

Your primary care provider (PCP) sees you for everyday health, wellness, and illnesses. This is your "regular" or "family" doctor. Your PCP understands the big picture of your health and takes care of or coordinates any kind of healthcare services you may need, including:

- Annual physical/check-up
- Review of prescription medications
- Review of lab test results
- Flu shot, immunizations, and other preventive screenings
- Referrals to a specialist

Be care aware.

Know when and where to go.

Primary Care

Your first stop should always be your primary care provider. If your provider is unable to see you, they will help guide you when and where to go to get the care you need.

b2 Cares

Life is unpredictable. When you are unable to be seen by your primary care provider or if you don't have a primary care provider, see one of our b2 Care locations.

Emergency Care

For any injuries or illnesses that are serious or life threatening head straight to the Emergency room. Open 24/7, 365 days a year.
