Continuing the community driven plan of the recently passed Galveston ISD Bond 2022, we would value your participation in the VLK | LAUNCH® process for Ball High School.

In this process, we will work with students, parents/community representatives, teachers, and campus/district leadership to create the conceptual framework for the design, including the vocabulary of the project and the feel of the type of space and environment desired for the replacement of Ball High School.

Your participation in both sessions is needed. Please confirm your availability for both sessions on the form below. **Thank you for your participation in the future of our Ball High Tors!**
