

The Power of Mentoring

Having a mentor means that a young person has a trusted adult at their school to go to for support, encouragement, and academic growth opportunities. Research shows that mentoring can have positive effects on a young person's personal, academic, and professional lives.

Why Mentoring Matters

College Enrollment

45% of mentored students who face an opportunity gap enroll in college (compared to 29% of unmentored students).

Support & Relationships

1 in 3 children don't have a mentor outside of their family.*

Attendance

Students who meet regularly with mentors are **52% less likely to skip a day of school.***

MENTORING AT OUR SCHOOL

At our school, students have a dedicated mentor who knows them deeply and understands their academic and personal goals. Mentoring builds strong relationships between teachers and students and is a powerful tool for connection and trust. With mentoring and the support of teachers, students develop the skills to set and achieve goals, becoming more engaged and more motivated.
