

Bridgepoint HS/Crossroads ISP Physical Education Visual Aid

Imagine you are a junior high school Physical Education Teacher. You need to create a Study Guide Visual Aid on the unit you are planning to teach. Your students know nothing about the sport/activity. You're trying to create a document for them that has as much useful information about your sport/activity as you can include on one piece of paper.

Your study guide must be/include

- Written in your own hand (**print by hand not typed**)
- One page (info on both sides)
- At least one illustration (picture, chart, graph)
- A minimum of three references: make an alphabetized list of the websites or books you use.
- Easy to read
- Useful information on the sport/ activity: history, techniques, rules, strategies, popularity, etc.
- Colorful, attractive, creative. Feel free to use colored paper, highlighters or colored pencils or crayons or to glue on images.

.5 credit per study guide, 2 credit max per academic year
