to students will be reimbursable meals that are available to all students unless the student's parent or guardian has specifically provided written permission to the school to withhold a meal. A la carte items or other similar items must be paid/prepaid.

- Full Pay Students – Students will pay for meals at the school's published paid meal rate each day. If a student is without meal money on a consistent basis, the administration will investigate the situation more closely and take further action as needed. If financial hardship exists, parents and families are encouraged to apply for free or reduced price lunches for their child if applicable. The charge meals offered to students will be reimbursable meals that are available to all students.
- Parents/Guardians are responsible for meal payment to the food service program. Discreet notices of deficit balances will be sent to parents/guardians at regular intervals during the school year.
- Students/Parents/Guardians may pay for meals in advance via the Parent Portal or with a check payable to Ontario CSD Food Service. Further details are available on our webpage at Ontario.k12.ny.us. Funds should be maintained in accounts to minimize the possibility that a child may be without meal money on any given day. Any remaining funds for a particular student may/will be carried over to the next school year.
- Refunds for withdrawn, and graduating students; a written or e-mailed request for a refund of any money remaining in their account must be submitted. Students who are graduating at the end of the year will automatically be refunded any balance over \$10.00 unless they have a sibling and then it will automatically be transferred to a sibling's account.
- Unclaimed Funds must be requested within one school year. Unclaimed funds will then become the property of the Ontario Central School District Food Service Program.
- Balances Owed collection will follow the policies and procedures set by the school.

ONGOING STAFF TRAINING:

- ☐ Staff will be trained annually and throughout the year as needed on the procedures for managing meal charges using the NYSED Webinar or the school's training program.
- ☐ Staff training includes ongoing eligibility certification for free or reduced price meals.

PARENT NOTIFICATION:

- ☐ Parents/guardians will be notified that a student's account balance is exhausted every Wednesday and Sunday by email.
- ☐ Parents/guardians will be notified that a student has accrued meal charges every Wednesday and Sunday by email.

PARENT OUTREACH:

- ☐ Staff will communicate with parents/guardians with five or more meal charges to determine eligibility for free or reduced price meals.

(Continued)

SUBJECT: SCHOOL MEAL SERVICE PROGRAM (LUNCH AND BREAKFAST) (cont'd)

- ☐ School staff will make two documented attempts to reach out to parents/guardians to complete a meal application in addition to the application and instructions provided in the school enrollment packet.
- ☐ School staff will contact the parent/guardian to offer assistance with completion of meal application to determine if there are other issues within the household causing the child to have insufficient funds, offering any other assistance that is appropriate.

MINIMIZING STUDENT DISTRESS:

- ☐ School will not publicly identify or stigmatize any student on the line or discuss any outstanding meal debt in the presence of any other students.
- ☐ Students who incur meal charges will not be required to wear a wristband or handstamp, or to do chores or work to pay for meals.
- ☐ Schools will not throw away a meal after it has been served because of the student's inability to pay for the meal or because of previous meal charges.
- ☐ Schools will not take any action directed at a pupil to collect unpaid school meal fees.
- ☐ Schools will deal directly with parents/guardians regarding unpaid school meal fees.

ONGOING ELIGIBILITY CERTIFICATION:

- ☐ School staff will conduct direct certification with NYSSIS or using NYSED Roster Upload at least monthly to maximize free eligibility.
- ☐ School staff will provide parents/guardians with free and reduced price application and instructions at the beginning of each school year in school enrollment packet.
- ☐ Schools using electronic meal application will provide an explanation of the process in the school enrollment packet and instructions on how to request a paper application at no cost.
- ☐ Schools will provide at least two additional free and reduced price applications throughout the school year to families identified as owing meal charges.
- ☐ Schools will coordinate with the foster, homeless, migrant, runaway coordinators at least monthly to certify eligible students.

Policy 5661 District Health and Wellness Policy

Adopted: 8/1/18

SUBJECT: DISTRICT HEALTH & WELLNESS POLICYHealth & Wellness Committee

The District is committed to creating school environments and experiences that establish healthful eating and daily physical activity opportunities that promote and protect students' mental, emotional and physical health. This commitment fosters an optimal learning and work climate, and takes into account the social and emotional well-being of all those in the school District.

The District established a Health & Wellness Committee (hereafter called the Committee) which will have as one of their tasks to participate in the development, implementation and periodic review and update of the school Health and Wellness Policy (hereafter called the wellness policy). The District will establish and maintain a School Wellness Committee that will have participation from parents/guardians, students, director of school lunch/breakfast programs, school and district administrators, school nurses, medical community members, district health coordinator, health/physical education and/or family and consumer science teachers, social workers/psychologists/guidance counselors and registered dietician, BOE members and the general public.

Local School Wellness Policy Leadership

The District delegates one or more school official(s) to ensure that each school complies with the school wellness policy. The position of the school officials responsible for the oversight of the wellness policy are identified within the policy.

Policy Implementation, Review and Update; Public Notification

The Committee shall conduct an annual assessment that includes the extent to which District schools are in compliance with the Policy and a description of the progress made in attaining the goals of the Policy. This assessment is made available to the public.

School food service staff will ensure compliance with nutrition policies within school food service areas and will report on this matter to the superintendent or if done at the school level, to the school principal.

The Wellness Committee serves as a resource to schools for implementing the wellness policy.

Goals to Promote Student Wellness

The District will provide nutrition promotion and education, physical education and other school-based activities to foster lifelong habits of healthy eating and physical activity, and will establish linkages between health education and school meal programs. Taking into account the parameters of the School District (academic programs, annual budget, staffing issues, and available facilities) as well as the community in which the District is located (the general economy; socio-economic status; local tax bases; socio-cultural and religious influences; geography; and legal, political and social institutions) the Committee recommends the following District goals:

a. Environmental Health

The goal is to provide a healthy physical environment free of harmful products and materials.

b. Health Education

(Continued)

SUBJECT: DISTRICT HEALTH & WELLNESS POLICY (Cont'd.)**c. Mental Health (Education and Services)**

The District provides a school community which values positive mental health and behavioral health, encourages everyone to seek help when they need it, promotes good mental health prevention and responds to mental health needs.

d. Nutrition (Guidelines)

1. Education is integrated into various subject areas and nutrition topics within the comprehensive health education curriculum at every grade level. These concepts will also be reinforced during classroom snack times to encourage adoption of healthy eating habits and other nutrition-related behaviors conducive to health and well-being.

Nutrition promotion encourages students to participate in the National School Lunch Program (NSLP) and School Breakfast Program (SBP) and includes marketing and advertising of nutritious foods and beverages through a comprehensive and multi-channel approach by staff and teachers.

- b. Nutritional Values of Foods and Beverages

All foods and beverages sold, served, marketed or advertised at school will meet the nutrition guideline requirements of the USDA Nutrition Standards in the National School Lunch and School Breakfast Programs and the Smart Snacks in Schools Standards.

District Policy 5660

Administrative Regulation 5661-R

Adopted: 2/24/15

SUBJECT: COMPUTER RESOURCES , DATA MANAGEMENT AND CLOUD BASED COMPUTING

The Board of Education recognizes that computers are a powerful and valuable education and research tool and as such are an important part of the instructional program. In addition, the district depends upon computers as an integral part of administering and managing the schools' resources, including the compilation of data and recordkeeping for personnel, students, finances, supplies and materials. This policy outlines the Boards expectations in regard to these different aspects of the district's computer resources.

General Provisions

The Director of Technology will oversee the use of district computer resources.

The Assistant Superintendent for Curriculum & Instruction will prepare in-service programs for the training and development of district staff in computer skills, appropriate use of computers and for the incorporation of computer use in subject areas.

The Superintendent, working in conjunction with the Assistant Superintendent for Business, Assistant Superintendent for Curriculum & Instruction, and the Director of Technology will be responsible for the approval of purchases and the distribution of computer software and hardware throughout the schools. They shall prepare and submit for the Board's approval a comprehensive multi-year technology plan which shall be revised as necessary to reflect changing technology and/or district needs.

The Superintendent, working with the Director of Technology, shall establish a regulation (6470R) governing the use and security of the district's computer resources (computer resources include all devices that process data, including but not limited to, desktops, laptops, Chromebooks, tablets, copiers and scanners). The security and integrity of the district computer network and data is a serious concern to the Board and the district will make every reasonable effort to maintain the security of the system. All users of the district's computer resources shall comply with this policy, as well as the district's policies 6470, Employee Acceptable Use of District Technology, 8271 Children's Internet Protection and 7314 Student Use of Computerized Information Resources. Failure to comply may result in disciplinary action, as well as suspension and/or revocation of computer access privileges.

All users of the district's computer resources must understand that use is a privilege, not a right, and that use entails responsibility. Users of the district's computer network must not expect, nor does the district guarantee, privacy for electronic mail (e-mail) or any use of the district's computer network. The district reserves the right to access and view any material stored on district equipment or any material used in conjunction with the district's computer network.

(Continued)

**SUBJECT: COMPUTER RESOURCES , DATA MANAGEMENT AND CLOUD BASED
COMPUTING (Cont'd)**

Management of Computer Records

The Board recognizes that since district data is managed by computer, it is critical to exercise appropriate control over computer records, including financial, personnel and student information. The Superintendent, working with the Director of Technology and the district's Assistant Superintendent for Business, shall establish procedures governing management of computer records taking into account whether the records are stored onsite on district servers or on remote servers in the "cloud". The procedures will address:

- passwords,
- system administration,
- separation of duties,
- remote access,
- encryption,
- user access and permissions appropriate to job titles and duties,
- disposal of computer equipment and resources (including deleting district data or destroying the equipment),
- inventory of computer resources (including hardware and software),
- data back-up (including archiving of e-mail),
- record retention, and
- disaster recovery plans and notification plans
- Downloading software/data
- Appropriate use of personal devices

If the district contracts with a third-party vendor for computing services, the Superintendent, in consultation with the Director of Technology, Assistant Superintendent for Business, Assistant Superintendent for Curriculum & Instruction and the School Attorney, will ensure that all agreements address the procedures listed above, as applicable.

Review and Dissemination

Since computer technology is a rapidly changing area, it is important that this policy be reviewed periodically by the Board and the district's internal and external auditors. The regulation governing appropriate computer use will be distributed annually to staff and students and will be included in both employee and student handbooks.

Except as required by law or in the case of educational enrollment data, the District will not report to NYSED the following student data elements:

- a) Juvenile delinquency records;
- b) Criminal records;
- c) Medical and health records; and d) Student biometric information.

Nothing in Education Law Section 2-d or this policy should be construed as limiting the administrative use of student data or teacher or principal data by a person acting exclusively in the person's capacity as an employee of the District.

Chief Privacy Officer

The Commissioner of Education has appointed a Chief Privacy Officer who will report to the Commissioner on matters affecting privacy and the security of student data and teacher and principal data. The third-party contractor's data privacy and security plan must, at a minimum:

- a) Outline how the third-party contractor will implement all state, federal, and local data privacy and security contract requirements over the life of the contract, consistent with District policy;
- b) Specify the administrative, operational, and technical safeguards and practices the third-party contractor has in place to protect PII that it will receive under the contract;
- c) Demonstrate that the third-party contractor complies with the requirements of 8 NYCRR Section 121.3(c);

Third-Party Contractor Responsibilities

Each third-party contractor, that enters into a contract or other written agreement with the District under which the third-party contractor will receive student data or teacher or principal data from the District, is required to:

- b) Comply with District policy and Education Law Section 2-d and its implementing regulations;
- c) Limit internal access to PII to only those employees or subcontractors that have legitimate educational interests (i.e., they need access to provide the contracted services);
- d) Not use the PII for any purpose not explicitly authorized in its contract;
- e) Not disclose any PII to any other party without the prior written consent of the parent or eligible student:
 - 1. Except for authorized representatives of the third-party contractor such as a subcontractor or assignee to the extent they are carrying out the contract and in compliance with law, regulation, and its contract with the District; or
 - 2. Unless required by law or court order and the third-party contractor provides a notice of the disclosure to NYSED, the Board, or the institution that provided the information no later than the time the information is disclosed, unless providing notice of the disclosure is expressly prohibited by law or court order;

Where a third-party contractor engages a subcontractor to perform its contractual obligations, the data protection obligations imposed on the third-party contractor by law and contract apply to the subcontractor.

Cooperative Educational Services through a BOCES

The District may not be required to enter into a separate contract or data sharing and confidentiality agreement with a third-party contractor that will receive student data or teacher or principal data from the District under all circumstances.

For example, the District may not need its own contract or agreement where:

- a) It has entered into a cooperative educational service agreement (CoSer) with a BOCES that includes use of a third-party contractor's product or service; and

(Continued)

**PRIVACY AND SECURITY FOR STUDENT DATA AND TEACHER AND PRINCIPAL
DATA (cont'd)**

- b) That BOCES has entered into a contract or data sharing and confidentiality agreement with the third-party contractor, pursuant to Education Law Section 2-d and its implementing regulations, that is applicable to the District's use of the product or service under that CoSer.

To meet its obligations whenever student data or teacher or principal data from the District is received by a third-party contractor pursuant to a CoSer, the District will consult with the BOCES to, among other things:

- a) Ensure there is a contract or data sharing and confidentiality agreement pursuant to Education Law Section 2-d and its implementing regulations in place that would specifically govern the District's use of a third-party contractor's product or service under a particular CoSer;
- b) Determine procedures for including supplemental information about any applicable contracts or data sharing and confidentiality agreements that a BOCES has entered into with a third-party contractor in its Parents' Bill of Rights for Data Privacy and Security;
- c) Ensure appropriate notification is provided to affected parents, eligible students, teachers, and/or principals about any breach or unauthorized release of PII that a third-party contractor has received from the District pursuant to a BOCES contract; and
- d) Coordinate reporting to the Chief Privacy Officer to avoid duplication in the event the District receives information directly from a third-party contractor about a breach or unauthorized release of PII that the third-party contractor received from the District pursuant to a BOCES contract.

Click-Wrap Agreements

Periodically, District staff may wish to use software, applications, or other technologies in which the user must "click" a button or box to agree to certain online terms of service prior to using the software, application, or other technology. These are known as "click-wrap agreements" and are considered legally binding "contracts or other written agreements" under Education Law Section 2-d and its implementing regulations.

District staff are prohibited from using software, applications, or other technologies pursuant to a click-wrap agreement in which the third-party contractor receives student data or teacher or principal data from the District unless they have received prior approval from the District's Data Privacy Officer or designee.

The District will develop and implement procedures requiring prior review and approval for staff use of any software, applications, or other technologies pursuant to click-wrap agreements.

Parents' Bill of Rights for Data Privacy and Security

The District will publish its Parents' Bill of Rights for Data Privacy and Security (Bill of Rights) on its website. Additionally, the District will include the Bill of Rights with every contract or other written agreement it enters into with a third-party contractor under which the third-party contractor will receive student data or teacher or principal data from the District.

The District's Bill of Rights will state in clear and plain English terms that:

- a) A student's PII cannot be sold or released for any commercial purposes;
- b) Parents have the right to inspect and review the complete contents of their child's education record;

- e) Parents have the right to have complaints about possible breaches of student data addressed.

Complaints should be directed in writing to Privacy Complaint, Chief Privacy Officer, New York State Education Department, 89 Washington Avenue, Albany, New York 12234. Complaints may also be submitted using the form available at the following website <http://www.nysed.gov/student-data-privacy/form/report-improper-disclosure>.

The Bill of Rights will also include supplemental information for each contract the District enters into with a third-party contractor where the third-party contractor receives student data or teacher or principal data from the District. The supplemental information must be developed by the District and include the following information:

- a) The exclusive purposes for which the student data or teacher or principal data will be used by the third-party contractor, as defined in the contract;
- b) How the third-party contractor will ensure that the subcontractors, or other authorized persons or entities to whom the third-party contractor will disclose the student data or teacher or principal data, if any, will abide by all applicable data protection and security requirements, including but not limited to those outlined in applicable laws and regulations (e.g., FERPA; Education Law Section 2-d);
- c) The duration of the contract, including the contract's expiration date, and a description of what will happen to the student data or teacher or principal data upon expiration of the contract or other written agreement (e.g., whether, when, and in what format it will be returned to the District, and/or whether, when, and how the data will be destroyed);

- d) If and how a parent, student, eligible student, teacher, or principal may challenge the accuracy of the student data or teacher or principal data that is collected;
- e) Where the student data or teacher or principal data will be stored, described in a manner as to protect data security, and the security protections taken to ensure the data will be protected and data privacy and security risks mitigated; and
- f) Address how the data will be protected using encryption while in motion and at rest.

The District will publish on its website the supplement to the Bill of Rights (i.e., the supplemental information described above) for any contract or other written agreement it has entered into with a third- party contractor that will receive PII from the District. The Bill of Rights and supplemental information may be redacted to the extent necessary to safeguard the privacy and/or security of the District's data and/or technology infrastructure.

Right of Parents and Eligible Students to Inspect and Review Students' Education Records

Consistent with the obligations of the District under FERPA, parents and eligible students have the right to inspect and review a student's education record by making a request directly to the District in a manner prescribed by the District.

The District will ensure that only authorized individuals are able to inspect and review student data. To that end, the District will take steps to verify the identity of parents or eligible students who submit requests to inspect and review an education record and verify the individual's authority to do so.

Requests by a parent or eligible student for access to a student's education records must be directed to the District and not to a third-party contractor. The District may require that requests to inspect and review education records be made in writing.

The District will notify parents annually of their right to request to inspect and review their child's education record including any student data stored or maintained by the District through its annual FERPA notice. A notice separate from the District's annual FERPA notice is not required.

The District will comply with a request for access to records within a reasonable period, but not more than 45 calendar days after receipt of a request.

The District may provide the records to a parent or eligible student electronically, if the parent consents. The District must transmit the PII in a way that complies with laws and regulations. Safeguards associated with industry standards and best practices, including but not limited to encryption and password protection, must be in place when education records requested by a parent or eligible student are electronically transmitted.

PRIVACY AND SECURITY FOR STUDENT DATA AND TEACHER AND PRINCIPAL DATA (cont'd)

Complaints of Breach or Unauthorized Release of Student Data and/or Teacher or Principal Data

The District will inform parents, through its Parents' Bill of Rights for Data Privacy and Security, that they have the right to submit complaints about possible breaches of student data to the Chief Privacy Officer at NYSED. In addition, the District has established the following procedures for parents, eligible students, teachers, principals, and other District staff to file complaints with the District about breaches or unauthorized releases of student data and/or teacher or principal data:

- a) All complaints must be submitted to the District's Data Protection Officer in writing.
- b) Upon receipt of a complaint, the District will promptly acknowledge receipt of the complaint, commence an investigation, and take the necessary precautions to protect PII.
- c) Following the investigation of a submitted complaint, the District will provide the individual who filed the complaint with its findings. This will be completed within a reasonable period of time, but no more than 60 calendar days from the receipt of the complaint by the District.
- d) If the District requires additional time, or where the response may compromise security or impede a law enforcement investigation, the District will provide the individual who filed the complaint with a written explanation that includes the approximate date when the District anticipates that it will respond to the complaint.

These procedures will be disseminated to parents, eligible students, teachers, principals, and other District staff.

The District will maintain a record of all complaints of breaches or unauthorized releases of student data and their disposition in accordance with applicable data retention policies, including the Records Retention and Disposition Schedule ED-1 (1988; rev. 2004).

Reporting a Breach or Unauthorized Release

The District will report every discovery or report of a breach or unauthorized release of student data or teacher or principal data within the District to the Chief Privacy Officer without unreasonable delay, but no more than ten calendar days after the discovery.

Each third-party contractor that receives student data or teacher or principal data pursuant to a contract or other written agreement entered into with the District will be required to promptly notify the District of any breach of security resulting in an unauthorized release of the data by the third-party contractor or its assignees in violation of applicable laws and regulations, the Parents' Bill of Rights for Student Data Privacy and Security, District policy, and/or binding contractual obligations relating to data privacy and security, in the most expedient way possible and without unreasonable delay, but no more than seven calendar days after the discovery of the breach.

(Continued)

PRIVACY AND SECURITY FOR STUDENT DATA AND TEACHER AND PRINCIPAL DATA (cont'd)

In the event of notification from a third-party contractor, the District will in turn notify the Chief Privacy Officer of the breach or unauthorized release of student data or teacher or principal data no more than ten calendar days after it receives the third-party contractor's notification using a form or format prescribed by NYSED.

Investigation of Reports of Breach or Unauthorized Release by the Chief Privacy Officer

The Chief Privacy Officer is required to investigate reports of breaches or unauthorized releases of student data or teacher or principal data by third-party contractors. As part of an investigation, the Chief Privacy Officer may require that the parties submit documentation, provide testimony, and may visit, examine, and/or inspect the third-party contractor's facilities and records.

Upon the belief that a breach or unauthorized release constitutes criminal conduct, the Chief Privacy Officer is required to report the breach and unauthorized release to law enforcement in the most expedient way possible and without unreasonable delay.

Third-party contractors are required to cooperate with the District and law enforcement to protect the integrity of investigations into the breach or unauthorized release of PII.

Upon conclusion of an investigation, if the Chief Privacy Officer determines that a third-party contractor has through its actions or omissions caused student data or teacher or principal data to be breached or released to any person or entity not authorized by law to receive this data in violation of applicable laws and regulations, District policy, and/or any binding contractual obligations, the Chief Privacy Officer is required to notify the third-party contractor of the finding and give the third-party contractor no more than 30 days to submit a written response.

If after reviewing the third-party contractor's written response, the Chief Privacy Officer determines the incident to be a violation of Education Law Section 2-d, the Chief Privacy Officer will be authorized to:

- a) Order the third-party contractor be precluded from accessing PII from the affected educational agency for a fixed period of up to five years;
- b) Order that a third-party contractor or assignee who knowingly or recklessly allowed for the breach or unauthorized release of student data or teacher or principal data be precluded from accessing student data or teacher or principal data from any educational agency in the state for a fixed period of up to five years;
- c) Order that a third-party contractor who knowingly or recklessly allowed for the breach or unauthorized release of student data or teacher or principal data will not be deemed a responsible bidder or offeror on any contract with an educational agency that involves the sharing of student data or teacher or principal data, as applicable for purposes of General Municipal Law Section 103 or State Finance Law Section 163(10)(c), as applicable, for a fixed period of up to five years; and/or

(Continued)

PRIVACY AND SECURITY FOR STUDENT DATA AND TEACHER AND PRINCIPAL DATA (cont'd)

- d) Require the third-party contractor to provide additional training governing confidentiality of student data and/or teacher or principal data to all its officers and employees with reasonable access to this data and certify that the training has been performed at the contractor's expense. This additional training is required to be performed immediately and include a review of laws, rules, and regulations, including Education Law Section 2-d and its implementing regulations.

If the Chief Privacy Officer determines that the breach or unauthorized release of student data or teacher or principal data on the part of the third-party contractor or assignee was inadvertent and done without intent, knowledge, recklessness, or gross negligence, the Chief Privacy Officer may make a recommendation to the Commissioner that no penalty be issued to the third-party contractor.

The Commissioner would then make a final determination as to whether the breach or unauthorized release was inadvertent and done without intent, knowledge, recklessness or gross negligence and whether or not a penalty should be issued.

Notification of a Breach or Unauthorized Release

The District will notify affected parents, eligible students, teachers, and/or principals in the most expedient way possible and without unreasonable delay, but no more than 60 calendar days after the discovery of a breach or unauthorized release of PII by the District or the receipt of a notification of a breach or unauthorized release of PII from a third-party contractor unless that notification would interfere with an ongoing investigation by law enforcement or cause further disclosure of PII by disclosing an unfixed security vulnerability. Where notification is delayed under these circumstances, the District will notify parents, eligible students, teachers, and/or principals within seven calendar days after the security vulnerability has been remedied or the risk of interference with the law enforcement investigation ends.

Notifications will be clear, concise, use language that is plain and easy to understand, and to the extent available, include:

- a) A brief description of the breach or unauthorized release, the dates of the incident and the date of discovery, if known;
- b) A description of the types of PII affected;
- c) An estimate of the number of records affected;
- d) A brief description of the District's investigation or plan to investigate; and
- e) Contact information for representatives who can assist parents or eligible students that have additional questions.

Notification will be directly provided to the affected parent, eligible student, teacher, or principal by first-class mail to their last known address, by email, or by telephone.

(Continued)

PRIVACY AND SECURITY FOR STUDENT DATA AND TEACHER AND PRINCIPAL DATA (cont'd)

Where a breach or unauthorized release is attributed to a third-party contractor, the third-party contractor is required to pay for or promptly reimburse the District for the full cost of this notification.

Annual Data Privacy and Security Training

The District will annually provide data privacy and security awareness training to its officers and staff with access to PII. This training will include, but not be limited to, training on the applicable laws and regulations that protect PII and how staff can comply with these laws and regulations. The District may deliver this training using online training tools. Additionally, this training may be included as part of the training that the District already offers to its workforce.

Notification of Policy

The District will publish this policy on its website and provide notice of the policy to all its officers and staff.

Adopted: 6/29/09

SCHOOL SAFETY PLANS AND TEAMS

Emergencies and violent incidents in schools are critical issues that must be addressed in an expeditious and effective manner. The Board of Education recognizes its responsibility to adopt and keep current a comprehensive district wide school safety plan and building-level emergency response plan(s) which address violence prevention, crisis intervention, emergency response and management.

Taken together, the district-wide and building level plans provide a comprehensive approach to addressing school safety and violence prevention, and provide the structure where all individuals can fully understand their roles and responsibilities for promoting the safety of the entire school community. The plans will be designed to prevent or minimize the effects of serious violent incidents and emergencies and to facilitate the district's coordination with local and county resources. The plans will also address risk reduction/prevention, response and recovery with respect to a variety of types of emergencies and violent incidents in district schools, and will address school closures and continuity of operations in the context of epidemics/pandemics, in either the plans themselves or in addenda to the plans.

In accordance with state law and regulation, the district will have the following safety teams and plans to deal with violence prevention, crisis intervention and emergency response and management:

Comprehensive District-Wide School Safety Team and Plan

The Board will annually appoint a district-wide school safety team that includes, but is not be limited to, a representative from the following constituencies: the Board, teachers, administrators, and parent organizations, school safety personnel and other school personnel (including bus drivers and monitors). This team is responsible for the development and annual review of the comprehensive district-wide school safety plan. The plan will cover all district school buildings and will address violence prevention (taking into consideration a range of programs and approaches that are designed to create a positive school climate and culture), crisis intervention, emergency response and management including communication protocols, at the district level. It will include all those elements required by law and regulation.

The district-wide safety plan will include contracts or memoranda of understanding that define the relationship between the district, personnel, students, visitors, law enforcement, and public or private security personnel. These contracts or memoranda will be consistent with the Code of Conduct, and will define the roles, responsibilities, and involvement in the schools of law enforcement or security personnel. The role of school discipline will be clearly delegated to school administration.

SCHOOL SAFETY PLANS AND TEAMS (CONT'D)

The Board may also appoint a student representative to the district-wide school safety team. However, no confidential building-level emergency response plans will be shared with the student member, nor will the student member be present during discussion of any confidential building-level emergency response plans, or confidential portions of the district-wide emergency response strategy.

The Superintendent of Schools or designee will be the district's chief emergency officer, and will coordinate communication between school staff and law enforcement and first responders. The chief emergency officer will ensure that all staff understand the district-wide school safety plan and receive training on the building-level emergency response plan, violence prevention and mental health, and will also ensure that district-wide and building-level plans are completed, reviewed annually, and updated as needed by the designated dates. The chief emergency officer will ensure that the district-wide plan is coordinated with the building-level plans, and will ensure that required evacuation and lock-down drills are conducted.

Building-Level Emergency Response Plans and Teams

Each Building Principal is responsible for annually appointing a building-level emergency response team that includes representation from teachers, administrators, parent organizations, school safety personnel, other school personnel (including bus drivers and monitors), law enforcement officials, fire officials and other emergency response agencies. The emergency response team is responsible for the development and review of a building-level emergency response plan for each district building. The plan(s) will address response to emergency situations, such as those requiring evacuation, sheltering and lock-down at the building level and will include all components required by law and regulation. These confidential plans will include evacuation routes, shelter sites, medical needs, transportation and emergency notification of parents and guardians.

Building-level emergency response plans will include protocols in response to carbon monoxide alarms or detection. Alarm or detection of carbon monoxide will result in the appropriate actions as described by the emergency response plan.

Building-level emergency response plans must designate:

- an emergency response team for incidents that includes appropriate school personnel, law enforcement officials, fire officials, and representatives from local, regional and/or state emergency response agencies to assist the school community in responding to a violent incident or emergency; and
- a post-incident response team that includes appropriate school personnel, medical personnel, mental health counselors and other related personnel to assist the community in coping with the aftermath of a serious violent incident or emergency.

Continued

SCHOOL SAFETY PLANS AND TEAMS (CONT'D)

During emergencies, staff are authorized to temporarily cover classroom door vision panels when it is likely to protect staff and students. For example, covering vision panels may prevent an intruder from determining if a classroom is occupied, thereby discouraging attempts to gain access. During emergencies, staff are also authorized to temporarily block doors to slow the access of intruders. Building-level emergency response plans must address the temporary covering of door vision panels and the temporary blocking of doors during emergencies.

The Building Principal is responsible for conducting at least one test every school year of the emergency response procedures under this plan including procedures for sheltering and early dismissal.

To maintain security and in accordance with law, the building-level emergency response plan(s) are confidential and not subject to disclosure under the Freedom of Information Law or any other law.

Threat Assessment Teams

The Building Principal, in consultation with the Superintendent, will annually designate a threat assessment team to provide ongoing support and information in order to identify, and assess individuals who may be potential threats to safety, with the intent of minimizing acts of violence in the school community. The threat assessment team will be composed of, but not limited to, the following personnel from both within the school and the larger community, as appropriate: building administrators, legal counsel, the medical director and/or school nurse, school counselors, local mental health and social service providers, law enforcement, school resource officers, security personnel, and facilities and maintenance personnel. The team will meet regularly. The team will be mindful of the need for discretion and observance of confidentiality requirements.

Students will be encouraged to bring their concerns to any district employee. If a district employee becomes aware of a threat to the school community, they must inform the Building Principal, who will convene the threat assessment team. The Building Principal may request the participation of the following additional individuals who may have specific knowledge of the potential perpetrator: supervisors, teachers, students and parents. The Building Principal is responsible for keeping the Superintendent informed about the activities of the threat assessment team. Threat assessment team members will receive appropriate training.

Annual Review and Reporting

All plans will be annually reviewed and updated, if necessary, by the appropriate team by August 15. In conducting the review, the teams will consider any changes in organization, local conditions and other factors including an evaluation of the results of the annual test of the emergency response procedures which may necessitate updating of plans. If the plan requires no changes, then it will remain in effect. If the district-wide plan requires change, then the updated plan will be submitted to the Board of Education in time to allow 30-days of public comment and to hold a public hearing which provides for the participation of school personnel, students and other interested parties prior to Board adoption. All plans must be adopted by the Board of Education by September 1.

The Superintendent of Schools is responsible for submitting the district-level school safety plan and any amendments to the plan to the Commissioner within 30 days after its adoption, no later than October 1 of each year. The district-wide plan will be posted on the district's website. Each Building Principal is responsible for submitting the building-level emergency response plan for the building, and any amendments to the plan, to the appropriate local law enforcement agency and the state police within 30 days after its adoption, but no later than October 15 of each year until the 2020-2021 school year, when it must be submitted by October 1 of each year.

SUBJECT: CRISIS RESPONSE (POST INCIDENT RESPONSE)

When a crisis arises no school system is immune to the negative, physical or mental effect on its students, staff and the local community. Immediate, effective and responsible management and communication can address the crisis and maintain a District's integrity and credibility. Therefore, the District shall develop and maintain a unified position by:

- a) Identifying a crisis response team to develop a plan and maintain a strong, ongoing communications program in each school. This is the foundation for long range success.
- b) Identifying a media spokesperson who will be briefed on all details. This spokesperson shall be the Superintendent or their designee. Only this spokesperson shall talk to and maintain a timely flow of information to the media.

The Superintendent/designee shall be responsible for informing staff of the crisis plan that is to be developed by both administration and the crisis response team.

NOTE: Refer also to Policy #5681 -- School Safety Plans

SUBJECT: FIRE DRILLS, BOMB THREATS AND BUS EMERGENCY DRILLS**Fire Drills**

The administration of each school building shall provide instruction for and training of students, through fire drills, in procedures for leaving the building in the shortest possible time and without confusion or panic.

Fire drills shall be held at least twelve (12) times in each school year; eight (8) of these shall be held between September 1 and December 1. At least one (1) of the twelve (12) drills shall be held during each of the regular lunch periods, or shall include special instruction on the procedures to be followed if a fire occurs during a student's lunch period.

At least two (2) additional drills shall be held during summer school in buildings where summer school is conducted and one (1) of these drills shall be held during the first week of summer school.

After-School Programs

The Building Principal or their designee shall require those in charge of after-school programs, attended by any individuals unfamiliar with the school building, to announce at the beginning of such programs the procedures to be followed in the event of an emergency.

Bomb Threats**School Bomb Threats**

A bomb threat, even if later determined to be a hoax, is a criminal action. No bomb threat should be treated as a hoax when it is first received. The school has an obligation and responsibility to ensure the safety and protection of the students and other occupants upon the receipt of any bomb threat. This obligation must take precedence over a search for a suspect object. Prudent action is dependent upon known information about the bomb threat - location, if any; time of detonation; etc. If the bomb threat is targeted at the school parking lot or the front of the school, building evacuation may not be an appropriate response. If the bomb threat indicates that a bomb is in the school, then building evacuation is necessary unless the building has been previously inspected and secured in accordance with State Education Department Guidelines. Specific procedures can be found in the building level school plan, as required by Project SAVE.

The decision to evacuate a building or to take shelter is dependent upon information about where the bomb is placed and how much time there is to reach a place of safety. Prudent action dictates that students and other occupants be moved from a place of danger to a place of safety. Routes of egress and evacuation or sheltering are as must be thoroughly searched for suspicious objects before ordering

(Continued)

SUBJECT: FIRE DRILLS, BOMB THREATS AND BUS EMERGENCY DRILLS (Cont'd.)

an evacuation. Failure to properly search evacuation routes before an evacuation takes place can expose students and staff to more danger than remaining in place until the search has taken place. Assistance is available from local police agencies and the New York State Police to train staff to check evacuation routes.

Police Notification and Investigation

A bomb threat to a school is a criminal act, which is within the domain and responsibility of law enforcement officials. Appropriate State, county, and/or local law enforcement agencies must be notified of any bomb threat as soon as possible after the receipt of the threat. Law enforcement officials will contact, as the situation requires, fire and/or county emergency coordinators according to the county emergency plan.

Therefore, the building administrator or designee is to notify local law enforcement officials and follow established procedures to move all occupants out of harm's way.

Implementation

The Board of Education directs the Superintendent or their designee to develop administrative regulations to implement the terms of this policy. Additionally, such regulations are to be incorporated in the District-wide School Safety Plan and the building level school safety plan, with provisions for written notification by July 1 of each school year to all, about emergency procedures, an annual drill to test the emergency response procedures under each of its building level school safety plans, and the annual update of the District-wide and building level school safety plans, by July 1, as mandated pursuant to law and/or regulation.

Bus Emergency Drills

The Board of Education directs the administration to conduct a minimum of three (3) emergency drills to be held on each school bus during the school year. The first drill is to be conducted during the first week of the fall term, the second drill between November 1 and December 31, and the third drill between March 1 and April 30.

Each drill shall include instruction in all topics mandated by the Education Law and the Commissioner's Regulations and shall include, but will not be limited to, the following:

- a) Safe boarding and exiting procedures;
- b) The location, use and operation of the emergency door, fire extinguishers, first aid equipment and windows as a means of escape in case of fire or accident;

(Continued)

SUBJECT: FIRE DRILLS, BOMB THREATS AND BUS EMERGENCY DRILLS (Cont'd.)

- c) Orderly conduct as bus passengers.

Students who ordinarily walk to school shall also be included in the drills.

**SUBJECT: ANTHRAX AND OTHER BIOLOGICAL TERRORISM: PREVENTION
PROTOCOLS/PROTOCOLS FOR MAIL HANDLING**

The School District shall assess and review their protocols for handling mail or packages. Common sense and care should be used in inspecting and opening mail or packages. Whenever feasible, the opening of mail should be limited to one (1) individual staff member in an area that is separate from other accessible areas within the school building, including the Main Office.

Additionally, precautions will be taken for those staff members responsible for handling letters or packages such as making available protective gloves to be worn when handling mail and providing appropriate training and protocols for the handling of mail and identifying suspicious envelopes or packages.

The building administrator should limit the area and persons exposed to the threat. Immediately after identifying the threat, the building administrator/designee shall notify the Superintendent/designee, dial 911 and/or the local law enforcement authorities according to the procedures identified in the applicable School Safety Plan (whether District-wide or Building-level plans). The local FBI field office and the county health department will also be notified, if not otherwise provided for in the applicable School Safety Plan.

As far as possible, the school will attempt to limit the area and the persons exposed to the threat and will not allow anyone other than qualified emergency personnel to enter. Custodial and maintenance personnel will follow established procedures for quickly shutting down the building(s) heating/air conditioning/and ventilation systems if possible and as may be deemed necessary.

Furthermore, the building administrator/designee shall, as soon as possible, make a list of all persons who have been identified as having actual contact with the powder or other suspicious element, such as anthrax, for investigating authorities.

Administration shall review and revise, as appropriate, their school safety plans; and provide information regarding applicable safety prevention and response procedures to all staff.

All threats to school buildings and/or its occupants shall be treated seriously. All threats shall be treated as criminal actions and measures shall be taken to preserve the evidence.

Under no circumstances, shall students be permitted to organize and/or handle School District mail; nor shall students be present in the room/area during the time that District mail is being opened by school staff.

**SUBJECT: CARDIAC AUTOMATED EXTERNAL DEFIBRILLATORS (AEDs) IN
PUBLIC SCHOOL FACILITIES**

The School District shall provide and maintain on-site in each *instructional school facility* functional cardiac automated external defibrillator (AED) equipment as defined in Public Health Law Section 3000-b for use during emergencies. Each such facility shall have sufficient automated external defibrillator equipment available to ensure ready and appropriate access for use during emergencies in quantities and types as deemed by the Commissioner of Education, in consultation with the Commissioner of Health. Determination of the quantity and placement of AEDs must be made with consideration of at least the factors enumerated in Commissioner's Regulations. *An instructional school facility means a building or other facility maintained by the School District where instruction is provided to students pursuant to its curriculum.*

Whenever an *instructional School District facility* is used for a school-sponsored or school-approved curricular or extracurricular event or activity and whenever a *school-sponsored athletic contest* is held at any location, the public school officials and administrators responsible for such school facility or athletic contest shall ensure that AED equipment is provided on-site and that there is present during such event, activity or contest at least one (1) staff person who is trained in accordance with Public Health Law in the operation and use of an AED. *School-sponsored or school-approved curricular or extracurricular events or activities mean events or activities of the School District that are, respectively, associated with its instructional curriculum or otherwise offered to its students. A school-sponsored athletic contest means an extraclass intramural athletic activity of instruction, practice and competition for students in grades 4 through 12 consistent with Commissioner's Regulations Section 135.4.*

Where a *school-sponsored competitive athletic event* is held at a site other than a School District facility, School District officials shall assure that AED equipment is provided on-site by the sponsoring or host district and that at least one (1) staff person who is trained, in accordance with Public Health Law, in the operation and use of the AED is present during such athletic event. *A school-sponsored competitive athletic event means an extraclass interscholastic athletic activity of instruction, practice and competition for students in grades 7 through 12 consistent with Commissioner's Regulations Section 135.4.*

School District facilities and District staff responsible for carrying out the duties enumerated in Education Law Section 917 are deemed a "public access defibrillation provider" as defined pursuant to Public Health Law Section 3000-b and subject to the Public Health Law requirements and limitations.

Therefore, it is the policy of our School District to provide proper training requirements for District AED users, to ensure the immediate calling of 911 and/or the community equivalent ambulance dispatch entity whenever the AED is used, to ensure ready identification of the location of the AED units as enumerated in the District's Public Access Defibrillation Collaborative Agreement.

(Continued)

**SUBJECT: CARDIAC AUTOMATED EXTERNAL DEFIBRILLATORS (AEDs) IN
PUBLIC SCHOOL FACILITIES (Cont'd.)**

The District will provide for regular maintenance and checkout procedures of the AED unit(s) which meet or exceed manufacturer's recommendations. Appropriate documentation will be maintained in accordance with law and/or regulation. Further, the District will participate in the required Quality Improvement Program as determined by the Regional Emergency Medical Services Council.

The District shall post a sign or notice at the main entrance to the facility or building in which the AED unit(s) is stored, indicating the exact location where the unit(s) is stored or maintained on a regular basis.

Pursuant to Public Health Law Sections 3000-a and 3000-b, the School District (as a public access defibrillation provider), or any employee or other agent of the School District who, in accordance with the provisions of law, voluntarily and without expectation of monetary compensation renders emergency medical or first aid treatment using an AED to a person who is unconscious, ill or injured, shall not be liable for damages for injury or death unless caused by gross negligence.

Operations**SUBJECT: USE OF SURVEILLANCE CAMERAS IN THE SCHOOL DISTRICT**

The Board of Education recognizes its responsibility to promote and foster school safety and ensure a safe and effective learning environment. Upon the recommendation of the Superintendent of Schools and after having carefully considered and balanced the rights of privacy with the District's duty to promote discipline, health, welfare and safety of staff and students, as well as that of the general public who has occasion to use school facilities, the Board supports the use of video surveillance cameras in its school buildings and surrounding school grounds. District video surveillance cameras will only be utilized in areas where there is no "reasonable expectation of privacy." Video surveillance does not include audio surveillance; we are not conducting audio surveillance.

To further the Board's objective, the School District's District-wide Safety Team shall meet as appropriate and/or deemed necessary to review District and building level safety practices, including the use of video surveillance cameras. The Team may also make recommendations to the Superintendent regarding the use of video surveillance cameras. The Superintendent shall retain final decision-making authority regarding the recommendations of the Safety Team; and they shall notify the Board as to the procedures to be implemented with regard to the use of video surveillance cameras by the School District.

The Superintendent will be responsible for appropriate use of video surveillance. The Superintendent or their designee will determine the need to view and/or review video surveillance recordings. Designees will be limited to the following individual administrators in the following order: the High School Principal and/or the Middle School Principal, the Assistant Superintendent for Business, the Director of Buildings and Grounds, the Director of Transportation, the Director of Athletics and/or the High School Assistant Principal.

The Superintendent and/or their designee may view live video-streaming in order to assist in the event of an emergency in progress that threatens safety and security of students/building occupants or in order to maintain the system; these events will be specifically authorized. The Superintendent and/or their designee may specifically authorize an individual with technology expertise to view live video-streaming, only as necessary, in order to determine repairs to the system.

The Superintendent and/or their designee will grant viewing of live video-streaming to law enforcement only when there is a crime or emergency in progress that threatens safety and security of students/building occupants. The District shall enact a Memorandum of Understanding with law enforcement agencies regarding the use of the video surveillance system prior to providing them with access to the system.

Any video recording used for video surveillance purposes in school buildings and/or on school property, shall be the sole property of the District; and the Superintendent or their designee will be the custodian of such recordings. All video recordings shall be retained for a period of 15 days from the date of its creation. When a recording may be used as evidence in a student disciplinary matter or hearing pursuant to Education Law §3214 or an employee disciplinary proceeding initiated pursuant to procedures set forth in a collective bargaining agreement, Education Law § 3020-a or Civil Service Law § 75, it shall be retained in a secured location by the District in its original format for the period provided for in the Records Retention and Disposition Schedule ED-1 or until the conclusion of any such disciplinary or legal proceeding, whichever is longer.

SUBJECT: USE OF SURVEILLANCE CAMERAS IN THE SCHOOL DISTRICT (cont'd)**Disciplinary Hearings**

In the event a student is brought up on disciplinary charges pursuant to Education Law §3214 or an employee is subjected to a disciplinary proceeding relative to alleged misconduct that has been recorded on a District-owned video recording, the charged student, student's parent/guardian or employee may request to view such video recording. Requests for viewing such video recording must be made in writing to the Superintendent or their designee. The Request for Viewing Form will require a statement detailing the reason for the request. Requests for viewing a video recording must be made in writing to the Superintendent or their designee and, if the request is granted, such viewing must occur in the presence of the District's designated custodian of the recording. Under no circumstances will the District's video recording be duplicated and/or removed from District premises unless in accordance with a court order and/or subpoena or at the discretion of the Superintendent.

A student who is disciplined as a result of the contents of the video recording, as well as their parents and legal guardian, or an employee who is disciplined as a result of the contents of the video recording shall have an opportunity to view the tape which is the basis for the disciplinary action. However, should the results of a formal investigation that is conducted by the District, (relative to a student or employee's misconduct) be unfounded, the student, parent/guardian and/or employee to which the video recording allegedly pertains, shall not be entitled to view such video recording.

Signage/Notification Regarding Use of Video Surveillance Cameras in School Buildings, School Buses and/or on School Grounds:

Appropriate signage will be posted at entrances to the school campus and/or at major entrances into school buildings notifying students, staff and the general public of the District's use of video surveillance cameras.

Students and staff will receive additional notification, as appropriate, regarding the use of video surveillance cameras in the schools and on school grounds. Such notification may include, but is not limited to, publication in the District calendar, employee handbook, and student handbook. Such notification does not preclude, as deemed appropriate by administration, the discussion of the use of video surveillance cameras with staff and students to heighten awareness and help foster a sense of security.

The Board of Education contends that a student shall not be denied the right to attend school or continue their education nor shall an employee be denied the right to continue their employment who has been diagnosed or identified as having a positive blood test for the antibodies to the Human Immunodeficiency Virus (HIV). The Board further contends that under current law and regulations, the disclosure of confidential HIV-related information shall be strictly limited.

Administrative regulations and procedures shall be developed and implemented by the administration based on recommendations from the New York State Education Department and from consultation with appropriate professional and medical staff in the District.

The Superintendent shall also establish protocols for routine sanitary procedures for dealing with the cleaning and handling of body fluids in school, with special emphasis placed on staff awareness.

Education Law Sections 3621 and 3635

SUBJECT: LATE BUS RUNS

In order to encourage student participation in extracurricular activities, the Board of Education authorizes daily late bus runs at the middle-senior high school. Double late bus runs may be provided at the discretion of the Superintendent of Schools, when there are at least fifteen (15) students or more for the 4:20 p.m. late run, and when there are at least fifteen (15) students or more for the 5:15 p.m. late run and when the cost for such runs may be absorbed in the transportation budget.

Late bus schedules will be developed by the Director of Transportation and announced to the student body by the school administration. Any change in the bus schedule will be announced over the public address system as early as possible. There will be no late runs on the following days: when school is cancelled because of inclement weather, when school is on half-day session, or when a 15 minute Early Evacuation is scheduled.

SUBJECT: TRANSPORTATION OF STUDENTS**Requests For Transportation to and From Nonpublic Schools**

The parent or guardian of a parochial or private school child residing in the School District who desires that the child be transported to a parochial or private school outside of the School District during the next school year should submit a written request to the Board of Education no later than April 1 of the preceding year, or within thirty (30) days of moving into the District. No late request of a parent or guardian shall be denied where a reasonable explanation is provided for the delay. Students must live within a 15 mile radius of chosen private school. If student does not, they must meet the bus at an existing bus stop within the 15 mile radius.

Transportation of Students With Disabilities

Students with disabilities in the District shall be transported up to fifty (50) miles (one way) from their home to the appropriate special service or program, unless the Commissioner certifies that no appropriate nonresidential special service or program is available within fifty (50) miles. The Commissioner may then establish transportation arrangements.

Transportation of Non-Resident Students

The District shall not extend its bus routes outside of the District to pick up non-resident students.

Transportation to School Sponsored Events

Where the District has provided transportation to students enrolled in the District to a school sponsored field trip, extracurricular activity or any other similar event, it shall provide transportation back to either the point of departure or to the appropriate school in the District unless the parent or legal guardian of the student has provided the District with written notice. Written notice must be consistent with District policy, authorizing an alternative form of return transportation for such student unless intervening circumstances make such transportation impractical. In cases where transportation of a student back to the point of departure or to the appropriate school is impractical, a representative of the School District shall remain with the student until the student's parent or legal guardian has been informed of the circumstances and the student has been delivered to their parent or legal guardian.

Education Law Section 1501-b

Adopted: 12/19/17

SUBJECT: SCHOOL BUS SAFETY PROGRAM

The safe transportation of students to and from school is the primary concern in the administration of the school bus program. All state laws and regulations pertaining to the safe use of school buses shall be observed by drivers, students and school personnel.

To assure the safety and security of students boarding or exiting school buses on school property, it shall be unlawful for a driver of a vehicle to pass a stopped school bus when the red bus signal is in operation.

The Director of Transportation, in cooperation with the Principals, has the responsibility of developing and publishing safety rules to be followed by drivers and passengers, including rules of student conduct. In order to ensure maximum safety to those riding school buses, it is necessary that students and drivers cooperate in this effort.

All buses and other vehicles owned and operated by the School District will have frequent safety inspections, and will be serviced regularly. The Director of Transportation will maintain a comprehensive record of all maintenance performed on each vehicle.

Every bus driver is required to report promptly any school bus accident involving death, injury, or property damage. SUBJECT: VIDEO CAMERAS ON SCHOOL BUSES

The Board authorizes the use of video cameras on District-operated school buses for the purpose of encouraging appropriate behavior and providing a safe environment for the transportation of students. Disciplinary action will be in accordance with the District's Code of Conduct.

The District recognizes that any videotapes related to or maintained for a particular student are student records and subject to the protections of the State and Federal student records laws. As student records, any videotapes related to a particular student are confidential and disclosure or review is limited to those persons authorized by law to inspect student records. The student's parents/guardians/custodians must give written approval for these individuals to view segments of a specific videotape when such viewing is not intended to document disciplinary problems or vandalism. A log will be kept of the date and names of all individuals viewing the videotape.

ALCOHOL AND DRUG TESTING OF DRIVERS

The Board of Education recognizes the dangers inherent in alcohol and controlled substance use by employees, especially those in safety-sensitive positions. To ensure the safety of its students, the Board requires alcohol and controlled substance testing of certain district employees, mainly “drivers,” operators of “other school buses,” and any other employee who is subject to such testing, in accordance with and as set forth in the applicable federal and state requirements as well as relevant collective bargaining agreements.

Definitions

1. “Driver” ~~is defined as~~ includes any person who operates a commercial motor vehicle. This includes, but is not limited to: Full time, regularly employed drivers; casual, intermittent or occasional drivers; leased drivers and independent owner-operator contractors.
2. “Other school buses” include those covered by applicable federal regulations (see list below) and any other motor vehicle either owned by the district or by a private company, operated to transport students, children of students, teachers, and other supervisory persons to or from school or school activities.

Testing Responsibilities

The district shall directly, by contract, or through a consortium, implement and conduct a program to provide alcohol and controlled substance testing of employees who are drivers, or who operate a commercial motor vehicle, perform in a safety-sensitive position, and are required to hold a commercial driver’s license. ~~Such~~ Employees holding such positions include:

1. drivers of vehicles designed to transport 16 or more passengers, including the driver;
2. drivers of commercial motor vehicles whose manufacturer’s rating is 26,001 lbs. or more; or
3. any other employee who may drive or service a listed vehicle (e.g. a mechanic who performs test drives, repairs, inspects, or loads or unloads a ~~listed~~ vehicle listed in 1 or 2 above).

Controlled substance and alcohol tests will be conducted “”at or prior to the time of employment and randomly throughout the school year in accordance with any relevant collective bargaining agreements. In addition, testing will be conducted when a supervisor has a reasonable suspicion that an employee has engaged in prohibited alcohol or controlled substance use; after certain accidents; prior to return to duty when the employee has been found to violate district policy and federal regulations; and after the employee’s return to duty.

Driving Prohibition

In accordance with federal and state law, a driver may not drive if he or she:

1. possesses, consumes or is reasonably believed to possess or have consumed alcohol or a controlled substance, while on duty;

(Continued)

ALCOHOL AND DRUG TESTING OF DRIVERS

2. uses or is under the influence of alcohol or a controlled substance that is not lawfully prescribed within six hours or less before duty;
3. has an alcohol concentration of 0.02 or higher, or tests positive for a controlled substance; or
4. refuses to take a required alcohol or controlled substance test.

Also, no driver shall use alcohol after being involved in an accident in which there was a fatality or in which the driver was cited for a moving violation and a vehicle was towed from the scene or an injury was treated away from the scene until he/she has been tested or 8 hours have passed, whichever occurs first.

Enforcement of Driving Prohibitions

The school district will not require or permit employees to be on duty or operate a listed vehicle or other school bus, if it appears that they have consumed a drug/controlled substance (except those lawfully prescribed) or alcohol within the preceding eight hours. This shall be based on the person's general appearance, conduct, or other substantiating evidence.

Response to Positive Testing Results

Any employee who is tested and found to have an alcohol concentration of at least 0.02, but less than 0.04, shall be removed from the position until his or her next regularly scheduled duty period, but not less than 24 hours following administration of the test. Any employee found to have violated this requirement may be disciplined in accordance with the provisions of the applicable collective bargaining agreement, district policy, and/or law. Operators of "other school buses" subject to random testing pursuant to New York Law will be subject to the same consequences based upon an alcohol concentration of at least 0.02 but less than 0.04 as drivers listed above.

If a driver has an alcohol concentration of 0.04 or greater, or has engaged in prohibited alcohol or controlled substance use, he or she will be removed from driving duties, and referred to a substance abuse professional. The employee may be required to complete a treatment program and/or be disciplined pursuant to district policy and/or collective bargaining agreement. No driver who has abused controlled substances and/or alcohol may return to duty unless he/she has successfully passed a required return to duty test. Thereafter, the driver will be subject to follow-up testing. Operators of "other school buses" subject to random testing pursuant to New York Law will be subject to the same consequences based upon an alcohol concentration of 0.04 or greater or a positive drug test as drivers listed above.

ALCOHOL AND DRUG TESTING OF DRIVERS

Re-Testing

Should the district receive a dilute test result in which the creatinine concentration is greater than 5mg/dL in the case of any pre-employment, return-to-duty, follow-up, reasonable suspicion, or random test, it is the policy of the district that the individual shall be re-tested and that re-test will become the test of record.

If, however, the district wishes to retest, then you must specify the circumstances under which you wish to retest (i.e., pre-employment, follow-up testing, etc.). Please note that the regulations require that you treat all individuals the same for this purpose and that you must inform individuals in advance of your decision on these matters. The BOCES Health and Safety Services group has recommended that districts retest in three areas: pre-employment, return-to-duty and follow-up testing. The sample paragraph above has been drafted to require retesting for all individuals in all five areas. Please modify to reflect your district's intended practice.

Districts should also note that there is a charge for the re-tests and decide who will bear the additional expense.

Policy Distribution

The Superintendent of Schools shall ensure that a copy of this policy, the district's policy on misuse of alcohol and use of controlled substances, information on alcohol and drug abuse and treatment resources and any other information prescribed by federal regulations is provided to all drivers and operators of "other school buses" prior to the initiation of the testing program and to each driver or operator of "other school buses" subsequently hired or transferred to a position subject to testing.

For purposes of this provision of law, the term "criminal history record" shall mean a record of all convictions of crimes and any pending criminal charges maintained on an individual by the Division of Criminal Justice Services (DCJS) and the Federal Bureau of Investigation (FBI).

Prior to initiating the fingerprinting process, the District shall furnish the applicant with written notice on a form prepared by the Commissioner of Education addressing the fingerprinting requirements and the applicant's right to obtain, review and seek correction of their criminal history information. Additionally, where the prospective school employee is not already in the SED criminal history file, the District shall obtain the signed, informed consent of the applicant to perform the criminal history check. Every set of fingerprints taken shall be promptly submitted to the Commissioner of Education for purposes of clearance for employment.

Where the prospective school employee is already in the SED criminal history file, the District shall request the clearance for employment on forms or an equivalent manner prescribed by SED. Furthermore, the District shall notify SED, in a manner prescribed by the Department, of a prospective school employee who has commenced employment with or began providing services for the District, the date of the commencement of such employment or service, and the position held by such individual. Similarly, the District shall notify SED, in a manner prescribed by the Department, of a fingerprinted employee who has been separated from employment with the District or ceased providing services for the School District, and the date of such separation from employment or cessation of services. All criminal history records processed by DCJS and the FBI and sent to the Commissioner of Education are confidential. The records may not be published or in any way disclosed to persons other than the Commissioner unless otherwise authorized by law.

Unless otherwise exempted pursuant to law, the applicant shall be responsible for the payment of fees to SED for a criminal history record check. However, if approved by Board resolution, the District may authorize the payment of such fees on behalf of prospective employees. The Board is also authorized to waive the payment of such fees in cases of unreasonable financial hardship to the applicant or their family. If the Board decides to waive payment of the fees for the prospective employee, payment of the fees becomes the District's responsibility.

SUBJECT: FINGERPRINTING OF PROSPECTIVE SCHOOL EMPLOYEES (Cont'd.)

Any prospective employee who previously has been fingerprinted in order to obtain certification, and whose fingerprints remain on file with the Division of Criminal Justice Services (DCJS), will not be required to be fingerprinted again for purposes of a criminal history record check.

Removal from the SED Criminal History File

Where individuals have been separated from employment at the School District and have not become employed in this District or another School District, BOCES or charter school within twelve (12) months of such separation, SED shall notify DCJS of such separation for the purpose of destroying the fingerprints of that individual. Further, upon request of such individual, SED shall notify DCJS prior to the expiration of such twelve-month period for the purpose of destroying their fingerprints. Such individuals shall be removed from the SED criminal history file.

Conditional Appointments/Emergency Conditional AppointmentsConditional Appointments

Upon the recommendation of the Superintendent of Schools, the Board of Education may conditionally appoint a prospective employee. A request for conditional clearance shall be forwarded to the Commissioner of Education along with the prospective employee's fingerprints as mandated pursuant to law. Such conditional appointment shall not commence until notification by the Commissioner that the prospective employee has been conditionally cleared for employment, and such conditional employment shall terminate when the School District is notified of the determination by the Commissioner to grant or deny full clearance; however, if full clearance is granted, the appointment shall continue and the conditional status shall be removed.

Prior to commencement of such conditional appointment, the District must obtain a signed statement for conditional employment from the prospective employee indicating whether, to the best of their knowledge, the prospective employee has a pending criminal charge or criminal conviction in any jurisdiction outside the state.

Emergency Conditional Appointments

Upon the recommendation of the Superintendent of Schools, the Board may make an emergency conditional appointment when an unforeseen emergency vacancy has occurred. When such an appointment is made, the process for conditional appointment as enumerated above must also be initiated.

SUBJECT: FINGERPRINTING OF PROSPECTIVE SCHOOL EMPLOYEES (Cont'd.)

Emergency conditional appointment may commence prior to notification from the Commissioner of Education on conditional clearance but shall terminate twenty (20) business days from the date such appointment commences or when the District is notified by the Commissioner that conditional clearance is either granted or denied, whichever occurs earlier; however, if conditional clearance is granted, the appointment shall continue as a conditional appointment.

Prior to the commencement of such appointment, the District must obtain a signed statement for emergency conditional appointment from the prospective employee indicating whether, to the best of their knowledge, the prospective employee has a pending criminal charge or criminal conviction in any jurisdiction.

An unforeseen emergency vacancy shall be defined as:

- a) A vacancy that occurred less than ten (10) business days before the start of any school session including summer school, or during any school session including summer school, without sufficient notice to allow for clearance or conditional clearance (however, this ten (10) business day timeframe provision shall not apply if the Board of Education finds that the School District has been unable to fill the vacancy despite good faith efforts to fill the vacancy in a manner that would have allowed sufficient time for full clearance or conditional clearance); and
- b) When no other qualified person is available to fill the vacancy temporarily; and
- c) When the emergency conditional appointment is necessary to maintain services which the District is legally required to provide or services necessary to protect the health, education or safety of students or staff.

Safety of Students

The District will develop internal building and/or program procedures to help ensure the safety of students who have contact with an employee holding conditional appointment or emergency conditional appointment. Such procedures will address the safety of students in the classroom, students attending off-campus activities under the supervision of the School District, and students participating in extracurricular and/or co-curricular activities (including sports and athletic activities).

Safety procedures to be addressed include, but are not limited to, the following: supervision of the employee holding conditional appointment/emergency conditional appointment as determined appropriate by the applicable building/program administrator; and periodic visitations by the building/program administrator to the classroom, program and/or activity assigned to the employee holding conditional appointment/emergency conditional appointment.

SUBJECT: SAFE MENTORING ACT

In accordance with the Safe Mentoring Act, to ensure the safety of students involved in the District's mentoring program, the District will obtain a criminal history record check from the Division of Criminal Justice Services (DCJS) for each prospective employee as well as prospective volunteer mentors who are involved in any District mentoring program and who may engage in unsupervised activities with youth or in activities with youth in a setting without constant District or parental/guardian oversight.

Definitions

- a) "Prospective employee" shall mean a person being considered for employment by a mentoring program.
- b) "Prospective mentor" shall mean an individual who is currently applying to volunteer to help a child or a group of children in a mentoring program for a period of time. Such help shall include, but not be limited to, being a positive role model for youth, building relationships with youth, and providing youth with academic assistance and exposure to new experiences and examples of opportunity that enhance the ability of children to become responsible adults.
- c) A "criminal history record" shall mean a record of all convictions of crimes and any pending criminal charges maintained on an individual by the DCJS and the Federal Bureau of Investigation (FBI).
- d) "Mentoring program" shall mean a formalized program operated by an educational institution or School District that matches youth with adult volunteers with the purpose of providing such youth with positive role models to enhance their development.

Prospective School Employees

All prospective school employees (as enumerated pursuant to Commissioner's Regulations, 8 New York Code of Rules and Regulations Section 80-1.11 and Part 87) must already receive clearance from the State Education Department (SED) in accordance with existing procedures. However, all other requirements of the Safe Mentoring Act apply to prospective school employees who are being considered for employment by a mentoring program.

The District shall require that a criminal history record check be conducted for any "prospective employee" not otherwise defined as a "prospective school employee" per Commissioner's Regulations in accordance with Social Services Law Section 390-e and District procedures.

(Continued)

SUBJECT: SAFE MENTORING ACT (Cont'd.)**Prospective Volunteer Mentors**

Volunteers, however, are not "covered" by such regulations, and "prospective mentors" (i.e., defined as applicants for volunteer work in a mentoring role/program) will be subject to the requirements of Social Services Law Section 390-e and District procedures.

Fees for Fingerprinting

Both the DCJS and the FBI impose a processing fee. The fees for the criminal history record search shall be an amount equal to the fees established by DCJS and the FBI for processing the criminal history information request. In addition, the entity that actually takes the fingerprints may impose a fee. The fees shall be payable to Office of Children and Family Services (OCFS) and paid by money order, check or certified check by the District.

Unless otherwise authorized by the Board of Education, the prospective employee and/or prospective volunteer mentor shall pay such fees.

Waiver by Custodial Parent/Guardian

A custodial parent/guardian may sign a waiver authorizing a mentor to work with their child regardless of a criminal charge or crime related to a mentor, unless the crime is a sex offense or a crime against a child. No waiver is permitted in the case of a sex offense or a crime against a child. This waiver process may only be initiated upon the consent of the prospective mentor, and be on a form developed by the OCFS. Where applicable, the District may notify a custodial parent/guardian of their waiver right, but a waiver shall only be authorized by a custodial parent or guardian.

Confidentiality

The criminal history record shall be confidential pursuant to applicable federal and state laws, rules and regulations, and shall not be published or in any way disclosed to persons other than authorized personnel, unless otherwise authorized by law.

Parental Disclosure

The District will provide each custodial parent/guardian of every child participating in its mentoring program a description of the kind of criminal background checks conducted on prospective employees and prospective volunteer mentors in accordance with law.

SUBJECT: DEFENSE AND INDEMNIFICATION OF BOARD MEMBERS AND EMPLOYEES

Liability Protection Pursuant to Education Law

The Board of Education recognizes its statutory obligation to indemnify School District employees (and in certain circumstances, Board of Education members and volunteers) pursuant to the provisions of Sections 3023, 3028 and 3811 of the Education Law. For the purposes of this policy, the term "employee" shall be as defined in the applicable statute(s).

The District shall not be subject to the duty to defend unless the employee, within the time prescribed by statute, delivers appropriate notice of the claim to the Board of Education.

- a) For purposes of Education Law Section 3811, the employee must give written notice within five (5) days after service of process upon them. The statute mandates only written notice of the claim to the Board of Education; however, submission of relevant legal documents by the employee to the Board is also encouraged.
- b) For purposes of Education Law Sections 3023 and 3028, the employee must deliver the original or a copy of the relevant legal documents to the Board within ten (10) days after service of process upon them.

The District will provide legal defense and/or indemnification for all damages, costs, and reasonable expenses incurred in the defense of an action or proceeding if authorized pursuant to statute and provided that the alleged action or omission which occurred or allegedly occurred is covered by the appropriate statute(s). Furthermore, the District will not be required to provide indemnification protection and/or legal defense unless the employee was, at the time of the alleged incident, acting in the discharge of their duties within the scope of their employment or authorized volunteer duties and/or under the direction of the Board of Education.

Public Officers Law Section 18

The Board of Education hereby also confers the benefits of Section 18 of the New York State Public Officers Law upon the "employees" of the District, as defined in Section 18 of the Public Officers Law; and the District assumes the liability for the costs incurred in accordance with the provisions of Section 18. The benefits accorded to District employees under Section 18 of the Public Officers Law shall supplement and be available in addition to defense or indemnification protection conferred by other enactment or provisions of law.

(Continued)

**SUBJECT: DEFENSE AND INDEMNIFICATION OF BOARD MEMBERS AND
EMPLOYEES (Cont'd.)**

The term "employees" shall include members of the Board of Education; the Superintendent; District officers; District employees; volunteers expressly authorized to participate in a District sponsored volunteer program; or any other person holding a position by election, appointment or employment in the service of the District, whether or not compensated. The term "employee" shall also include a former employee, their estate or judicially appointed representative.

Pursuant to the provisions of Section 18 of the Public Officers Law, and upon compliance by the employee with the requirements of this statute, the District shall provide for the defense of the employee in any civil action or proceeding, state or federal, arising out of any alleged act or omission which occurred or allegedly occurred while the employee was acting within the scope of their public employment or duties. Furthermore, the District shall indemnify and save harmless its employees in the amount of any judgment obtained against such employees in a state or federal court, or in the amount of any settlement of a claim, provided that the act or omission from which such judgment or claim arose occurred while the employee was acting within the scope of their public employment or duties. However, in the case of a settlement, the duty to indemnify and save harmless shall be conditioned upon the approval of the amount of the settlement by the Board of Education.

The duty to defend and/or indemnify and save harmless, in accordance with Section 18 of the Public Officers Law, shall be conditioned upon the delivery by the employee to the School District attorney or to the Superintendent a written request to provide for their defense, together with the original or a copy of any summons, complaint, process, notice, demand or pleading within ten (10) days after they are served with such document. Pursuant to Section 18, the full cooperation of the employee in the defense of such action or proceeding and in the defense of any action or proceeding against the District based upon the same act or omission, and in the prosecution of any appeal, shall also be required as a condition for the District's duty to defend and/or indemnify and save harmless to exist.

Exceptions to Liability Coverage

Indemnification coverage and/or provision of legal defense by the District will not apply unless the actionable claim is of the type covered by the statute(s) and/or is not otherwise exempt from coverage pursuant to law. LEAVES OF ABSENCE

In general, leaves of absence shall be administered by the Superintendent of Schools or his or her designee. The Board of Education reserves the right to grant leaves of absence for purposes or under conditions not contemplated or considered in this policy statement. Under laws and rules governing such action, the Board may undertake appropriate disciplinary action where a leave of absence is falsely requested or improperly used. Except by permission of the Superintendent, as expressed in writing, the purpose or conditions of a leave of absence may not be altered.

Contractual leaves of absence shall be granted to employees who are members of a negotiating unit. In such cases, authorization to approve requests for leaves of absence submitted shall be pursuant to provisions of contracts in effect between the district and each bargaining unit.

- In the case of employees who are not members of a negotiating unit, authorization is granted to approve requests for leaves of absence submitted by such employees where the requests are consistent with provisions of contracts in effect between the district and the bargaining unit most compatible with the employment status of the employee.
- In the case of employees who are under contract to the district, authorization is granted to implement provisions for leaves of absence contained in each such contract.

Unpaid leaves of absence not covered above shall be subject to limitations enumerated in this policy statement. Such authorization is granted for the following unpaid leaves of absence:

- For a period of time not to exceed one school year for approved graduate study, such leave to include any required internship experience.
- At the expiration of a paid sick leave of absence, to extend such a leave of absence for a period of time not to exceed the end of the school year next succeeding the school year in which the paid leave of absence commenced.

Unpaid leaves of absence shall not be used to extend vacation periods, to take vacations, to engage in other occupations, or to provide additional personal leaves except that the Superintendent shall have discretion, where circumstances warrant, to approve leaves of absence for such purposes.

Unpaid leaves of absence shall not be granted unless the services of a substitute employee, satisfactory in the discretion of the Superintendent, are able to be secured.

Except where it interferes with an employee's legal or contractual rights, the timing of unpaid leaves of absence will be granted at the convenience of the district.

The district will notify employees of their right to leaves as indicated by federal law, state law or regulation.

Leave granted to employees for off premises blood donation is not required to be paid leave. Leave taken by employees for “donation leave alternatives” (which is what the law terms on-site blood donation) shall be paid leave given without requiring the employee to use accumulated vacation, personal, sick or other existing leave time.

Employees wishing to utilize the leave time for offsite blood donation shall give a minimum of three (3) working days notice to the Superintendent or his or her designee. Employees wishing to utilize the leave time for alternate donations shall give a minimum of two (2) working days notice.

SUBJECT: FAMILY AND MEDICAL LEAVE ACT

The Board of Education, in accordance with the Family and Medical Leave Act of 1993 (FMLA), gives "eligible" employees of the District the right to take unpaid leave for a period of up to twelve (12) workweeks in a twelve-month period as determined by the District. The District will compute the twelve-month period according to the following time frame: a "rolling" twelve-month period will be used that is measured backward from the date an employee uses any FMLA leave.

Employees are "eligible" if they have been employed by the District for at least twelve (12) months and for at least 1,250 hours of service during the previous twelve-month period. Full-time teachers are deemed to meet the 1,250 hour test. The law covers both full-time and part-time employees.

Qualified employees may be granted leave for one (1) or more of the following reasons:

- a) The birth of a child and care for the infant;
- b) Adoption of a child and care for the infant;
- c) The placement with the employee of a child in foster care;
- d) To care for a spouse, child or parent who has a serious health condition as defined by the FMLA;
- e) To care for an adult child who is incapable of self-care due to a disability (regardless of the date of the onset of disability) and has a "serious health condition" as defined by FMLA;
- f) A serious health condition of the employee, as defined by the FMLA, that prevents the employee from performing their job; and/or
- g) Because of "any qualifying exigency" (such term to be defined by regulations issued by the Secretary of Labor) or to care for a covered servicemember, as is more fully described below.

Military Caregiver Leave

The FMLA provides an employee who is the spouse, child, parent or next of kin of a covered servicemember up to twenty-six weeks of unpaid leave to care for the covered servicemember who is undergoing medical treatment, recuperation or therapy for a serious illness or injury. This includes caring for a covered veteran who is receiving medical treatment for a serious injury or illness that they either incurred, or that was aggravated, in the line of duty, whether it manifested before or after the veteran ceased their active duty. A covered veteran is defined as any veteran who was discharged for any reason other than dishonorably in the last five years.

Qualifying Exigency Leave

Up to twelve weeks of qualifying exigency leave will be provided to eligible employees whose spouse, child or parent serves in the Regular Armed Forces and is deployed to a foreign country, so that the employee can take care of various issues which may arise as a result of the deployment, such as making child care arrangements, or attending deployment ceremonies. In addition, an eligible employee can take leave to care for the servicemember's parent who is

(Continued)

SUBJECT: FAMILY AND MEDICAL LEAVE ACT (cont'd)

incapable of self-care where those activities arise from the servicemember's deployment or impending deployment, such as transferring the parent to a care facility.

An eligible employee can also take up to fifteen days of unpaid leave while their family member is on Rest and Recuperation leave from the military.

Implementation/Benefits

At the Board of Education's or employee's option, certain types of paid leave may be substituted for unpaid leave.

An employee on FMLA leave is also entitled to have health benefits maintained while on leave. If an employee was paying all or part of the premium payments prior to leave, the employee will continue to pay their share during the leave period.

In most instances, an employee has a right to return to the same position or an equivalent position with equivalent pay, benefits and working conditions at the conclusion of the leave.

The Board of Education has a right to thirty (30) days advance notice from the employee where practicable. In addition, the Board may require an employee to submit certification from a health care provider to substantiate that the leave is due to the serious health condition of the employee or the employee's immediate family member. Failure to comply with these requirements may result in the denial of FMLA leave. The Board may also require that an employee present a certification of fitness to return to work when the absence was caused by the employee's serious health condition. The Board of Education has the right to deny restoration to employment if the employee does not furnish the certificate of fitness.

Notice for Leave Due to Active Duty of Family Member

In any case in which the necessity for leave due to any qualifying exigency is foreseeable, whether because the spouse, or a son, daughter, or parent of the employee is on active duty, or because of notification of an impending call or order to active duty in support of a contingency operation, the employee shall provide such notice to the employer as is reasonable and practicable.

FMLA Notice

A notice which explains the FMLA's provisions and provides information concerning the procedures for filing complaints of violations of the FMLA shall be posted in each school building.

SUBJECT: EMPLOYEE ASSISTANCE PROGRAM (EAP)

The District will provide an Employee Assistance Program for employees who are experiencing personal difficulties. The purpose of the program is to assist employees in obtaining help to resolve such problems in an effective and confidential manner. This program recognizes that the primary obligation to seek assistance and to resolve the problem rests with the employee. Information on this confidential program is available in school offices, central administration and/or through Principals or Supervisors.

The Board recognizes that a wide range of problems that are not directly associated with an employee's job function may have an effect on an employee's job performance. The problems may involve physical illness, mental or emotional illness, alcohol abuse or alcoholism, drug abuse or dependency, or personal problems such as those of a marital, family, or financial nature.

Personnel

SUBJECT: ELECTION TO RECEIVE COMPENSATION ON A TWELVE (12) MONTH BASIS RATHER THAN A TEN (10) MONTH

In conformity with the U.S. Treasury Regulation Section 1.409A-2 (a)(14), the District hereby permits ten (10) month salaried employees to elect to be paid over a twelve (12) month period. Employees who elect the twelve (12) month payment option will receive reduced amounts each pay period but the same annual salary.

Any employee electing this option must do so in writing, on a form developed and distributed by the Assistant Superintendent, no later than September 1 of the school year for which the school employee is paid. For this purpose, per diem work performed in July and August is excluded since payment for such work is not subject to deferral.

Once an employee elects the twelve (12) month option, it is irrevocable and may not be changed after the work period begins. If no election is made by an employee, the employee will be paid as employees who do not take the election.

The election of the twelve (12) month period will remain in place until the employee elects to change it. If the employee wants to change their election and begin to receive compensation on a ten (10) month (school year) basis, the employee must notify the District in writing of that change no later than September 1 of the school year to which the change applies.

SUBJECT: COMPREHENSIVE STUDENT ATTENDANCE POLICY**Statement of Overall Objectives**

School attendance is both a right and a responsibility. The School District is an active partner with students and parents in the task of ensuring that all students meet or exceed the New York State Learning Standards, and state aid is affected by average daily attendance. Because the School District recognizes that consistent school attendance, academic success and school completion have a positive correlation, the School District will develop, review and, if necessary, revise a Comprehensive Student Attendance Policy to meet the following objectives:

- a) To increase school completion for all students;
- b) To raise student achievement and close gaps in student performance;
- c) To identify attendance patterns in order to design attendance improvement efforts;
- d) To know the whereabouts of every student for safety and other reasons;
- e) To verify that individual students are complying with education laws relating to compulsory attendance;
- f) To determine the District's average daily attendance for State aid purposes.

Description of Strategies to Meet Objectives

The School District will:

- a) Create and maintain a positive school building culture by fostering a positive physical and psychological environment where the presence of strong adult role models encourages respectful and nurturing interactions between adults and students. This positive school culture is aimed at encouraging a high level of student bonding to the school, which in turn should lead to increased attendance.
- b) Maintain accurate recordkeeping to record attendance, absence, tardiness or early departure of each student.
- c) Utilize data analysis systems for tracking individual student attendance and individual and group trends in student attendance problems.
- d) Develop early intervention strategies to improve school attendance for all students.
- e) Provide attendance procedures to parents and students: A plain language summary of this attendance policy will be included in student handbooks and will be reviewed with students at the start of the school year.

Excused and Unexcused Absences, Tardiness and Early Departures

All absences must be accounted for. It is the parent's responsibility to notify the school office within 24 hours of the Absences, Tardy or Early Departure and to provide a written excuse upon the student's return to school.

(Continued)

SUBJECT: COMPREHENSIVE STUDENT ATTENDANCE POLICY (cont'd)

- a) **Excused:** An absence, tardiness or early departure may be excused if due to personal illness, illness or death in the family, impassable roads due to inclement weather, religious observance, quarantine, required court appearances, attendance at health clinics, approved college visits, approved cooperative work programs, military obligations, school-sponsored events, field trips, or other such reasons as may be approved by the appropriate building administrator.
- b) **Unexcused:** Any absence, tardiness, or early departure will be considered unexcused unless valid written documentation is provided within three (3) days. Any absence in excess of three (3) consecutive days without documentation will result in a phone call to the child's family and potential conference with the principal.

All other (Absence, Tardy, Early Departures) are considered unexcused absences.

Student Attendance Recordkeeping/Data Collection

The record of each student's presence, absence, tardiness and early departure shall be kept in a register of attendance within the district's student management system in a manner consistent with Commissioner's Regulations. An absence, tardiness or early departure will be entered as "excused" or "unexcused" along with the District code for the reason.

A record shall be kept of each scheduled day of instruction during which the school is closed for all or part of the day because of extraordinary circumstances including adverse weather conditions, impairment of heating facilities, insufficiency of water supply, shortage of fuel, destruction of or damage to a school building, or such other cause as may be found satisfactory to the Commissioner of Education.

Attendance records shall also indicate the date when a student withdraws from enrollment or is dropped from enrollment in accordance with Education Law Section 3202(1-a).

Student Attendance/Course Credit

The District believes that classroom participation is related to and affects a student's performance and grasp of the subject matter and, as such, is properly reflected in a student's final grade. For purposes of this policy, classroom participation means that a student is in class and prepared to work.

Consequently, for each marking period a certain percentage of a student's final grade will be based on classroom participation by attendance as well as the student's performance on homework, tests, papers, projects, etc. as determined by the building administrator and/or classroom teacher.

Students are expected to attend all scheduled classes. Consistent with the importance of classroom participation by attendance, unexcused student absences, tardiness, and early departures may impact a student's grade, including credit for classroom participation, for the marking period.

(Continued)

SUBJECT: COMPREHENSIVE STUDENT ATTENDANCE POLICY (cont'd)

At the middle school/high school level, any student with more than twenty (20) unexcused absences in a course in a semester may not receive credit for the course. However, it is District policy that students with properly excused absences, tardiness and early departures for which the student has performed any assigned make-up work, assignments and/or tests may be awarded course credit.

For courses meeting one-half (1/2) year or one quarter (1/4) year, the same policy will apply and a calculation of the absences will be prorated accordingly.

Transfer students and students re-enrolling after having dropped out will be expected to attend a prorated minimum number of the scheduled class meetings during their time of enrollment.

Students will be considered in attendance if the student is:

- a) Physically present in the classroom or working under the direction of the classroom teacher during the class scheduled meeting time; or
- b) Working pursuant to an approved independent study program; or
- c) Receiving approved alternative instruction.

Students who are absent from class due to their participation in a school-sponsored activity are to arrange with their teachers to make up any missed work deemed necessary in a timely manner.

Upon returning to school following a properly excused absence, tardiness or early departure, it shall be the responsibility of the student to consult with their teacher(s) regarding arrangements to make up missed work, assignments and/or tests in accordance with the time schedule specified by the teacher.

Attendance Incentives at the Elementary Schools

In order to encourage student attendance, the Building Principal and teachers will develop and implement a variety of grade-appropriate/building-level strategies and programs that may include, but are not limited to assigning special responsibilities (distribute and collect materials, lead groups, assist the teacher, etc.) to students who may need extra motivation to come to school.

Notice of Minimum Attendance Standard/Intervention Strategies Prior to the Denial of Course Credit At the Secondary Level

In order to ensure that parents/persons in parental relation and students are informed of the District's policy regarding minimum attendance and course credit, and the implementation of specific intervention strategies to be employed prior to the denial of course credit to the student for insufficient attendance, the following guidelines shall be followed:

(Continued)

SUBJECT: COMPREHENSIVE STUDENT ATTENDANCE POLICY (cont'd)

- a) Copies of the District's Comprehensive Student Attendance Policy will be provided to parents/persons in parental relation and provided to students by the registrar at the time of enrollment in the District.
- b) School newsletters and publications will include periodic reminders of the components of the District's Comprehensive Student Attendance Policy. A summary of the Attendance Policy will also be included in parent/student handbooks.
- c) The middle and high school utilize an automated notification system to alert parents when a student's daily attendance record is in question.
- d) The Principal, school counselor or teacher will review the District's Attendance Policy with parents and students who have excessive and/or unexcused absences, tardiness or early departures. Further, appropriate student support services/personnel within the District, as well as the possible collaboration/referral to community support services and agencies, will be implemented prior to the denial of course credit for insufficient attendance by the student.

Disciplinary Consequences and Appeal Process

- 1. Unexcused absences, tardiness and early departures may result in consequences including, but not limited to, denial of participation in interscholastic and extracurricular activities, etc. Parents/persons in parental relation will be notified by designated District personnel at periodic intervals to discuss their child's absences, tardiness or early departures and the importance of class attendance and appropriate interventions. Individual buildings/grade levels will address procedures to implement the notification process to the parent/person in parental relation.
- 2. All appeals related to unexcused absences and/or denial of course credit will be made directly to the principal on the following basis:
 - a. Regarding the accuracy of a student's attendance record;
 - b. To ascertain whether it appears that students with disabilities are treated consistently with IDEA or Section 504 Plans;
 - c. To consider "extenuating circumstances" including, but not limited to absences due to circumstances related to insecure housing and education neglect.
- 3. Parent/Guardian will have twenty (20) calendar days from the issue of the written notification of unexcused absences to appeal the building principal's decision to the Assistant Superintendent for Curriculum & Instruction, who shall make the final decision regarding all appeals.

Intervention Strategy Process

In order to effectively intervene when an identified pattern of unexcused absences, tardiness or early departures occur, the teacher, Principal, Assistant Principal, or School Counselor may implement a variety of strategies and interventions to address the issue including but not limited to the following:

(Continued)

SUBJECT: COMPREHENSIVE STUDENT ATTENDANCE POLICY (cont'd)

- a) Identify specific element(s) of the pattern (e.g., grade level, building, time frame, type of unexcused absences, tardiness or early departures);
- b) Notify the student and parent/person in parental relation;
- c) Discuss strategies to directly intervene with specific element;
- d) Recommend intervention to Superintendent or their designee if it relates to change in District policy or procedure;
- e) Implement changes, as approved by appropriate administration;
- f) Utilize appropriate District and/or community resources to address and help remediate student unexcused absences, tardiness or early departures;
- g) Monitor and report short and long term effects of intervention.

Building Review of Attendance Records

The Building Principal will work with designated staff in reviewing attendance records during and at the end of each term. This review is conducted to identify individual and group attendance patterns and to initiate appropriate action to address the problem of unexcused absences, tardiness and early departures.

Review by the Board of Education

The Board of Education must at least annually review the building level student attendance records and if such records show a decline in student attendance, the Board shall make any revisions to the Policy deemed necessary to improve student attendance.

Community Awareness

The Board of Education shall promote necessary community awareness of the District's Comprehensive Student Attendance Policy by:

- a) Providing a plain language summary of the policy to parents or persons in parental relation to students at the beginning of the each school year and promoting the understanding of such a policy to students and their parents/persons in parental relation;
- b) Providing each teacher, at the beginning of the school year or upon employment, with a copy of the policy; and
- c) Providing copies of the policy to any other member of the community upon request.

SUBJECT: SCHOOL ADMISSIONS -- AGE AND RESIDENCY

Ages of Attendance/Compulsory Attendance Age

According to Education Law, a student who becomes six (6) years of age on or before the first of December in any school year shall be required to attend full-time instruction from the first day that the District schools are in session in September of such school year, and a student who becomes six (6) years of age after the first of December in any school year shall be required to attend full-time instruction from the first day of session in the following September. Except as otherwise provided in Education Law Section 3205(3), a student shall be required to remain in attendance until the last day of session in the school year in which the student becomes sixteen (16) years of age.

However, in accordance with Education Law Section 3205(3), the Board of Education in **any** school district shall have the power to require minors from sixteen (16) to seventeen (17) years of age who are not employed to attend full-time instruction until the end of the school year in which the student turns seventeen (17) years of age.

All persons dwelling within the District who are between the ages of five (5) years and twenty-one (21) years and who have not received a high school diploma shall be entitled to enroll in the District.

Undocumented children, like U.S. citizen children, have the right to attend school full-time as long as they meet the age and residency requirements established by state law.

Proof of Age

The State Education Department does not require districts to collect students' social security numbers for any purpose. While school districts may need to collect certain data pursuant to State and/or federal laws, they should do so after a student has enrolled in school so as not to inadvertently give the impression that information related to immigration status will be used in making registration/enrollment determinations.

SUBJECT: SCHOOL ADMISSTIONS -- AGE AND RESIDENCY (cont'd)

Determination of Student Residency

The residence of children dwelling within the District boundaries shall be established in a manner consistent with State Law and the Regulations of the Commissioner. The Board of Education or its designee shall determine whether a child is entitled to attend a District school. Any adverse residency decision by a school official, other than the Board or its designee, shall include written notice to the parent/person in parental relation of the procedures for obtaining review of the decision within the District.

A child's residence is presumed to be that of their parents or legal guardians. However, the District may encounter students, particularly from other countries, who reside with persons other than their parents or legal guardians. In order to determine residency in these cases, the District may request information regarding such student's custody to establish residency and to ensure the health, safety and welfare of the child.

Children Living With Noncustodial Parents

A child's residence is usually determined by the residence of the custodial parent. However, a noncustodial parent who resides in the District may enroll their child in a District school if they share the day-to-day responsibilities for the child and the custodial parent designates the child's residence with the noncustodial parent.

Children Experiencing Housing Insecurity

The parent/person in parental relation to a child experiencing insecure housing; or the child experiencing insecure housing, together with the homeless liaison designated by the School District in the case of an unaccompanied youth; or the director of a residential program for runaway and homeless youth established pursuant to Executive Law Article 19-H, in consultation with the child experiencing housing insecurity, where such child experiencing housing insecurity is living in such program, may designate either the school district of current location, the school district of origin, or a school district participating in a regional placement plan as the district the child experiencing housing insecurity shall attend.

Children of Activated Reserve Military Personnel

Students temporarily residing outside the boundaries of the District, due to relocation necessitated by the call to active military duty of the student's parent or person in parental relation, will be allowed to attend the public school that they attended prior to the relocation. However, the District is not required to provide transportation between a temporary residence located outside the District and the school the child attends.

Emancipated Minors

A determination of whether a student is to be designated as an emancipated minor in the Ontario School District will be based on evidence that the student is no longer under custody, control and support of their parents/persons in parental relation. To establish emancipation, a minor may submit documentation of their means of support, proof of residency and an

explanation of the circumstances surrounding the student's emancipation, including a description of the student's relationship with their parents/persons in parental relation.

These statements are renewable each school year. If at any time the above information is changed without prompt notification or proven to be false, the parent/person in parental relation and/or student may be subject to legal action.

Children Living With Persons Not Their Parents -- Guardianship or Custody

In accordance with the Family Court Act and Domestic Relations Law, a person possessing a lawful order of guardianship or custody of a minor child who is not the parent of such child may enroll the child in public school in the school district where they and the child reside.

Therefore, upon application for enrollment by the guardian or custodian, the District shall enroll such a child for such time as the child resides with the guardian or custodian in the District upon verification that the guardian or custodian possess a lawful order of guardianship or custody for the child and that the guardian or custodian and the child properly reside in the same household within the District.

SUBJECT: ADMISSION OF FOREIGN EXCHANGE STUDENTS

The Board of Education recognizes that foreign exchange students can add to the cultural diversity and enrichment of the School District and, therefore, enhance the school environment and the school community. As a general rule, foreign exchange students shall not be admitted to the District's schools for longer than one (1) school year.

The District shall retain the sole discretion to deny admission to any student who does not meet the requirements set forth in this policy. The District may also terminate any approval of a foreign student program when the Board believes that it would be in the best interest of the District.

- a) All foreign exchange students seeking admission into the District must participate through a recognized accredited foreign exchange program through J-1 Visas, approved by the Superintendent of Schools. Foreign exchange students must be of school age and must be currently enrolled as a student in their home country.
- b) All foreign exchange students must be formally accepted into the District, in writing, by the Superintendent of Schools or designees. The Superintendent shall consult with the Building Principal prior to acceptance or rejection of an application.
- c) Foreign exchange students must:
 - 1. Have demonstrated sufficient scholastic achievement in their home school to indicate the possibility of success in the District school they will attend.
 - 2. Ensure that their academic records and credentials are available to school officials in advance of the student's admission.
 - 3. Be in good health and provide an immunization record demonstrating that the student complies with current student immunization requirements.
 - 4. Have health and accident insurance in acceptable form to the District.
 - 5. Enroll in the District on a full-time basis for one (1) semester or one (1) school year.
 - 6. Agree to conform to district's code of conduct and building's student handbook.
- d) A foreign exchange student's enrollment in the School District may be terminated at any time by school officials for failure to abide by the established guidelines, including:
 - e) Failing grades in two or more courses of study;
 - f) Failure to conform to established rules and regulations;
 - g) Failure to conform to the regulations established by the sponsoring organization; and/or
 - h) Excessive absences.

Foreign exchange students will be treated as nearly as possible like any other student in the school, including grading, and will be encouraged to participate in all eligible school activities and special events.

Foreign students shall be subject to the District's Code of Conduct and all applicable policies and regulations. The District reserves the right to remove a non-resident student from the District without the need for a hearing under Education Law §3214.

CHILDREN EXPERIENCING INSECURE HOUSING

The Board of Education recognizes its responsibility under federal (McKinney-Vento) and state laws and regulations to identify children experiencing insecure housing within the district, encourage their enrollment and eliminate existing barriers to their identification, enrollment, attendance, or success in school which may exist in district practices. The Board will provide children experiencing insecure housing attending the district's schools with access to the same free and appropriate public education and other school programs and activities, including publicly-funded preschool education, as other children.

A child experiencing insecure housing is a child who lacks a fixed, regular, and adequate nighttime residence or who has a primary nighttime location in a public or private shelter designed to provide temporary living accommodations, or a place not designed for, or ordinarily used as, a regular sleeping accommodation for human beings. This definition also includes a child who shares the housing of others due to loss of housing, economic hardship, or similar reason; lives in motels, hotels, trailer parks, or camping grounds due to the lack of alternative adequate accommodations; lives in a car, park, public space or abandoned building, substandard housing, bus or train station or similar setting; has been abandoned in a hospital; or is a migratory child who qualifies as experiencing insecure housing. An unaccompanied youth is a child experiencing insecure housing not in the physical custody of a parent or guardian.

To assist in determining eligibility for services under the McKinney-Vento Act, the district will use a housing questionnaire for all enrolling students, and those reporting a change of address, which asks for a description of the student's current living arrangements.

A child experiencing insecure housing or youth has the right to attend their school of origin, or any school that permanently houses students who live in the attendance area in which the student experiencing insecure housing is actually living. For students experiencing insecure housing, a school of origin can be:

1. the public school they attended when permanently housed (i.e., before becoming insecure in housing); or
2. the public school where they were last enrolled, or
3. the public school they were entitled or eligible to enroll in when the child became insecure in housing, if that child became insecure in housing after such child was eligible to apply, register, or enroll in a public preschool or kindergarten, or he/she is living with a school-age sibling who attends school in the district; or
4. the designated receiving school at the next grade level for any feeder school, where the child has completed the final grade in the feeder school.

Such schools include publicly-funded preschools administered by the district or the State Education Department (SED).

The child experiencing insecure housing is entitled to attend the designated school on a tuition-free basis for the duration of their housing insecurity. If the child becomes permanently housed, the child is entitled to continue attendance in the same school building until the end of the school year and for one additional year if that year constitutes the child's terminal year in such building. If a child experiencing insecure housing completes the final grade level their school of origin, the child may also attend the designated receiving school at the next grade level for all feeder schools.

The Superintendent of Schools shall develop procedures necessary to expedite the child experiencing insecure housing's access to the designated school. Such procedures shall include:

1. Admission and Participation: Upon designation, the district will immediately admit the child experiencing insecure housing to school, even if the child is unable to produce records normally required for enrollment, such as previous academic records, medical or immunization records
(however, the district may temporarily exclude a child from attendance if there are actual symptoms of a communicable disease that pose a significant risk of transmission to others), proof of age or residency or other documentation and even if there is a dispute with the child's parents regarding school selection or enrollment. During a dispute, the student may continue attending the school until final resolution of the dispute, including all available appeals. Children experiencing insecure housing will have the same opportunity as other children to enroll in and succeed in the district's schools, including extracurricular activities and summer school programs available to district students. They will not be placed in separate schools or programs based on their status as having housing insecurity. The district will eliminate barriers to identification, enrollment and retention of children experiencing housing insecurity, including barriers to enrollment and retention due to outstanding fees, fines or absences.
2. Transportation: The district will promptly provide transportation for students experiencing insecure housing currently attending district schools as required by applicable law, as described in the accompanying regulation. In general, the district will ensure that transportation is provided to students experiencing insecure housing enrolled in the district who attend a school of origin, including a publicly-funded preschool administered by the district or SED, even if the student lives outside the district's boundaries. Transportation will be provided for the duration of housing insecurity, through the remainder of the school year in which the student becomes permanently housed, and one additional year if that is the student's final year in the school.
3. School Records: For students experiencing insecure housing attending school out of the district, the district will, within five days of receipt of a request for records, forward a complete copy of the child experiencing insecure housing's records including proof of age, academic records, evaluation, immunization records and guardianship paper, if applicable. For students experiencing insecure housing attending school in the district, the district will request the student's records (academic, medical, etc.) from the school the student last attended.
4. Coordination: The district will coordinate with local social services agencies and other entities providing services to children experiencing insecure housing and their families for the provision of services to children experiencing insecure housing, and will coordinate with other school districts on issues of prompt identification, transportation, transfer of records, and other inter-district activities.

This will include ensuring the provision of appropriate services to students experiencing insecure housing with disabilities who are eligible for services under either Section 504 or IDEA.

A portion of the district's Title I, Part A funds will be set aside for children and youth experiencing insecure housing to provide educationally related support services and services not ordinarily provided to other students.

Information about a child experiencing insecure housing's living situation will be treated as a student education record, and will not be considered directory information under FERPA. See policy 7240, Student Records for more information.

The Superintendent will also designate a McKinney-Vento liaison for children experiencing insecure housing and ensure that this person is aware of and able to carry out their responsibilities under the law. The Superintendent will ensure that the liaison receives appropriate professional development on identifying and meeting the needs of students experiencing insecure housing, including the definitions of terms related to insecure housing. The liaison's responsibilities will include, but not be limited to, ensuring that:

1. parents or guardians of children experiencing insecure housing are informed of the educational and related opportunities available to their children, and are provided with meaningful opportunities to participate in the education of their children;
2. parents and guardians and unaccompanied youth are fully informed of all transportation services available to them, and are assisted in accessing them;
3. enrollment disputes involving children experiencing insecure housing are promptly mediated and resolved;
4. school personnel, through outreach and in coordination with shelters and social service agencies and other appropriate entities, identify children experiencing insecure housing, including preschoolers experiencing insecure housing;
5. children experiencing insecure housing receive educational services, including but not limited to Head Start and preschool services to which they are eligible, as well as referrals to health care and other appropriate services for children experiencing insecure housing and their families;
6. public notice of the educational rights of children experiencing insecure housing is disseminated in locations frequented by unaccompanied youth experiencing insecure housing and parents/guardians of children experiencing insecure housing, in a manner and form understandable to them;
7. staff who provide services to students experiencing insecure housing receive required professional development and support on identifying and meeting the needs of students experiencing insecure housing;
8. unaccompanied youth are informed of their rights, are enrolled in school, and have opportunities to meet the same state standards set for all students, including receiving credit for full or partial coursework earned in a prior school pursuant to Commissioner's regulations.

In accordance with law and regulation, the district will offer a prompt dispute resolution process (described in more detail in the accompanying administrative regulation). A student shall be entitled to continued enrollment in the district's schools, and transportation, pending resolution of the dispute and all available appeals.

In accordance with Commissioner's regulations, the district will collect and transmit to the Commissioner information necessary to assess the educational needs of children experiencing insecure housing within the State.

CHILDREN EXPERIENCING INSECURE HOUSING

Each school in the district will maintain forms provided by the Commissioner of Education for designating a child experiencing insecure housing's district of attendance. These forms must be provided to any child experiencing insecure housing or parent or guardian who seeks to enroll a child in school. The district's McKinney-Vento liaison for students experiencing insecure housing will assist the child experiencing insecure housing and/or parent or guardian in understanding their rights under the law and provide them with information regarding the educational and related opportunities available to them.

School placement decisions for children experiencing insecure housing will be based on the "best interest of the child" and will:

1. presume that keeping the child in the school of origin is in the child's best interest, except when doing so is contrary to the wishes of the parent or guardian or unaccompanied youth; and
2. consider student-centered factors such as the effect of mobility on student achievement, education, health and safety of the child, giving priority to the wishes of the child's parent or guardian or unaccompanied youth.

If the district determines that it is in the best interest of the student to attend a school other than the school of origin or a school requested by the parent or guardian, the Superintendent or designee will provide the parent or guardian or unaccompanied youth with a written explanation of its decision, together with a statement regarding the right to appeal the placement, which will be in a manner and form understandable to them. The Superintendent or designee will refer any such dispute to the district's McKinney-Vento liaison for resolution. The student must be enrolled in the school sought by the parent or guardian or unaccompanied youth and provided with requested transportation pending final resolution of the dispute, including all available appeals.

Admission Procedures

Upon identifying a student experiencing housing insecurity, the Superintendent of Schools or designee will immediately:

1. ensure that a designation form is given to the parent or guardian or unaccompanied youth and review the designation form to ensure that it is complete;
2. admit the child experiencing insecure housing even if the child or parent or guardian is unable to produce records normally required for enrollment, or the student has missed application or enrollment deadlines, or there is an unresolved dispute regarding eligibility, school selection or enrollment;
3. notify the McKenney-Vento liaison of the child's admission. The liaison must:
 - a. notify the child and/or the parent or guardian of the educational and related opportunities available to children experiencing insecure housing including transportation to the school of origin, and help arrange for transportation and other services such as those under Title I, Section 504, IDEA, and federal school meals;

- b. ensure that the child receives the educational services for which they are eligible, including Head Start and Early Head Start, early intervention services, and preschool programs administered by the district;
- c. make necessary referrals for the children experiencing insecure housing or their families to health care services, dental services, mental health services, substance abuse services, housing services, and other appropriate services;
- d. ensure that any enrollment disputes are mediated promptly and in accordance with the law;
- e. when assisting unaccompanied youth in placement or enrollment decisions, give priority to the views of such youth, and inform them of their status as “independent students” for purposes of applying for federal financial aid for college and assist with that process; and
- f. assist in obtaining required immunizations, health screenings, immunization records or health records.

The Superintendent or designee will forward a copy of the designation form to the Commissioner of Education and the school district of origin where applicable.

Unaccompanied Youth and Parent/Guardian Signatures

To the extent that district policies and practices require parent/guardian permission or consent, the district will remove barriers to admission and participation for unaccompanied youth due to lack of parent/guardian signatures. This includes, but is not limited to, enrollment, providing medical care and excuses for absences, participating in field trips and extracurricular activities, and accessing or releasing records. Where parent/guardian consent, permission or signatures cannot be obtained for unaccompanied youth, the district will accept signatures from the following:

- 1. Persons designated by the parent/guardian as a “person in parental relation” under state General Obligations Law Title 15-A;
- 2. Authorized caregivers age 18 or older so identified by the unaccompanied youth;
- 3. The unaccompanied youth themselves; or
- 4. The McKinney-Vento liaison.

Parental rights under FERPA pertaining to student records extend to a person acting as a parent in the absence of a parent/guardian. The district grants unaccompanied youth under age 18 the rights under FERPA for eligible students and parents/guardians.

Transportation

Unless the child experiencing insecure housing is receiving transportation provided by the Department of Social Services or Office of Children and Family Services, the district will provide transportation services to the child in accordance with applicable law. Where the district is designated by the parent/guardian or unaccompanied youth, and the student attends the school of origin as defined in law described in the accompanying policy (including a publicly funded preschool administered by the district or the State Education Department), the district will provide transportation, even if transportation is not generally provided to permanently housed students and the student is residing outside the district’s boundaries. A designated school district

that must provide transportation to a child experiencing insecure housing is not required to provide transportation in excess of 50 miles one way, unless the Commissioner of Education determines that it is in the best interest of the child.

Transportation must be provided to the school of origin when the district receives notice of a child experiencing insecure housing's status, for the duration of the student's housing insecurity, as well as during the pendency of any disputes. Transportation must be provided receiving school as defined in Education Law §3209(1)(h) if the student is experiencing insecure housing over multiple school years. If a child becomes permanently housed during the school year, the student has the right to transportation services to the school of origin until the end of the academic year, as well as one additional year if it is the student's final grade level or terminal year in the building.

If the district recommends that a child experiencing insecure housing attend a summer educational program, and lack of transportation is a barrier to participation, the district shall will provide transportation. The district will provide transportation to extracurricular or school activities for students experiencing insecure housing eligible for such activities where lack of transportation is a barrier to participation.

Dispute Resolution Process

If, after the Superintendent reviews the designation form, they find that the student is either not experiencing insecure housing, not entitled to attend the district's school, or not entitled to transportation (if requested) the Superintendent or designee will do the following:

1. Contact the district's McKinney-Vento liaison to assist in dispute resolution process.
2. Contact the student and parent (if available) and inform them of their opportunity to provide more information prior to the district making a final determination.

If, after consideration of any additional information and input from the McKinney-Vento liaison, the Superintendent makes a final determination that a student is not experiencing insecure housing, or not entitled to enrollment or transportation, they must provide the student's parent or guardian, or the student, if the student is an unaccompanied youth, with written notice that the student is not entitled to their request. This written notice must also:

1. state the rationale/basis for the district's determination;
2. state the date as of which the student will be excluded from the district's schools (or transportation) which must be at least 30 days from receipt of the written notice;
3. advise that the district's final determination may be appealed to the Commissioner of Education (Commissioner);
4. provide the name and contact information for the district's McKinney-Vento liaison;
5. inform the student's parent or guardian or the student, if the student is an unaccompanied youth, that the district's homeless liaison is required to assist in filing such an appeal; and
6. include, as an attachment, the form needed to file an appeal to the Commissioner.

ONTEORA CENTRAL SCHOOL DISTRICT

Regulation Number: 7132R

The Superintendent must ensure that the district's final decision is delivered to the parent, guardian, or unaccompanied youth in a timely manner. The student must remain enrolled and provided with transportation (if requested) until the district makes a final determination and for a minimum of 30 days after the receipt of the determination to give the student's parent or guardian or unaccompanied youth the opportunity to appeal to the Commissioner.

If the parent/guardian or student commences an appeal to the Commissioner within 30 days of the final determination, the child or youth experiencing insecure housing will be permitted to continue to attend the school enrolled in at the time of the appeal and/or receive transportation to that school until the Commissioner renders a decision.

ADMISSION OF NON-RESIDENT STUDENTS

The Board of Education affirms that its primary responsibility is to provide the best possible educational opportunities for the children who are legal district residents and who are of legal age to attend school.

This policy is not applicable to students experiencing housing insecurity, entitled to attend district schools under federal and state law and regulations, who may not be currently residing in the district (see policy 5151, Children Experiencing Housing Insecurity). Students experiencing housing insecurity who are not entitled to attend district schools under federal and state laws may be considered for non-resident enrollment under this policy. This policy is also not intended to cover students who are placed in district programs by agreement with, and paid for by, another school district.

Future Residents

The children of families who have signed a contract to buy or build a residence in the school district may be enrolled during the semester in which they expect to become residents.

Former Residents

Students whose families have moved out of the district may continue to attend districts schools under the following circumstances:

Former residents enrolled in grade 12 at the time of departure from the district may be permitted to finish high school and graduate with their class provided the former resident meets the criteria of this policy and are resident through the first semester of his/her anticipated graduation year. In this instance, the District will not provide transportation.

However, students experiencing housing insecurity who are no longer district residents due to their housing insecurity are addressed in policy 7132, Children Experiencing Housing Insecurity.

SUBJECT: STUDENT ASSIGNMENT TO SCHOOLS AND CLASSES

The Board of Education directs that assignment of students to schools and classes be consistent with the best interests of students and the best use of the resources of the district.

Generally, students shall attend the school dictated by their attendance zone which has been based on current district population patterns, enrollment projections, building capacity, educational programs, students' educational needs, transportation requirements and demographic factors. Where necessary, students' educational needs or access to specific educational programs will be considered.

When necessary, the Board will review the status of enrollment in the district's schools to ensure that the goals of this policy are being met.

Assignment to Classes/Teachers

In assigning students to classes/teachers, the following criteria shall be considered: age, social and emotional maturity and academic achievement in relation to individual ability, in order to assure appropriate assignments. It is the goal of administration to create classes that can productively learn together.

Parent/Guardian Requests

Transfers may be requested to meet the educational or other special needs of students and their families. The school district shall be responsible for determining the location and extent of available space in its schools for the purpose of inter-school transfers. Priority for available space must go first to the neighborhood schools students and mandated programs.

Transfers will need to be requested annually and upon request, will be reviewed. Transfers will occur during the summer of the school year and are otherwise at the discretion of building and district administration.

The Superintendent or their designee must approve all inter-school transfers. Transfers require Board of Education approval.

SUBJECT: EDUCATIONAL SERVICES FOR MARRIED/PREGNANT STUDENTS**Married Students**

The Board of Education will comply with state law in reference to married students attending school.

Pregnant Students

According to New York State Education Law, a student who becomes six (6) years of age on or before the first of December in any school year shall be required to attend full-time instruction from the first day that the District schools are in session in September of such school year, and a student who becomes six (6) years of age after the first of December in any school year shall be required to attend full-time instruction from the first day of session in the following September. The Education Law further provides that resident students over five (5) and under twenty-one (21) who have not received a high school diploma are entitled to attend school in the district in which they reside. The law further requires that a school district provide for this instruction and also to provide for home instruction for those students of legal age who are unable to profit from instruction in school.

In view of the above, administrative regulations will be developed to implement the terms of this policy to provide instruction as required by the New York State Education Law for students who become pregnant. The Superintendent, or their designee, is directed to consult with the school physician and the student's personal physician in determining the form of instruction.

The form of instruction may be any of the following or a combination of the following:

SUBJECT: SCHOOL CENSUS

With the exception of the cities of New York, Buffalo and Rochester, as well as small city school districts, all other school districts are authorized, rather than obligated, to take a census of all children from birth to eighteen (18) years of age.

The census must indicate the names of all children between birth and eighteen (18) years of age, and of children with disabilities between birth and twenty-one (21) years of age; their respective residences by street and number; the day of the month and the year of their birth; the names of the persons in parental relation to them; such information relating to physical or mental disabilities, to illiteracy, to employment and to the enforcement of the law relating to child labor and compulsory education as the State Education Department and the Board of Education shall require; and also such further information as the Board shall require.

On written request and in such form as prescribed by the Commissioner of Education, the Board shall provide to the Commissioner a report containing the names, ages and addresses of those children who are blind or deaf, and those children having serious physical or mental disabilities. Additionally, such report shall further indicate whether such children are being educated within the public schools of the District or, if they are not, where such education is being furnished to them.

Persons in parental relation to those children within the prescribed census age ranges are to make such reports as the Board of Education shall require, including, but not limited to, providing two (2) weeks before the child reaches compulsory school age, the name of the child; the child's residence; the name of the person or persons in parental relation to the child; the name and location of the school to which the child shall have been or shall be sent as a student; and such other information as required by law or as the Board may require.

A parent, guardian or other person having under their control or charge a child between birth and eighteen (18) years of age who withholds or refuses to give information in their possession relating to such census data as required by law pertaining to the child; or, in the alternative, gives false information in relation to such census data, shall be liable to and punished by a fine or imprisonment as established by law.

SUBJECT: STUDENT EVALUATION**Placement**

Placement within the system, with respect to building, teacher, and grade or special class, shall be at the discretion of the school administration and shall be subject to review and change at any time. In making such decisions, the administrator will be guided by performance in class, past records, parent/guardian and teacher recommendations, standardized test scores, and any other appropriate sources of information, but the final decision shall rest with the school administration.

Promotion and Retention

The procedures to be followed by the staff regarding promotion and retention will be developed by the Superintendent and will be continually evaluated in the light of School District policy. Building Principals may establish written standards for promotion or retention within the school units to which the students are assigned, subject to the guidelines of the Superintendent and the approval of the Board of Education.

Testing Program

The Board of Education endorses and supports the use of ability, achievement, diagnostic, readiness, interest and guidance tests as part of the total educational process to the degree to which tests help the District to serve its students.

Alternative Testing Procedures

The use of alternative testing procedures shall be limited to:

- a) Students identified by the Committee on Special Education and/or Section 504 Team as having a disability. Alternative testing procedures shall be specified in a student's Individualized Education Program or Section 504 Accommodation Plan; and

SUBJECT: PROVISION OF INTERPRETER SERVICES TO PARENTS WHO ARE HEARING IMPAIRED

The Board of Education assures parents or persons in parental relationship who are hearing impaired the right to meaningful access to school initiated meetings or activities pertaining to the academic and/or disciplinary aspects of their children's education. School initiated meetings or activities are defined to include, but are not limited to, parent-teacher conferences, child study or building-level team meetings, planning meetings with school counselors regarding educational progress and career planning, suspension hearings or any conferences with school officials relating to disciplinary actions. The term "hearing impaired" shall include any hearing impairment, whether permanent or fluctuating, which prevents meaningful participation in School District meetings or activities.

Parents or persons in parental relationship shall be notified of the availability of interpreter services to be provided at no charge, provided that a written request is made to the School District within fourteen (14) days of the scheduled event. Exceptions to the time frame request may be made for unanticipated circumstances as determined by the Principal/designee. The District shall also notify appropriate school personnel as to the terms and implementation of this policy.

If interpreter services are requested, the District shall appoint an interpreter for the hearing impaired to interpret during the meeting or activity. The District will arrange for interpreters through a District-created list or through an interpreter referral service. The District shall also develop interagency agreements, as appropriate, to ensure that sign language interpreters are provided for eligible parents or persons in parental relationship when District students attend out-of-District schools or programs.

In the event that an interpreter is unavailable, the School District shall make other reasonable accommodations which are satisfactory to the parents or persons in parental relationship. Examples of what constitutes reasonable accommodations in the event an interpreter cannot be located may include, but are not limited to, the use of:

- a) Written communications, transcripts, note takers, etc.; and
- b) Technology, such as: a decoder or telecommunication device for the deaf, assistive listening devices, and closed or open captioning.

SUBJECT: PROMOTION, RETENTION, and ACCELERATION OF STUDENTS

The Onteora CSD will ensure that each child experiences both challenge and success from school activities. To this end, the District will make every effort to place each student in the most appropriate learning level for a successful educational experience. The concept of grade placement is based upon the premise that each teacher will provide appropriate opportunities for students at all stages of physical, emotional and academic growth. Academic growth does not take place at the same pace, and promotion, retention and acceleration are added methods to meet the needs of individual students.

Promotion, retention, and acceleration of a student will be based on the following general considerations:

1. Academic achievement;
2. Age of the student;
3. Teacher and principal recommendations in consultation with the parents/guardians; and
4. Where the decision for retention is in question, the Principal will have the final authority;

The Administration will develop regulations to establish guidelines and procedures for decisions regarding promotion, retention and acceleration.

In order to inform parents/guardians about the District's approach to promotion and retention, this policy will be posted on the district website and included in student and/or parent handbooks.

ADMINISTRATIVE REGULATIONS

PROMOTION, RETENTION, and ACCELERATION OF STUDENTS

The following guidelines shall govern student promotion, retention, and acceleration:

Retention

A decision to retain shall be arrived at by the building principal, appropriate staff, and parent/guardian, as appropriate. Factors to be considered include, but are not limited to, teacher recommendation; classroom achievement; standardized test scores; social and emotional development; and results of the family conference. The decision of the building principal shall be final.

No student will be retained without an appropriate plan for improvement. Once the educational plan has been implemented, the student will be monitored regularly. The educational plan will be revised until the student demonstrates acceptable performance.

Elementary Level: K-6

Classroom teachers are expected to make every effort, consistent with the District's implementation of Response to Intervention (RTI), to identify early those students at risk of failing. The Building Principal and the parents/guardian must be notified promptly if retention is anticipated, and a plan for improvement shall be designed for each child identified as in danger of failing. Such support services may include, but are not limited to, individualized assistance before, during or after the school day; a change in instructional approach, Academic Intervention Services (AIS); and, where appropriate, referral to the Response to Intervention Team or ultimately the Committee on Special Education for evaluation.

At the elementary level, students who make satisfactory progress in all subjects will be promoted. Students who do not make satisfactory progress in one or more basic subjects – English-Language Arts Mathematics, Social Studies and Science -- shall have their cases considered on an individual basis and may be retained. Retention shall be limited to those situations where the best interest of the child is reasonably assured. Diligent effort shall be made to use all available resources to determine the child's appropriate placement.

1. All recommendations for retention will be based on multiple sources of data. All students being considered for retention must be administered the Light's Retention Scale.
2. All students being considered for retention must be referred to and recommended by the appropriate building level Response to Intervention (RTI) team.

3. Parents/Guardians will be notified as soon as their student is being considered for retention. The first and primary mode of communication with the parents/guardians shall be verbal communication (phone call or conference). Consideration of retention must also be documented on student records, including report cards and progress reports.
4. The decision of the building principal shall be final.

Middle School: Grades 7-8

The passing grade for any academic course is 65. Students who pass all subjects but one shall have the failure evaluated and a determination made as to the reason for the failure. The student may be required to repeat the subject, but in typical cases shall be promoted. Students who fail two core academic courses must attend summer school. Failure to do so will result in retention. A student will be retained with a failure of three or more academic courses. A decision to retain shall be arrived at by the building principal, appropriate staff, and parent/guardian, as appropriate. The decision of the building principal shall be final.

Senior High School: Grades 9 – 12

In general, promotion from one grade level to the next shall be contingent upon the accumulation 5 units of credit at each level, as follows:

- 5 Credits for Grade 10
- 10 Credits for Grade 11
- 15 Credits for Grade 12

A passing final average is required for a student to be given credit for successfully completing a course. The passing grade for any academic course is 65. Any failure of a required course must be repeated in summer school or the next school year. The decision of the building principal shall be final.

Acceleration

Occasionally it might be in the best interest of a student to be accelerated. As soon as a teacher recognizes such a potential student, the parents will be notified and the principal will make a request for a case study of the student with appropriate staff, followed by a final recommendation.

SUBJECT: GRADUATION REQUIREMENTS

In order to graduate from Onteora Central School District, a student must complete or may exceed the requirements set forth in Part 100 of the Commissioner's Regulations.

Participation in the graduation exercises will be predicated on satisfactory completion of all graduation requirements, except as permitted by policy 7222.

The District, upon request from the student's parent/guardian, may choose to grant the student a high school diploma prior to their completion of the eighth semester.

SUBJECT: DIPLOMA and CREDENTIAL OPTIONS FOR STUDENTS WITH DISABILITIES

The Board of Education is committed to supporting all students so they are college- and career-ready upon graduation. The Committee on Special Education (CSE), which includes parents/guardians, will work with students with disabilities to attain the appropriate diploma or credential based on their Individualized Education Plan (IEP).

Regents Diploma or Regents Diploma with Advanced Designation

Students with disabilities are encouraged to work toward the completion of requirements for a Regents diploma or Regents diploma with an advanced designation, as established by New York State and the Board.

Local Diploma

Students with disabilities may work toward completion of the requirements of a local diploma. The local diploma may be earned by meeting the standards set forth in state regulations, including by Superintendent's determination.

Career Development and Occupational Studies Commencement Credential

Students with disabilities, who are not students with severe disabilities under Commissioner's Regulations, may be issued a New York State Career Development and Occupational Studies Commencement Credential (CDOS), pursuant to the requirements of those regulations. The student may pursue a CDOS either in addition to or instead of a high school diploma. The district shall ensure that such students have been provided with appropriate opportunities to earn a high school diploma.

Skills and Achievement Commencement Credential

A student who meets the state definition of a student with severe disabilities, who has taken the State assessment for students with severe disabilities, may be issued a skills and achievement commencement credential pursuant to the requirements of Commissioner's Regulations 8 NYCRR §100.6.

Continued Right to Educational Services

If a student receiving a Career Development and Occupational Studies Commencement Credential or a Skills and Achievement Commencement Credential is less than twenty-one years of age, the credential shall be accompanied by a written assurance of the student's continued right to attend public school until the end of the school year in which the student reaches the age of twenty-one or until the student has earned a high school diploma, whichever is earlier.

Graduation Ceremonies

Students with disabilities may participate in graduation ceremonies as permitted under state law.

SUBJECT: DUAL CREDIT FOR COLLEGE COURSES

All students who have successfully fulfilled the requirements to enter into their senior year and have demonstrated intellectual and social maturity may choose to matriculate at any one (1) of the colleges that have a cooperative agreement with our School District. Such opportunities may include early admission to college, collegiate-level work offered in the high school, or other means of providing advanced work. Review and approval by the administration are necessary before any college courses may be taken during the school day.

The Board shall not be required to pay tuition and other related costs for those high school students enrolled in college courses. Students who wish to enroll in college level coursework shall meet all academic, grade level and coursework requirements as set forth by administrative guidelines.

SUBJECT: STUDENT RECORDS: ACCESS AND CHALLENGE**Student Records**

The School District shall comply with the provisions of the Family Educational Rights and Privacy Act of 1974 (FERPA). Under its provisions, "parents/guardians and noncustodial parent(s), whose rights are not limited by court order or formal agreement, of a student under eighteen (18), or a student who is eighteen (18) years of age or older or who is attending an institution of post-secondary education, have a right to inspect and review any and all educational records maintained by the School District" and files on students, and to insure the confidentiality of such records with respect to third parties.

Access to Student Records

Under FERPA, unless otherwise exempted in accordance with law and regulation, the District may release personally identifiable information contained in student records only if it has received a "signed and dated written consent" from a parent or eligible student. Signed and dated written consent may include a record and signature in electronic form provided that such signature:

- a) Identifies and authenticates a particular person as the source of the electronic consent; and
- b) Indicates such person's approval of the information contained in the electronic consent.

Health and Safety Emergency Exception

School districts must balance the need to protect students' personally identifiable information with the need to address issues of school safety and emergency preparedness. Under FERPA, if an educational agency or institution determines that there is an articulable and significant threat to the health or safety of a student or other individuals, it may disclose information from education records, without consent, to any person whose knowledge of the information is necessary to protect the health and safety of the student or other individuals during the period of the health or safety emergency.

School districts may release information from records to appropriate parties including, but not limited to, parents, law enforcement officials and medical personnel. A school district's determination that there is an articulable and significant threat to the health or safety of a student or other individuals shall be based upon a totality of the circumstances, including the information available, at the time the determination is made. The school district must record the articulable and significant threat that formed the basis for the disclosure and maintain this record for as long as the student's education records are maintained.

(Continued)

SUBJECT: STUDENT RECORDS: ACCESS AND CHALLENGE (Cont'd.)

Disclosures to Parents of Eligible Students

Even after a student has become an "eligible student" under FERPA (which is defined as a student who is eighteen [18] years of age or older or who is attending an institution of post-secondary education) an educational agency or institution may disclose education records to an eligible student's parents without the student's consent:

- a) If the student is claimed as a dependent for Federal income tax purposes by either parent;
- b) In connection with a health or safety emergency;
- c) If the disclosure falls within any other exception to the consent requirements under FERPA or its Regulations, such as the disclosure of directory information or in compliance with a court order or lawfully issued subpoena.

Challenge to Student Records

Parents/guardians of a student under the age of eighteen (18), or an eligible student shall have an opportunity for a hearing to challenge the content of the school records, which they believe to be inaccurate, misleading, or otherwise in violation of the privacy or other rights of students. However, parents/guardians or an eligible student do not have the right to correct, delete or expunge grades, an individual's opinion or other substantive decisions of the District that appear in a student's record.

After the hearing, the District shall determine whether correction or deletion of any such inaccurate, misleading, or otherwise inappropriate data is necessary.

Education Records

The term "education records" is defined as all records, files, documents and other materials containing information directly related to a student; and maintained by the education agency or institution, or by a person acting for such agency or institution (34 Code of Federal Regulations (CFR) Section 99.3). This includes all records regardless of medium, including, but not limited to, handwriting, videotape or audiotape, electronic or computer files, film, print, microfilm, and microfiche.

In addition, for students who attend a public school district, all records pertaining to services provided under the Individuals with Disabilities Education Act (IDEA) are considered "education records" under FERPA. As such, they are subject to the confidentiality provisions of both Acts.

(Continued)

SUBJECT: STUDENT RECORDS: ACCESS AND CHALLENGE (Cont'd.)

Personal notes made by teachers or other staff, on the other hand, are not considered education records if they are:

- a) Kept in the sole possession of the maker;
- b) Not accessible or revealed to any other person except a temporary substitute; and
- c) Use only as a memory aid.

Records created and maintained by a law enforcement unit for law enforcement purposes are also excluded.

Release of Information

Among other exemptions in accordance with law and regulation, the District may disclose any and all educational records, including disciplinary records and records that were created as a result of a student receiving special education services under Part B of IDEA, to another school or postsecondary institution at which the student seeks or intends to enroll. Parental consent is not required for transferring education records; however, the student's annual FERPA notification indicates that such disclosures have been made, unless expressly prohibited by law or regulation. In the absence of information about disclosures in the annual FERPA notification, school officials must make a reasonable attempt to notify the parent about the disclosure, unless the parent initiated the disclosure. Additionally, upon request, schools must provide a copy of the information disclosed and an opportunity for a hearing.

The District may also disclose any and all educational records to other school officials within the district who have been determined to have legitimate educational interests. A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill their professional responsibility. A school official is a person who has a legitimate education interest in a student record who is employed by the district as an administrator, supervisor, instructor or support staff member (including health or medical staff and law enforcement unit personnel); a member of the Board of Education; a person or company with whom the district has contracted to perform a special task (such as attorney, auditor, medical consultant or therapist); or a parent or student serving on an official committee, such as disciplinary or grievance committee, or assisting another school official performing their tasks.

SUBJECT: STUDENT DIRECTORY INFORMATION

The District shall inform parents/guardians or eligible students (i.e., a student eighteen [18] years of age or older or who is attending an institution of post-secondary education) with a letter of the District's definition of directory information, the parent/eligible student's right to refuse the release of student directory information and indicate a time period for their response. (Directory information is information contained in an education record of a student that would not generally be considered harmful or an invasion of privacy if disclosed.) Following such public notice and a reasonable response period, the District may release such information to an outside group without individual consent.

The Family Education Rights and Privacy Act (FERPA) defines student directory information as any of the following: name; address; telephone listing; date and place of birth, major field of study; grade level; student identification number; participation in officially recognized activities and sports; weight and height (if members of athletic teams); dates of attendance; honors, degrees and awards received; electronic mail address; photograph; and the name of the educational agency or institution most recently previously attended by the student. The District will not release the following:
a) A student's social security number

The release of student directory information is not to be confused with the release of names, addresses and telephone listings of eligible students (i.e., a student seventeen [17] years of age or older or in the eleventh grade [or its equivalent] or higher) to Military Recruiters. In compliance with the Elementary and Secondary Education Act (ESEA) of 1965, as amended by the No Child Left Behind Act of 2001 (NCLB), and the National Defense Authorization Act, the School District shall notify parents/guardians with a letter that by law it routinely releases this information to Military Recruiters upon request subject to a parent's/eligible student's request not to disclose such information with written parental verification of such request.

PPRA also concerns marketing surveys and other areas of student privacy, parental access to information, and the administration of certain physical examinations to minors.

General Provisions

The requirements of PPRA do not apply to a survey administered to a student in accordance with the Individuals with Disabilities Education Act (IDEA). Further, PPRA does not supersede any of the requirements of the Family Educational Rights and Privacy Act (FERPA).

The rights provided to parents/guardians under PPRA transfer from the parent/guardian to the student when the student turns eighteen (18) years old or is an emancipated minor under applicable State law.

The School District may use funds provided under Part A of Title V of the Elementary and Secondary Education Act of 1965 to enhance parental/guardian involvement in areas affecting the in-school privacy of students.

Annual Parental Notification of Policies/Prior Written Consent/"Opt Out" Provisions

The School District shall provide for reasonable notice of the adoption or continued use of this policy directly to parents/guardians and eligible students enrolled in the District. At a minimum, the District shall provide such notice at least annually, at the beginning of the school year, and within a reasonable period of time after any substantive change in this policy.

Further, in the notification, the District shall offer an opportunity for parents/guardians to provide written consent or opt their child out of participation in the following activities in accordance with law and the surveys conducted:

- a) The administration of **any survey** containing one (1) or more of the **eight (8) protected areas**.
 - 1. **U.S. Department of Education-Funded Surveys: Prior written consent from parents must be obtained** before students are required to submit to the survey.
 - 2. **Surveys funded by sources other than U.S. Department of Education:** Notification may indicate the specific or approximate dates during the school year when surveys will be administered and provide an opportunity for the parent to opt their child out of participating upon receipt of the notification.
- b) Activities involving the collection, disclosure, or use of personal information collected from students for the purpose of marketing or for selling that information (or otherwise providing that information to others for that purpose).

Specific Notification

In the event that the District does not identify the specific or approximate dates of the activities or surveys to be administered in the general annual notification, it shall "directly" notify, such as through U.S. Mail or e-mail, the parents of students who are scheduled to participate in the specific activities or surveys prior to participation and provide an opportunity for the parent to provide written consent or opt their child out of participation in accordance with law and the surveys conducted.

U.S. Department of Education-Funded Surveys

In compliance with the Protection of Pupil Rights Amendment (PPRA), the School District is committed to protecting the rights and privacy interests of parents/guardians and students with regard to surveys funded in whole or part by any program administered by the U.S. Department of Education (DOE).

The District shall make instructional materials available for inspection by parents/guardians if those materials will be used in connection with a DOE-funded survey, analysis, or evaluation in which their children participate. In addition, the School District **shall obtain prior written parental/guardian consent** before minor students are required to participate in any DOE-funded survey, analysis, or evaluation that reveals information concerning any of the **eight (8) protected areas**.

Surveys Funded by Sources Other than U.S. Department of Education

The School District has developed and adopted this Board policy, in consultation with parents/guardians, regarding the following:

- a) The right of the parent/person in parental relation to inspect, upon request, a survey created by a third party (i.e., by a party other than the DOE) before the survey is administered or distributed by the school to a student. Requests by parents/guardians to inspect such surveys are to be submitted, in writing, to the Building Principal *at least ten (10) days prior to the administration or distribution of any survey. Further, the District shall grant a request by the parent/guardian for reasonable access to such survey within a reasonable period of time after the request is received by the District.
- b) Arrangements shall be provided by the District to protect student privacy in the event of the administration or distribution of a survey to a student containing one (1) or more of the **eight (8) protected areas**, including the right of the parent/guardian of the student to inspect, upon request, any survey containing one (1) or more of the **eight (8) protected areas**. Such requests must be submitted by the parent/guardian, in writing, to the Building Principal at least ten (10) days prior to the administration or distribution of any survey.
- c) Parents/guardians shall be granted, upon request, reasonable access and the right to inspect instructional materials used as part of the educational curriculum for the student within a reasonable period of time (defined by the School District, for the purposes of this policy,

as thirty [30] days) after such request is received by the District. Requests shall be submitted by parents/guardians, in writing, to the Building Principal. The *term "instructional material" means* instructional content that is provided to a student, regardless of its format, including printed or representational materials, audiovisual materials, and materials in electronic or digital formats (such as materials accessible through the Internet). *The term does not include academic tests or academic assessments.*

This law is not intended to preempt applicable provisions of State law that require parental/guardian notification.

These requirements **do not apply** to the collection, disclosure, or use of personal information collected from students for the exclusive purpose of developing, evaluating, or providing educational products or services for, or to, students or educational institutions, such as the following:

- a) College or other postsecondary education recruitment, or *military recruitment*;

**Military recruiter access to student information is governed by the Family Educational Rights and Privacy Act of 1974 (FERPA) and the National Defense Authorization Act for Fiscal Year 2002.*

- b) Book clubs, magazines, and programs providing access to low-cost literary products;
- c) Curriculum and instructional materials used by elementary schools and secondary schools;
- d) Tests and assessments used by elementary schools and secondary schools to provide cognitive, evaluative, diagnostic, clinical, aptitude, or achievement information about students (or to generate other statistically useful data for the purpose of securing such tests and assessments) and the subsequent analysis and public release of the aggregate data from such tests and assessments;
- e) The sale by students of products or services to raise funds for school-related or education-related activities;
- f) Student recognition programs.

SUBJECT: TESTING: STATE ASSESSMENTS GRADES 3 THROUGH 8

The Board of Education is committed to providing a quality educational program for the students of the District.

Purposes of Assessment

The Board of Education believes that the primary purpose of evaluating student and school performance should be to provide information which helps to improve student learning. Assessment helps the school to improve learning by prompting changes in, for example, curriculum or teaching methods. It also allows families, teachers and schools to understand, and therefore to address, students' academic strengths and weaknesses.

While the Board is opposed to the over-testing of students, particularly using proprietary instruments that serve limited educational purpose and are intended primarily for evaluation of teachers and principals, the Board recognizes its responsibility to comply with the laws and regulations governing public school districts. Therefore, it is the policy of the District that students must complete the requirements of the public school program, which includes taking quizzes, tests, as well as other state and local assessments, to help accomplish the following objectives:

- To provide one means of evaluating student growth through individual, inter-district, and intra-district comparison;
- To provide teachers with diagnostic information which will enable them to better address the instructional needs of their students and to differentiate instruction, and
- To evaluate strengths and weaknesses of the curriculum, as well as methods of instruction.

The Board recognizes that tests provide only a limited source of information regarding a student, and should be used in conjunction with all other information known about a student and to assist the student in improving their learning.

State Assessments in Grades 3 through 8

All public schools are required by Commissioner's Regulations to participate in state assessments that reflect the knowledge, skills and understandings expected of all students and indicating they are able to perform at certain grade levels. If a student is in attendance at school on mandated test days, tests will be administered to them. If a student is absent on these days in accordance with the District's Comprehensive Student Attendance Policy (Board Policy 7110), they will be marked "absent" and the test will be administered on the make-up day. All students will be accounted for and reported to the State Education Department (SED) in accordance with SED's Validity Rules.

Neither the Education Law nor the Commissioner's Regulations provide a mechanism for parents to opt their child out of required state assessments in grades 3 through 8; similarly, neither the Education Law nor the Commissioner's Regulations expressly prohibit parents and students from refusing these assessments.

SUBJECT: TESTING: STATE ASSESSMENTS GRADES 3 THROUGH 8

Should any student refuse to take the state assessment in Grades 3 through 8, they will be provided with a designated location and be allowed to read silently or engage in another activity in compliance with current State regulations.

SCHOOL CONDUCT AND DISCIPLINE

The Board of Education acknowledges its responsibility to protect the educational climate of the District and to promote responsible student behavior. Accordingly, the Board delegates to the Superintendent the responsibility for assuring the implementation of a *Code of Conduct for the Maintenance of Order on School Property*, including school functions, which shall govern the conduct of students as well as teachers, other school personnel, and visitors. The Board shall further provide for the enforcement of such Code of Conduct. The District Code of Conduct shall be developed in collaboration with student, teacher, administrator, and parent organizations, school safety personnel and other personnel and shall incorporate, at a minimum, those components addressed in law and enumerated in Policy #3410 -- *Code of Conduct on School Property*. Specific components may vary as appropriate to student age, building levels, and educational needs.

In accordance with the *Code of Conduct on School Property*, areas addressing student conduct and behavior will further utilize the following strategies in promoting acceptable student behavior:

- a) A bill of rights and responsibilities of students that focuses upon positive student behavior, and is publicized and explained to all students on an annual basis;
- b) A Code of Conduct for student behavior setting forth prohibited student conduct and the range of penalties that may be imposed for violation of such Code, that is publicized and disseminated to all students and parents/guardians on an annual basis pursuant to law;
- c) Strategies and procedures for the maintenance and enforcement of public order on school property that shall govern the conduct of all persons on school premises, in accordance with Section 2801 of the Education Law and accepted principles of due process of law;
- d) Procedures within each building to involve student service personnel, administrators, teachers, parents/guardians and students in the early identification and resolution of discipline problems. For students identified as having disabilities, procedures are included for determining when a student's conduct shall constitute a reason for referral to the Committee on Special Education for review and modification, if appropriate, of the student's individualized education program;
- e) Alternative educational programs appropriate to individual student needs;

(Continued)

SCHOOL CONDUCT AND DISCIPLINE (cont'd)

- f) Disciplinary measures for violation of the school policies developed in accordance with subparagraphs b) and c) of this paragraph. Such measures shall be appropriate to the seriousness of the offense and, where applicable, to the previous disciplinary record of the student. Any suspension from attendance upon instruction may be imposed only in accordance with Education Law Section 3214 ; and
- g) Guidelines and programs for in-service education for all District staff to ensure effective implementation of school policy on school conduct and discipline.

SUBJECT: LOSS OR DESTRUCTION OF DISTRICT PROPERTY OR RESOURCES

The District is authorized to seek restitution, through civil action when necessary, from the parent or guardian of an unemancipated student over the age of ten (10) and under the age of eighteen (18) where such student:

- a) Has willfully, maliciously, or unlawfully damaged, defaced or destroyed real or personal property in the care, custody and/or ownership of the District; or
- b) Has knowingly entered or remained in a District building, and wrongfully taken, obtained or withheld personal property owned or maintained by the District.

In instances where the District has sought and obtained a judgment from a court of competent jurisdiction, parent/guardian liability for civil damages shall not exceed five thousand dollars (\$5,000). Under certain circumstances, prior to the entering of a judgment in the sum total of five hundred dollars (\$500) or more, a court may consider the parent's or guardian's financial inability to pay any portion or all of the amount of damages which are in excess of five hundred dollars (\$500), and enter a judgment in an amount within the financial capacity of the parent or guardian. However, no such judgment shall be entered for an amount which is less than five hundred dollars (\$500).

False Reporting of an Incident and/or Placing a False Bomb

A School District is also authorized to seek restitution, as described in law, from a parent or guardian of an unemancipated student over the age of ten (10) and under the age of eighteen (18) where such student:

- a) Has falsely reported an incident; or
- b) Has placed a false bomb as defined in the New York State Penal Law.

Damages for falsely reporting an incident or placing a false bomb shall mean the funds reasonably expended by the School District in responding to such false report of an incident or false bomb, less the amount of any funds which have been or will be recovered from any other source as enumerated in law.

In seeking restitution, the School District shall file with the court, District attorney and defense counsel an affidavit stating that the funds reasonably expended for which restitution is being sought have not been and will not be recovered from any other source or in any other civil or criminal proceeding, except as provided for pursuant to General Obligations Law Section 3-112.

SUBJECT: STUDENT DRESS CODE

The responsibility for the dress and appearance of students shall rest with individual students and parents. They have the right to determine how the student shall dress, provided that such attire does not interfere with the operation of the school or infringe upon the general health, safety and welfare of District students or employees. Student dress and appearance must be applied consistently in accordance with the District Code of Conduct. The administration is authorized to take action in instances where individual dress does not meet these stated requirements.

While the school administration may require students participating in physical education classes to wear certain types of clothing such as sneakers, socks, shorts, and tee shirts, they may not prescribe a specific brand which students must wear.

This policy does not mean that student, faculty, or parent groups may not recommend appropriate dress for school or special occasions. It means that a student shall not be prevented from attending school or a school function, or otherwise be discriminated against, so long as their dress and appearance meet the above requirements.

School-directed changes to a student's attire or grooming should be the least restrictive and disruptive to the student's school day. Any school dress code enforcement actions should minimize the potential loss of educational time. Administration and enforcement of the dress code will be gender neutral and consistent.

The Board looks to the Student Council through its officers and committees to adopt guidelines in this area that will be conducive to having a positive effect on student attitude toward appropriate dress and physical appearance.

Adopted 12/19/17

SUBJECT: SUSPENSION OF STUDENTS

The Superintendent and/or the Principal may suspend the following students from required attendance upon instruction:

- a) A student who is insubordinate or disorderly; or
- b) A student who is violent or disruptive; or
- c) A student whose conduct otherwise endangers the safety, morals, health or welfare of others.

SuspensionFive (5) School Days or Less

The Superintendent and/or the Principal of the school where the student attends shall have the power to suspend a student for a period not to exceed five (5) school days. In the absence of the Principal, the designated "Acting Principal" may then suspend a student for a period of five (5) school days or less.

When the Superintendent or the Principal (the "suspending authority") proposes to suspend a student for five (5) school days or less, the suspending authority shall provide the student with **notice** of the charged misconduct. If the student denies the misconduct, the suspending authority shall provide an **explanation** of the basis for the suspension.

When suspension of a student for a period of five (5) school days or less is proposed, administration shall also immediately notify the parent/person in parental relation in writing that the student *may be* suspended from school.

Written notice shall be provided by personal delivery, express mail delivery, or equivalent means reasonably calculated to assure receipt of such notice within twenty-four (24) hours of the decision to propose suspension at the last known address or addresses of the parents/persons in parental relation. Where possible, notification shall also be provided by telephone if the school has been provided with a telephone number(s) for the purpose of contacting parents/persons in parental relation.

The notice shall provide a description of the incident(s) for which suspension is proposed and shall inform the student and the parent/person in parental relation of their right to request an immediate informal conference with the Principal in accordance with the provisions of Education Law Section 3214(3)(b). Both the notice and the informal conference shall be in the dominant language or

(Continued)

SUBJECT: SUSPENSION OF STUDENTS (Cont'd.)

mode of communication used by the parents/persons in parental relation. At the informal conference, the student and/or parent/person in parental relation shall be authorized to present the student's version of the event and to ask questions of the complaining witnesses.

The notice and opportunity for informal conference shall take place **prior to** suspension of the student unless the student's presence in the school poses a continuing danger to persons or property or an ongoing threat of disruption to the academic process, in which case the notice and opportunity for an informal conference shall take place as soon after the suspension as is reasonably practical.

Teachers shall immediately report or refer a violent student to the Principal or Superintendent for a violation of the *District's Code of Conduct* and a minimum suspension period.

More Than Five (5) School Days

In situations where the Superintendent determines that a suspension in excess of five (5) school days may be warranted, the student and parent/person in parental relation, upon reasonable notice, shall have had an opportunity for a fair hearing. At the hearing, the student shall have the right of representation by counsel, with the right to question witnesses against them, and the right to present witnesses and other evidence on their behalf.

Where the basis for the suspension is, in whole or in part, the possession on school grounds or school property by the student of any firearm, rifle, shotgun, dagger, dangerous knife, dirk, razor, stiletto or any of the weapons, instruments or appliances specified in Penal Law Section 265.01, the hearing officer or Superintendent shall not be barred from considering the admissibility of such weapon, instrument or appliance as evidence, notwithstanding a determination by a court in a criminal or juvenile delinquency proceeding that the recovery of such weapon, instrument or appliance was the result of an unlawful search or seizure.

Minimum Periods of Suspension

Pursuant to law, Commissioner's Regulations and the *District's Code of Conduct*, minimum periods of suspension shall be provided for the following prohibited conduct, subject to the requirements of federal and state law and regulations:

- a) Consistent with the federal Gun-Free Schools Act, any student who is determined to have brought a firearm to school or possessed a firearm on school premises shall be suspended for a period of not less than one (1) calendar year. However, the Superintendent has the authority to modify this suspension requirement on a case-by-case basis.

(Continued)

SUBJECT: SUSPENSION OF STUDENTS (Cont'd.)

- b) A minimum suspension period for students who repeatedly are substantially disruptive of the educational process or substantially interfere with the teacher's authority over the classroom, provided that the suspending authority may reduce such period on a case-by-case basis to be consistent with any other state and federal law. The definition of "repeatedly is substantially disruptive of the educational process or substantially interferes with the teacher's authority" shall be determined in accordance with the Regulations of the Commissioner.
- c) A minimum suspension period for acts that would qualify the student to be defined as a violent student pursuant to Education Law Section 3214(2-a)(a), provided that the suspending authority may reduce such period on a case-by-case basis to be consistent with any other state and federal law.

Suspension of Students with Disabilities

Generally, should a student with a disability infringe upon the established rules of the schools, disciplinary action shall be in accordance with procedures set forth in the *District's Code of Conduct* and in conjunction with applicable law and the determination of the Committee on Special Education (CSE).

For suspensions or removals up to ten (10) school days in a school year that do not constitute a disciplinary change in placement, students with disabilities must be provided with alternative instruction or services on the same basis as non-disabled students of the same age.

If suspension or removal from the current educational placement constitutes a disciplinary change in placement because it is for more than ten (10) consecutive school days or constitutes a pattern, a manifestation determination must be made. The District determines on a case-by-case basis whether a pattern of removals constitutes a change of placement. This determination is subject to review through due process and judicial proceedings.

Manifestation Determinations

A review of the relationship between the student's disability and the behavior subject to disciplinary action to determine if the conduct is a manifestation of the disability must be made by a manifestation team immediately, if possible, but in no case later than ten (10) school days after a decision is made:

- a) By the Superintendent to change the placement to an interim alternative educational setting (IAES);
- b) By an Impartial Hearing Officer (IHO) to place the student in an IAES; or

(Continued)

SUBJECT: SUSPENSION OF STUDENTS (Cont'd.)

- c) By the Board, District Superintendent, Superintendent or Building Principal to impose a suspension that constitutes a disciplinary change of placement.

The manifestation team shall include a representative of the District knowledgeable about the student and the interpretation of information about child behavior, the parent and relevant members of the CSE as determined by the parent and the District. The parent must receive written notice prior to the meeting to ensure that the parent has an opportunity to attend. This notice must include the purpose of the meeting, the names of those expected to attend and notice of the parent's right to have relevant members of the CSE participate at the parent's request.

The manifestation team shall review all relevant information in the student's file including the student's individualized education program (IEP), any teacher observations, and any relevant information provided by the parents to determine if: the conduct in question was caused by or had a direct and substantial relationship to the student's disability; or the conduct in question was the direct result of the District's failure to implement the IEP. If the team determines the conduct in question was the direct result of failure to implement the IEP, the District must take immediate steps to remedy those deficiencies.

Finding of Manifestation

If it is determined, as a result of this review, that the student's behavior is a manifestation of their disability the CSE shall conduct a functional behavioral assessment, if one has not yet been conducted, and implement or modify a behavioral intervention plan.

Functional behavioral assessment (FBA) means the process of determining why the student engages in behaviors that impede learning and how the student's behavior relates to the environment. FBA must be developed consistent with the requirements of Commissioner's Regulations Section 200.22(a) and shall include, but not be limited to, the identification of the problem behavior, the definition of the behavior in concrete terms, the identification of the contextual factors that contribute to the behavior (including cognitive and affective factors) and the formulation of a hypothesis regarding the general conditions under which a behavior usually occurs and probable consequences that serve to maintain it.

Behavioral intervention plan (BIP) means a plan that is based on the results of a functional behavioral assessment and, at a minimum, includes a description of the problem behavior, global and specific hypotheses as to why the problem behavior occurs and intervention strategies that include positive behavioral supports and services to address the behavior.

(Continued)

SUBJECT: SUSPENSION OF STUDENTS (Cont'd.)

Unless the change in placement was due to behavior involving serious bodily injury, weapons, illegal drugs or controlled substances, the student must be returned to the placement from which the student was removed unless the parent and the District agree to a change of placement as part of the modification of the behavioral intervention plan.

No Finding of Manifestation

If it is determined that the student's behavior is not a manifestation of their disability, the relevant disciplinary procedures applicable to students without disabilities may be applied to the student in the same manner and for the same duration for which they would be applied to students without disabilities, subject to the right of the parent/person in parental relation to request a hearing objecting to the manifestation determination and the District's obligation to provide a free, appropriate public education to such student.

Provision of Services Regardless of the Manifestation Determination

Regardless of the manifestation determination, students with a disability shall be provided the services necessary for them to continue to participate in the general education curriculum and progress toward meeting the goals set out in their IEP. They must also receive, as appropriate, a functional behavioral assessment, behavioral intervention services and modifications designed to address the behavior violation so it does not recur:

- a) For subsequent suspensions or removals for ten (10) consecutive school days or less that in the aggregate total more than ten (10) school days in a school year but do not constitute a disciplinary change of placement school personnel, in consultation with at least one (1) of the student's teachers, will determine the extent to which services are needed;
- b) For suspensions or other disciplinary removals in excess of ten (10) school days in a school year which do constitute a disciplinary change in placement the IAES and services will be determined by the CSE.

Interim Alternative Educational Setting (IAES)

Students with disabilities who have been suspended or removed from their current placement for more than ten (10) school days may be placed in an IAES which is a temporary educational setting other than the student's current placement at the time the behavior precipitating the IAES placement occurred.

(Continued)

SUBJECT: SUSPENSION OF STUDENTS (Cont'd.)

Additionally, an Impartial Hearing Officer in an expedited due process hearing may order a change in placement of a student with a disability to an appropriate IAES for up to forty-five (45) school days if the Hearing Officer determines that maintaining the current placement is substantially likely to result in injury to the students or others.

There are three (3) specific instances when a student with a disability may be placed in an IAES for up to forty-five (45) school days without regard to a manifestation determination:

- a) Where the student carries or possesses a weapon to or at school, on school premises, or to or at a school function under the jurisdiction of the District; or
- b) Where a student knowingly possesses or uses illegal drugs or sells or solicits the sale of a controlled substance while at school, on school premises, or at a school function under the jurisdiction of the District; or
- c) Where a student has inflicted serious bodily injury upon another person while at school, on school premises, or at a school function under the jurisdiction of the District. Serious bodily harm has been defined in law to refer to one (1) of the following:
 - 1. Substantial risk of death;
 - 2. Extreme physical pain; or
 - 3. Protracted and obvious disfigurement or protracted loss or impairment of the function of a bodily member, organ or mental faculty.

A school function shall mean a school-sponsored or school-authorized extracurricular event or activity regardless of where such event or activity takes place, including any event or activity that may take place in another state.

School personnel may consider any unique circumstances on a case-by-case basis when determining whether to order a change in placement for a student with a disability who violates a code of student conduct.

In all cases, the student placed in an IAES shall:

- a) Continue to receive educational services so as to enable the student to continue to participate in the general education curriculum, although in another setting, and to progress towards the goals set out in the student's IEP, and

(Continued)

SUBJECT: SUSPENSION OF STUDENTS (Cont'd.)

- b) Receive, as appropriate, a functional behavioral assessment and behavioral intervention services and modifications that are designed to address the behavior violation so that it does not recur.

The period of suspension or removal may not exceed the amount of time a non-disabled student would be suspended for the same behavior.

Suspension From BOCES

The BOCES Principal may suspend School District students from BOCES classes for a period not to exceed five (5) school days when student behavior warrants such action.

In-School Suspension

In-school suspension will be used as a lesser discipline to avoid an out-of-school suspension. The student shall be considered present for attendance purposes. The program is used to keep each student current with their class work while attempting to reinforce acceptable behavior, attitudes and personal interaction.

BOCES Activities

BOCES activities, such as field trips and other activities outside the building itself, are considered an extension of the school program. Therefore, an infraction handled at BOCES is to be considered as an act within the School District itself.

A student who is ineligible to attend a District school on a given day may also be ineligible to attend BOCES classes. The decision rests with the Superintendent or their designee.

Exhaustion of Administrative Remedies

If a parent/person in parental relation wishes to appeal the decision of the Building Principal and/or Superintendent to suspend a student from school, regardless of the length of the student's suspension, the parent/person in parental relation must appeal to the Board of Education prior to commencing an appeal to the Commissioner of Education.

Procedure After Suspension

When a student has been suspended and is of compulsory attendance age, immediate steps shall be taken to provide alternative instruction which is of an equivalent nature to that provided in the student's regularly scheduled classes.

(Continued)

SUBJECT: SUSPENSION OF STUDENTS (Cont'd.)

When a student has been suspended, the suspension may be revoked by the Board of Education whenever it appears to be for the best interest of the school and the student to do so. The Board of Education may also condition a student's early return to school and suspension revocation on the student's voluntary participation in counseling or specialized classes, including anger management or dispute resolution, where applicable.

SUBJECT: STUDENT ACCEPTABLE USE OF DISTRICT TECHNOLOGY

Students of the **Onteora Central School District** have access to vast amounts of information through the District's computer system (DCS). Text, photographs, and sound from local agencies, governments, universities, individuals and businesses in every corner of the globe are available for educational purposes through the Internet. All use of the DCS, including independent use off school premises, shall be subject to this policy. Further, all such use must be in support of education and/or research and consistent with the goals and purposes of the School District.

One (1) purpose of this policy is to provide notice to students and parents/guardians that, unlike most traditional instructional or library media materials, the DCS will allow student access to external computer networks not controlled by the School District where it is impossible for the District to screen or review all of the available materials. Some of the available materials may be deemed unsuitable by parents/guardians for student use or access. This policy is intended to establish general guidelines for acceptable student use. However, despite the existence of such District policy, it will not be possible to completely prevent access to computerized information that is inappropriate for students. Furthermore, students may have the ability to access such information from their home or other locations off school premises. Parents/guardians of students must be willing to set and convey standards for appropriate and acceptable use to their children when using the DCS or any other electronic media or communications. The District respects the right of each family to decide whether or not to apply for independent computer access.

Any student who is determined to have used District owned electronic devices (e.g., computers, laptops, iPads, Chromebooks, tablets, etc.), networked information resources and/or the Internet in violation of this Policy may have their user account suspended and/or revoked. Also, a breach of the terms of the Policy may result in disciplinary action consistent with District policy, the Student Code of Conduct and applicable laws and regulations. A breach of the terms of this Policy shall result in a referral to appropriate law enforcement officials where the breach involves suspected illegal or criminal activities. Further, the District may bring suit in civil court against the parents/guardians of any student who willfully, maliciously or unlawfully damages or destroys District property pursuant to General Obligations Law Section 3-112.

Generally, the same standards of acceptable student conduct which apply to any school activity shall apply to use of the DCS. This policy does not attempt to articulate all required and/or acceptable uses of the DCS; nor is it the intention of this policy to define all inappropriate usage.

District students shall also adhere to the laws, policies and rules governing computers including, but not limited to, copyright laws, rights of software publishers, license agreements, and student rights of privacy created by federal and state law.

Technology use in the school setting must be related to educational purposes consistent with course and District curricula and goals. Prior to establishing a user account, each student must directly

take responsibility of adhering to this policy by the student and their parent or legal guardian signing an agreement.

Student data files and other electronic storage areas will be treated like school lockers. This means that such areas shall be considered to be School District property subject to control and inspection. The Superintendent and/or their designee may access all such files and communications to insure system integrity and that users are complying with the requirements of this policy and accompanying regulations. Students should NOT expect that information stored on the DCS will be private.

This policy does not attempt to articulate all required and/or acceptable uses of the DCS, nor is it the intention of this policy to define all inappropriate usage, however, following is a non-exhaustive list of expected behavior and use of the DCS:

1. Only authorized users may use District owned electronic devices and the Network. Students shall only access the school/District network with their own user identification and password. You and your parent/guardian must sign and you must return to the school an agreement to adhere to this policy before receiving a username and password. Students shall not hack into, vandalize, read, modify, edit, delete or otherwise engage in unauthorized use of any computer files, including other users' that are accessible over the District's computer network.
5. Due to the wide availability of services and information on the Internet, some of which may be potentially offensive to certain groups of users, the individual user must be responsible for their actions in navigating the network.
6. Students shall not save any type of inappropriate file on the network, electronic device/computer, or other district owned storage sites or devices.
 - . Students shall not destroy, modify, copy, damage, or abuse hardware or software in any way. Students shall also not post, send, transmit, publish, download, upload, copy, print or otherwise disseminate information containing any advertising or solicitation of other students to use goods and services that are not for school-related purposes.
8. Students shall not use the Network or Internet to develop programs that harass others or infiltrate a computer, computer system, or network or knowingly introduce a virus, worm or any other harmful program into a computer system, device, or network.
9. Students using the Internet may not reveal any personal information over the Internet relating to them or other individuals.

11. Students are expected to abide by the generally accepted rules of network etiquette and shall not use school equipment, the Network or the Internet for antisocial activities. Such activities include but are not limited to: hate mail, bullying/harassment, profanity, obscenity, misrepresentation, impersonation.
12. Students shall not use school equipment, the Network or Internet for illegal activities or to access or transmit pornographic or educationally inappropriate materials, or files, which are harmful to both students and the integrity of the Network.
13. Students shall use only school approved software or view material on the Internet that is related to the District's curricula or teacher approved project.
14. Students are not permitted to make copies of software found on school computers.
15. Students shall not incur any financial obligations on behalf of the District through the use of the Internet or District resources.
16. Web based email shall be only accessed for educational purposes (i.e. transfer of homework, reports etc.) from school to home or from home to school. No personal messages, instant messaging or text messaging are allowed.
17. No remote access to the internal network will be granted. The use of proxy servers is prohibited.
18. Students shall not utilize District equipment to upload any photographs of themselves or others to the Internet without permission from the course instructor/administration.
19. Students acknowledge that in the course of using the Internet, there may occur interruptions in service beyond the control of the District which may result in the loss of data, information or files. The District disclaims any and all responsibility for loss of data, information or files, caused by such service interruptions.
20. Students who have identified a security problem on the Internet must notify their building principal or network administrator.
21. Students acknowledge that a network administrator may periodically need to review on-line activities in the course of performing routine maintenance of the system.
22. Students who are suspected of having violated this policy or any other District policy, rule and/or regulation, or any law, in any manner may have their files accessed and on-line activities reviewed by a network administrator and/or appropriate school official. The District, and/or any of its agents and employees who review on-line activities of account holders suspected of having violated this policy, shall not be subject to any claims arising out of such review of on-line activities.
23. Students must respect all copyright issues regarding software and attributions of authoring. The unauthorized copying or transfer of copyrighted materials may result in the suspension or revocation of a user's account.

SUBJECT: STUDENT ACCEPTABLE USE OF DISTRICT TECHNOLOGY (cont'd)

24. It should be recognized that not all materials found on the Internet are appropriate for students. Although the District utilizes an Internet content filter, it is possible that some inappropriate content may not be properly filtered. If a user encounters material that is not acceptable, they should report it immediately to the teacher in charge or to the building administrator.
25. Any student who is suspected of using the Internet in a manner that would violate this policy or any other District policy, rule and/or regulation, or would violate any State or Federal law or regulation, will be notified of the alleged violation and provided with an opportunity to respond to and discuss the allegations.

- If device is to stay on, turn Wi-Fi off when not in use (switch on side, or airplane mode on iPad).
- Always place the device on a solid surface
- Viewing distance should be a minimum of 12 inches from the screen.

SUBJECT: TEACHER REMOVAL OF DISRUPTIVE STUDENTS FROM THE CLASSROOM**Disruptive Students**

In accordance with Education Law, Commissioner's Regulations and the District's Code of Conduct, teachers shall have the power and authority to remove disruptive students from their classrooms consistent with discipline measures contained in the Code of Conduct. The term "disruptive student," as defined pursuant to law, shall refer to an elementary or secondary student under twenty-one (21) years of age who is substantially disruptive of the educational process or substantially interferes with the teacher's authority over the classroom.

Further, teachers shall abide by the provisions of the District's Code of Conduct with regard to the utilization of alternative classroom management techniques and student intervention services, as may be applicable and appropriate to the specific circumstances, prior to removal of the student from the classroom. Additionally, teachers shall have the authority to remove disruptive students from the classroom for each incident for a period of time no greater than as enumerated in the Code of Conduct.

Teachers must inform the student and the school Principal/designee of the reasons for the removal.

- a) In most instances, the teacher shall, prior to removing the disruptive student from the classroom, provide the student with an explanation of the basis for the removal and allow the student to informally present the student's version of relevant events.
- b) If the teacher finds that the disruptive student's continued presence in the classroom poses a continuing danger to persons or property or presents an ongoing threat of disruption to the academic process, the teacher shall provide the student with an explanation of the basis for the removal and an informal opportunity to be heard within twenty-four (24) hours of the student's removal, provided that if such twenty-four (24) hour period does not end on a school day, it shall be extended to the corresponding time on the next school day.

No disruptive student shall return to the classroom until the Principal/designee makes a final determination regarding the discipline imposed by the teacher as outlined in administrative regulations and pursuant to the provisions enumerated in Education Law Section 3214(3-a) or the period of removal expires, whichever is less. The District will ensure the provision of continued educational programming and activities for students removed from the classroom by a teacher.

The Principal/designee shall inform the parents/person in parental relation to such student of the removal and shall, upon request, provide the student and the parent/person in parental relation an opportunity for an informal conference to discuss the reasons for the removal in accordance with the

procedures enumerated in law. As applicable, the Principal/designee shall render a determination regarding the discipline imposed by the teacher in accordance with the requirements mandated pursuant to law and/or regulation.

This policy, in accordance with statutory mandates, does not authorize removal of a student in violation of any state or federal law or regulation (e.g., IDEA, Section 504 of the Rehabilitation Act of 1973). It shall be the responsibility of the Building Principal/designee to ensure that teacher removal of students from the classroom complies with applicable laws and regulations.

Exhaustion of Administrative Remedies

It is District policy that, prior to commencing an appeal to the Commissioner of Education regarding teacher removal of a disruptive student from the classroom, the parent/person in parental relation must first appeal to the Board of Education.

"Sunset" Provision for twenty-four (24) hour and forty-eight (48) hour Notification Period.

The provisions in law which specify that twenty-four (24) and forty-eight (48) hour notification periods correlate with school days shall terminate on July 1, 2003 in accordance with legislation; and shall be rescinded as Board policy and procedure as of that date (unless subsequent revisions to applicable law provide otherwise).

Violent Students

Teachers are required to immediately report and refer a violent student, as defined pursuant to Education Law, to the Principal or Superintendent for a violation of the District's Code of Conduct and a minimum suspension period as determined by such Code, unless otherwise reduced by the suspending authority on a case-by-case basis to be consistent with any other state and federal law.

SUBJECT: ALCOHOL, DRUGS AND OTHER SUBSTANCES (STUDENTS)**Philosophy**

The Onteora Board of Education recognizes that illicit drug and alcohol use exists in our community. We acknowledge our responsibility to the education of all students and must stand accountable for that education. A formal policy for handling and addressing student drug and alcohol use and all its associated problems is needed for the protection of the total school community. The District will continue to assume a significant role in initiating and maintaining effective alcohol and other drug prevention, intervention and treatment programs. This goal can be accomplished only through coordinated collaborative efforts utilizing the resources of the school and the community. With this philosophy in mind, this policy will describe the program elements the District will use to promote healthy lifestyles for students and to inhibit the use of alcohol and other drugs.

Policy

The formal policy for handling illicit drug and alcohol use has been developed for the protection of the total school community. This policy shall not limit the School District from other additional or legal action which may be deemed necessary and appropriate to protect the integrity of the School System.

The Onteora Central School District:

- a) Strongly disapproves of any illicit drug and alcohol use;
- b) Maintains safe and reasonable facilities for learning and teaching free from substance use. Provides staff development on alcohol, tobacco, synthetic cannabinoids and illicit drug use and related issues to support the application of prevention concepts in the home, school and community;
- c) Provides sound, vigorous and current educational programs to eliminate existing use of alcohol, synthetic cannabinoids, and illicit drugs to all students at all grade levels, and to identify and provide supportive services to students grades K through 12 at high risk for such use;
- d) Provides for alternatives to alcohol, tobacco and illicit drug use. These activities are planned collaboratively by students, school staff, parents, community members and agencies;
- e) Recognizes chemical dependency as a disease and has developed a referral process between District schools and community providers;
- f) Maintains facilities to provide the students and parents with assistance from our guidance department, counseling staff, student assistance program and medical department for the

purpose of identifying and referring students to appropriate agencies when their use of alcohol and/or illicit substances requires counseling and/or treatment;

g) Prohibits the unlawful use, possession, sale, manufacturing or distribution of alcohol and other illicit drugs , including synthetic cannabinoids, by students in school, on school property, at any school-sanctioned event, **or in a School District owned or contracted vehicle**;

h) Requires the designated administrator/supervisor call the police and institute disciplinary action, up to and including suspension, pursuant to any applicable state or federal laws or regulations, or any student in possession of, using, selling, manufacturing, or distributing a drug or alcohol, synthetic cannabinoids, or drug paraphernalia in school, on school property, at any school sanctioned event, or in a School District owned or contracted vehicle;

i) Provides services to students in or returning from treatment to ensure that the school environment supports the process of recovery initiated in the treatment program;

j) Provides individual, group, family counseling and student assistance programs to students at high risk for alcohol and/or other illicit substance use;

k) Ensures confidentiality as required by federal and state law;

l) Notifies parents/guardians and students of this policy via the District Calendar or other District mailing;

m) Evaluates effectiveness of the established policy and procedures, and will review it as necessary.

SUBJECT: STUDENT SEARCHES AND INTERROGATIONS

Students are protected by the Constitution from unreasonable searches and seizures. The Board of Education is committed to ensuring an atmosphere on school property and at school functions that is safe and orderly. To achieve this kind of environment, any school official authorized to impose a disciplinary penalty on a student may question a student about an alleged violation of law or the district code of conduct. Students are not entitled to any sort of “Miranda”-type warning before being questioned by school officials, nor are school officials required to contact a student's parent before questioning the student. However, school officials will tell all students why they are being questioned.

The Board authorizes the Superintendent of Schools, Administration, the school nurse and district security officials including the School Resource Officer, to conduct searches of students and their belongings, in most instances, with exceptions set forth below in A. if the authorized school official has reasonable suspicion to believe that the search will result in evidence that the student violated the law or the district code of conduct.

An authorized school official may conduct a search of a student's belongings that is minimally intrusive, such as touching the outside of a book bag, so long as the school official has a legitimate and reasonable suspicion for the very limited search.

An authorized school official may search a student or the student's belongings based upon information received from a reliable informant. Individuals, other than the district employees, will be considered reliable informants if they have previously supplied information that was accurate and verified, or they make an admission against their own interest, or they provide the same information that is received independently from other sources, or they appear to be credible and the information they are communicating relates to an immediate threat to safety. District employees will be considered reliable informants unless they are known to have previously supplied information that they knew was not accurate.

Before searching a student or the student's belongings, the authorized school official should attempt to get the student to admit that they possesses physical evidence that they violated the law or the district code, or get the student to voluntarily consent to the search. Searches will be limited to the extent necessary to locate the evidence sought.

Whenever practicable, searches will be conducted in the privacy of administrative offices and students will be present when their possessions are being searched.

A. Student Lockers, Desks, School Supplied Electronic Devices and other School Storage Places

The rules in this policy regarding searches of students and their belongings do not apply to student lockers, desks, school supplied electronic devices and other school storage places. Students have no reasonable expectation of privacy with respect to these places and school officials retain complete control over them. This means that student lockers, desks, school supplied electronic devices and other school storage places may be subject to search at any time by school officials, without prior notice to students and without their consent.

(Continued)

SUBJECT: STUDENT SEARCHES AND INTERROGATIONS (cont'd)**B. Documentation of Searches**

The authorized school official conducting the search shall be responsible for promptly recording the name, age, grade of student searched, reasons for the search and any other pertinent information.

The Principal or the Principal's designee shall be responsible for the custody, control and disposition of any illegal or dangerous item taken from a student, with the exception of approved personal medical devices, including, but not limited to, epinephrine auto-injectors, rescue inhalers, insulin, glucagon, and associated diabetes testing supplies, which are to remain with the student. The Principal or their designee shall clearly label each item taken from the student and retain control of the item(s), until the item is turned over to the police. The Principal or their designee shall be responsible for personally delivering dangerous or illegal items to police authorities.

C. Police Involvement in Searches and Interrogations of Students

District officials are committed to cooperating with police officials and other law enforcement authorities to maintain a safe school environment. While police officials do not have a general power to interview children in schools, or to use school facilities in connection with police departments work, the police may enter the schools of the District if a crime has been committed on school property, if they have a warrant for arrest or search, or if they have been invited by school officials.

Police officials may be summoned in order to conduct an investigation of alleged criminal conduct on school premises, or during a school-sponsored activity, or to maintain the educational environment. They may also be summoned for the purpose of maintaining or restoring order when the presence of such officers is necessary to prevent injury to persons or property.

District officials have the responsibility and the authority to determine when the assistance of law enforcement officers are necessary within their respective jurisdictions. The District officials shall at all times act in a manner which protects and guarantees the rights of students and parents/guardians.

Before police officials are permitted to question or search any student, the Principal or designee shall first try to notify the student's parent/guardian to give the parent the opportunity to be present during the police questioning or search. If the student's parent/guardian cannot be contacted prior to the police questioning or search, the questioning or search shall not be conducted, unless the student is 16 years of age or older. The Principal or designee will also be present during any police questioning or search of a student on school property or at a school function.

Students who are questioned by police officials on school property or at a school function will be afforded the same rights they have outside the school. This means:

1. They must be informed of their legal rights.
2. They may remain silent if they so desire.
3. They may request the presence of an attorney.
4. They must be protected from coercion and illegal restraint.

(Continued)

SUBJECT: STUDENT SEARCHES AND INTERROGATIONS**D. Child Protective Services Investigations**

Consistent with the district's commitment to keep students safe from harm and the obligation of school officials to report to child protective services when they have reasonable cause to suspect that a student has been abused or maltreated, the district will provide data and assistance to local child protective services workers, or members of a multi-disciplinary team accompanying such workers, who are responding to allegations of suspected child abuse, and/or neglect, or custody investigations. Such data and assistance include access to records relevant to the investigation, as well as interviews with any child named as a victim in a report, or a sibling of that child, or a child residing in the same home as the victim.

All requests by child protective services to interview a student on school property shall be made directly to Principal or their designee. Child protective service workers and any associated multi-disciplinary team members must comply with the district's procedures for visitors, provide identification, and identify the child(ren) to be interviewed.

The Principal or designee shall decide if it is necessary and appropriate for a school staff member, including but not limited to an administrator or school nurse, to observe the interview either from inside or outside the interview room.

A child protective services worker may not remove a student from school property without a court order, unless the worker reasonably believes that the student would be subject to danger of abuse if not they were not removed from school before a court order can reasonably be obtained. If the worker believes the student would be subject to danger of abuse, the worker may remove the student without a court order and without the parent's consent.

SUBJECT: BUS RULES AND REGULATIONS

The Onteora Central School District furnishes transportation to those students whose disability or distance from the school make the service essential. Except as otherwise mandated in a student's Individualized Education Program (IEP), riding these buses is a privilege and may be withdrawn if the student does not comply with the rules and regulations set forth in this District.

Students riding school buses are expected to conform to the rules of conduct in order to permit the bus driver to transport their passengers safely.

The Board of Education, the Superintendent and/or their designee has the authority to suspend the transportation privileges of children who are disorderly and insubordinate on buses in accordance with the District's Code of Conduct. In these cases, the parents/guardians of the children involved become responsible for seeing that their children get to and from school safely.

Bus drivers shall be held responsible for reasonable and acceptable behavior of students while riding the school bus.

The Board directs the administration to establish rules and regulations for student conduct on buses, including applicable due process rights to be afforded students suspended from transportation privileges. These rules and regulations shall be promulgated to all concerned, including the nonpublic schools to which students are transported.

SUBJECT: CORPORAL PUNISHMENT

Corporal punishment as a means of discipline shall not be used against a student by any teacher, administrator, officer, employee or agent of this School District.

However, if alternative procedures and methods which would not involve physical force do not work, then the use of reasonable physical force is not prohibited for the following reasons:

- a) Self-protection;
- b) Protection of others;
- c) Protection of property; or
- d) Restraining/removing a disruptive student.

Whenever a school employee uses physical force against a student, the school employee shall, within the same school day, make a report to the Superintendent describing in detail the circumstances and the nature of the action taken.

The Superintendent of Schools shall submit a written report semi-annually to the Commissioner of Education, with copies to the Board of Education, by January 15 and July 15 of each year, setting forth the substance of each written complaint about the use of corporal punishment received by the Ontario Central School District authorities during the reporting period, the results of each investigation, and the action, if any, taken by the school authorities in each case.

SUBJECT: WEAPONS IN SCHOOL AND THE GUN-FREE SCHOOLS ACT**Weapons in School**

The possession of a weapon on school property, in District vehicles, in school buildings, or at school-sponsored activities or settings under the control and supervision of the District regardless of location, is strictly prohibited, except by law enforcement personnel. Any person possessing a weapon for educational purposes in any school building must have written authorization of the Superintendent of Schools or their designee.

The Penal Code of the State of New York shall be used to determine what is considered a weapon.

Penal Law Sections 265.01-265.06

Specific Penalties Imposed by the Gun-Free Schools Act

No student shall bring or possess any "firearm" as defined in federal law on school premises (including school buildings and grounds, District vehicles, school settings and/or school sponsored activities under the control and supervision of the District regardless of location). For purposes of this policy, the term "firearm" includes any weapon (including a starter gun) which will or is designed to or may readily be converted to expel a projectile by the action of an explosive; the frame or receiver of such weapon; any firearm muffler or silencer; or any "destructive device" (e.g., any explosive, incendiary, or poison gas, including bombs, grenades, rockets or other similar devices). The term does not include a rifle which the owner intends to use solely for sporting, recreational or cultural purposes; antique firearms; or Class C common fireworks.

In accordance with the Gun-Free Schools Act and Education Law Section 3214(3)(d), any student who brings or possesses a dangerous weapon or firearm, as defined in federal law, on school property, will be referred by the Superintendent to the appropriate agency or authority for a juvenile delinquency proceeding in accordance with Family Court Act Article 3 when the student is under the age of sixteen (16) except for a student fourteen (14) or fifteen (15) years of age who qualifies for juvenile offender status under the Criminal Procedure Law, and will be referred by the Superintendent to the appropriate law enforcement officials when the student is sixteen (16) years of age or older or when the student is fourteen (14) or fifteen (15) years of age and qualifies for juvenile offender status under the Criminal Procedure Law. For purposes of this policy, the term "dangerous weapon" means a weapon, device, instrument, material, or substance, animate or inanimate, that is used for, or is readily capable of, causing death or serious bodily injury, except that such term does not include a pocket knife with a blade of less than two and one-half inches (2 1/2") in length.

(Continued)

SUBJECT: WEAPONS IN SCHOOL AND THE GUN-FREE SCHOOLS ACT (Cont'd.)

In addition, any student attending a District school who has been found guilty of bringing a firearm to or possessing a firearm on school property, after a hearing has been provided pursuant to Education Law Section 3214, shall be suspended for a period of not less than one (1) calendar year and any student attending a non-District school who participates in a program operated by the School District using funds from the Elementary and Secondary Education Act of 1965 who is determined to have brought a firearm to or possessed a firearm at a District school or on other premises used by the School District to provide such programs shall be suspended for a period of not less than one (1) calendar year from participation in such program. The procedures of Education Law Section 3214(3) shall apply to such a suspension of a student attending a non-District school. Further, after the imposition of the one (1) year penalty has been determined, the Superintendent of Schools has the authority to modify this suspension requirement for each student on a case-by-case basis. In reviewing the student's one (1) year suspension penalty, the Superintendent may modify the penalty based on factors as set forth in Regulations of the Commissioner of Education Section 100.2 and in Commissioner's Decisions. The determination of the Superintendent shall be subject to review by the Board of Education in accordance with Education Law Section 3214(3)(c) and by the Commissioner of Education in accordance with Education Law Section 310.

Student with a Disability

Pursuant to Commissioner Regulations, a student with a disability who is determined to have brought a weapon (including a firearm) to school or possessed a weapon (including a firearm) at school may be placed in an interim alternative educational setting, in accordance with federal and state law, for not more than forty-five (45) calendar days. If the parent or guardian requests an impartial hearing, the student must remain in the interim alternative placement until the completion of all proceedings, unless the parent or guardian and District can agree on a different placement. For more information regarding Interim Alternative Educational Settings (IAES), refer to Policy #7313 -- Suspension of Students.

However, a student with a disability may be given a long term suspension pursuant to the Gun-Free Schools Act only if a group of persons knowledgeable about the student, as defined in federal regulations implementing the Individuals with Disabilities Education Act (IDEA), determines that the bringing of a firearm to school or possessing a firearm at school was not a manifestation of the student's disability, subject to applicable procedural safeguards.

If it is determined that the student's bringing of a firearm to school or possessing a firearm at school was a manifestation of the student's disability, the Superintendent must exercise their authority under the Gun-Free Schools Act to modify the long term suspension requirement, and determine that the student may not be given a long term suspension for the behavior. The Committee on Special Education may review the student's current educational placement and initiate change in placement proceedings, if appropriate, subject to applicable procedural safeguards.

(Continued)

SUBJECT: WEAPONS IN SCHOOL AND THE GUN-FREE SCHOOLS ACT (Cont'd.)

The District may offer home instruction as an interim alternative educational setting during the pendency of review proceedings only if the student's placement in a less restrictive alternative educational setting is substantially likely to result in injury either to the student or to others.

The District may also seek a court order to immediately remove a student with a disability from school if the District believes that maintaining the student in the current educational placement is substantially likely to result in injury to the student or to others.

Students with disabilities continue to be entitled to all rights enumerated in the Individuals with Disabilities Act and Education Law Article 89; and this policy shall not be deemed to authorize suspension of students with disabilities in violation of these laws.

This policy does not prohibit the District from utilizing other disciplinary measures including, but not limited to, out-of-school suspensions for a period of Five (5) days or less, or in-school suspensions, in responding to other types of student misconduct which infringe upon the established rules of the school. Additionally, this policy does not diminish the authority of the Board of Education to offer courses in instruction in the safe use of firearms pursuant to Education Law Section 809-a.

The District will continue to provide the suspended student who is of compulsory attendance age with appropriate alternative instruction during the period of the student's suspension.

SUBJECT: USE OF ELECTRONIC DEVICES BY STUDENTS

The use and/or possession of electronic devices with photographic, audio, video, internet and/or text messaging capabilities including but not limited to, mobiletelephones, beepers/pagers, “walkietalkies,” radios, electronic games, cameras, personal data assistants, iPods, and other devices, creates the potential for violations of privacy as well as threats to testing/examination security. Thus, the use of these items on school grounds and/or on school property and/or during school hours and/or during any school related activity shall be strictly prohibited unless expressly approved by the Building Principal.

Student Handbook
District Code of Conduct 3410, 7310

Adopted: 8/3/10

DIGNITY FOR ALL STUDENTS ACT (DASA)

The Board of Education recognizes that learning environments that are safe and supportive can increase student attendance and improve academic achievement. A student's ability to learn and achieve high academic standards, and a school's ability to educate students, is compromised by incidents of discrimination or harassment, including but not limited to bullying, taunting and intimidation. Therefore, in accordance with the Dignity for All Students Act the District will strive to create an environment free of bullying, discrimination and/or harassment and will foster civility in the schools to prevent and prohibit conduct which is inconsistent with the District's educational mission.

For purposes of this policy, the term "bullying" among children is defined, in general, as: "a variety of negative acts carried out repeatedly over time. It involves a real or perceived imbalance of power, with a more powerful child or group attacking those who are less powerful." Bullying can take three forms:

- a) Physical (including, but not limited to, hitting, kicking, spitting, pushing, taking personal belongings);
- b) Verbal (including, but not limited to, taunting, malicious teasing, name calling, making threats); and
- c) Psychological (including, but not limited to, spreading rumors; manipulating social relationships; or engaging in social exclusion, extortion, or intimidation).

Cyberbullying Behavior

As with other forms of bullying, cyberbullying is an attempt to display power and control over someone perceived as weaker. Cyberbullying involving District students may occur both on campus and off school grounds and may involve student use of the District Internet system or student use of personal digital devices while at school, such as cell phones, digital cameras, and personal computers to engage in bullying. Since cyberbullying is a form of bullying, the term "bullying" as used in this policy will implicitly include cyberbullying even if it is not explicitly stated.

The District prohibits all forms of bullying, discrimination and/or harassment of students based on actual or perceived characteristic. This includes, but is not limited to race, color, weight, national origin, ethnic group, religion, religious practice, disability, sexual orientation, gender, or sex by school employees or students on school property and at school-sponsored activities and events that take place at locations off school property. In addition, any act of bullying, discrimination and/or harassment, outside of school sponsored events, which can reasonably be expected to materially and substantially disrupt the education process may be subject to discipline.

Dignity Act Coordinator

At least one (1) employee at every school shall be designated as the Dignity Act Coordinator(s).

(continued)

DIGNITY FOR ALL STUDENTS ACT (DASA) (cont'd)

The Dignity Act Coordinators will be thoroughly trained to handle human relations in the areas of race, color, weight, national origin, ethnic group, religion, religious practice, disability, sexual orientation, gender (identity or expression) and sex. The Board of Education shall appoint Dignity Act Coordinators who are employed by the District and are licensed and/or certified as a classroom teacher, school counselor, psychologist, nurse, social worker, administrator/supervisor or Superintendent of Schools. The District will share the name(s) and contact information of the Dignity Act Coordinators with all school personnel, students, and parents/persons in parental relation, which shall include, but is not limited to, providing the name, designated school and contact information by:

- a) Listing such information in the Code of Conduct and updates posted on the Internet website, if available;
- b) Posting such information in highly visible areas of school buildings;
- c) Making such information available at the district and school-level administrative offices; and
- d) Either: including such information in the plain language summary of the Code of Conduct in the student handbook provided to all persons in parental relation to students before the beginning of each school year; or
- e) Providing such information to parents and persons of parental relation in at least one district or school mailing or other method of distribution including, but not limited to, sending such information home with each student and, if such information changes, in at least one subsequent district or school mailing or other such method of distribution as soon as practicable thereafter.

If a Dignity Act Coordinator vacates their position, another school employee shall immediately be designated for an interim appointment as Coordinator, pending approval from the Board of Education, within thirty (30) days of the date the position was vacated. In the event a Coordinator is unable to perform the duties of the position for an extended period of time, another school employee shall immediately be designated for an interim appointment as Coordinator, pending return of the previous Coordinator to the position. The District must provide the change in information to parents or persons in parental relation as soon as practicable. The change in name and/or contact information of the Dignity Act Coordinator will not constitute a revision to the *Code of Conduct* so as to require a public hearing.

Training and Awareness

The District shall establish guidelines for training which shall be approved by the Board of Education. Training will be provided each school year for all District employees in conjunction with existing professional development training to raise staff awareness and sensitivity of bullying, discrimination and/or harassment directed at students that are committed by students or school employees on school property, at a school function, or off school property when the actions create or would foreseeably create a risk of substantial disruption within the school environment or where it is foreseeable that the conduct might reach school property.

(continued)

DIGNITY FOR ALL STUDENTS ACT (DASA) (cont'd)

Training will include ways to promote a supportive school environment that is free from bullying, discrimination and/or harassment. Training shall:

- a) Raise awareness and sensitivity;
- b) Address social patterns and the effects on students;
- c) Inform employees on the identification and mitigation of such acts;
- d) Provide strategies for effectively addressing problems of exclusion, bias and aggression;
- e) Include safe and supportive school climate concepts in curriculum and classroom management; and
- f) Ensure the effective implementation of school policy on conduct and discipline.

Instruction in grades Kindergarten through 12 shall include a component on civility, citizenship and character education. Such component shall instruct students on the principles of honesty, tolerance, personal responsibility, respect for others, observance of laws and rules, courtesy, dignity and other traits which will enhance the quality of their experiences in, and contributions to, the community. For the purposes of this policy, "tolerance," "respect for others" and "dignity" shall include awareness and sensitivity to bullying, discrimination and/or harassment and civility in the relations of people of different races, weights, national origins, ethnic groups, religions, religious practices, mental or physical abilities, sexual orientations, genders and sexes. Such component must also include instruction on the safe and responsible use of the Internet and electronic communications.

Rules against bullying, discrimination and/or harassment will be included in the *Code of Conduct*, publicized District-wide and disseminated to all staff and parents. Any amendments to the Code will be disseminated as soon as practicable following their adoption. New teachers shall be provided a complete copy of the current Code upon their employment. An age appropriate summary shall be distributed to all students at a school assembly at the beginning of each school year.

Reports and Investigations of Bullying, Discrimination and/or Harassment

The District will investigate all complaints of bullying, discrimination and/or harassment, either formal or informal, and take prompt corrective measures, as necessary. School employees who witness or receive a report (oral or written) of harassment, bullying and/or discrimination must orally notify the Superintendent, Principal, or their designee *no later than one (1) school day* after witnessing or receiving a report of such incident. The employee must then file a written report *within two (2) school days* after making the oral report. If, after an appropriate investigation, the District finds that this policy has been violated, corrective action will be taken in accordance with District policies and regulations, the *Code of Conduct*, and all appropriate federal or state laws. The Superintendent, Principal or their designee shall notify the appropriate local law enforcement agency when it is believed that any harassment, bullying and/or discrimination constitute criminal conduct.

(continued)

DIGNITY FOR ALL STUDENTS ACT (DASA) (cont'd)

The District will annually report material incidents of bullying, discrimination and/or harassment which occurred during the school year to the State Education Department. Such report shall be submitted in a manner prescribed by the Commissioner, on or before the basic educational data system (BEDS) reporting deadline or such other date as determined by the Commissioner. SED has developed a form for gathering data titled, "Reports of Incidents Concerning School Safety and the Educational Climate" which can be found on the NYSED website.

The Principal of each primary and secondary school shall provide a regular report (at least once during each school year) on data and trends related to harassment, bullying and/or discrimination to the Superintendent and in a manner prescribed by, as applicable, the district, BOCES or charter school. There is no need for schools or districts to submit this report to the State Education Department.

Prohibition of Retaliatory Behavior (Commonly Known as "Whistle-Blower" Protection) Any person who has reasonable cause to suspect that a student has been subjected to bullying, discrimination and/or harassment by an employee or student, on school grounds or at a school function, who acts reasonably and in good faith and reports such information to school officials or law enforcement authorities, shall have immunity from any civil liability that may arise from making such report. The Board prohibits any retaliatory behavior directed at complainants, victims, witnesses and/or any other individuals who participated in the investigation of a complaint of bullying, discrimination and/or harassment.

8 New York Code of Rules and Regulations
(NYCRR) Section 135

SUBJECT: SPORTSMANSHIP POLICY

The Onteora Central School District Board of Education recognizes the valuable role athletics play in the development of our student population and public recognition of the school district. In doing so, the promotion of good sportsmanship as it pertains to student-athletes, parents, coaches, officials, and spectators will be emphasized for the betterment of the program.

The conduct of all those who participate will be aligned with the expectations established by league, section, and state governing bodies. The following expectations shall be followed at all competitions home and away:

1. Role models play a vital role to the development of the student population and therefore should demonstrate good sportsmanship. Those role models include but are not limited to Principal/Administrative staff, Athletic Director, Coaches, Players, Faculty Members, Booster club members, and Parents
2. Coaches, players, and spectators generally set the tone for the contest and create the public image for the school.
 - a. Therefore they will respect the integrity and judgment of sports officials.
 - b. They shall refrain from all conduct, which is meant to degrade, bait, intimidate, or discredit their opponent, officials or other athletes.
 - c. Coaches are expected to demonstrate an understanding of the educational values of interscholastic athletics by showing restraint and composure in the emotional climate of an athletic contest. The coaches are expected to educate and encourage such restraint with their players.
 - d. Spectators are expected to cheer in a positive tone for their team and avoid negative cheers/comments to the officials, other teams coach, players, and spectators.
 - e. Players, coaches, and spectators are expected to follow the expectations for behavior as established in the Athletic Codes, and Coach's Handbook.
3. In order that all persons may experience maximum enjoyment at an Onteora athletic event and to enhance and encourage good public order, spectators shall be encouraged to sit in designated areas that are closest to their team. Spectators, players, and coaches may not encroach on the playing area so as to disrupt the action of the game.
4. When applicable, announcements will be made prior to the start of the contest to reinforce the expectations of sportsmanship.

Consequences for poor sportsmanship are at the discretion of the administrator on site or the coach and may involve any one of the following actions:

1. Verbal Warning
2. Moved seating
3. Removal from the remainder of the contest
4. Banned from future contests
5. Removal from team

CONCUSSION MANAGEMENT POLICY

The Onteora Board of Education and the Onteora Central School District recognizes that concussions and head injuries are commonly reported injuries in children and adolescents who participate in sports and recreational activities and can have serious consequences if not managed carefully.

Concussion is a mild traumatic brain injury. Concussion occurs when normal brain functioning is disrupted by a blow or jolt to the head. Recovery from a concussion will vary. Avoiding re-injury until fully recovered is the cornerstone of proper concussion management.

While district staff will exercise reasonable care to protect students, head injuries may still occur. Physical education teachers, coaches, nurses, and other appropriate staff will receive training to recognize the signs, symptoms and behaviors consistent with a concussion. Any student exhibiting those signs, symptoms, or behaviors while participating in a school sponsored class, recess, extracurricular activity, or intramural/interscholastic athletic activity shall be immediately removed from the game or activity and be evaluated as soon as possible by an appropriate health care professional. The athletic trainer, coach, school nurse, or other District employee in charge of or supervising the activity will notify the student's parents or guardians.

If a student sustains a concussion at a time other than when engaged in a school-sponsored activity, the district requires the parent/legal guardian to report the condition to the appropriate school nurse so that the district can support the proper management of the condition.

In the event of any concussion, regardless of where it was sustained, the student shall not return to physical activities of any kind including but not limited to physical education class, recess, and athletics until they are symptom free for at least 24 hours and has been evaluated by and provides written authorization from an appropriate health care professional. The school's Medical Director or their designee will have the final decision on beginning the Return to Play process. Any student who continues to exhibit signs or symptoms upon return to physical activity must be removed from play and reevaluated by their health care provider.

The district will establish a concussion management team which may consist of, but not be limited to the Athletic Director, Medical Director, School Nurse, and representatives from the administration, faculty and coaching staff. Any changes or modifications to the policy and procedures will be reviewed with the athletic department staff and appropriate school personnel verbally and in writing.

Those who come in contact with our students including but not limited to school nurses, physical education teachers, coaches, and athletic trainers will be required to complete biennially a course related to recognizing the symptoms of a mild traumatic brain injury, and monitoring and seeking proper medical treatment for pupils who suffer one. The school district will provide education to the public on mild traumatic brain injury in student handbooks, athletic codes of conduct and on the website.

The Superintendent, in consultation with appropriate district staff, including the school Medical Director, will develop regulations and protocols to guide the Return to Play Process.

The School District will deposit the scholarship monies in interest bearing account(s) and distribute the earned interest to the various scholarships in a manner consistent with the principle deposit annually

Awards and/or scholarships that are to be continued annually and are awards or scholarships of fifty dollars (\$50) or more, may, at the request of the donating person or organization, be deposited in the School's Non-Expendable Trust Fund (TE). Prior to the establishment of such an account, it will be necessary for the donating person or organization to define the criteria for the selection of the recipient.

The Board of Education recognizes the relationship of academic growth and student participation in extracurricular and interscholastic sports activities; therefore, it is essential that students choosing to participate in such activities maintain academic standards established by the school administration.

Student Activities

SUBJECT: ASSOCIATION OF STUDENT GOVERNMENT

The Board of Education recognizes that all Onteora students have a voice and a contribution to make to their school. It is important that students be empowered to provide input on issues of concern to them and to take an active role in promoting the aims and objectives of the school.

Onteora's Association of Student Government foster active civic engagement, discourse, debate and personal empowerment. The essential principle of democratic student government is the eligibility of every student to vote and hold office. It is important for students to recognize that with the right to vote comes the responsibility to exercise that right.

Definitions:

1. Student Council – grade level governance body elected by each cohort
2. Association of Student Government – collective group of grades 6 – 12 Student Government
3. Council Officers – Association of Student Government leadership, chosen by the elected Association members

Structure:

Each grade (6 – 12) will elect class officers (President, Vice President, Secretary and Treasurer). The chief responsibility of elected Student Council officers is to represent and advocate for their class as part of the Association of Student Government.

The Student Government are guided by advisors and will be independent of both building leaders and district administration. The design and operation of the Student Government will be constructed as per by-laws created by the students which adhere to the following best practices;

1. Student Government are the voice of the entire student body.
2. They propose and carry out activities for the improvement of the schools. Such improvements may be suggested by students, staff, administration or the community.
3. Following a campaign, elections should be held so that Student Government may begin their work at the start of the school year.
4. Each Student Council should meet monthly at a minimum. Meetings shall include representatives from clubs and shall be open to all students and staff members.
5. Elected student officers may be charged with raising funds for Belleayre Bash and/or other activities, but fundraising will not be the Student Government's primary responsibility. In no way shall fundraising responsibilities supersede the Government's governance responsibilities.
6. The Association of Student Government and members of Administration should meet quarterly. Meetings shall include representatives from clubs and shall be open to all students and staff members.
7. Elected members of the Association of Student Government shall choose Council Officers.
 - a. Officers must be High School students.
 - b. The President must be a senior
 - c. The Vice President may be in any High School grade
 - d. The Secretary may be in any High School grade
 - e. The Treasurer may be in any High School grade

VOTER REGISTRATION FOR STUDENTS

The Board of Education believes that getting young people involved in the election process helps to secure the future of democracy by preparing young people to be educated, engaged voters who have formed the habit of voting and contributing to civic life early.

In an effort to promote student voter registration, the Board of Education directs the Superintendent, or their designee, to ensure that all students who are at least 16 years old (but will not be 18 years old by the next election) are offered the opportunity to register. These students must be otherwise qualified to register to vote. These pre-registrations will be automatically registered upon reaching the age of eligibility following verification of the person's qualifications and address.

The district will do so by maintaining registration material in the guidance and counseling office, promoting voter registration through social studies classes, collaborating with student organizations and with the Ulster County Board of Elections.

Students who do not wish to pre-register to vote do not have to do so. There will be no penalty (including participation grades or credits) for choosing not to do so.

STUDENT HEALTH SERVICES

The Board of Education recognizes that good student health is vital to successful learning and acknowledges its responsibility, along with that of parent(s) or guardian(s), to protect and foster a safe and healthful environment for the students.

The school shall work closely with students' families to provide detection and preventive health services. In accordance with law, the school will provide vision, hearing, and scoliosis screening. Problems shall be referred to the parent(s) or guardian(s) who shall be encouraged to have their family physician/dentist provide appropriate care.

In order to enroll in school a student must submit a health certificate within 30 calendar days after entering school, and upon entering kindergarten, first, third, fifth, seventh, ninth and eleventh grades. The examination, which must conform to state requirements, must have been conducted no more than 12 months before the first day of the school year in question. If a student is unable to furnish the health certificate, the school will provide a physical examination by a licensed provider. A request for exemption from the physical examination, or the requirement to provide a health certificate, must be made in writing to the school principal or designee, who may require documents supporting the request. The only basis for exemption is a claim that the physical examination is in conflict with the parent or guardian's genuine and sincere religious belief.

In order to enroll in school, students must also furnish documentation of required immunizations against certain communicable diseases, as set forth in state law and regulations, unless exempted from immunizations for medical reasons as permitted by state law and regulation.

Students experiencing insecure housing shall be admitted to school even if they do not have the required health or immunization records, but may be temporarily excluded if they show actual symptoms of a communicable disease that poses a significant risk of transmission to others (see "Communicable Diseases" below).

The McKinney-Vento liaison shall assist students experiencing insecure housing covered by that law in accessing health services described in this policy and accompanying regulation.

The Board recognizes that the State of New York may authorize and require the collection of data from health certificates in furtherance of tracking and understanding health care issues that affect children. The Board supports these efforts and expects administrators to cooperate and to observe the appropriate laws and regulations in carrying out those responsibilities, including those that relate to student privacy.

In addition, students will be asked to provide a dental health certificate when they enroll in school and in accordance with the same schedule as the health certificate.

A permanent student health record shall be part of a student's cumulative school record and should follow the student from grade to grade and school to school along with their academic record. This record folder shall be maintained by the school nurse.

(Continued)

STUDENT HEALTH SERVICES (cont'd)

Student Medical Exams

In accordance with Sections 903 and 904 of the state Education Law, each student shall have a physical exam given by the Medical Director or licensed health provider (including a physician, physician assistant or nurse practitioner) upon entrance to school and at grades kindergarten, first, third, fifth, seventh, ninth and eleventh. Findings are to be kept on record at the school on a form if needed (health certificate.) Health certificates are required to be submitted within 30 days of the start of the school year. that can be obtained from the school nurse. In addition, the school will request a dental health certificate according to the same schedule

A student may be excluded from the medical examination requirements because the child's parent/guardian holds a genuine and sincere religious belief which is contrary to medical examinations. The request for exemption must be in writing to the principal or their designee.

Emergency Care

Schools shall also provide emergency care for students in accidental or unexpected medical situations. Each school in the district will include in its emergency plan a protocol for responding to health care emergencies, including anaphylaxis, and head injury. Parents/guardians will be notified of any emergency medical situation as soon as is practicable. Parents/guardians will receive notification of non-emergent medical situations that have been reported to the nurse in a timely manner.

The district permits emergency administration of opioid antagonists, such as naloxone, by the school nurse to prevent opioid overdose, as specified in policy 7523, Opioid Overdose Prevention.

Medical Emergency Record

All students shall have on file a medical emergency record which shall state the name and telephone numbers of the following:

1. the student's parent(s) or guardian(s) at home and work;
2. the student's next of kin;
3. additional emergency contacts

Students diagnosed with diabetes shall have a written diabetes management plan maintained as part of the student's cumulative health record. The management plan shall be developed in accordance with state regulation and district procedures. [NOTE: in Life-Threatening Allergies below]

Immunization

Under state Public Health Law 2164, in order to be enrolled in or attend district schools, children must be fully immunized against certain communicable diseases. Those diseases are: mumps, measles, diphtheria, rubella, varicella (chicken pox), , pertussis, tetanus, , meningococcal disease, and hepatitis B.

(Continued)

STUDENT HEALTH SERVICES (cont'd)

“Fully immunized” means that the child has either (1) received the required vaccinations for these diseases as set forth in state regulations; (2) for measles, mumps, rubella, hepatitis B, , or varicella only, shown immunity with a positive blood test for those disease antibodies; or (3) for varicella only, has had the disease, verified by a physician, nurse practitioner, or physician’s assistant.

Children who are not fully immunized may only be admitted to school if they (1) are in the process of receiving immunization or obtaining blood tests; or (2) have been granted a medical exemption.

Medical exemptions may be issued if immunization is detrimental to a child’s health. Medical exemptions must either be (1) the medical exemption form issued by the New York State Department of Health or the New York City Department of Health and Mental Hygiene, or (2) a statement signed by a physician licensed to practice medicine in New York State indicating the specific immunization, the medical contraindication, and the length of time the exemption is for. Medical exemptions must be reissued annually to remain valid. The Building Principal may require supporting documents for medical exemptions.

All students must present appropriate documentation of their immunization status, as set forth in the Regulations of the Commissioner of Health 10 NYCRR Subpart 66-1.

Students experiencing insecure housing shall be admitted to school even if they do not have the required immunization records, but may be temporarily excluded if they show actual symptoms of a communicable disease that poses a significant risk of transmission to others.

The Building Principal may permit students without adequate documentation to attend school up to 14 calendar days while the parent/guardian furnishes the necessary documents. This time period may be extended to 30 days for students transferring from another state or country, as long as they show a good faith effort to obtain the necessary documentation, or the child has received at least the first dose in an immunization series and has provided scheduled appointments to complete the series according to the recommended catch-up schedules.

District schools may access the New York State Immunization Information System (NYSIIS) or the New York City Citywide Immunization Registry (CIR) to verify the immunization history of students entering or registered in that school.

When a child is excluded from school for immunization reasons, the Building Principal shall notify the parent/guardian of their responsibility to have the child immunized, and the public resources available for doing so. The Principal shall also notify the local health authority of the child’s name and address and the immunization(s) the child lacks, and shall cooperate with that authority to provide a time and place for the required immunization(s) to be administered.

(Continued)

STUDENT HEALTH SERVICES (cont'd)

The district will maintain a list of all students who have been exempted from immunization for medical reasons, or who are in the process of receiving immunization, and shall exclude such students from school when so ordered by the Commissioner of Health, in the event of an outbreak in school of the vaccine-preventable diseases listed in Public Health Law 2164 and the first paragraph of this section.

When a student transfers out of the district, the parent/guardian will be provided with an immunization transfer record showing the student's current immunization status which will be signed by the school nursing personnel or the Medical Director. A transcript or photocopy of the immunization portion of the cumulative health record will be provided to the new educational institution upon request.

Communicable Diseases

It is the responsibility of the Board to provide all students with a safe and healthy school environment. To meet this responsibility, it is sometimes necessary to exclude students with contagious and infectious diseases, as defined in the Public Health Law, from attendance in school. Students will be excluded during periods of contagion for time periods indicated on a chart developed by the school nurse.

During an outbreak of these communicable diseases, if the Commissioner of Health or their designee so orders, the district will exclude students from school who have an exemption from immunization or who are in the process of obtaining immunization.

It is the responsibility of the Superintendent of Schools, working through district health personnel, to enforce this policy and to contact the county or local health department when a reportable case of a communicable disease is identified in the student or staff population.

Administering Medication to Students

Neither the Board nor district staff members shall be responsible for the diagnosis or treatment of student illness. The administration of prescribed medication to a student during school hours shall be permitted only when failure to take such medicine would jeopardize the health of the student, or the student would not be able to attend school if the medicine were not made available to them during school hours, or where it is done pursuant to law requiring accommodation to a student's special medical needs (e.g., Section 504 of the Rehabilitation Act of 1973). All medications must be prescribed by a licensed medical provider. This is necessary for both prescription and non-prescription medication with the exception of sunscreen (§907 of Education Law.)

Before any medication may be administered to or by any student during school hours, the Board requires:

1. the written request of the parent(s) or guardian(s), which shall give permission for such administration and relieve the Board and its employees of liability for administration of medication;

(Continued)

STUDENT HEALTH SERVICES (cont'd)

2. the written order of the prescribing authorized medical provider, which will include the purpose of the medication, the dosage, the time at which or the special circumstances under which medication shall be administered, the period for which medication is prescribed, and the possible side effects of the medication; and
3. Students are permitted to self-administer medication under certain circumstances, in accordance with state law and regulation. In order for a student to be authorized to carry and use the following medications included but not limited to: rescue inhaler, epinephrine auto-injector, insulin, glucagon (and associated diabetes testing supplies), if the following conditions are met:
 - a. An authorized medical provider must provide written prescription and include an attestation form that the student's diagnosis requires the medication; the student has demonstrated that they can self-administer the prescribed medication effectively; the name of the medication, the dose, the times when it is to be taken, the circumstances which may warrant use and the length of time during which the student may use it.
 - b. Written parental permission.

If a student is authorized to carry and use medication as described above, the parent/guardian is permitted to give extra medication and supplies that the district will maintain in accordance with the written directions submitted by the authorized medical provider. Such extra medication and supplies shall be readily accessible to the student.

All documents, including permission slips and medical orders will be kept on file in the nurse's office.

The school nurse shall develop procedures for the administration of medication, which require that:

1. all medications will be administered by a licensed person (nurse dependent) unless the child is a "supervised student" (able to self-administer with assistance and supervision) or an "independent student" (able to self-administer);
2. In some situations, an independent student will be able to self-carry
3. medications, other than as noted above, shall be securely stored in the office and kept in their original labeled container, which specifies the type of medication, the amount to be given and the times of administration; the school nurse shall maintain a record of the name of the student to whom medication may be administered, the prescribing physician, the dosage and timing of medication, and a notation of each instance of administration; and
4. all medications shall be brought to school by the parent(s) or guardian(s) and shall be picked up by the parent(s) or guardian(s) at the end of the school year or the end of the period of medication, whichever is earlier. If not picked up within five days of the period of medication, the medication shall be discarded.

An adult must bring the medication to school in the original container.

(Continued)

STUDENT HEALTH SERVICES (cont'd)

Sunscreen

Students are permitted to carry and apply parentally provided sunscreen without a medical provider's order under the following conditions:

1. written permission from the parent/guardian
2. the school nurse will keep written permission for students on file and develop procedures pertaining to this policy.
3. the sunscreen is used to avoid overexposure to the sun and not for medical treatment of an injury or illness, if sunscreen is required to treat a medical condition, the procedures for administering medication (above) apply;
4. the sunscreen is FDA approved for over the counter use;

Taking medication on field trips and at after-school activities is permitted if a student is supervised or independent in administering their own medication. On field trips or at other after-school activities, teachers or other school staff may carry the medication so that the supervised student can take it at the proper time.

If a student is going on a field trip but is not supervised or independent (i.e., fully aware and capable of understanding the need and assuming responsibility for taking medicine), then the district may:

1. permit the parent or guardian to attend the activity and administer the medication.
2. permit the parent to personally request another adult who is not employed by the school to voluntarily administer the medication on the field trip or activity and inform the school district in writing of such request.
3. allow the student's health care provider to be consulted and, if they permit, order the medication time to be adjusted or the dose eliminated.

If no other alternative can be found, a school nurse or licensed person must administer the medication.

Life-Threatening Allergies and Anaphylaxis Management

The Board recognizes its role and responsibility in supporting a healthy learning environment for all students, including those who have, or develop, life-threatening allergies. The district will work cooperatively with the student, their parent/guardian and healthcare provider to allow the child to participate as fully and as safely as possible in school activities. When a student has a known life-threatening allergy reported on their health form or if the district has been informed by the parent of the presence of a life-threatening allergy, the district will assemble a team, which will include the parent, the school nurse, in conjunction with the child's teacher, the building principal and other appropriate personnel, which will be charged with developing an individual health care plan and/or an emergency action plan. The plan(s) will be maintained by the school nurse. The plan(s) will guide prevention and response.

(Continued)

STUDENT HEALTH SERVICES (cont'd)

If the student is eligible for accommodations based upon the IDEA, Section 504 or the Americans with Disabilities Act, the appropriate procedures will be followed regarding identification, evaluation and implementation of accommodations.

NOTE: is in paragraph above

The district will work with students in the self-management of their life-threatening allergy, or other chronic health conditions, by:

1. Adequately training staff involved in the care of the child.
2. Assuring the availability of the necessary equipment and/or medications.
3. Providing appropriately licensed and trained persons on school premises, as required by law.
4. Providing ongoing staff and student education.

The administration of epinephrine by epi-pen has become an accepted and extremely beneficial practice in protecting individuals subject to serious allergic reactions (e.g., individual has an anaphylactic reaction to a wasp sting or the ingestion of peanut butter).

The district will stock epinephrine for non-patient specific use. The district shall ensure that each RN is properly trained, as the only authorized users of the stock epinephrine per non-patient specific order from the Medical Director.

Pursuant to Commissioner's regulations, registered professional nurses may carry and administer agents used in non-patient specific emergency treatment of anaphylaxis.

In addition, pursuant to SED guidelines, RN, NP and PAs may provide training to unlicensed school staff in administering epi-pens, epinephrine auto-injectors and glucagon prescribed by a licensed medical provider, to a student with a patient specific order and written parent/guardian consent.

Training

Training to support the fulfillment of staff responsibilities in regard to student health services will be provided as part of the district's ongoing professional development plan and in conformity with Commissioner's regulations.

Illness or Injury in School

If a student becomes ill or injured in school:

1. The nurse will determine if the student should receive further medical attention, remain in the dispensary or return to class.
2. The nurse will call the parent, guardian or designated emergency contact if they feel the student should go home. In general, a parent or guardian will pick up the student from school.
3. The nurse will contact the Building Principal if they feel the child should be transported by bus to the home.

(Continued)

STUDENT HEALTH SERVICES (cont'd)

4. If there is to be a change in bus routing in order to carry the student to their home, that decision will be made by the administrator and the transportation supervisor.
5. If the route is to be changed, the transportation supervisor shall inform the bus driver.
6. The nurse will maintain appropriate records of all student visits.

The district permits the administration of opioid antagonists, such as naloxone, to prevent opioid overdose, pursuant to policy 7523 Opioid Overdose Prevention. Nursing staff shall follow all regulations regarding the storage, accessibility, administration, recordkeeping, and reporting of naloxone use.

Student Return to School after Illness/Injury

In general, students should be symptom-free before returning to school and resuming normal activities. In some instances, students may be asked to provide a note from their licensed health care provider before they return to school or participate in the full range of school activities. The final decision to permit participation rests with the Medical Director. The Superintendent, in consultation with the Medical Director, nurse and other appropriate staff, will develop protocols to address a student's return to activities when there has been a serious illness or injury.

ONTEORA CENTRAL SCHOOL DISTRICT

PO Box 300 Boiceville, NY 12412

Regulation 7510R

The Onteora Central School District head lice policy/procedure is in line with evidence based practice and is based on recommendations from the Center for Disease Control, American Academy of Pediatrics, National Association of School Nurses, and Richard Pollack, Ph.D., entomology expert at Harvard University.

Students with nits should not be excluded from school (American School Health Association, 2005, Frankowski & Bocchini, 2010, Pollack, Kiszewski & Spielman, 2000), although further monitoring for signs of re-infestation is appropriate. The School Nurse will determine if a student needs to be sent home if head lice are found. The parent will be notified and treatment options will be discussed. Once treated the School Nurse will re-check the student for head lice. It may be appropriate to screen other children who have had close head-to-head contact with a student with an active infestation, such as household family members, but classroom-wide or schoolwide screening is not merited (Andresen & McCarthy, 2009). In cases that involve head lice, as in all school health issues, it is vital that the school nurse prevent stigmatizing and maintain the student's privacy as well as the family's right to confidentiality (Gordon, 2007).

Rationale: Head Lice Information for Schools

Center for Disease Control: <http://www.cdc.gov/parasites/lice/head/schools.html>

Students diagnosed with live head lice do not need to be sent home early from school; they can go home at the end of the day, be treated, and return to class after appropriate treatment has begun. Nits may persist after treatment, but successful treatment should kill crawling lice.

Head lice can be a nuisance but they have not been shown to spread disease. Personal hygiene or cleanliness in the home or school has nothing to do with getting head lice.

Both the American Association of Pediatrics and the National Association of School Nurses advocate that "no-nit" policies should be discontinued. "No-nit" policies that require a child to be free of nits before they can return to schools should be discontinued for the following reasons:

- Many nits are more than ¼ inch from the scalp. Such nits are usually not viable and very unlikely to hatch to become crawling lice, or may in fact be empty shells, also known as casings.
- Nits are cemented to hair shafts and are very unlikely to be transferred successfully to other people.
- The burden of unnecessary absenteeism to the students, families and communities far outweighs the risks associated with head lice.
- Misdiagnosis of nits is very common during nit checks conducted by nonmedical personnel."

National Association of School Nurses: <http://www.nasn.org/Default.aspx?tabid=237>

It is the position of the National Association of School Nurses that the management of pediculosis (infestation by head lice) should not disrupt the educational process. No disease is associated with head lice, and in-school transmission is considered to be rare.

SUBJECT: OPIOID OVERDOSE PREVENTION

The Board of Education recognizes that many factors, including the use and misuse of prescription painkillers, can lead to the dependence on and addiction to opiates, and that such dependence and addiction can lead to overdose and death among the general public, including district students and staff. The Board wishes to minimize these deaths by the use of opioid overdose prevention measures. The signs and symptoms of opioid overdose (e.g., shallow breathing, unconsciousness, unresponsive to stimulation, pinpoint pupils, blue skin on lips and under nails) shall be displayed in school buildings with instructions to contact emergency responders. The district will provide training to all staff and students where developmentally appropriate, on the signs and symptoms of an opioid overdose.

The Board directs the school physician/medical director to issue a non-patient specific order to school nurses to administer intranasal naloxone (also known as Narcan, among other names). The non-patient specific order shall include a written protocol containing the elements required by the regulations of the Commissioner of Education. The Board permits school nurses to administer naloxone to any person at school or a school event displaying symptoms of an opioid overdose. The district shall purchase and provide the naloxone kits to be stored in the nurse's office. Naloxone shall be accessible during school hours and during on-site school-sponsored activities when school nurses are present.

Storage and Inventory

The school physician/medical director is responsible for having approved protocols in place for re-ordering Naloxone in the event it is administered and to ensure that an adequate supply is continuously available in the buildings for use. Similarly, the administration of Naloxone to any student will be documented in their cumulative health record and for staff members, in their personnel file.

The District will store its supply of Naloxone in a secure, but accessible, and temperate location consistent with its emergency response plan, in the school nurse's office. The school nurse will inventory the supply of Naloxone on a weekly basis and record this information on a log which will be developed and/or maintained by the school nurse or other designated personnel/administrator. This record of information will include the date, time, and signature of the designated personnel performing the inventory.

CHILD ABUSE IN AN EDUCATIONAL SETTING

Board of Education recognizes that children have the right to an educational setting that does not threaten their physical and emotional health and development. Child abuse by school personnel and school volunteers violates this right and therefore is strictly prohibited.

Allegations of child abuse by school personnel and school volunteers shall be reported in accordance with the requirements of Article 23-B of the Education Law.

Required Reporters

Any person holding any of the following positions shall be required to promptly report written and oral allegations of child abuse by an employee or volunteer in an educational setting:

- school administrator
- teacher
- school nurse
- school guidance counselor
- school psychologist
- school social worker
- other school personnel required to hold a teaching or administrative license or certificate
- licensed and registered physical therapist,
- licensed and registered occupational therapist,
- licensed and registered,
- speech-language pathologist,
- teacher aide,
- school resource officer,
- school board member, and
- any staff whose duties involve direct student contact and who is paid either by a school district or contracted to provide transportation services to children; or

CHILD ABUSE, MALTREATMENT OR NEGLECT IN A DOMESTIC SETTING

The Board of Education recognizes that because of their sustained contact with school-aged children, employees are in an excellent position to identify abused, maltreated or neglected children and refer them for treatment and protection. The Board further recognizes the specific dictates of law which require school officials to report suspected instances of child abuse, maltreatment (which includes neglect) in a domestic setting.

The purpose of mandatory reporting is to identify suspected abused and maltreated children as soon as possible, so that such children determined to be abused or maltreated can be protected from further harm and, where appropriate, can be offered services to assist them and their families.

School officials, who have reasonable cause to know or suspect that a child has been subjected to abuse or maltreatment, must immediately report this to the New York State Central Register for Child Abuse and Maltreatment (Central Register), as required by law. No conditions may be imposed which limit their responsibility to report. A school official is defined as:

- Teacher
- Guidance counselor
- Psychologist
- Nurse
- Social Worker
- Full or part-time paid athletic coach
- Administrator
- Any school personnel required to hold a teaching or administrative license or certificate.

The school official will also report the matter to the Building Principal.

The report must be made by telephone or by telephone facsimile machine on a form supplied by the Commissioner of Social Services. A written report must be made within forty-eight hours to the appropriate local child protective service, and to the statewide Central Register.

School employees who are not school officials, as defined above, but who have reasonable cause to know or suspect that a child has been subjected to abuse or maltreatment are encouraged to report to the Central Register. However, the school employee must report the matter to the Building Principal. If the matter has not yet been reported to the Central Register, the Building Principal must make the report, in accordance with state law. In being required to file such report, the Building Principal does not have discretion.

School employees or officials may not contact the child's family or any other person to determine the cause of the suspected abuse or maltreatment. It is not the responsibility of the school official or employee to prove that the child has been abused or maltreated.

(Continued)

CHILD ABUSE, MALTREATMENT OR NEGLECT IN A DOMESTIC SETTING (cont'd)

Any school official or employee who has cause to suspect that the death of any child is a result of child abuse or maltreatment must report that fact to the appropriate medical examiner or coroner.

In accordance with the law, any school official who fails to report an instance of suspected child abuse or maltreatment may be guilty of a Class A misdemeanor and may be held liable for the damages caused by the failure to report. The law grants immunity to persons who, in good faith, report instances of child abuse from any liability.

School employees will not be subject to retaliatory action, as defined in state law, as a result of making a report when they reasonably suspect that a child has been abused or maltreated.

The Board recognizes that knowingly reporting a false claim of child abuse is a violation of state law and this policy acknowledges that it is a crime to do so. The district will make every reasonable effort to ensure the integrity of the district's child abuse reporting process and procedure.

School District Relationship with Local Social Service District

The school district will cooperate to the extent possible with authorized child protective services workers in investigations of alleged child abuse. The Superintendent, or designee, will represent the district when collaborating with local social service agencies to address instances of abuse or maltreatment, and in the development of policy and procedures regarding abuse or maltreatment (including educational neglect). In addition, the Superintendent will share a copy of the district's attendance policy, 5100, with the local social service district.

Child Protective Services Investigations

Consistent with the district's commitment to keep students safe from harm and the obligation of school officials to report to child protective services when they have reasonable cause to suspect that a student has been abused or maltreated, the district will provide data and assistance to local child protective services workers, or members of a multi-disciplinary team accompanying such workers, who are responding to allegations of suspected child abuse, and/or neglect, or custody investigations. Such data and assistance include access to records relevant to the investigation, as well as interviews with any child named as a victim in a report, or a sibling of that child, or a child residing in the same home as the victim.

All requests by child protective services to interview a student on school property must be made directly to Principal or designee. Child protective service workers and any associated multi-disciplinary team members must comply with the district's procedures for visitors, provide identification, and identify the child(ren) to be interviewed.

(Continued)

CHILD ABUSE, MALTREATMENT OR NEGLECT IN A DOMESTIC SETTING (cont'd)

The Principal or designee will decide if it is necessary and appropriate for a school staff member, including but not limited to an administrator or school nurse, to observe the interview either from inside or outside the interview room.

A child protective services worker may not remove a student from school property without a court order, unless the worker reasonably believes that the student would be subject to danger of abuse if they were not removed from school before a court order can reasonably be obtained. If the worker believes the student would be subject to danger of abuse, the worker may remove the student without a court order and without the parent's consent.

Training Program and Dissemination of Information

The school district will maintain an ongoing training program for all current and new school officials which will address the identification (i.e., signs and indicators) and reporting of child abuse, maltreatment, and neglect, including the legal implications of reporting and not reporting. Attendance at sessions of this training program is required of all school officials. Attendance records will be kept, and notations will be made in personnel files as to the dates of attendance.

The Superintendent will develop, with input from appropriate personnel, a plan for implementation of such a training program, to be approved by the Board. In addition, the policy and regulations will be included in all employee handbooks and distributed annually to all school officials who are not covered under existing handbooks. The Superintendent will prepare and implement all regulations as are necessary to accomplish the intent of this policy

As required by state law and regulation, the district will publicize the toll-free number for reporting child abuse and neglect to the Central Register (800-342-3720), and directions for accessing the NYS Office of Children and Family Services website (<http://ocfs.ny.gov/main/cps/>), in both English and Spanish.

SUBJECT: SUICIDE PREVENTION

According to national statistics, suicide is the third leading cause of death among young people. It is the policy of the Board to enact clear guidelines for prevention, intervention and post-intervention of suicide, reflecting the District's concern for this serious mental health issue. The Board believes that our schools have a vital role to play in the safety and well-being of our students who are at risk of suicide.

Students

As part of the comprehensive health education curriculum, awareness levels will be raised by addressing the pervasiveness of suicide and depression to include information that deals with general and specific indicators of suicidal thinking, actions that are advisable, actions that are not advisable and resources that are available to students and their families within the school and the community.

Staff

As part of our on-going staff development, an annual orientation and awareness training will be held for all teachers, administrators and support staff who come into contact with or are made aware of potentially suicidal and depressed students.

Suicide prevention will be incorporated into the curriculum to educate students. This will be done in a manner so as not to sensationalize the matter, but to provide students with information and resources on this important mental health issue. The District will also foster interagency cooperation that will enable staff to identify and access appropriate community resources to aid students in times of crisis.

The administration is responsible for informing staff of regulations and procedures of suicide prevention, intervention and post-intervention that have been developed by the District. The District will actively respond to any situation where a student verbally or behaviorally indicates intent to attempt suicide or to do physical harm to themselves. Staff training and professional development on suicide and crisis intervention will be made available.

The Board of Education directs the administration to:

- a) Develop guidelines or procedures to effectively intervene in life-threatening situations;
- b) Enlist the support, awareness and involvement of all District staff in the identification of suicidal signals and utilize existing school staff for program implementation;
- c) Develop and provide a training program to designated personnel on recognizing, reporting and referring suicide ideation, gestures and attempts; and
- d) Maintain a crisis evaluation team at each school for the above purpose.

SUBJECT: NOTIFICATION OF SEX OFFENDERS

In accordance with the Sex Offender Registration Act ("Megan's Law"), the Board of Education supports the New York State Department of Criminal Justice Services (DCJS) in its effort to inform the community in certain circumstances of the presence of individuals with a history of sex offenses, particularly against children, in the school locality. This policy is enacted in order to minimize the possibility that the sex offender will come in contact with school-age children, and to assist law enforcement agencies in preventing further criminal activity from occurring. Furthermore, the District shall cooperate with local police authorities and the local community in promoting and protecting the safety and well being of its students.

It is the policy of the Board of Education to disseminate all information which the District receives from local police authorities in conjunction with Megan's Law to designated staff members who might have possible contact with the offender during the course of their school duties including, but not limited to, Building Principals, supervisors, teachers, office personnel, coaches, custodians, bus drivers, and security personnel. The Superintendent reserves the right to automatically disseminate such information to additional members of the staff, designated supervisors of non-school groups that regularly use District facilities and have children in attendance, parents/guardians of District students, and other community residents who, in the opinion of the Superintendent, have an immediate need to be notified of such data in order to protect the safety of our students.

All staff members shall be informed of the availability of the information received by the District pursuant to Megan's Law upon written request to the applicable Building Principal/designee or supervisor.

Staff members shall inform their immediate supervisor if they observe within the school building, on school grounds, at school activities, or at or near bus routes any individual whose description matches the information which was provided to the District by local law enforcement authorities. Such law enforcement officials will be notified of this information by the District as appropriate.

Information that is disseminated to the School District pursuant to Megan's Law may be disclosed or not disclosed by the District in its discretion. Any information which the School District receives regarding a sex offender from a source other than the Sex Offender Registry, and which is maintained independent of the requirements of Megan's Law, will be available from the District, upon written request, in accordance with the requirements of the Freedom of Information Law.

Certain circumstances provided by law may permit a registered sex offender to enter school grounds. Decisions will be made on a case-by-case basis by the Superintendent in accordance with all applicable laws and regulations, and permission must be granted in writing.

SUBJECT: SUPERVISION OF STUDENTS

Students working on any activity must be supervised by the teacher or staff member in charge of the activity. This applies to all in school and extracurricular activities as well as sports activities and events. Permission to hold practices or meetings must not be granted unless a teacher or staff member is definitely in charge.

- a) District personnel will be fully responsible for the supervision of all students in either their class or their after school activities.
- b) Coaches will maintain supervision over the dressing rooms by personally being present during the dressing periods. Coaches are responsible for the supervision of their athletes at the end of practice. This may entail bus duty, or making sure students have transportation home.
- c) Teachers and/or assigned school personnel in the elementary grades will be responsible for the playground supervision of all the children under their jurisdiction during the recess periods and before the regular afternoon sessions. The Principal will distribute the responsibility so that the playground situation will be properly controlled.
- d) Students are not to be sent on any type of errand away from the building without the consent of the Principal.

The alternative format must meet the National Instructional Materials Accessibility Standard defined in federal law.
- g) The estimated budget to support such plan.
- h) The date on which such plan was adopted by the Board of Education.

SUBJECT: CHILDREN WITH DISABILITIES

A child with a disability means a student under the age of twenty-one (21) who is entitled to attend public schools and who, because of mental, physical or emotional reasons can only receive appropriate educational opportunities from a program of special education. A child is not considered as having a disability if their educational needs are due primarily to unfamiliarity with the English language; environmental, cultural or economic factors; or lack of appropriate instruction in reading or mathematics.

If the State Education Department finds that the District has inappropriate policies, procedures or practices resulting in a significant disproportionality by race/ethnicity in the suspension, identification, classification and/or placement of students with disabilities, the District will ensure that it publicly reports on the subsequent revisions to those policies, procedures or practices.

The Board of Education recognizes the existence of individual differences in the intellectual, social, emotional and physical development of children attending school in the District. In recognizing these differences the Board supports a system of services offered in the least restrictive environment for children with disabilities which includes:

- a) Not requiring any student to obtain a prescription for a drug or other substance identified as a controlled substance by the federal Controlled Substances Act as a condition of receiving services.
- b) Education in regular classes with or without support services, education in a resource room, education for part of the day in a special class, full time education in a special class, home instruction and education in a residential setting.
- c) Providing for the education of students with disabilities with non-disabled peers to the extent appropriate.
- d) Taking the following measurable steps to recruit, hire, train and retain highly qualified personnel to provide special education programs and services:
 - 1. Utilize established procedures for publication of all potential job openings;
 - 2. Check credentials and requirements listed on applications;
 - 3. Provide training sessions for interview committee;
 - 4. Special Education teachers are required to have subject matter knowledge appropriate to the level of instruction being provided; when teaching two (2) or more core academic subjects exclusively to children with disabilities, the teacher will meet the

SUBJECT: CHILDREN WITH DISABILITIES (Cont'd.)

requirements of "highly qualified" per the No Child Left Behind Act (NCLB) and the Individuals with Disabilities Education Improvement Act of 2004 (IDEA) or demonstrate competence in all the core academic subjects taught per state regulations.

- e) Establishing the following guidelines for the provision of appropriate accommodations necessary to measure the academic achievement and functional performance of the student in the administration of District-wide assessments:
 - 1. Ensure that necessary accommodations are specified on individualized education program (IEP) and implemented in accordance with the IEP;
 - 2. Review the need for accommodations at Committee on Special Education (CSE) evaluations/re-evaluations;
 - 3. etc.
- f) To the extent feasible, using universal design principles (defined as a concept or philosophy for designing and delivering products and services that are usable by people with the widest range of functional capabilities, which include products and services that are directly usable without requiring assistive technologies and products and services that are made usable with assistive technologies) in developing and administering District-wide assessment programs by:
 - 1. Addressing appropriate universal design principles in IEP;
 - 2. Ensuring that instructional materials and activities allow learning goals to be achievable by individuals with wide differences in abilities ;
 - 3. Ensuring that instructional materials and activities allow learning goals to be achievable by individuals with wide differences in abilities;
 - 4. Ensuring that flexible curricular materials and activities are built into the instructional design and operating systems;
 - 5. Ensuring that instruction is diversified to deliver the general education curriculum to every student and diversify ways students may respond to that curriculum.
- g) Consideration of the location of a school program(s) to a student's residence, before placement into an educational program.

(Continued)

SUBJECT: CHILDREN WITH DISABILITIES (Cont'd.)

- h) Adoption of written policies and procedures ensuring that students with disabilities are provided appropriate opportunities to earn a high school diploma in accordance with Commissioner's Regulations.
- i) Allocation of appropriate space within the District for special education programs that meet the needs of students with disabilities.
- j) Assurance that appropriate space will be available to meet the needs of resident students with disabilities who attend special education programs provided by BOCES.

Provision of Special Education Services to Nonpublic School Students with Disabilities who are Parentally Placed

The **district of location** is responsible for child find, including individual evaluations, Committee on Special Education (CSE) meetings, provision of special education services, and due process to parentally placed nonpublic school students attending nonpublic schools located in the geographic region of the public school district.

These requirements only pertain to students with disabilities parentally placed in elementary and secondary nonpublic schools, not to parental placements of preschool children with disabilities in private day care or preschool programs; or to CSE placements of students with disabilities in approved private schools, Special Act School Districts, State-supported or State-operated schools or to Charter schools.

The actual cost for Committee on Special Education (CSE) administration, evaluations and special education services provided to a student with a disability who is a resident of New York State, but a nonresident to the district of location, may be recovered from the student's school district of residence. Because federal regulations require parental consent before any personally identifiable information about the student relating to special education is shared between officials in the public school district of location and officials in the public school district of residence, parent consent to share special education information between the two (2) public school districts is required before billing a district of residence for the cost of special education services provided to the student by the district of location.

Parental consent must be obtained by the school district of location before any personally identifiable information about the student is shared between officials in the public school district of residence and officials in the public school district of location.

(Continued)

SUBJECT: CHILDREN WITH DISABILITIES (Cont'd.)

The school district of location must consult with nonpublic school representatives and representatives of parents of parentally placed nonpublic school students with disabilities enrolled in nonpublic elementary and secondary schools located within the boundaries of the School District. The School District must engage in consultation regarding the child find process and services generally; consultation is not specific to individual students. Individual services are determined by the CSE.

The consultation process must be timely and meaningful and include discussion of:

- a) Child Find;
- b) Provision of Special Education Services; and
- c) Use of Federal Funds.

The school district of location must provide, as appropriate, special education services to an eligible student who legally resides in another state and who is parentally placed in a nonpublic school located in New York State. The services to be provided to out-of state students must be documented on a services plan that is developed by the CSE of the district of location. The services plan is the written plan that describes the specific special education and related service that the district of location will provide to the student consistent with the services that the school district of location has determined through the consultation process and in relation to the proportionate shares of federal IDEA Part B dollars, to be provided to the student.

SUBJECT: GROUPING BY SIMILARITY OF NEEDS

The Board of Education will provide appropriate special education and related services to students with disabilities. For those students for whom an appropriate education requires that they be placed together for purposes of special education, the following guidelines shall apply:

- a) That each student with a disability shall be identified, evaluated and placed as determined by the Committee on Special Education (CSE).
- b) The Committee shall determine written goals and corresponding short-term instructional objectives for each student with a disability by considering the special and individual needs of each student with a disability. Short-term instructional objectives and/or benchmarks will be created for each preschool student with a disability and for students who take New York State alternate assessments.
- c) The CSE shall recommend to the Board of Education appropriate educational programs and services for each student with a disability based upon the CSE evaluation.
- d) The CSE shall provide information to those teachers and professionals who arrange instructional groups for students with disabilities. Information shall include physical, psychological and social information as well as achievement test results.
- e) The curriculum and instruction provided to students with disabilities who are grouped by similarity of needs shall be consistent with the individual needs of each student in the group.
- f) Students with disabilities may be grouped according to:
 - 1. Academic or educational achievement and learning characteristics;
 - 2. Social development;
 - 3. Physical development; and
 - 4. Management needs.
- g) When grouping students by similarity of needs, the social needs or physical development of a student shall not be the sole determinant for placement of a student in a special education program.
- h) The management needs of such students may vary, provided that environmental modifications, adaptations, or human or material resources required to meet the needs of any one student in the group are provided and do not consistently detract from the opportunities of other students in the group to benefit from instruction.

SUBJECT: THE ROLE OF THE BOARD OF EDUCATION IN IMPLEMENTING A STUDENT'S INDIVIDUALIZED EDUCATION PROGRAM

The Board of Education shall establish at least one (1) Committee on Special Education (CSE) and one (1) Committee on Preschool Special Education (CPSE). The Board shall also establish, as necessary, Subcommittees on Special Education to ensure timely evaluation and placement of students with disabilities.

Committee on Special Education

The Board of Education shall, upon completion of its review of the recommendations of the CSE, arrange for the appropriate special education programs and services to be provided to a student with a disability. The Board shall notify the parent/guardian of its action in accordance with federal and state law and regulations.

For a student not previously identified as having a disability, the CSE shall provide a recommendation to the Board which shall arrange for the appropriate special education programs and services to be provided within sixty (60) school days of the date of receipt of consent to evaluate. For a student with a disability referred for review, a recommendation shall be provided to the Board which shall arrange for the appropriate special education programs and services to be provided within sixty (60) school days of the referral for review. However, if such recommendation of the CSE is for placement in an approved in-state or out-of-state private school, the Board shall arrange for such special education programs and services for students with disabilities within thirty (30) school days of the Board's receipt of the recommendation of the CSE.

If on review of the recommendation of the CSE, the Board of Education disagrees with such recommendation, the Board shall follow one (1) of the following procedures:

- a) The Board may remand the recommendation to the CSE with a statement of the Board's objections or concerns and a request that a timely meeting be held to review and consider such objections or concerns. The CSE shall consider the Board's objections or concerns, revise the individualized education program (IEP) where appropriate, and resubmit a recommendation to the Board. If the Board continues to disagree with the recommendation of the CSE, the Board may continue to remand the recommendation to the original committee for additional reviews of its objections or concerns, or establish a second CSE to develop a new recommendation in accordance with the following paragraph, provided that the Board arranges for the programs and services in accordance with the student's IEP within the time lines as outlined above; or, in the alternative,
- b) The Board may establish a second CSE to develop a new recommendation for the student. If the Board disagrees with such new recommendation, the Board may remand the recommendation to the second CSE with a statement of the Board's objections or concerns

SUBJECT: THE ROLE OF THE BOARD OF EDUCATION IN IMPLEMENTING A STUDENT'S INDIVIDUALIZED EDUCATION PROGRAM (Cont'd.)

and a request that a timely meeting be held to review consider objections or concerns. The second CSE shall consider the Board's objections or concerns, revise the IEP where appropriate, and resubmit a recommendation to the Board. If the Board continues to disagree with the recommendation of the second CSE, the Board may continue to remand the recommendation for additional reviews of its objections or concerns by the second CSE, provided that the Board arranges for the programs and services in accordance with the student's IEP, as developed by the second CSE, within the timelines as outlined above.

Pursuant to Commissioner's Regulations, the Board may not select the recommendation of the original CSE once it has established a second CSE.

The Board shall provide the student's parents/guardians with written notice and a copy of the statement of its objections or concerns and notice of due process rights in accordance with Section 200.5 of the Regulations of the Commissioner.

Committee on Preschool Special Education

Upon receipt of the recommendation of the Committee on Preschool Special Education (CPSE), the Board of Education shall arrange for the preschool student with a disability to receive such appropriate programs and services in accordance with the student's IEP, commencing with the July, September or January starting date for the approved program, unless such services are recommended by the CPSE less than thirty (30) school days prior to, or after, the appropriate starting date selected for the preschool student with a disability; in that case, such services shall be provided no later than sixty (60) ~~thirty (30)~~ days from the recommendation of the CPSE.

If the Board disagrees with the recommendation of the CPSE, the Board shall send the recommendation back to the CPSE with notice of the need to schedule a timely meeting to review the Board's concerns and to revise the IEP as deemed appropriate. The Board of Education shall provide such notice as required by federal and state law and regulations.

Subcommittee on Special Education

The number of Subcommittees on Special Education will be determined by the CSE and the CSE will be responsible for the oversight and monitoring of the activities of each subcommittee to assure compliance with the requirements of applicable state and federal laws and regulations.

Each Subcommittee may perform the functions for which the CSE is responsible, except:

(Continued)

SUBJECT: THE ROLE OF THE BOARD OF EDUCATION IN IMPLEMENTING A STUDENT'S INDIVIDUALIZED EDUCATION PROGRAM (Cont'd.)

- a) When a student is considered for initial placement in a special class; or
- b) When a student is considered for initial placement in a special class outside of the student's school of attendance; or
- c) When a student is considered for placements in a school primarily serving students with disabilities or a school outside the District.

Subcommittees shall report following the timelines required for the CSE to the CSE regarding the status of each student with a disability within its jurisdiction. Upon receipt of a written request from the parent or person in parental relation to a student, the Subcommittee shall refer to the CSE any matter in which the parent disagrees with the Subcommittee's recommendation concerning a modification or change in the identification, evaluation, educational placement or provision of a free appropriate education to the student.

SUBJECT: PRESCHOOL SPECIAL EDUCATION PROGRAM

The Board recognizes the need for educational programs for three (3) and four (4) year old children with disabilities and directs that administrative practices and procedures be developed to:

- a) Ensure for the provision of special education services and programs for each preschool child with a disability residing in the District.
- b) Establish a Committee on Preschool Special Education (CPSE) which shall be comprised in accordance with applicable federal and state law and regulation.
- c) Ensure that parents have received and understand the request for consent for evaluation of a preschool aged child.

The District is required to collect entry assessment data in the three (3) outcome areas on all preschool children who receive an initial evaluation. As currently required by Commissioner's Regulation Section 200.5, a parent must be fully informed about the proposed initial evaluation and must provide consent for an initial evaluation. This would include a description of the proposed evaluation.

The CPSE will receive entry-level assessment results in the three (3) outcome areas from approved preschool evaluators conducting initial evaluations on all preschool children suspected of having disabilities. The CPSE will then meet to determine the child's eligibility for preschool education programs and/or services and complete the Child Outcomes Summary Form to determine the child's entry level of functioning in the three (3) outcome areas for all preschool children evaluated and found to be eligible. The form is to be kept in the student's record until the exit assessment information is due as a way to summarize complex assessment information in a format so that the data can be aggregated and reported to the State Education Department (SED).

SUBJECT: LEAST RESTRICTIVE ENVIRONMENT

Least restrictive environment means that placement of students with disabilities in special classes, separate schools or other removal from the regular educational environment occurs only when the nature or severity of the disability is such that even with use of supplementary aids and services, education in regular classes cannot be satisfactorily achieved. The placement of an individual student with a disability in the least restrictive environment shall:

- a) Provide the special education and related services, as well as supplementary aids and services, needed by the student. The term "related services" does not include a medical device that is surgically implanted, the optimization of the device's functioning (e.g., mapping), maintenance of, or the replacement of such device;
- b) Provide for education of the student to the maximum extent appropriate to the needs of the student with other students who do not have disabilities; and
- c) Be as close as possible to the student's home.

The District has an obligation, pursuant to law and regulation, to educate students with disabilities in the least restrictive environment. The School District shall ensure that:

- a) Placement is based on the student's individualized education program and determined at least annually;
- b) Placement is as close as possible to the student's home, and unless the student's individualized education program requires some other arrangement, the student shall be educated in the school they would have attended if not disabled;
- c) In selecting the least restrictive environment, consideration will be given to any potential harmful effect on the student or on the quality of services that they need; and
- d) A student with a disability will not be removed from education in age-appropriate regular classrooms solely because of needed modifications in the general education curriculum.

The District shall ensure that a continuum of alternative placements, in accordance with law and/or regulation, will be available to meet the needs of students with disabilities for special education and related services. To enable students with disabilities to be educated with nondisabled students to the maximum extent appropriate, specially designed instruction and supplementary services may be provided in the regular class. Such services may include, but are not limited to, consultant teacher services and other group or individual supplemental or direct special education instruction.

**SUBJECT: PREREFERRAL INTERVENTION STRATEGIES IN GENERAL EDUCATION
(PRIOR TO A REFERRAL FOR SPECIAL EDUCATION)**

The School District shall establish a plan for implementing schoolwide approaches and prereferral interventions in order to remediate a student's performance prior to referral for special education. This plan may include a Response to Intervention (RTI) process.

The provision of programs and/or services for students starts with consideration/implementation of instruction in the general education curriculum, with appropriate supports and/or modifications as may be necessary. In implementing prereferral intervention strategies, the District may utilize resources/strategies already in place for qualified students including, but not limited to, services available through Section 504 of the Rehabilitation Act of 1973, and Academic Intervention Services as defined in Education Law and/or Commissioner's Regulations. All of these programs may be considered as possible components of Prereferral/or Response To Intervention (RTI) plans/Discretionary Service (DS) plans. The District will ensure that they have a system in place, with appropriate personnel, for developing, implementing and evaluating prereferral intervention strategies.

The District will provide general education support services, instructional modifications, alternative instructional approaches, or alternative program options to address a student's performance prior to a referral to a Committee on Special Education (CSE). The RTI Teams will include representatives from general and special education as well as other disciplines and include individuals with classroom experience. Parents/persons in parental relation to students will be involved in developing prereferral strategies to address the educational needs of their child. Additionally, the District will seek collaboration between outside agencies and the school prior to a referral of the student to the CSE in order to address necessary student support services.

Administration shall ensure that appropriate opportunities exist for collaboration between general educators and special educators, and that consultation and support are available to teachers and other school personnel to assist parents/persons in parental relation to students and teachers in exploring alternative approaches for meeting the individual needs of any student prior to formal referral for special education.

The determination of prevention and prereferral intervention strategies/services shall consider the student's strengths, environment, social history, language and cultural diversity in addition to the teacher's concerns. The building administrator will further ensure that all staff are familiar with intervention procedures and procedures for operating a RTI Team.

(Continued)

SUBJECT: PREREFERRAL INTERVENTION STRATEGIES IN GENERAL EDUCATION (PRIOR TO A REFERRAL FOR SPECIAL EDUCATION) (Cont'd)

Prereferral/Intervention Instructional Support Plans shall be proactive in their strategies to meet the broad range of student needs and to improve student performance. Prereferral/Intervention strategies and/or RTI/Discretionary Services are to be reviewed and evaluated to determine their effectiveness, and modified as may be appropriate. Appropriate documentation of the prevention and/or intervention strategies implemented shall be maintained.

However, should a referral be made to the CSE during the course of implementing prereferral/RTI/DS, the CSE is obligated in accordance with law to continue its duties and functions, and must meet mandatory time lines in evaluating the student for special education services and implementation of an individualized education program, if applicable.

Section 504 of the Rehabilitation Act of 1973

For students who are qualified for services pursuant to Section 504 of the Rehabilitation Act, but are not classified as students with disabilities as defined in Education Law Section 4401, Section 504 Accommodation Plans may address instructional support services that can be utilized as components of any prereferral/intervention strategies as deemed necessary and/or appropriate.

Academic Intervention Services

Academic intervention services means additional instruction which supplements the instruction provided in the general education curriculum and assists students in meeting the State learning standards as defined in Commissioner's Regulations and/or student support services which may include guidance, counseling, attendance, and study skills which are needed to support improved academic performance.

However, such services shall not include services provided to students with limited English proficiency pursuant to Commissioner's Regulations or special education services and programs as defined in Education Law Section 4401. Academic intervention services are intended to assist students who are at risk of not achieving the State learning standards in English language arts, mathematics, social studies and/or science, or who are at risk of not gaining the knowledge and skills needed to meet or exceed designated performance levels on State assessments.

The District has developed a description of the academic intervention services offered to grades K through 12 students in need of such services. The District will review and revise this description every two (2) years based on student performance results.

Parental notification of students who have been determined to need academic intervention services will be provided as per Commissioner's Regulations.

SUBJECT: PREREFERRAL INTERVENTION STRATEGIES IN GENERAL EDUCATION (PRIOR TO A REFERRAL FOR SPECIAL EDUCATION) (Cont'd)

In implementing prevention and/or prereferral intervention support strategies in order to remediate a student's performance prior to referral for special education, the utilization of academic intervention services, as enumerated in Commissioner's Regulations, may be included as a component of any such Prereferral/ RTI/Discretionary Services.

SUBJECT: DECLASSIFICATION OF STUDENTS WITH DISABILITIES

The School District shall establish and implement a plan for the appropriate declassification of students with disabilities which must include:

- a) The regular consideration for declassifying students when appropriate;
- b) A reevaluation of the student prior to declassification; and
- c) The provision of educational and support services to the student upon declassification.

Eligibility Determinations

The School District must evaluate a student with a disability prior to determining that a student is no longer a student with a disability as defined in accordance with Commissioner's Regulations, and the District shall provide a copy of the evaluation report and the documentation of eligibility to the student's parent. The District is not required to conduct a reevaluation of a student before the termination of a student's eligibility due to graduation with a local high school or Regents diploma or exceeding the age eligibility for a free appropriate public education. However, the parent must receive prior written notice, in accordance with Commissioner's Regulations, before the student's graduation from high school with a local or Regents diploma or before they receive an Individualized Education Program (IEP) diploma. The results of any reevaluations must be addressed by the Committee on Special Education (CSE) in a meeting to review and, as appropriate, revise the student's Individualized Education Program (IEP).

Prior to the reevaluation, the School District shall obtain informed parental consent unless otherwise authorized pursuant to law and/or regulation. Parental consent need not be obtained if the District can demonstrate that it has taken reasonable measures to obtain that consent, and the student's parents fail to respond. The District must have a record of its attempts to obtain parental consent. Should the student's parents refuse consent for the reevaluation, the District may continue to pursue the reevaluation by using mediation and/or due process procedures.

The District shall take whatever action is necessary to ensure that the parent understands the proceedings at the meeting of the CSE, including arranging for an interpreter for parents with deafness or whose native language is other than English.

Graduation/Aging Out

The District is not required to conduct a reevaluation of a student before the termination of a student's eligibility due to graduation with a local high school or Regents diploma or exceeding the age eligibility for a free appropriate public education. However, the District must provide the student

with a summary (Student Exit Summary) of the student's academic achievement and functional performance, including recommendations on how to assist the student in meeting their post secondary goals. Although not required to do so, the District will also provide this Student Exit Summary (www.vesid.nysed.gov/specialed/idea/studentexit.htm) to students exiting with a High School Equivalency Diploma.

In addition, the parent must receive prior written notice, in accordance with Commissioner's Regulations, before the student's graduation from high school with a local or Regents diploma or before they receive an Individualized Education Program (IEP) diploma. If the student will be graduating with an IEP diploma, this prior written notice must indicate that the student continues to be eligible for a free appropriate public education until the end of the school year in which the student turns twenty-one (21) or until receipt of a regular high school diploma.

Recommendation for Declassification

If the student has been receiving special education services, but it is determined by CSE that the student no longer needs special education services and can be placed in a regular educational program on a full-time basis, the recommendation shall:

- a) Identify the declassification support services, if any, to be provided to the student; and/or the student's teachers; and
- b) Indicate the projected date of initiation of such services, the frequency of provision of such services, and the duration of these services, provided that such services shall not continue for more than one (1) year after the student enters the full-time regular education program.

Declassification Support Services

When appropriate, the District shall provide declassification support services to students who have moved from special education to a full-time regular educational program in accordance with the recommendation of the CSE.

Declassification support services means those services provided by persons appropriately certified pursuant to Part 80 of Commissioner's Regulations, or holding a valid teaching license in the appropriate area of service, to a student or the student's teacher to aid in the student's move from special education to full-time regular education, including:

- a) For the student, psychological services, social work services, speech and language improvement services, noncareer counseling, and other appropriate support services; and

- b) For the student's teacher, the assistance of a teacher aide or a teaching assistant, and consultation with appropriate personnel.

Procedural Safeguards Notice

The District shall use the procedural safeguards notice prescribed by the Commissioner of Education. The District will further ensure that the procedural safeguards notice is provided in the native language of the parent or other mode of communication used by the parent, unless it is clearly not feasible to do so. If the native language or other mode of communication of the parent is not a written language, the District shall take steps to ensure that the notice is translated orally or by other means to the parent in their native language or other mode of communication; that the parent understands the content of the notice; and that there is written evidence that all due process procedures, pursuant to law and/or regulation, have been met.

SUBJECT: RESPONSE TO INTERVENTION (RTI) PROCESS

The reauthorized Individuals with Disabilities Education Act (IDEA 2004) was advanced in an attempt to optimize educational outcomes for children with learning problems. A growing body of research, supports the use of Response to Intervention (RTI) as a highly effective means of:

- a) Increasing proficiency rates for early basic reading, writing, and math calculation skills;
- b) Expanding the capacity of teachers to meet the needs of a developmentally broad range of learners within the context of the general curriculum; and
- c) Reducing the number of children misidentified as disabled.

In accordance with NYS Commissioner's Regulations, the Onteora School District has established administrative practices and procedures for implementing District-wide initiatives that address a Response to Intervention (RTI) process applicable to all students. For students suspected of having a potential learning disability, the District will provide appropriate RTI services pursuant to the Commissioner's Regulations prior to a referral to the Committee on Special Education (CSE) for evaluation.

The District's RTI process shall include the following minimum requirements:

- a) Scientific, research-based instruction in reading, writing and mathematics provided to all students in the general education class by qualified personnel. Instruction in reading, per the NYS Education Commissioner's Regulations, shall mean scientific, research-based reading programs that include explicit and systematic instruction in phonemic awareness, phonics, vocabulary development, reading fluency (including oral reading skills) and reading comprehension strategies;
- b) Screenings shall be provided to all students in the class to identify those students who are not making academic progress at expected rates;
- c) Scientific, research-based instruction matched to student need with increasingly intensive levels of targeted interventions for those students who do not make satisfactory progress in their levels of performance and/or in their rate of learning to meet age or grade level standards;
- d) Repeated assessments of student achievement which should include curriculum based measures to determine if interventions are resulting in student progress toward age or grade level standards;
- e) The application of information about the student's response to intervention to make educational decisions about changes in instruction and/or services and the decision to make a referral for special education programs and/or services; and

(Continued)

Students

SUBJECT: RESPONSE TO INTERVENTION (RTI) PROCESS (cont'd)

- f) Written notification to the parents when the student requires an intervention beyond that provided to all students in the general education classroom that provides information about:
 - 1. Strategies for increasing the student's rate of learning; and student performance data, and the general education services that will be provided; and
 - 2. The parents' right to request an evaluation for special education programs and/or services.

Structure of Response to Intervention Program

The District's RTI program will consist of multiple tiers of instruction/assessments to address increasingly intensive levels of targeted intervention to promote early identification of student performance needs and/or rate of learning, and to help raise achievement levels for all students.

Response to Intervention Team, whose members may include, but are not limited to, regular education teachers, special education personnel, the school psychologist, , designated administrators, and other individuals deemed appropriate by the District, will be available for each building to address the implementation of the District's RTI process.

The RTI Team's responsibilities shall include, but are not limited to, the following:

- a) Determining the level of interventions/student performance criteria appropriate for each tier of the RTI model;
- b) Analyzing information/assessments concerning a student's response to intervention and making educational decisions about changes in goals, instruction and/or services;
- c) Determining whether to make a referral for special education programs and/or services.

Types of Interventions

The District will provide multiple tiers of increasingly intensive levels of targeted intervention and instruction for those students who do not make satisfactory progress in their levels of performance and/or in their rate of learning to meet age or grade level standards.

It is expected that use of the Tier Level of instruction will be specific to each student's needs and will be an ongoing process, with students entering and exiting tiers of intervention according to the analysis of student performance data and progress monitoring.

SUBJECT: RESPONSE TO INTERVENTION (RTI) PROCESS (cont'd)

Tier One Instruction

Tier One instruction is provided to all students in the general education setting. The use of scientific, research-based instruction in the area of ELA and math will be provided by the general education teacher and/or other qualified personnel as appropriate, and will emphasize proactive, preventative core instructional strategies in the classroom setting. Group and/or individualized instruction, assessment and reinforcement activities will be provided as deemed appropriate by the classroom teacher in collaboration with peers. Properly trained teaching assistants, under direct supervision of the presiding classroom teacher, can facilitate reinforcement techniques and conduct benchmark assessments. The use of teaching assistants in early grades are an integral part of early intervention. The analysis of Tier One student performance data will be used to identify those students who need additional intervention at the Tier Two Level of instruction.

Tier Two Instruction

In general, Tier Two instruction will consist of small group, targeted interventions for those students identified as being "at risk" who fail to make adequate progress in the general education classroom. Tier Two instruction will include programs and intervention strategies designed to supplement Tier One interventions provided to all students in the general education setting.

Tier Two instruction may be provided by support personnel such as teaching assistants, specialized staff such reading and math teachers, Occupational Therapists, Physical Therapists, Academic Intervention Service providers, speech therapists, school psychologists and/or school social workers as determined by the RTI Team, in collaboration with classroom teachers.

At the conclusion of Tier Two instruction, the RTI will review the student's progress and make a determination as to which tier of intervention would be appropriate.

Tier Three Instruction

Tier Three instruction is the provision of more intensive instructional interventions, tailored to the needs of the individual student; and is provided to those students who do not achieve adequate progress after receiving interventions at the Tier Two level. Tier Three instruction may include longer periods of intervention program and/or more frequent services than those provided in the first two (2) Tiers based upon the significant needs of the student.

Tier Three instruction will be provided by those specialists, in collaboration with classroom teachers, as determined by the RTI Team, best qualified to address the individual student's targeted area(s) of need. If deemed appropriate by the Team, and in accordance with applicable law and regulation, a referral of the student may be made to the Committee on Special Education (CSE).

Progress monitoring is an integral part of Tier Three; and the student's response to the intervention process will determine the need/level of further intervention services and/or educational placement.

Amount and Nature of Student Data to be Collected

The RTI Team will determine the amount and nature of student performance data that will be collected to assess, on an ongoing basis, student performance results and address ongoing academic needs as warranted. Such data collection will reflect the Tier Level of intervention provided to the student. Student performance data will also be used to review the District's RTI program and make modifications to the program as deemed necessary.

Manner and Frequency for Progress Monitoring

The RTI Team shall monitor the progress of those students receiving intervention services beyond that provided to all students in the general education classroom. The Team shall meet with the student's teacher(s) and will determine if further adjustments need to be made to the student's current instructional program and/or a change made to the Tier Level of intervention provided. Monitoring of student progress shall be an ongoing part of the RTI program from the initial screening to completion of the RTI process as applicable.

Staff Development

All staff members involved in the development, provision and/or assessment of the District's RTI program, including both general education and special education instructional personnel, shall receive appropriate training necessary to implement the District's RTI program. Staff development will include the criteria for determining the levels of intervention provided to students, the types of interventions, collection of student performance data, and the manner and frequency for monitoring progress.

SUBJECT: USE OF TIME OUT ROOMS

The Board of Education recognizes that a time out room may be an effective method of behavior intervention for some students. A time out room is an area for a student to safely deescalate, regain control and prepare to meet expectations to return to their educational program.

The Board recognizes the use of time out rooms only in conjunction with a Behavior Intervention Plan (BIP). However, students without a BIP may be permitted to use time out rooms in unanticipated situations that pose an immediate concern for the physical safety of the student or others. A student whose behavior plan permits the use of such a room may be assigned time out by appropriate school staff, including but not limited to the school administration, ~~or~~ faculty and/or related service providers, as documented on the BIP and Individualized Education Program ("IEP").

Staff who may be called upon to implement the use of the time out room will be trained annually on the use of the time out room and related behavior intervention practices.

Use of the time out room will be specified as an intervention on the student's BIP and IEP, with specific number of minutes permitted. The student, parents/guardians, and staff will meet to develop the BIP together, and will agree on use of the time out room as an intervention.

Parents or guardians will be informed by the Building Principal prior to the initiation of a behavior intervention program. All parents/guardians will be provided with a copy of the District's policy on time out rooms. Upon request, parents/guardians will be shown the physical space that is used for time out.

Except as provided pursuant to 8 New York Code of Rules and Regulations (NYCRR) Section 200.22(c) as referenced below, the School District shall not employ the use of time out rooms as a means of regulating student behavior.

Pursuant to Commissioner's Regulations, a time out room is defined "as an area for a student to safely deescalate, regain control and prepare to meet expectations to return to their education program." If a time out room is to be used, it must be used in conjunction with a behavioral intervention plan (that is designed to teach and reinforce alternative appropriate behaviors) in which a student is removed to a supervised area in order to facilitate self-control or when it is necessary to remove a student from a potentially dangerous situation and for unanticipated situations that pose an immediate concern for the physical safety of a student or others.

The District has adopted and implemented the following policy and procedures governing school use of time out rooms as part of its behavior management approach consistent with Commissioner's Regulations, including the physical and monitoring requirements, parental rights and individualized education program (IEP) requirements for students with disabilities.

SUBJECT: USE OF TIME OUT ROOMS (cont'd)

At a minimum, the use of time out rooms shall be governed by the following rules and standards:

- a) The District prohibits placing a student in a locked room or space or in a room where the student cannot be continuously observed and supervised. The time out room shall be unlocked and the door must be able to be opened from the inside. The use of locked rooms or spaces for purposes of time out or emergency interventions is prohibited.

Staff shall continuously monitor the student in a time out room. The staff must be able to see and hear the student at all times.

- b) Factors which may precipitate the use of the time out room:

Imminent or significant behavior that is unsafe for that student or others.

- c) Time limitations for the use of the time out room:

- 1. Time limitations will be documented on the student's BIP and IEP. Once a student is calm and in control, the student is given an opportunity to leave time out.

Further, a student's IEP shall specify when a behavioral intervention plan includes the use of a time out room for a student with a disability, including the maximum amount of time a student will need to be in a time out room as a behavioral intervention as determined on an individual basis in consideration of the student's age and individual needs.

School administration or other personnel shall be notified in the event a student is placed in a time out room for excessive amounts of time; and such information shall be considered when determining the effectiveness of the student's behavioral intervention plan and the use of the time out room for the student. Whether the student requires a debriefing following the use of a time out room shall be left to the staff knowledgeable about the individual student and consistent with the student's BIP and IEP.

- d) Staff training on the policies and procedures related to the use of time out rooms shall include, but not be limited to, the following measures:

- 1. The Director of Pupil Personnel Services in conjunction with the Building Principals shall be responsible to the Superintendent for establishing administrative practices and procedures for training all District personnel responsible for carrying out the provisions of Commissioner's Regulations relating to the use of time out rooms, including members of the Committee on Special Education (CSE) and Committee on Preschool Special Education (CPSE).

SUBJECT: USE OF TIME OUT ROOMS (cont'd)

2. The Therapeutic Crisis Intervention (TCI) training is provided for each staff member and updated once every school year, including procedures related to the use of time out rooms. Training on the Time Out Policy is included in the TCI training. Debriefing is provided to staff and student after every use of the time out room.
- e) Data collection to monitor the effectiveness of the use of time out rooms:
1. District schools shall establish and implement procedures to document the use of time out rooms, including information to monitor the effectiveness of the use of the time out room to decrease specified behaviors. Such data would be subject to review by the State Education Department (SED) upon request.
 2. Such data collection should appropriately include, but is not limited to, the following information:
 - (a) The student's name and date of birth;
 - (b) A record for each student showing the date and time of each use of the time out room;
 - (c) A detailed account of the antecedent conditions/specific behavior that led to the use of the time out room;
 - (d) The amount of time that the student was in the time out room; and
 - (e) Information to monitor the effectiveness of the use of the time out room to decrease specified behaviors which resulted in the student being placed in the room.
 - (f) Information to be provided to parents.

The School District shall inform the student's parents prior to the initiation of a behavioral intervention plan that will incorporate the use of a time out room for a student, and shall give the parent the opportunity to see the physical space that will be used as a time out room and provide the parent with a copy of the school's policy on the use of time out rooms.

Additionally, parents should be notified if their child was placed in a time out room. Minimally, whenever a time out room is used as an emergency intervention pursuant to Commissioner's Regulations Section 200.22(d), the parent shall be notified of the emergency intervention. Such notification will be provided the same day whenever possible.

The parent is a member of the CSE and the use of a time out room must be included on the student's IEP. The parent receives prior notice as to the recommendations on a student's IEP and may request due process in the event the parent does not agree with the CSE recommendations.

Parent reports of alleged inappropriate interventions used in a time out room should be directed to school administrators.

Physical Space Used as a Time Out Room

The physical space used as a time out room must meet certain standards.

- a) The room shall provide a means for continuous visual and auditory monitoring of the student.
- b) The room shall be of adequate width, length and height to allow the student to move about and recline comfortably.
- c) Wall and floor coverings should be designed to prevent injury to the student, and there shall be adequate lighting and ventilation.
- d) The temperature of the room shall be within the normal comfort range and consistent with the rest of the building.
- e) The room shall be clean and free of objects and fixtures that could be potentially dangerous to a student and shall meet all local fire and safety codes.

However, except for the parents/persons in parental relation and the appointee from the municipality (a) and i) above) a member of the CPSE is not required to attend a meeting of the team in whole or in part if the parent/person in parental relation and the District agree in writing that the attendance is not necessary because the member's area of the curriculum or related services is not being modified or discussed at that meeting.

Additionally, a member as described in letters b) through g) of this subheading may be excused from attending the CPSE meeting, in whole or in part, if the parent/person in parental relation to the student with a disability and the School District agree, in writing to the excusal not less than five (5) calendar days prior to the meeting date, that the attendance of the member is not necessary because:

- a) The member's area of the curriculum or related services is being modified or discussed in the meeting but, not less than five (5) calendar days prior to the meeting, the excused member has submitted to the parents/persons in parental relation and the CSE written input into the development of the IEP, particularly with respect to their area of curriculum or related services; or
- b) The committee member is unable to attend due to an emergency or unavoidable scheduling conflict and the District submits the written input listed in a) above to the parents/persons in parental relation within a reasonable time prior to the meeting and prior to obtaining written consent to the excusal by the parents/persons in parental relation.

Training

The training of qualified personnel is essential to the effective implementation of the Regulations of the Commissioner of Education regarding the education of all students with disabilities.

The Director of Special Education shall be responsible to the Superintendent for establishing administrative practices and procedures for training all District personnel responsible for carrying out the provisions of Part 200 of the Commissioner's Regulations as well as members of the Committee on Preschool Special Education.

STUDENT INDIVIDUALIZED EDUCATION PROGRAM

Development of Individualized Education Program

The Board of Education directs that the Committee on Special Education (CSE) or Committee on Preschool Special Education (CPSE) shall have prepared a written statement (program) for each child with a disability.

Such an Individualized Education Program (IEP) will be developed by the CSE or CPSE upon referral, and reviewed or revised, whichever is appropriate, for every child with a disability at least annually or in the event that the program no longer appears to be appropriate to meet the student's needs and ability level.

The District shall ensure that each student with a disability has an IEP in effect at the beginning of each school year.

IEPs developed on or after January 1, 2009 will be on the form prescribed by the Commissioner.

Functional Behavioral Assessments/Behavioral Intervention Plans

A functional behavioral assessment (FBA) may be an integral part of the evaluation and reevaluation of a student with a disability and should be used throughout the process of developing, reviewing and revising a student's IEP when the student's behavior impedes learning of the child or others. The FBA is the process of determining why a student engages in challenging behavior and how the student's behavior relates to the environment.

The FBA provides a baseline of the student's problem behaviors with regard to frequency, duration, intensity and/or latency across activities, settings, people and times of the day and includes:

- a) The identification of the problem behavior;
- b) The definition of the behavior in concrete terms;
- c) The identification of the contextual factors that contribute to the behavior (including cognitive and affective factors); and
- d) The formulation of a hypothesis regarding the general conditions under which a behavior usually occurs and probable consequences that serve to maintain it.

The CSE/CPSE will ensure that functional behavioral assessments, when appropriate, are conducted and reviewed to:

(Continued)

SUBJECT: STUDENT INDIVIDUALIZED EDUCATION PROGRAM (Cont'd.)

- a) Identify supplementary aids and services, modifications and/or related services appropriate to address the identified behaviors to promote the student's involvement and progress in the general curriculum;
- b) Determine a student's eligibility for special education services;
- c) Develop the IEP which includes behavioral goals and objectives and positive behavioral supports and strategies.

In the case of a student whose behavior impedes his/her learning or that of others, the CSE/CPSE shall consider strategies, including positive behavioral interventions and supports and other strategies to address that behavior. The need for a behavioral intervention plan (BIP) shall be documented on the IEP and such plan shall be reviewed at least annually by the CSE/CPSE. In addition, regular progress monitoring of the frequency, duration and intensity of the behavioral interventions shall be conducted at scheduled intervals, documented and reported to the parents and CSE/CPSE.

A behavioral intervention plan may not include the use of aversive interventions or time out rooms except in accordance with specific Board policy regulating these techniques.

Individual Evaluations

Parental consent must be provided for an initial evaluation. If such consent is not received within thirty (30) calendar days of receipt of the referral, the CSE/CPSE Chairperson will document all attempts made to obtain the consent and, if appropriate, advise the Board of its right to utilize the due process procedures to conduct an evaluation without parental consent.

Unless a referral is withdrawn, an individual evaluation at no cost to the parent will be completed by the CSE/CPSE within sixty (60) calendar days after written parental consent has been obtained or a parental refusal to consent is overridden, unless:

- a) An extension is mutually agreed to by the parent and the CSE/CPSE for the following situations:
 - 1. Transfer students: A student enrolls in the District after sixty (60) days and prior to a determination by the student's previous school district as to whether the student has a disability, but only if the new school district is making sufficient progress to ensure a prompt completion of the evaluation and the parent and the new district agree to a specific timeframe for completion; or
 - 2. Students suspected of having learning disabilities; or

(Continued)

SUBJECT: STUDENT INDIVIDUALIZED EDUCATION PROGRAM (Cont'd.)

- b) The parent or student repeatedly fails or refuses to produce the student for evaluation.

No student shall be required to obtain a prescription for a drug or other substance identified as a controlled substance by the federal Controlled Substances Act as a condition of receiving an evaluation.

The individual evaluation will include a variety of assessment tools and strategies, including information provided by the parent. The purpose of the evaluation is to gather relevant functional, developmental and academic information that may assist in determining whether the student is a student with a disability and the content of the student's IEP. This shall include information relating to enabling the student to participate and progress in the general education curriculum (or for a preschool child, to participate in appropriate activities.)

As part of any evaluation, a group that includes the CSE/CPSE and other qualified professionals, as appropriate, shall review existing evaluation data on the student including evaluations and information provided by the parents of the student, current classroom-based assessments, local or state assessments, classroom-based observations, and observations by teachers and related services providers. In addition, the group will consider information about the student's physical condition, social or cultural background, and adaptive behavior.

On the basis of that review, and input from the student's parents, the group shall identify what additional data, if any, are needed to determine:

- a) Whether the student has or continues to have a disability;
- b) The present levels of academic achievement and related developmental needs of the student, including:
 - 1. Academic achievement, functional performance, and learning characteristics;
 - 2. Social development;
 - 3. Physical development; and
 - 4. Management needs.
- c) In the case of a reevaluation of a student, whether the student continues to need special education; and

(Continued)

SUBJECT: STUDENT INDIVIDUALIZED EDUCATION PROGRAM (Cont'd.)

- d) Whether any additions or modifications to the special education services are needed to enable the student to meet the measurable annual goals set out in the IEP of the student and to participate, as appropriate, in the general education curriculum.

If additional data are not needed, the District must notify the parents of that determination and the reasons for it and of the right of the parents to request an assessment to determine whether, for purposes of services provided in accordance with law and Commissioner's Regulations, the student continues to be a student with a disability and to determine the student's educational needs. The District is not required to conduct the assessment unless requested to do so by the student's parents.

The determination that a student has a learning disability will be made in accordance with the procedures outlined in Section 200.4(j) of Commissioner's Regulations.

Individual Re-evaluations

A CSE/CPSE shall arrange for an appropriate re-evaluation of each student with a disability:

- a) If the District determines that the educational or related services needs, including improved academic achievement and functional performance of the student warrant re-evaluation;
- b) If the student's parent or teacher request a re-evaluation;
- c) At least once every three (3) years, unless the District and the parent/person in parental relation agree in writing that such re-evaluation is unnecessary.

A re-evaluation shall not be conducted more frequently than once a year unless the parent and the District representative appointed to the CSE/CPSE agree otherwise.

The re-evaluation will be conducted by a multi-disciplinary team or group of persons, including at least one (1) teacher or other specialist with knowledge in the area of the student's disability. The re-evaluation shall be sufficient to determine the student's individual needs, educational progress and achievement, the student's ability to participate in instructional programs in regular education and the student's continuing eligibility for special education. The results of any re-evaluations must be addressed by the CSE/CPSE in reviewing, and as appropriate, revising the student's IEP.

To the extent possible, the District shall encourage the consolidation of re-evaluation meetings for the student and other CSE/CPSE meetings for the student.

(Continued)

SUBJECT: STUDENT INDIVIDUALIZED EDUCATION PROGRAM (Cont'd.)**Amendments to the IEP**

Amendments to the IEP made after the annual review by the CSE/CPSE may be made by reconvening the CSE/CPSE and rewriting the IEP or by developing a written document to amend or modify the student's current IEP, provided that:

- a) The parents/persons in parental relation request an amendment to the IEP and the District and parents/persons in parental relation agree to the amendment in writing; or
- b) The District provides the parents/persons in parental relation a written proposal to amend a provision or provisions of the IEP conveyed in language understandable to the parents/persons in parental relation in their native language or other dominate mode of communication, informs and allows the parents/persons in parental relation the opportunity to consult with the appropriate personnel or related service providers concerning the proposed changes, and the parents/persons in parental relation agree in writing to the amendments.

If the parents/persons in parental relation agree to amend the IEP without a meeting, they shall be provided prior written notice (notice of recommendation) of the changes to the IEP and the Committee notified of the changes. If the changes are made by rewriting the entire IEP, the District shall provide the parents/persons in parental relation a copy of the rewritten IEP. If the amendment is made without rewriting the entire document, the District shall provide a copy of the document that amends the IEP or, upon request, a revised copy of the entire IEP with the amendments incorporated.

Use of Recording Equipment at IEP Meetings

The Committee on Special Education shall make digital recordings of meetings regarding individualized education programs for students with disabilities upon the request of their parent or guardian.

Provision of Individualized Education Program

The Board of Education directs that the Superintendent/designee(s) establish administrative practices and procedures to ensure that each regular education teacher, special education teacher, related service provider and/or other service provider who is responsible for the implementation of a student's IEP is provided a paper or electronic copy of such student's IEP (including amendments to the IEP) prior to the implementation of such program. For purposes of this policy, "other service provider" means a representative of another public school district, charter school, Board of Cooperative Educational Services (BOCES) or school enumerated in Education Law Articles 81, 85 or 89 where the student

SUBJECT: STUDENT INDIVIDUALIZED EDUCATION PROGRAM (Cont'd.)

receives or will receive IEP services. Further, the District will designate at least one (1) school official who shall be responsible for maintaining a record of the personnel who have received IEP copies for each student.

Any copy of a student's IEP shall remain confidential in compliance with the Individuals with Disabilities Education Act, the Family Educational Rights and Privacy Act, and District policy regarding confidentiality of student records; and shall not be disclosed to any other person other than the parent of such student, except in accordance with federal and state laws and/or regulations. Appropriate training and information will be provided to designated school personnel, as applicable, to ensure the confidentiality of such information. Procedures will be established to ensure that copies of students' IEPs are stored in secure locations and retrieved or destroyed when such professionals are no longer responsible for implementing a student's IEP.

The Chairperson of the CSE, CSE subcommittee, or CPSE *shall designate* for each student one (1) or, as appropriate, more than one (1) professional employee of the School District with knowledge of the student's disability and education program *who will be responsible to, prior to the implementation of the IEP, inform* each regular education teacher, special education teacher, related service provider, other service provider, supplementary school personnel (i.e., a teaching assistant or a teacher aide as defined in Commissioner's Regulations), and other provider and support staff person of his/her responsibility to implement the recommendations on a student's IEP, including the responsibility to provide specific accommodations, program modifications, supports and/or services for the student in accordance with the IEP. In selecting the professional staff person(s), the Chairperson could select him/herself for this responsibility, another administrator, or a teacher, related service provider or other professional based on the particular circumstances of the student's disability and education program.

The School District shall also ensure that each teaching assistant, teacher aide and each other provider responsible for assisting in the implementation of a student's IEP has *the opportunity to review* a copy of the student's IEP (including amendments) prior to the implementation of such program. Further, each teaching assistant, teacher aide and such other provider responsible for assisting in the implementation of a student's IEP shall have *ongoing access* to a copy of the IEP, which may be the copy provided to the student's special education teacher or the teacher or related service provider under whose direction the supplementary school personnel or other provider works. However, the District may, at its discretion, provide a copy of the IEP to teaching assistants and/or teacher aides.

A copy of a student's IEP shall be provided to the student's parents at no cost to the student's parents.

SUBJECT: TRANSITION SERVICES

Beginning not later than the first IEP to be in effect when the student is age fifteen (15) (and at a younger age, if determined appropriate), and updated annually, the student's IEP must include:

- a) A statement of the student's needs taking into account the student's strengths, preferences and interests as they relate to transition from school to post-school activities;
- b) Appropriate measurable postsecondary goals based upon age appropriate transition assessments relating to training, education, employment and, where appropriate, independent living skills;
- c) A statement of transition service needs that focuses on the student's courses of study, such as participation in advanced-placement courses or a vocational educational program;
- d) Needed activities to facilitate the student's movement from school to post-school activities, including instruction, related services, community experiences, the development of employment and other post-school adult living objectives and, when appropriate, acquisition of daily living skills and functional vocational evaluation; and
- e) A statement of the responsibilities of the District and participating agencies, when applicable, for the provision of such services and activities, before the student leaves the school setting, that promote movement from school to post-school opportunities.

In accordance with the Code of Federal Regulations, the District must invite a child with a disability to attend the child's CSE meeting if a purpose of the meeting will be the consideration of the postsecondary goals for the child and the transition services needed to assist the child in reaching those goals. If the child does not attend the CSE meeting, the District must take other steps to ensure that the child's preference and interests are considered. To the extent appropriate, with the consent of the parent or a child who has reached the age of majority, the District must also invite a representative of any participating agency that is likely to be responsible for providing or paying for transition services.

As defined by the Commissioner's Regulations, transition services means a coordinated set of activities for a student with a disability, designed within a results-oriented process that is focused on improving the academic and functional achievement of the student with a disability to facilitate movement from school to post-school activities. Post-school activities include, but are not limited to, post-secondary education, vocational education, integrated employment (including supported employment), continuing and adult education, adult services, independent living, or community participation. The coordinated set of activities must be based on the student's strengths, preferences and interests and shall include needed activities in the following areas:

- a) Instruction;

- b) Related services (the term "related services" does not include a medical device that is surgically implanted, the optimization of the device's functioning (e.g., mapping), maintenance of, or the replacement of such device);
- c) Community experiences;
- d) The development of employment and other post-school adult living objectives; and
- e) When appropriate, acquisition of daily living skills and provision of a functional vocational evaluation.

SUBJECT: EXTENDED SCHOOL YEAR (JULY/AUGUST) SERVICES AND/OR PROGRAMS

The School District shall provide, directly or by contract, special services and/or programs during July and August (i.e., extended school year) to those students whose disabilities are severe enough to exhibit the need for a structured learning environment of twelve (12) months duration in order to prevent substantial regression as determined by the Committee on Special Education (CSE)/Committee on Preschool Special Education (CPSE). Written consent of the parent is required prior to initial provision of special education services in a twelve (12) month special service and/or program.

The CSE/CPSE must determine whether a student requires extended school year special education services and/or programs in order to prevent substantial regression. Substantial regression would be indicated by a student's inability to maintain developmental levels due to a loss of skill, set of skill competencies or knowledge during the months of July and August. In accordance with Commissioner's Regulations, students must be considered for twelve (12) month special services and/or programs to prevent substantial regression if they are:

- a) Students whose management needs are determined to be highly intensive and require a high degree of individualized attention and intervention and who are placed in special classes; or,

Preschool students whose management needs are determined to be highly intensive and require a high degree of individualized attention and intervention;
- b) Students with severe multiple disabilities, whose programs consist primarily of habilitation and treatment and are placed in special classes; or

Preschool students with severe multiple disabilities, whose programs consist primarily of habilitation and treatment;
- c) Students who are recommended for home and/or hospital instruction whose special education needs are determined to be highly intensive and require a high degree of individualized attention and intervention or who have severe multiple disabilities and require primarily habilitation and treatment; or

Preschool students whose special education needs are determined to be highly intensive and require a high degree of individualized attention and intervention or who have severe multiple disabilities and require primarily habilitation and treatment in the home; or
- d) Students, including preschool students, whose needs are so severe that they can be met only in a seven (7) day residential program; or

(Continued)

SUBJECT: EXTENDED SCHOOL YEAR (JULY/AUGUST) SERVICES AND/OR PROGRAMS (Cont'd.)

- e) Students who are not in programs as described in subparagraphs (a) through (d) above during the period from September through June and who, because of their disabilities, exhibit the need for a twelve (12) month special service and/or program provided in a structured learning environment of up to twelve (12) months duration in order to prevent substantial regression as determined by the CSE; or

Preschool students who are not described in subparagraphs (a) through (d) above whose disabilities are severe enough to exhibit the need for a structured learning environment of twelve (12) months duration to prevent substantial regression as determined by the Preschool Committee on Special Education (CPSE).

For students eligible for twelve (12) month service and/or program, per Commissioner's Regulations Section 200.4(d)(2)(x), the student's Individualized Education Program (IEP) shall indicate the identity of the provider of services during the months of July and August, and, for preschool students determined by the CPSE to require a structured learning environment of twelve (12) months duration to prevent substantial regression, a statement of the reasons for such recommendation.

The IEP shall indicate the projected date of the review of the student's need for such services and shall indicate the recommended placement.

The State Education Department (SED) is authorized to approve programs and to establish State Aid reimbursement rates for all special services and programs provided during July and August, both public and private. Therefore, if the School District plans to operate a July/August program, the District must first apply to SED for approval in accordance with SED guidelines/procedures.

SUBJECT: TRANSFER STUDENTS WITH DISABILITIES

To facilitate the transition of students with disabilities transferring into or out of the District the District shall:

- a) As the district of origin take reasonable steps to promptly respond to all requests from the new school district.
- b) As the new school district take reasonable steps to promptly obtain the student's records from the previous school, including the Individualized Education Program (IEP), supporting documents and any other records relating to the provision of special education services.
- c) Provide to a student with a disability (as defined in Section 200.1(zz) of Commissioner's Regulations) who transfers school districts within the same school year a free appropriate education including services comparable to those described in the student's previous IEP.
 1. For transfers within New York State, the previously held IEP will be followed in consultation with the parents until the District adopts the previously held IEP or develops, adopts and implements a new IEP consistent with federal and State law and regulation.
 2. For transfers from outside New York State, in consultation with the parents the previously held IEP will be followed until the District conducts an evaluation and, if appropriate, develops a new IEP consistent with federal and State law and regulation.

SUBJECT: RESPONDING STRATEGIES: EMERGENCY INTERVENTIONS

Philosophy Statement

The Ontario Central School District supports a structured learning environment that promotes learning for all members of the school community, including students whose management needs severely impact their ability to learn. This environment is to promote the safety of all members of the school community: these students, their classmates, their teachers and their support personnel. Therefore, staff members share responsibility for the health and safety of all children in the school.

Responsible Personnel

The primary responsibility for providing emergency intervention is the child's teacher, supported by Teaching Assistants, Behavioral Intervention Assistant, Principal, psychologist, social worker and others who would naturally assist in school emergencies as part of the Behavior Intervention Plan. Only those individuals who are trained in the proper methods of emergency intervention shall actually implement the emergency intervention. This training shall be provided annually by the District.

Students are not permitted to assist in emergency interventions.

Legal Foundation

Since many of our classes enroll students whose behavior requires intense monitoring and control, the issue of safety is an important one. As stated in the Commissioner's Regulations (8 NYCRR Section 19.5[a][3]), "reasonable physical force may be used in self-defense, to prevent physical injury to others, to prevent damage to property, or to restrain or remove a student whose behavior is disruptive to the orderly performance of the functions of the School District" For this reason, emergency intervention is considered appropriate within these guidelines.

The Committee on Special Education shall consider the development of a Behavior Intervention Plan for certain students with a disability in accordance with the Commissioner's Regulations. Emergency interventions may be considered as an appropriate intervention in a student's Behavior Intervention Plan, and must be documented on the student's IEP.

Following any incident involving an emergency intervention, the District shall ensure that post-incident evaluation, debriefing and support are available to the student, staff members and others who may have been involved in the incident. Appropriate written documentation shall be maintained.

Continued

**SUBJECT: RESPONDING STRATEGIES: EMERGENCY INTERVENTIONS
(cont'd)**

Emergency Interventions

Emergency interventions shall only be used in situations in which alternative methods and procedures not involving the use of physical force cannot be reasonably employed. Emergency interventions shall never be used as a punishment, consequence or for classroom maintenance. Emergency interventions should always be the very last resort; it is not a requirement, but merely an option to be considered in extreme circumstances. For example, clearing the room of all other students may be an effective technique to protect other students. A behavioral approach, that has been well thought out in advance, is always the first option as is a thorough knowledge of how your individual students will react (behavior plan). Clear classroom rules and preventative classroom structure and procedures should be utilized. Ongoing emergency interventions shall be reviewed by the building RTI committee and/or by the CSE.

The District shall maintain the proper documentation of any emergency interventions in accordance with the Commissioner's Regulations, including:

- a. Name and date of birth of student;
- b. Setting and location of incident;
- c. Names of all staff or other persons involved;
- d. Description of the incident and emergency intervention used, including duration;
- e. A statement as to the status of a current behavior intervention plan; and
- f. Details of any injuries sustained by the student or others, including staff, as a result of the incident.

This documentation will be reviewed by the building Principal, District administration and, if necessary, by the school nurse or other medical personnel.

The Principal or their designee must notify the parent immediately of the use of the emergency intervention.

Adopted: 1/28/15

**SUBJECT: IDENTIFICATION AND REGISTER OF CHILDREN WITH DISABILITIES
(CHILD FIND)**

The School District of residence is required to locate and identify all students with disabilities who reside in the District, including students who do not attend public school (with the exception of students with disabilities who are parentally placed in nonpublic schools outside the district of residence). Therefore, it is the policy of the Board of Education to conduct a census in order to have all children with disabilities within its jurisdiction under the age of twenty-one (21) identified, located and evaluated, including children of preschool age, children experiencing insecure housing, children who are wards of the State as defined in Commissioner's Regulations and children in all public and private agencies and institutions.

Any student suspected of having a disability is to be referred to the applicable Committee on Special Education (CSE)/Committee on Preschool Special Education (CPSE) for evaluation and possible identification as a student with disability.

Census data shall be reported by October 1 to the CSE/CPSE as appropriate. The CSE/CPSE will maintain and revise annually a register and related summary reports containing the data requirements indicated in Commissioner's Regulations.

Nonpublic School Students with Disabilities Who are Parentally Placed

If the School District boundaries encompass a nonpublic school, the District, as the district of location, must develop and implement methods to identify, locate and ensure the identification and evaluation of students with disabilities who have been, or are going to be, parentally placed in such nonpublic school.

The child find activities must be similar to activities for students with disabilities in the public schools and must be completed in a time period comparable to that for other students attending public schools in the School District.

As the public school district of location, the District must consult with the nonpublic schools where students are parentally placed to determine an accurate count of students with disabilities attending such schools and receiving special education services.

These requirements only pertain to students with disabilities parentally placed in elementary and secondary nonpublic schools, not to parental placements of preschool children with disabilities in private day care or preschool programs; or to CSE placements of students with disabilities in approved private schools, Special Act School Districts, State-supported or State-operated schools; or to Charter schools.

SUBJECT: PARENT INVOLVEMENT FOR CHILDREN WITH DISABILITIES

The Board of Education recognizes the rights of the parent/guardian to be fully informed of all information relevant to the identification, or change in identification, evaluation and educational placement of a child with a disability.

All due process procedures for parents/guardians and children in the Commissioner's Regulations shall be observed by the School District.

Definition of Parent

Parent means a birth or adoptive parent, a legally appointed guardian generally authorized to act as the child's parent or authorized to make educational decisions for the child, a person in parental relationship to the child as defined in Education Law Section 3212, an individual designated as a person in parental relation pursuant to General Obligations Law Title 15-A including an individual so designated who is acting in the place of a birth or adoptive parent (including a grandparent, stepparent or other relative with whom the child resides), or a surrogate parent who has been appointed in accordance with Commissioner's Regulations Section 200.5(n). The term does not include the State if the student is a ward of the State.

A foster parent may act as a parent unless State law, regulations or contractual obligations with a State or local entity prohibit the foster parent from acting as a parent.

Unless a judicial decree identifies a specific person(s) to act as the parent or make educational decisions for the student, if one (1) or more parties is qualified to act as a parent, the birth or adoptive parent is presumed to be the parent unless they do not have the legal authority to do so.

Surrogate Parents

It is the duty of the School District to determine whether a child needs a surrogate parent and to assign a surrogate parent in the manner permitted under New York State law. This determination shall be completed within a reasonable time following the receipt of a referral for an initial evaluation or re-evaluation.

In the event that no parent or guardian for a child with a disability can be identified; or after reasonable efforts the whereabouts of the parent or guardian cannot be determined; or the student is an unaccompanied youth experiencing insecure housing ; or the child with a disability is a ward of the State and does not have a "parent" as defined above; or the rights of the parent to make educational decisions have been subrogated by a judge in accordance with State law; the Board shall assign an individual to act as a surrogate for the parents or guardians.

Alternatively, the surrogate parent may be appointed by a judge overseeing the child's case.

SUBJECT: PARENT INVOLVEMENT FOR CHILDREN WITH DISABILITIES

The person selected as a surrogate shall have no interest that conflicts with the interest of the child they represent, and shall have knowledge and skills that ensure adequate representation of the child.

Prior Written Notice (Notice of Recommendation)

Prior written notice (notice of recommendation) must be given to parents of a student with a disability a reasonable time before the District proposes to, or refuses to, initiate or change the identification, evaluation, educational placement of the student or the provision of a free appropriate public education to the student. Prior written notice must also be provided informing the parents when no additional data is required to determine the student's educational needs, the reasons for this determination and their right to request an assessment.

If the prior written notice relates to a proposed action that also requires parental consent, the District must give notice at the same time it requests parental consent. The prior written notice will contain all elements required by Commissioner's Regulations.

A parent may elect to receive prior written notice and other required notifications by electronic mail (e-mail) communication if the District makes this option available.

Effective January 1, 2009 the prior written notice will be on the form prescribed by the Commissioner.

Parent Participation in Meetings

The School District must take steps to ensure that one (1) or both of the parents of a child with a disability are present at each Committee on Special Education (CSE)/Committee on Preschool Special Education (CSPE) meeting or are afforded the opportunity to participate in a mutually agreed upon time and place. The School District must document its attempts to involve parents, such as:

- a) Detailed records of telephone calls made or attempted and the results of these calls;
- b) Copies of correspondence sent to the parents and any responses received; and
- c) Detailed records of visits made to the parent's home or place of employment and the results of those visits.

A meeting may be conducted without a parent in attendance if the School District is unable to convince the parents that they should attend.

(Continued)

SUBJECT: PARENT INVOLVEMENT FOR CHILDREN WITH DISABILITIES (Cont'd.)

Additionally, the School District must take whatever action is necessary to ensure the parent understands the proceedings of this meeting including arranging for an interpreter for parents with deafness or whose native language is other than English.

Parental Consent

In accordance with due process, a parent [as defined in Commissioner's Regulations Section 200.1(1)] of a special education student or a student suspected of having a disability must provide informed consent before the School District can take certain actions. The District will make reasonable efforts to obtain written informed consent and will maintain a detailed record of its attempts and the results of the attempts.

Consent for Evaluations

The parent or guardian must provide informed consent to the initial evaluation, or reevaluations in accordance with law and/or regulations. If a parent does not provide consent for an initial evaluation, the School District may pursue the evaluation by commencing a due process hearing to override the refusal to provide consent.

Parental consent for a reevaluation is not needed if the District can demonstrate that it has taken reasonable measures to obtain consent, but the parents or guardians have failed to respond.

Consent for the Initial Provision of Services

Parental consent is also required for the initial provision of special education services. Consent for an initial evaluation does not constitute consent for the initial provision of services. If a parent does not provide consent for the initial provision of services, the School District shall not provide the special education program and services to the student and shall not use the due process procedures to challenge the parent's refusal to consent. The School District shall not be considered to be in violation of the requirements to provide a free appropriate public education (FAPE), shall not be required to convene a meeting of the committee on special education or develop an individualized education program (IEP).

Consent for Other Actions

Prior written consent must also be provided:

- a) Prior to releasing any personally identifiable information; and
- b) Prior to each time the District proposes to access a parent's private or public insurance.

(Continued)

SUBJECT: PARENT INVOLVEMENT FOR CHILDREN WITH DISABILITIES (Cont'd.)Consent for an Unaccompanied Youth Experiencing Insecure Housing

Consent may be provided by a surrogate parent. However, until a surrogate parent is appointed, consent may be provided on a temporary basis by an employee of a temporary housing facility operated or approved by a local social services district or a residential facility for runaway and youth experiencing insecure housing.

Consent for a Ward of the State

A ward of the State means a child or youth under the age of twenty-one (21):

- a) Who has been placed or remanded pursuant to Social Services Law or the Family Court Act or freed for adoption pursuant to Social Services Law; or
- b) Who is in the custody of the Commissioner of Social Services or the Office of Children and Family Services; or
- c) Who is a destitute child under Social Services Law.

In the event that a child is a ward of the State, the School District shall make reasonable efforts to obtain the informed consent from the parent of the child for an initial evaluation to determine whether the child is a child with a disability.

The School District is not required to obtain informed consent if:

- a) Despite reasonable efforts to do so, the School District cannot discover the whereabouts of the parent of the student, including consulting with the agency responsible for the care of the student; or
- b) The rights of the parents of the student have been terminated in accordance with State law; or
- c) The rights of the parent to make educational decisions have been subrogated by a judge in accordance with State law and consent for an initial evaluation has been given by an individual appointed by the judge to represent the student.

(Continued)

SUBJECT: PARENT INVOLVEMENT FOR CHILDREN WITH DISABILITIES (Cont'd.)**Consent for a Student Who is Home Instructed or Parentally Placed in a Private School at the Parent's Expense**

If a parent of a student who is home instructed or placed in a private school by their parents at their own expense does not provide consent for an initial evaluation or reevaluation, or the parent fails to respond to a request to provide consent, the District may not continue to pursue those evaluations by using the due process procedures and the District is not required to consider the student as eligible for special education services.

Procedural Safeguards Notice

The School District will provide the procedural safeguards notice prescribed by the Commissioner of Education to the parents of a student with a disability at least one (1) time per year and also:

- a) Upon initial referral or parental request for evaluation;
- b) Upon the first filing of a due process complaint notice to request mediation or an impartial due process hearing;
- c) Upon request by a parent;
- d) Upon a decision to impose a suspension or removal that constitutes a disciplinary change in placement; and
- e) Upon first receipt of a State complaint.

SUBJECT: IMPARTIAL DUE PROCESS HEARINGS/SELECTION OF IMPARTIAL HEARING OFFICERS

The parent/person in parental relation of a student with a disability may file a written request with the Board for an impartial due process hearing with respect to any matter relating to the identification, evaluation, educational placement, provision of a free appropriate public education (FAPE), manifestation determination or other matter relating to discipline. The Board may also initiate such hearing.

The School District is committed to making every effort to amicably resolve differences involving the educational programs for students with disabilities. Mediation will be available to resolve disputes involving any matter, including matters arising prior to the filing of a request for an impartial due process hearing. In addition, the District may establish procedures providing the opportunity to meet with a disinterested party from a community dispute resolution center for an explanation of the benefits of the mediation process.

For those exceptional circumstances where a more formal method is required, the impartial hearing process will be utilized. The Impartial Hearing Officer (IHO) renders a written decision after the parties present and refute evidence before them. The decision of the IHO is final and binding on both parties unless appealed to the State Review Officer (SRO).

Impartial Due Process Hearing Process

The request for an impartial due process hearing must be submitted within two (2) years of the date the parent or the District knew or should have known about the alleged action forming the basis of the complaint. However, the two (2) year timeline does not apply if the parent was prevented from requesting the hearing due to specific misrepresentations by the District that it had resolved the problem or the District's withholding of information from the parent that is required by Commissioner's Regulations.

The following is an overview of the impartial due process hearing process/prehearing conference:

a) Due Process Complaint Notification

1. The parent or the School District may request an impartial due process hearing by first submitting a due process complaint notice.

A hearing may not be held until a due process complaint notice is filed. Either the parent, the District, or the attorney representing either party may present a complaint with respect to any matter relating to the identification, evaluation or educational placement of a student with a disability or a student suspected of having a disability, or the provision of a free appropriate public education to such student.

This written due process complaint notice must include:

- (a) The name of the student;
- (b) The address of the student's residence or, in the case of a student experiencing insecure housing, available contact information;
- (c) The name of the school the child is attending;
- (d) A description of the nature of the problem of the student relating to the proposed or refused initiation or change, including facts relating to the problem; and

(Continued)

Students

SUBJECT: IMPARTIAL DUE PROCESS HEARINGS/SELECTION OF IMPARTIAL HEARING OFFICERS (cont'd)

- (e) A proposed resolution of the problem to the extent known and available to the party at the time.
 - 2. The due process complaint notice will be deemed sufficient unless the party receiving the notice notifies the other party and the IHO in writing within fifteen (15) days of receiving the notice that they believe the notice requirements have not been met.
 - 3. Within five (5) days of the receipt of the notice of insufficiency, the IHO shall make a determination on the face of the notice of whether the notification meets the notice requirements and shall immediately notify the parties in writing of the determination.
 - 4. If the District has not sent a prior written notice (notice of recommendation) to the parent regarding the subject matter of the complaint notice, the District will send a response to the parent within ten (10) days of receiving the complaint which includes:
 - (a) An explanation of why the District proposed or refused to take the action raised in the complaint;
 - (b) A description of other options the Committee on Special Education (CSE)/Committee on Preschool Special Education (CPSE) considered and why those options were rejected;
 - (c) A description of each evaluation procedure, assessment, record, or report the District used as a basis for the proposed or refused action; and
 - (d) A description of the factors relevant to the District's proposal or refusal.
 - 5. Upon receipt or filing of the due process complaint notice, the District will provide the procedural safeguards notice to the parents. The District will also inform parents in writing of the availability of mediation and of any free or low-cost legal and other relevant services available in the area.
 - 6. Within ten (10) days of receiving the complaint notice, the non-complaining party must send a response specifically addressing the issues raised in the notice.
 - 7. A party may amend its due process complaint notice only if:
 - (a) The other party consents in writing and is given the opportunity to resolve the complaint through a resolution process;
 - (b) The IHO grants permission, but not later than five (5) days before the impartial due process hearing commences.
- Applicable timelines for the impartial due process hearing will recommence at the time of the filing of the amended notice.
8. No issues may be raised at the impartial due process hearing that were not raised in the due process complaint notice.

SUBJECT: IMPARTIAL DUE PROCESS HEARINGS/SELECTION OF IMPARTIAL HEARING OFFICERS (cont'd)**b) Resolution Process**

1. Within fifteen (15) days of receiving the due process complaint notice from the parent and prior to the due process hearing itself, the District shall convene a meeting with the parents and relevant members of the CSE/CPSE, as determined by the District and the parent, who have specific knowledge of the facts identified in the complaint. A representative of the District who has decision-making authority must attend. The attorney for the District may not attend unless the parent is accompanied by an attorney. At this resolution meeting, the District has the opportunity to resolve the complaint after the parents discuss their complaint and the facts forming its basis.
2. The District will take steps to ensure that one (1) or both of the parents of the student with a disability are present at the resolution meeting, including notifying parents of the meeting early enough to ensure that they will have the opportunity to attend and scheduling the resolution meeting at a mutually agreed on time and place and in a location that is physically accessible to the parents.
3. When conducting meetings and carrying out administrative matters (such as scheduling), the parent and District may agree to use alternative means of meeting participation such as video conferences or conference calls.
4. The parent and District may agree in writing to waive the resolution process or agree to use the mediation process to resolve the dispute.
5. If a settlement is reached, the parties shall execute a legally binding agreement signed by the parent and the representative of the District who has authority to bind the District. This agreement is enforceable in court. However, either party may void the agreement within three (3) business days of the agreement's execution.
6. If the District has not resolved the due process complaint to the satisfaction of the parents within thirty (30) days of receipt of the complaint notice, the impartial hearing process may begin.
7. Except where the parties have jointly agreed to waive the resolution process or use mediation, the failure of a parent filing a due process complaint to participate in the resolution meeting will delay the time line for the resolution process and due process hearing until the meeting is held:
 - (a) If the District is unable to obtain the participation of the parent in the resolution meeting after reasonable efforts have been made (and documented), the District may, at the conclusion of the thirty-day period, request that an IHO dismiss the parents' due process complaint.
 - (b) If the District fails to hold the resolution meeting within fifteen (15) days of receipt of the parent's due process complaint or fails to participate in the resolution meeting, the parent may seek the intervention of the IHO to begin the due process hearing timeline.

c) Pre-Hearing Conference

1. A pre-hearing conference (which may take place via telephone) may be scheduled by the IHO to simplify or clarify issues; establish dates for the completion of the hearing; identify evidence to be entered into the record; identify witnesses expected to provide testimony; and/or address other administrative issues. A transcript or written summary shall be entered into record by the IHO.

ci) Impartial Due Process Hearing

In the event the complaint is not resolved in a resolution process, the Board will arrange for an impartial due process hearing to be conducted. When carrying out administrative matters relating to an impartial due process hearing, such as scheduling, exchange of witness lists and status conferences, the parent and District may agree to use alternative means of meeting participation such as video conferences or conference calls.

1. The District must immediately (but not later than two (2) business days after receipt of the due process complaint notice or mailing of the due process complaint notice to the parent) initiate the process to select an IHO. The District selects the IHO through a rotational selection process in accordance with regulatory time lines. The Superintendent's Secretary/District Clerk will be responsible for contacting IHOs and maintaining appropriate records.
2. Pursuant to the Regulations of the Commissioner of Education, if an impartial hearing is currently pending for the same student when a new hearing request is received, the district will appoint the same IHO, if available, who will determine whether or not to consolidate the hearings. Additionally, if the new hearing request concerns an issue which had been previously withdrawn in the 12 months prior, the district shall appoint the same IHO, if available.
3. The IHO must be certified by the Commissioner of Education, be independent and have access to the support and equipment necessary to perform the duties of an IHO. When the selected IHO indicates availability, the Board of Education must immediately appoint them. To expedite this process, the Board may designate one (1) or more of its members to appoint the IHO on behalf of the Board.
4. The IHO may not accept appointment unless they are available to make a determination of sufficiency of a due process complaint notice within five (5) days of receiving such a request and (unless an extension is granted) to initiate the hearing in a timely fashion.
 - a) When the District files the due process complaint notice, the hearing or pre-hearing conference must commence within the first fourteen (14) days after the date the IHO is appointed;
 - b) When a parent files the due process complaint notice, the hearing or pre-hearing conference must commence within the first fourteen (14) days after whichever of the following occurs first:

(Continued)

Students

SUBJECT: IMPARTIAL DUE PROCESS HEARINGS/SELECTION OF IMPARTIAL HEARING OFFICERS (cont'd)

- 1) The date the IHO receives the parties' written waiver of the resolution meeting; or
 - 2) The IHO receives the parties' written confirmation that a mediation or resolution meeting was held but no agreement could be reached; or
 - 3) The expiration of the thirty-day resolution period unless the parties agree in writing to continue mediation at the end of the thirty-day resolution period. In such case, the hearing or pre-hearing conference will commence within the first fourteen (14) days after the IHO is notified in writing that either party withdrew from mediation.
5. The hearing, or a prehearing conference, shall commence within the timeframe specified in c) above, unless an extension is granted pursuant to Commissioner's Regulations.
 6. Each party must disclose to all parties all evaluations completed by that date and recommendations based on the offering party's evaluation that they intend to use at the hearing not less than five (5) days prior to the hearing. The IHO may bar any party that fails to comply with this requirement from introducing the relevant evaluation or recommendation at the hearing without the consent of the other party.
 7. The hearing will be conducted at a time and location that is reasonable and convenient to the parent and the student involved. The hearing shall be closed to the public unless the parent requests an open hearing.
 8. The role and responsibilities of the IHO will be as enumerated in Commissioner's Regulations.
 89. The student shall remain in their current placement during the pendency of the impartial due process hearing unless both parties agree or except as otherwise provided for expedited impartial due process hearings for certain disciplinary suspensions or removals of a student. For a preschool child not currently receiving special education services and programs, they may, during any impartial due process hearings or appeals, receive special education services and programs if the parent/person in parental relation and the District agree. However, during the pendency of an appeal for a preschool child who is transitioning from an Early Intervention (EI) program and is no longer eligible for the EI program due to age, the District is not required to provide the services the child had been receiving under EI. If found eligible for special education as a preschool student with a disability, and if the parent consents to the initial provision of services, the District will provide those programs and services that are not in dispute.
 10. The IHO renders and forwards the finding of fact and decision to the parties and to the State Education Department in accordance with regulatory time lines but not later than forty-five (45) days from the date required for commencement of the impartial due process hearing specified in c) above. For expedited hearings the deadline is within ten (10) school days after the hearing; for preschool hearings the timeframe is thirty (30) days after the receipt by the Board of a request for a hearing or after the initiation of such hearing by the Board.
 11. The decision of the IHO is final and binding on both parties unless appealed to the State Review Officer (SRO).

SUBJECT: IMPARTIAL DUE PROCESS HEARINGS/SELECTION OF IMPARTIAL HEARING OFFICERS (cont'd)**Burden of Proof**

In accordance with New York State law, the burden of proof and persuasion in an impartial due process hearing dispute relative to a student's special education placement rests upon the School District. However, a parent/person in parental relation seeking tuition reimbursement for a unilateral parental placement shall have the burden of persuasion as to the appropriateness of the placement.

Recordkeeping and Reporting

The District will utilize the New York State Education Department's Impartial Hearing Reporting System (IHRS) to access the alphabetical list of the names of each IHO who is certified in New York State and available to serve in the District. The District will record and report to the State Education Department required information relating to the selection of IHOs and the conduct of impartial due process hearings according to the manner and schedule specified by the Department. The Superintendent shall designate a staff member(s) who will be responsible for reporting such information as required relating to the impartial hearing process into the State Education Department's web-based reporting system.

Compensation of Impartial Hearing Officers

The District shall compensate an impartial hearing officer for their services at the maximum rate established for such purpose by the Director of the Division of the Budget. The District will be responsible for compensating the IHO for prehearing, hearing and post-hearing activities:

1. The District will not pay the IHO the rate prescribed by the Division of the Budget for time traveled;
2. The District will reimburse the IHO for reasonable, actual and necessary expenses for travel, and if by automobile, at the prevailing IRS reimbursement rate;
3. The District will not reimburse the IHO for administrative assistance, secretarial or other overhead expenses;
4. The District will not pay any cancellation fee;
5. The District will not accept charges for lodging or meals, except in extraordinary circumstances and upon prior application, in writing, by the IHO, describing the extraordinary circumstance and receiving prior approval from the District.

At the completion of the impartial due process hearing, the IHO shall submit an itemized bill of hourly charges and expenses, which will be promptly paid by the District.

Mediation

The District will inform the parent in writing of the availability of mediation and any free or low-cost legal and other relevant services available in the area at the request of the parent or when an impartial due process hearing is requested.

Mediation is voluntary and does not deny or delay a parent's right to an impartial due process hearing. If mediation is initiated after a request for an impartial due process hearing has been received, the impartial due process hearing must continue unless the request for the impartial due process hearing is withdrawn. However, a party may request an extension to an impartial due process hearing in order to pursue mediation.

All issues relating to a request for and conduct of an impartial due process hearing must be kept confidential by all District staff.

SUBJECT: INDEPENDENT EDUCATIONAL EVALUATIONS

Parents of children with disabilities have the right under Federal and State regulations to obtain an independent evaluation at public expense under certain conditions. Regulatory standards are outlined in New York State Regulations of the Commissioner of Education Part 200.5(a)(1)(vi). Additionally, the Federal Regulations (34 Code of Federal Regulations [CFR] 300.503) specify requirements for an independent evaluation.

A parent is entitled to only one (1) IEE at public expense each time the District conducts an evaluation with which the parent disagrees.

Administrative regulations on independent evaluations will be developed in order to explain the rights of parents and the responsibilities of school districts with regard to independent evaluations, and also to avoid any misunderstandings.

INDEPENDENT EDUCATIONAL EVALUATIONS

INTRODUCTION

The Onteora Central School District has established the following procedure for obtaining independent educational evaluations (IEEs) for children with educational disabilities or children who are referred to the Committee on Special Education because they are suspected of having an educational disability and may, therefore, be in need of special education services.

Parents of disabled children have a right under Federal and State regulations to obtain an IEE at public expense when they disagree with an evaluation already conducted by the District. Regulatory standards are outlined in New York State Regulations of the Commissioner of Education Part 200.5(g). Additionally, the Federal Regulations 34CFR 300.502 specify requirements for IEEs. These documents, in addition to A Parent's Guide to Special Education in New York State, detail IEE requirements. These documents are available from the Special Education Office for parent(s) who desire additional information.

The Onteora Central School District has established reasonable reimbursement rates for independent educational evaluators based on the prevailing rates in the surrounding geographic area for independent educational evaluators with required credentials to complete assessments. Absent exceptional circumstances the District will not pay more than the following rates:

EVALUATION TYPE

REIMBURSED UP TO

Psychological evaluation	\$2000.00
Educational evaluation	\$1000.00
Combined Psychological/Educational Evaluation	\$2500.00
Speech and Language Evaluation	\$750.00
Occupational Therapy/Physical Therapy Evaluation	\$750.00
Audiological Evaluation	\$1000.00
Neurological Evaluation	\$2000.00
Psychiatric Evaluation	\$1500.00
Neuropsychological Evaluation	\$3000.00

PROCEDURES TO REQUEST AN INDEPENDENT EDUCATIONAL EVALUATION

The first step to obtaining an IEE is for the parent(s) to communicate in writing their request for an IEE. If the area of question or concern is one that has not thoroughly been investigated by the evaluation already completed, the District may conduct additional testing before agreeing to an IEE. However, the District shall not unreasonably delay additional testing so as to postpone a decision on a parents(s)' request for an IEE. Should disagreement with evaluation results persist the parent(s) may be granted an IEE unless the District disagrees with the parents' request. In the event the District does disagree with the parents(s)' request, the District has the right to initiate an impartial hearing to demonstrate that its evaluation is appropriate. If the hearing officer determines that the District's evaluation was appropriate, a parent or guardian shall still have the right to an IEE but the parent(s) shall not be entitled to reimbursement for the IEE at public expense. Upon receipt of a request for an IEE, the PPS Director will forward an acknowledgement letter/email of the request to the parent(s) within ten (10) calendar days.

When an IEE has been approved, the parent(s) may select any professional to complete the evaluation provided that they have the appropriate license or certification credentials and that these are on file with the District. If the parent chooses an evaluator not already approved by the Board of Education, the parent must provide all necessary documentation regarding their evaluator's license or certification credentials to the PPS Director. If the documentation indicates the parent's proposed evaluator possesses the necessary license or certification credentials, the PPS Director will forward the request to the Board of Education to review unless the District disagrees with the

ONTEORA CENTRAL SCHOOL DISTRICT

Date: 11/7/14

parents request and commences an Impartial Hearing to defend its position. The PPS Director will also provide a list of qualified professionals for IEEs to the parent(s) if available. All approved independent evaluators, must possess a current license or certification from the New York State Education Department. Non-licensed or non-certified evaluators, or those whose credentials do not cover evaluation areas under consideration, cannot be reimbursed for an IEE.

Once approval for an IEE has been obtained and an appropriate evaluator has been selected, the parent(s) may contact the evaluator to begin the assessment process. Parents may provide the PPS Director's contact information to the evaluator in order to arrange for observations in the classroom, staff interviews or other interaction with school staff as part of the evaluation procedure.

Should the costs of an evaluation provided exceed the allotments above, the responsibility for payment beyond the amounts listed belong solely the parent(s). A copy of the evaluation report must be received by the District prior to making payment to the evaluator. The bill for reimbursement should indicate a breakdown of costs (e.g., record review, client interview, test administration, scoring and interpretation and report writing). No payment can be issued without these items.

LISTING OF QUALIFIED PROFESSIONALS

The Onteora Central School District will permit the parent(s) to select any independent educational evaluator as long as the qualified professional selected by the parent is a certified and/or licensed evaluator in the area of inquiry. The district has a list of qualified professionals who are in private practice or are employees of other public agencies with which parents may secure an IEE. Evaluators on the qualified professional list already have their credentials on file with the District.

FURTHER INFORMATION

The Onteora Central School District has developed these procedures in order to avoid any misunderstandings and ensure that the district is providing IEEs in accordance with State and Federal regulations. Parents can obtain further information about IEEs by contacting the Director of Pupil Personnel Services. Additional information may also be obtained directly from the New York State Education Department regarding IEEs.

Students

SUBJECT: SPECIAL EDUCATION MEDIATION

The District will offer mediation to resolve any disputes involving any matter for which an impartial due process hearing may be brought, including matters arising prior to the filing of a due process complaint notice.

Such mediation shall be conducted by mediators furnished by a Community Dispute Resolution Center who are not employees of any school district or State agency that is involved in the education or care of the student who is the subject of the mediation process. Mediators may not have a personal or professional interest which would conflict with their objectivity in the mediation process and should be knowledgeable in laws and regulations relating to the provision of special education services.

Parents or persons in parental relation to students suspected of or having disabilities will receive written notice of the availability of the mediation program each time they receive notice of their entitlement to the impartial due process hearing procedures in accordance with Federal and State law and regulations. If the parent and District agree, alternative means of meeting participation may be utilized, such as video conferences and conference calls.

Discussions during the mediation process must be confidential and may not be used as evidence in any subsequent due process hearing or civil proceedings.

If resolution to the complaint is reached through mediation, the parent and the representative of the District who has the authority to bind the District will execute a legally binding written agreement specifying the resolution and stating that all discussions occurring during the mediation process are confidential and may not be used as evidence in any subsequent due process hearing or civil proceeding of any Federal or State court. If the written agreement is inconsistent with the student's current individualized education programs (IEP), the IEP must be immediately amended to reflect the mediation agreement.

The mediation process is voluntary and will not operate to diminish or limit any rights provided for in law, including the right of the parent or person in parental relation to request an impartial due process hearing subsequent to mediation. Parents or persons in parental relation to students suspected of or having disabilities continue to have full access to all rights, including due process procedures, provided for in federal and state laws and regulations. Similarly, mediation shall not be construed to limit a parent or person in parental relation from requesting an impartial due process hearing without having first utilized mediation procedures set forth in Education Law.

- d) Appropriate supervision and notification to minors regarding the prohibition as to unauthorized disclosure, use and dissemination of personal identification information regarding such students.

The determination of what is "inappropriate" for minors shall be determined by the District and/or designated school official(s). It is acknowledged that the determination of such "inappropriate" material may vary depending upon the circumstances of the situation and the age of the students involved in online research.

The terms "minor," "child pornography," "harmful to minors," "obscene," "technology protection measure," "sexual act," and "sexual contact" will be as defined in accordance with CIPA and other applicable laws/regulations as may be appropriate and implemented pursuant to the District's educational mission.

**Under certain specified circumstances, the blocking or filtering technology measure(s) may be disabled for adults engaged in bona fide research or other lawful purposes. The power to disable can only be exercised by an administrator, supervisor, or other person authorized by the School District.*

The School District shall provide certification, pursuant to the requirements of CIPA, to document the District's adoption and enforcement of its Internet Safety Policy, including the operation and enforcement of technology protection measures (i.e., blocking/filtering of access to certain material on the Internet) for all School District computers with Internet access.

Internet Safety Instruction

In accordance with New York State Education Law, the School District may provide, to students in grades K through 12, instruction designed to promote the proper and safe use of the internet. The Commissioner shall provide technical assistance to assist in the development of curricula for such course of study which shall be age appropriate and developed according to the needs and abilities of students at successive grade levels in order to provide awareness, skills, information and support to aid in the safe usage of the internet.

Notification/Authorization

The District's Acceptable Use Policy and accompanying Regulations will be disseminated to parents and students in order to provide notice of the school's requirements, expectations, and student's obligations when accessing the Internet.

SUBJECT PROGRAMS FOR ENGLISH LANGUAGE LEARNERS

The Board of Education believes that students who, by reason of foreign birth or ancestry, have limited English proficiency (referred to here as “English Language Learners” or ELLs), will be more effective learners of both the language and the curriculum if they receive instruction in both their native language and English. The district will therefore take steps to identify ELL students and provide ELL students with an appropriate program of either Bilingual Education or English as a New Language.

Pursuant to this policy and the regulations of the Commissioner of Education, the Superintendent of Schools is directed to develop appropriate administrative regulations to ensure that students are:

1. screened to determine if the student is an ELL, in accordance with Parts 117 and 154 of the Commissioner's Regulations, a process that will include interviews and assessments and will assign each ELL student to the appropriate subpopulation (newcomer, developing, long term, former or inconsistent/interrupted formal education);
2. identified, as appropriate, as an ELL student with a disability and if so identified shall be provided special education programs and services in accordance with the individualized education program (IEP) developed for such student and shall also be eligible for services available to an ELL/LEP student. Such a student will be counted as an ELL student as well as a student with a disability for purposes of calculating State aid.
3. annually evaluated to determine continued ELL eligibility. Included in the evaluation shall be each student's performance in English language proficiency and academic progress in content areas;
4. assured of access to appropriate instructional and support services, including guidance programs within the timeframes provided by Commissioner's Regulations; and
5. assured of having equal opportunities to participate in all school programs and extracurricular activities as non-ELL students.

The Superintendent shall be responsible for ensuring that the Commissioner of Education is provided with a comprehensive plan that describes the district's ELL program and includes all information specified in the

Commissioner's Regulations, before the start of each school year. The district will also provide assurances that the district is providing appropriate school-related information to the parents (or persons in parental relation) of ELL students in English and the language they best understand.

(Continued)

SUBJECT PROGRAMS FOR ENGLISH LANGUAGE LEARNERS (cont'd)

The district will provide an orientation program annually for parents of newly enrolled ELL students. In addition, the district will meet individually with ELL parents at least once a year to discuss the goals of the ELL program, and their child's language development (in both their native language and English), in addition to regular parent/teacher meetings.

In addition, the Superintendent shall ensure that all teachers employed in any Bilingual and/or English as a New Language program are properly certified in accordance with the Commissioner's Regulations, and that all staff receive appropriate professional development on ELL students.

SUBJECT: SELECTION OF LIBRARY AND AUDIOVISUAL MATERIALS

The Board of Education agrees that the responsibility of the school library is:

- a) To provide materials that will enrich and support the curriculum, taking into consideration the varied interests, abilities and maturity levels of the students served.
- b) To provide materials that will stimulate growth in factual knowledge, literary appreciation, aesthetic values and ethical standards.
- c) To provide a background of information that will enable students to make intelligent judgments in their daily lives.
- d) To provide materials on opposing sides of controversial issues so that young citizens may develop, under guidance, the practice of critical reading and thinking.
- e) To provide materials representative of the many religious, ethnic, and cultural groups and their contribution to our American heritage.
- f) To place principle above personal opinion and reason above prejudice in the selection of materials of the highest quality in order to assure a comprehensive collection appropriate for the users of the library.

In interpreting these principles, the following will apply:

- a) Broad and varied collections will be developed systematically by the librarian and the audiovisual specialist, based on recommendations of the professional staff and suggestions of students and parents. Final approval will be made by the Building Principal.
- b) Qualitative standards of selection involving factual accuracy, authoritativeness, artistic quality and appeal will be applied by librarians and audiovisual specialists before purchases are made.
- c) Materials will not be excluded because of the race, nationality, political opinions or religious views of the author.
- d) Materials will be continuously re-evaluated in relation to changing curriculum and instructional needs. Worn out, out-dated materials will be discarded.

SUBJECT: OBJECTION TO INSTRUCTIONAL MATERIALS

Any criticism of instructional materials that are in the schools should be submitted in writing to the Superintendent. The Board of Education will be informed. A committee, including the librarian and Building Principal, will be designated by the Superintendent to investigate and judge the challenged material according to the principles and qualitative standards stated in Policy #8320.

Curriculum Areas In Conflict With Religious Beliefs

A student may be excused from the study of specific materials if these materials are in conflict with the religion of their parents or guardian. Alternatives may be provided that are of instructional value.

Education Law Section 3204(5)

Instruction

SUBJECT: CONTROVERSIAL ISSUES

Controversial issues may be studied as part of the curriculum and teachers shall present these issues in their classrooms in an impartial and objective manner.

Teachers wishing to call upon outside speakers in the presentation of controversial issues are required to obtain the approval of the Principal who shall keep in mind the obligation for presenting opposing views as well, and who shall inform the Superintendent prior to the presentation.

It is recognized that parents and citizens of the community have a right to protest to the school administration when convinced that unfair and biased presentations are being made by the teacher. In considering such protests, the Superintendent of Schools shall provide for a hearing so that both parties may fairly express their views. If requested, the Superintendent's decision may be appealed to the Board of Education.

Instruction

SUBJECT: TEXTBOOKS/WORKBOOKS/CALCULATORS**Textbooks**

The term "textbook" shall refer to a book supplied to a student for a fixed period of time for their personal use and basic to the study of a subject. The Board of Education shall make provision for funds to be budgeted for the purchase of textbooks and related instructional materials.

Upon the recommendation of the Superintendent of Schools, the Board of Education shall designate the textbooks to be used. Textbooks, once designated, cannot be superseded within a period of five (5) years except by a three-fourths (3/4) vote of the Board.

Students will be required to pay for lost books or for excessive damage to books.

Textbooks for Resident Students Attending Private Schools

Resident students attending private schools will be supplied non-sectarian textbooks in accordance with the requirements of Education Law.

Workbooks

The term "workbook" shall refer to the type of book that provides spaces to write in and is consumed each year. It is usually paper-covered and designed to be used in connection with a textbook. The Board of Education shall approve the expenditure of funds for the purchase of workbooks and manuals.

Calculators

The District can require students to provide their own "supplies" (defined as something which is consumed in use, loses its appearance and shape in use, expendable, and inexpensive). Examples include pencils, pens, paper, etc. Calculators do not fall into this category and must be considered like classroom teaching materials for which the District is authorized to levy a tax. In addition, the District may purchase, and must still provide, calculators even if operating under a contingent budget if the calculators are required for participation in an educational program.

As the New York State Education Department requires the use of calculators for intermediate and high school level mathematics and science assessments. To the extent that calculators are a necessary part of the educational program, the District must provide them. Under no circumstances should students be charged for a calculator or otherwise required to purchase one in order to participate in an educational program of the District.

SUBJECT: RELIGIOUS EXPRESSION IN THE PUBLIC SCHOOLS

The Board of Education acknowledges the importance of religion to the understanding of society and the richness of the human experience. In approaching the teaching about religion in the school, the District will be guided by three (3) concepts when making decisions about the appropriateness of activities for inclusion in the school program: the activity should have a secular purpose; the activity should neither advance nor inhibit religion; and the activity must not foster an excessive entanglement of "government" with religion.

Nurturing the development of knowledge and respect for the rights of all cultural and religious groups is a continuing goal of the School District. Students, faculty and administration are reminded of the pluralism of religious beliefs and are urged to be conscious of and respect the sensitivity of others.

Opportunities to learn about cultural and religious traditions should be provided within the framework of the curriculum. Information about religious and cultural holidays and traditions focusing on how and when they are celebrated, their origins and histories should be part of this instruction. This educational opportunity should be handled with great care, sensitivity and respect for the feelings and beliefs of individuals.

An environment should be created and encouraged where students of various ethnic backgrounds feel comfortable in sharing comments about their religious and cultural traditions. No student should be singled out to share or participate in such discussions solely on the basis of that student's identification with the cultural/religious heritage being addressed. A student's preference not to share or participate in such discussions should be honored and respected without penalty.

School Activities Related to Religious Holidays or Themes

School activities related to the teaching about religious holidays or themes must be consistent with, representative of, and congruent with the District's curriculum.

In planning school activities related to the teaching about religious holidays or themes, special effort must be made to ensure that the activity is not devotional and that students of all faiths can join without feeling they are betraying their own beliefs.

In planning school activities related to the teaching about religious holidays or themes, age appropriate activities are encouraged within the framework of the curriculum. Teaching about religious and cultural holidays may include such special activities as parties and special foods, if they reinforce educational goals.

(Continued)

SUBJECT: RELIGIOUS EXPRESSION IN THE PUBLIC SCHOOLS (Cont'd.)**Symbols in the Schools**

The purpose of using religious symbols should be to teach about religious concepts and traditions, and to convey historical or cultural content, not to promote or celebrate religious concepts, events or holidays.

Music in the Schools

The purpose of using religious music should be to teach musical concepts, to convey historical and cultural content, or to create aesthetic experiences in a setting which emphasizes artistic expression and educational value, not to promote or to celebrate a religious faith.

District Calendar

The days on which members of a religious group may be absent to observe a religious holiday (legal absence) will be noted on the school planning calendar and the District calendar distributed to parents/guardians. Out of respect for a student's observance of these holidays, teachers will be sensitive to the needs of the student by allowing them to make up all class work, homework, and tests without penalty. Parents/guardians are encouraged to notify the school prior to the absence in order to assist the staff in instructional planning and in meeting the needs of the student.

Curriculum Areas In Conflict With Religious Beliefs

Students shall be given the option to be excused from participating in those parts of an activity, program, or area of instruction involving a religious theme which conflicts with their own religious beliefs or that of their parents/guardians in accordance with applicable law and regulations. Alternatives may be provided that are of comparable instructional value.

Implementation

Administrative regulations will be developed to implement the terms of this policy. Further, the District shall vigorously publicize and disseminate this policy and accompanying regulations in order to ensure community, faculty, student, and parental/guardian awareness.

SUBJECT: ANIMALS IN THE SCHOOL (INSTRUCTIONAL PURPOSES)

Animals and Pets on School Property

It is the policy of the Board of Education for health and safety reasons, to prohibit animals and pets of any kind in school buildings and on school district property (including playing fields, school buses) except:

- For purposes of the instructional program with the prior approver of the building administrator
- Animals under the control of public safety officers with the prior approval of the Superintendent of Schools or designee; and
- Animals trained to assist individuals with disabilities (e.g. service dogs) in compliance with federal and state law.
- With prior approval of the Building Principal and Superintendent, therapy dogs are permitted in school.

Study and Care of Live Animals

Observation and experimentation with living organisms and animals gives students unique perspectives of life processes. Animals and animal materials should be used respectively and for the purpose of meeting course objectives.

Any school which cares for or uses animals for study shall ensure that each animal in the school be afforded the following:

- a) Appropriate quarters;
- b) Sufficient space for the normal behavior and postural requirements of the species;
- c) Proper ventilation, lighting, and temperature control;
- d) Adequate food and clean drinking water; and
- e) Quarters, which shall be cleaned on a regular basis and located in an area where undue stress and disturbance are minimized.

Only the teacher or those students designated by the teacher are to handle the animals.

It shall be the responsibility of the Principal or their designee to develop a plan of care for those animals housed in school in the event of an emergency school closing or in the event the animals remain in the classroom on days when school is not in session. If the Building Principal or designee determines that this policy has been violated, they are authorized to contact the Superintendent of Schools, the County Health Department, Animal Control and/or the Police Department to request assistance to enforce this policy.

Dissection of Animals

The Board of Education recognizes that animal dissection is an integral part of the study of living things and instruction in the life sciences. The Board also recognizes that some students have a moral or religious objection to dissection or otherwise harming or destroying animals. In accordance with Section 809 of the Education Law, any student who objects to dissecting animals may opt-out of dissection activities, provided that the student performs an alternative project through which they can learn and be assessed on material required by the course. An alternative project may include, but is not limited to: computer programs, internet simulations, plastic models, and movies, and is subject to approval by the student's teacher. The student's objection must be substantiated in writing by the student's parent/guardian.

(Continued)

SUBJECT: ANIMALS IN THE SCHOOL (INSTRUCTIONAL PURPOSES) (Cont'd.)

Effective July 1, 2011, the District will give reasonable notice to all students enrolled in a course that includes the dissection of an animal and students' parent(s)/legal guardian(s) about their rights to seek an alternate project to dissection. Such notice shall be made available upon request at the school and distributed to parents and students enrolled in a course that includes dissection at least once at the beginning of the school year.

No Student shall be discriminated against based upon their decision to exercise the right to opt-out of animal dissection.

Instruction in the Humane Treatment of Animals

Students in elementary school must receive instruction in the humane treatment and protection of animals and the importance of the part they play in the economy of nature as well as the necessity of controlling the proliferation of animals that are subsequently abandoned and caused to suffer extreme cruelty. Such instruction shall be for a period of time as specified by the Board of Regents and may be joined with work in literature, reading, language, nature study, or ethnology.

Independent study, for credit, will be available to meet the individual needs of students in grades 9 through 12. Students enrolled in the District, may earn a maximum of three (3) units of elective credit towards a Regents diploma through independent study. The student's participation in independent study shall be approved by a school-based panel consisting of, at a minimum, the Principal, a teacher in the subject area for which independent credit is sought, and a guidance director or administrator.

Credit for independent study may be awarded for elective courses only and shall not be awarded for courses required for the Regents diploma as specified in Commissioner's Regulations.

All independent study must have principal's approval as per State Regulations.

If funding is involved, it must be approved by the Board of Education.

SUBJECT: HOMEWORK

The Board of Education recognizes that a reasonable amount of independent study and preparation is an important component of the educational process, and holds the potential to support classroom instruction and further the primary goal of the educational program- the academic growth and achievement of every student.

MEANING

Homework consists of learning activities and tasks assigned by the teacher to be performed by the student primarily outside of the class by a defined date, without the direct supervision of the teacher. Homework assignments are used for a variety of purposes, such as to:

- Foster a love of reading and writing;
- Provide reinforcement, practice, application and enrichment of what is taught in class;
- Foster explicitly taught independent study skills
- Check for understanding of previously taught skills and concepts
- Foster the development of individual curiosity, inquiry, and imagination

TIME EXPECTATIONS

Time expectations and guidelines for how homework assignments will be weighted in grading shall be determined at the school building and will take into account the age-group and individual student level:

- developmental considerations (social/cognitive);
- time demands from other aspects of students' lives (i.e. music, sports, clubs, etc.);
- assignments from other courses of study.
-

Completion of thoughtful homework assignments may provide one indicator of student growth. The impact of homework on student grades is dependent on each course and its scope and content and should be communicated to both students and parents. Large amounts of repetitive homework should not be given.

Homework should not be used expressly as an indicator or measure of student behavior, or exclusively as a mechanism to teach responsibility and discipline.

COMMUNICATION OF POLICY**PRINCIPALS**

These guidelines shall be communicated to parents/guardians and students in the student/parent handbook, and other appropriate forms of communication. The Building Principals will be responsible for ensuring that this policy is communicated with all faculty, that guidelines are developed at the school site, and that issues that present themselves are addressed in accordance with this policy.

SUBJECT: HOMEWORK (cont')

CLASSROOM TEACHERS

Teachers shall differentiate homework assignments to meet the individual needs of students when appropriate, and should be careful to assign homework that matches students' current skills and knowledge. Teachers should take into consideration students' access to educational and technological resources when developing and assigning homework, and assignments should be assessed by the teacher upon completion. Assignments should not be predicated on the assumption that parents/guardians will provide materials, resources, assistance, or direct instruction to their child.

Homework is an important vehicle for home-school communication. Schools should communicate to parents/guardians how to best provide a supportive environment for study and to assist their child to be successful, such as accessing school and community resources that can be helpful to the student when completing homework.

STUDENTS

Students are expected to give their best effort to complete the assigned homework fully and accurately within the grade-level timeframe outlined. If they cannot successfully complete the assignments students and/or parents are expected and encouraged to seek assistance from their teachers, and to inform teachers if they believe assignments or time demands from other teachers merit consideration.

SUBJECT: HOMEBOUND INSTRUCTION

Homebound instruction is a service provided to students who are unable to attend school due to medical, emotional or disciplinary problems. Secondary students receive instruction for two hours per day and elementary students receive one hour per day. Students receive credit for successfully completed work assigned by the District while on homebound instruction.

The district makes provisions for homebound instruction upon referral from the Medical Director or the Director of Pupil Personnel Services following the guidelines established by the Superintendent of Schools for placing a student on homebound instruction.

Homebound instruction will strive to keep the student on pace to rejoin their class and maintain academic progress. The Board recognizes that students who are out of school for extended periods of time are at risk of falling behind academically and/or losing connection to the school community. The Board directs the administration to evaluate periodically whether homebound instruction is effective in keeping students on track to graduate, and if not, to take steps to improve instruction and implement approaches and/or offer services that support the transition back to school.

Resident children attending public or nonpublic schools who qualify for homebound instruction due to medical, emotional or disciplinary action shall be provided with such instruction in accordance with New York State Education Law and Commissioner's Regulations.

Procedures for students requiring home tutoring shall be developed under the direction of the Superintendent or their designee.

SUBJECT: FIELD TRIPS

The Board of Education recognizes that field trips are an educationally sound and important ingredient in the instructional program of the schools.

For purposes of this policy, a field trip shall be defined as any journey by a group of students away from the school premises, under the supervision of a teacher, which is an integral part of an approved course of study and conducted for the purpose of affording a first-hand educational experience not available in the classroom.

Field trips are a part of the curriculum of the schools, and student conduct and attendance on field trips are governed by the same rules that govern regular classroom activities. The School System shall obtain written permission for students going on school-sponsored field trips.

The Superintendent shall prepare procedures for the operation of a field trip activity. Field trip support shall be determined annually by the Board during its budget deliberations. Regardless of the fiscal support for field trips, the rules of the School District for approval and conduct of such trips shall apply.

Instruction

SUBJECT: STUDENT OVERNIGHT TRIPS

Students, under the direction of teachers/advisors and the administration, may be permitted to participate in overnight trips as part of a co-curricular or extracurricular activity.

Funding for overnight trips may be done in one (1) of the following three (3) ways:

- a) Financed by the School District
- b) Partially financed by the School District
- c) Totally financed by the student/organization

The trip must be approved by the Building Principal. Upon approval, the Principal will make a recommendation to the Superintendent of Schools. After the Superintendent's approval, they will make their recommendation to the Board of Education for final approval.

Instruction

HOME SCHOOLING

From time to time, parents will choose to instruct their children at home. The School District will attempt to cooperate with parents who wish to provide home schooling for their children realizing that the child who is educated at home should receive an education in a manner consistent with an educational plan and at least substantially equivalent to that given to students of like age and attainments in the local public schools. The required subjects should be taught in a competent, systematic, and sequential manner, specifically in relation to the required courses as enumerated in Commissioner's Regulation Section 100.10.

Home Schooled students are not awarded a high school diploma. A high school diploma may only be awarded to a student enrolled in a registered secondary school who has completed all program requirements set by the Board of Regents, the school or the District.

The Board of Education shall ensure that children instructed at home are taught by a competent instructor and receive an education substantially equivalent to that offered in the district's schools.

Parents/Guardians who wish to educate their children at home must submit to the district an individual home instruction plan (IHIP), outlining the educational goals to be met and the course materials and syllabi to be used each year for the child's learning process. The district may accept or deny an IHIP. Parents/Guardians must submit quarterly reports which will provide the district with the necessary information to make determinations of substantial equivalency and competency of instruction on an ongoing basis.

Parents/Guardians may appeal to the Board a determination by the Superintendent of Schools or designee that an IHIP is not in compliance with the Regulations of the Commissioner of Education. Parents/Guardians shall have the right to appeal the final determination of the Board to the Commissioner of Education within 30 days of receipt of such determination.

Special Education

A student with an IHIP, who is a resident of the school district and has a disability, or is suspected of having a disability, is eligible to receive services from the school district, in accordance with law, regulation and district policy (4321 et. seq.). A parent/guardian must request special education services in writing to the Board by June 1st, unless the child is first identified or moves into the district after June 1st. In that case, the parent/guardian must request the services within 30 days of being identified or of moving into the district.

Special education services will be provided on an equitable basis compared to programs and services provided to other students with disabilities attending public or nonpublic schools within the district. The Board will determine the location where services will be available to home schooled students.

Participation in Extracurricular Activities

Students instructed at home by their parents are not entitled to participate in interscholastic or intramural sports. However, the Board shall permit such students to participate in other school-sponsored extracurricular activities as long as they can provide either documentation of immunization to, or a medical exemption for immunization from, the same communicable diseases required for entry into the public schools. Specifically, the Board will permit home-schooled students to:

- participate in non-credit-bearing organized school activities such as clubs that are not open to the general public;
- participate in band and/or receive music lessons only if these activities are considered to be extra-curricular (not credit-bearing or graded or required for class); and
- use school facilities such as the library, career information center and gymnasium if there is mutual agreement on the part of all involved parties.

Instructional Materials

The Board authorizes the Superintendent to loan instructional materials, if available, to students receiving home instruction. The Superintendent or his/her designee shall determine the availability of resources and develop appropriate procedures.

SUBJECT: CLASS SIZE

The Board of Education will strive to provide appropriate class sizes for each learning situation, but there will be times when enrollment changes, differences in the organization of various schools and the number and size of available classrooms will affect the number of students that must be assigned to a class.

Annually, concurrent with budget planning activities, the Superintendent's recommendations for upper and lower limits on class size will consist of the best professional knowledge as to desirable class size, together with the following consideration:

- a) The type of student load that will assist in helping each teacher to be most effective;

SUBJECT: ONLINE COURSE CREDIT

The Board of Education recognizes that new technologies are changing the way instructional material can be delivered to students. These technologies may permit the district to more effectively reach all students and provide expanded and enriched curriculum opportunities. Therefore, the Board encourages teachers and administrators to utilize online instructional opportunities for students. The use of distance learning opportunities, where students attend class in the district with instruction provided remotely by a teacher at another location, may be utilized but is not covered by this policy.

In accordance with Commissioner's regulations, the Board authorizes the use of district-approved online courses which enable students to earn course credit, in accordance with this policy. Such online course instruction may be used to supplement a class offered by the district ("blended course") or it may be the sole mechanism for delivering the subject matter ("online course"). Online courses may be provided with district instructional staff, through a BOCES contract, or through a shared services contract with another school district, or other means.

The Superintendent is directed to develop the following:

1. a mechanism for reviewing and approving online educational programming that can be used to enable students to earn course credit as either part of a blended or online course in accordance with Commissioner's Regulations and policy 4200, Curriculum Management;
2. criteria and procedures for admitting students to online courses; and
3. methods for monitoring the efficacy of online courses.

In developing the procedures above, the Superintendent, with the assistance of appropriate staff, shall consider:

- the equitable access of students to blended and/or online courses;
- the adequacy of instructional support for students utilizing blended and/or online courses;
- the budgetary impact of use of blended and/or online courses; and
- the fit of online education resources to New York State learning standards.
