

STUDENT GUARDIANSHIP VERIFICATION FORM 2022-2023

Vista Education Campus, Davis School District

NOTE: A new form is only required when a *new student* enters VEC, or when a change in guardianship has occurred since the prior form was submitted. We must have this file accurate & on file to assist your student correctly.

- “Guardianship” is a legal term which describes a court-established relationship between two people, a guardian and a ward.
- "A ward" is an individual who needs someone else to help him or her to make important decisions and meet basic needs. ***Once a person turns 18, he or she is considered to be his or her own guardian and is no longer considered a ward.***
- When a student turns 18, the rights of parents and their students change. Unless documentation shows us that ***the court*** finds an adult student incapable of managing his or her own affairs and appoints a guardian, the school must assume that the student is capable of and legally recognized to do these things for themselves.
- We caution parents not to be confused by other legal terms, which may lead parents to believe that they have guardianship over their student beyond 18. A conservatorship, representative payee, or a protective payee is NOT a guardian.
- Parents who have court-appointed guardianship must please provide a copy of the court document to the school.
