**BOZEMAN SCHOOL DISTRICT INTRAMURAL PARTICIPATION FORM**

The Bozeman School District provides a wide range of interscholastic/intramural activities for both boys and girls. Participation in such activities is voluntary. The School District recognizes that participation in interscholastic /intramural activities can bring the student many rewards.

These activities require that the student make a commitment to the activity, submit to the discipline of the coach or advisor, and develop self-discipline to be able to successfully participate. Participation in these activities often requires considerable physical exertion, physical conditioning, and adherence to training rules and regimens.

The rewards for participation are obvious. Learning to function in a team effort teaches a student important lessons for life. Participation in individual sports teaches self-reliance and commitment. All such activities develop in the student an appreciation for his or her physical abilities and enthusiasm and school spirit. Competition is fun and everyone must learn how to deal with both victory and defeat.

Interscholastic/intramural activities tend to keep the student involved in a constructive endeavor. The District's experience has been that its athletes and members of other extra-curricular activities tend to be good citizens and good students. The District believes that you should encourage your child to participate in these activities and support and encourage him or her during the ups and downs of the particular endeavor.

\*The School District will provide supervisors, safe equipment and facilities, and make reasonable efforts to see that the interscholastic/intramural program is safe for your child. Nevertheless, because athletic activity can involve injury to the participants, we must warn you of such dangers.

\*Athletic injuries can impair the student's general physical and mental health, the student's ability to earn a living, engage in social or recreational activities and general enjoyment of life. Such injuries can include death or serious physical injury and a possibility of emotional injury. Injury can arise from training room procedures, the administration of first aid, or failure to follow game, training, safety or other team rules.

The purpose of this warning is to aid you in making an informed decision as to whether the student should participate in the intramural activity. Also, its purpose is to make you aware that as a student/athlete and parent or guardian, it is your responsibility to learn about the sport involved and to inquire of coaches, physicians and other knowledgeable persons about any concerns you might have regarding athletic safety and the School District's athletic program.
