Hearing Screenings will be performed on all Kindergarten and 1st grade students on the afternoon of November 7th. Teacher or parent referrals are welcome from other grades. Please call Cheri Sorg-Hackler at 582-6849 with any questions.

A couple of reminders from the office:

--We are trying to lessen the amount of phone calls that we are getting at the end of the day. If at all possible, please try to make your end of the day plans with your children in the morning, before they come to school. If the plans are different than their normal afterschool plans, then please send a note with your child, or send an email to the teacher to let them know. We understand that some things come up last minute, so if that happens, please call the office, and we will get a message to your child.

--**Remember we do not have adult supervision in the morning until 8:00am.** If your child is coming to school before this time, they need to be signed up for our before school program. That link is http://www.greatergallatinunitedway.org/kidsLINK_bozeman_schools.

Lifetouch will be here **Wednesday, Nov 14th** for individual picture re-takes. So, if you weren't happy with your child's picture or if they were absent on picture day, please stop by the office and pick up a retake picture packet. If this is a retake and you are ordering the exact same picture package, your child can just bring in their original picture package to give to the photographer.

Can the Griz

Hyalite will serve as a collection area for Can the Griz! Bring a donation to the front office and help Hyalite give back to the community and beat the Griz! We will be competing with other elementary schools in Bozeman to see who can bring in the most food. Donations must be received by the end of Movie Night on the 17th to be counted!

Hyalite STEAM Morning: Saturday, Nov 4th, 10am-Noon. Stop in for a bit and spend the morning as a family playing with robots, coding, engineering, animals and more at Hyalite's first family STEAM morning! We'll have visitors from MSU's science departments, MOSS, Children's Museum, YMCA and more to help you explore and have fun with some really cool toys!

November 14th from 6:00-7:00. Join cognitive psychologist and learning expert (and Hyalite Dad!), Dr. Nick Soderstrom, to learn how you can help your child succeed in the classroom and beyond. His talk will be followed-up by a quick business meeting. Childcare and pizza provided for the children.

Box top Icedogs Competition: During the months of October and November, all box tops turned in will be entered into a contest to see which class will get a visit from The Bozeman Icedogs, our local hockey team. The class with the most box tops turned in, wins!!

SANTA RUN FOR EDUCATION

**Santa Run for Education registration is now open!
Saturday, December 9th at 10**

**New this year:
- \$15 Race Entry Fee-**

Give back to your school! Select the school you would like to support and help give directly to their PAC!

Don't miss our great Santa Stop inside the Willson gym with food, music & our Santa Selfie-Station

**Don't want to run, but want to help out?
Sign-up to [Volunteer!](#)**

November Harvest of the Month: Apples

The old saying “an apple a day keeps the doctor away” certainly holds some truth! Apples are an excellent part of a healthy diet by providing fiber, vitamin C, potassium, and other nutrients. Potassium is an electrolyte that is essential to keep your heart beating! Bite into a Montana apple today!

Apple trees are a long-term investment. They can take multiple years to produce fruit after planting. However, they can live up to 100 years old, providing delicious lunchbox treats for generations. There are over 7,500 varieties of apples grown worldwide and 2,500 are grown in the US. However, only a handful of varieties are commonly found in grocery stores today.

Keep an eye out for local apples served for lunch in November in Bozeman schools!
