---

Dear Parents and Students,

Benavides Secondary will continue to offer dual credit programs for grades 9-12 for the upcoming academic school year. Our dual credit program allows high school students to earn both college and high school credit. In addition to our dual credit program, students will be able to earn Industry Based certificates with our P-TECH program that focuses on Health Science, Welding, Construction, Animal Science, and Business Management.

We are very excited to be offering courses to your students at no cost. It is our wish for students to be successful and have a variety of opportunities to help prepare them for life after high school. Our goal is for every student to earn a viable high school diploma along with college credit hours, associate's degree, and/or the certification(s) necessary to be successful in the workplace.

If you have any additional questions, please feel free to contact our high school counselor at 361-256-3055.

Sincerely,

Raynaldo Perez  
Benavides Secondary School Principal
