Student Growth Trends and Progress

These graphs illustrate trends in student growth over the last three years. Student growth is measures by median student growth percentile. The table below tells us how student growth over the last three years compares to the state standard of 40-59.5 and to the statewide median.

Student growth is a measure of how much students are learning each year. Each student receives a Student Growth Percentile (SGP) for English Language Arts (ELA) in grades 4 through 8 and for Mathematics in grades 4 through 7 that explains their progress compared to students who had the same test scores in previous years. A student’s **SGP** falls between 1 and 99 and can be grouped into three levels: **Low Growth: Less than 35** **Typical Growth: Between 35 and 65** **High Growth: Greater than 65**

If the student growth percentiles for all students in the district are ordered from smallest to largest, the median student growth percentile (mSGP) for the district is the percentile in the middle of that list. Watch a short [video about Student Growth Percentiles](#) that explains how they are calculated for students and how median Student Growth Percentiles (mSGP) are calculated for groups of students.

Student Growth

This table shows the median Student Growth Percentile (mSGP) for both English Language Arts (ELA) and Mathematics both overall and for each student group with comparisons to the state. This table also shows whether each mSGP Met Standard (40-59.5) as required by ESSA accountability.

English Language Arts and Mathematics Performance Trends

These graphs show trends in the Proficiency Rate for Federal Accountability over the last three years. The data includes the results of students taking both the statewide assessment (NJSLA for 2018-19 and PARCC for 2016-17 and 2017-18) and the DLM alternate assessment. The Proficiency Rate for Federal Accountability measures the percentage of students that met or exceeded expectations on the assessments (NJSLA/PARCC or DLM) with an adjustment made if the participation rate is below 95% to ensure reporting on at least 95% of students. NJSLA/PARCC results include only students in grades 3 through 10. Students that were enrolled for less than half a school year are excluded from performance results. The table below provides participation rates, proficiency rates, annual targets and status in meeting the targets, and statewide proficiency rates.

English Language Arts Assessment - Participation and Performance

This table shows performance on statewide assessments for English Language Arts both overall and by student group. It includes the results of students taking both the NJSLA and DLM assessments. NJSLA results include only students in grades 3 through 10. Students that were enrolled for less than half a school year are excluded from performance results. A student is considered to have met or exceeded expectations if he/she scores at Level 4 or 5 on the NJSLA assessment or at Level 3 or 4 on the DLM assessment.

This table shows both the percentage of students that met or exceeded expectations and a proficiency rate used for federal accountability. The proficiency rate for federal accountability will be lower if the participation rate is below 95%. This table also shows progress towards meeting the state's long term goal of 80% proficiency by 2030. Annual targets are specific to each subgroup, school, and district and represent the expected proficiency needed to stay on track to meet the state's long term goal. Student groups where the annual target fields are grayed out are not required to meet annual targets under ESSA accountability. For more details on New Jersey's accountability system, see our [accountability resources](#).

Mathematics Assessment - Participation and Performance

This table shows performance on statewide assessments for Mathematics both overall and by student group. It includes the results of students taking both the NJSLA and DLM assessments. NJSLA results include only students in grades 3 through 10. Students that were enrolled for less than half a school year are excluded from performance results. A student is considered to have met or exceeded expectations if he/she scores at Level 4 or 5 on the NJSLA assessment or at Level 3 or 4 on the DLM assessment.

This table shows both the percentage of students that met or exceeded expectations and a proficiency rate used for federal accountability. The proficiency rate for federal accountability will be lower if the participation rate is below 95%. This table also shows progress towards meeting the state's long term goal of 80% proficiency by 2030. Annual targets are specific to each subgroup, school, and district and represent the expected proficiency needed to stay on track to meet the state's long term goal. Student groups where the annual target fields are grayed out are not required to meet annual targets under ESSA accountability. For more details on New Jersey's accountability system, see our [accountability resources](#).

Mathematics Assessment – Performance Trends

This graph shows the percentage of students who met or exceeded expectations on each grade level or end-of-course exam on the statewide assessment for Mathematics for the past three years. 2018-19 data is from the New Jersey Student Learning Assessment (NJSLA) and 2016-17 and 2017-18 data is from the PARCC assessment.

† 2018-19 results for Algebra I, Geometry, and Algebra II do not include students in grade 11, but 2016-17 and 2017-18 results do include students in grade 11. Therefore, trend data for these assessments may not be comparable.

English Language Progress to Proficiency

This table shows the percentage of English Learners who demonstrated the expected amount of growth on the ACCESS for ELLs 2.0 Assessment for English Language proficiency. A student's expected growth is based on the student's initial year proficiency level and student growth expectations are increased by equal intervals each year so that the student meets the proficiency cut score of 4.5 within five years. The table shows the annual target for the percentage of students making expected growth and whether that target was met.

English Language Proficiency Test - Participation and Performance

This table shows, by years in district, the number of English learner students taking the ACCESS for ELLs 2.0 Assessment for English language proficiency and the percentage of students tested that received an overall score of 4.5 or above. Students must receive a score of 4.5 or higher to be considered for proficient status.

The New Jersey Student Learning Assessment for Science (NJSLA-S) measures student proficiency with the New Jersey Student Learning Standards for Science. All students in grades 5, 8, and 11 will take the NJSLA-Science assessment. Students receive a score of Level 1, 2, 3, or 4 where levels 3 and 4 represent proficiency. Visit the [NJSLA-Science website](#) for more information about NJSLA-S. These results do not include students that took the Dynamic Learning Maps (DLM) Science assessment, visit the [assessment reports page](#) for DLM results.

NJSLA Science Assessment: Grade 11 Summary

This table shows how students performed this year on the NJSLA Science assessment. Students scoring at Level 3 or 4 are considered proficient.

Information about participation and performance on the PSAT, SAT, and ACT exams comes directly from College Board and ACT.

PSAT, SAT, & ACT - Participation

This table shows information about participation on the PSAT, SAT, and ACT exams. PSAT participation is the percentage of 10th and 11th graders that took the PSAT 10 or PSAT NMSQT exam in 2018-19. SAT and ACT participation rates show the percentage of 12th graders that have taken the SAT or ACT this year or in prior years.

Participation Type	District Participation Rate	State Participation Rate
10th and 11th graders taking PSAT 10/NMSQT in 2018-19	34.1%	84.5%
12th graders taking SAT in 2018-19 or prior years	78.1%	72.1%
12th graders taking ACT in 2018-19 or prior years	15.3%	19.6%

PSAT, SAT, & ACT - Performance

This table shows how students performed on the PSAT, SAT, and ACT tests by subject area. The table includes average test scores, college readiness benchmarks, and the percentage of students that scored at or above these benchmarks. Benchmarks were defined by College Board and ACT and students that score at or above these benchmarks have a high chance of success in credit-bearing college courses.

Participation Type	District Average Score	State Average Score	College Readiness Benchmarks	District - Students scores at or above Benchmark	State - Students scores at or above Benchmark
PSAT 10/NMSQT - Reading and Writing	517	476	Grade 10: 430 Grade 11: 460	76%	61%
PSAT 10/NMSQT - Math	515	477	Grade 10: 480 Grade 11: 510	57%	43%

Students in high schools begin to demonstrate college readiness behaviors long before they actually graduate from high school. These include participating in advanced course work such as **Advanced Placement (AP)** or **International Baccalaureate (IB)** courses and exams and **dual enrollment** courses where high school students can enroll in college courses for credit.

AP/IB Coursework – Participation and Performance

This chart shows the percentage of 11th and 12th graders who enrolled in one or more AP or IB courses, who took one or more AP or IB exams, and who had one or more exams with an AP score of 3 or higher or IB score of 4 or higher.

Dual Enrollment Coursework - Participation

This graph shows the percentage of 11th and 12th graders who were enrolled in at least one dual enrollment course during the school year. Dual enrollment courses allow high school students to enroll in college courses for credit prior to their high school graduation.

AP/ IB Courses Offered

This table shows the list of AP/IB Courses that were offered by the school or for which students took the corresponding AP/IB exam along with the number of students enrolled and the number of students taking the exam. Students do not need to take a course to take the exam and not all students enrolled in a course take the exam. The last two rows show the total number of exams taken and the number of exams with AP scores of 3 or higher or IB scores of 4 or higher. Students who take multiple examples are counted more than once in the last two rows.

Industry-Valued Credentials

The graph below shows the percentage of students in grades 9 through 12 who earned one or more Industry-Valued Credential during the school year.

Students Earning Industry-Valued Credentials

Industry-Valued Credentials by Career Cluster

This table shows by Career Cluster the number of students enrolled in approved Career and Technical Education programs, the number of students that earned one or more industry-valued credential, and the total number of credentials earned. Students are only enrolled in one career cluster, but they may earn credentials in multiple clusters or earn multiple credentials within one cluster. Career Clusters without approved credentials are grayed out. Career Cluster rows will be hidden if no students were enrolled and no credentials were earned. The last row provides unique counts of students enrolled and students earning one or more credentials across all clusters.

Student absences provide important information about a school’s culture and climate. Research shows that absences impact a student’s ability to succeed in school. The New Jersey Department of Education used input from New Jersey communities to select chronic absenteeism as its measure of school quality and student success for the ESSA accountability plan. **Chronic absenteeism** is defined as being absent for 10% or more of the days enrolled during the school year. A student who is not present for any reason, whether excused, unexcused, or for disciplinary action, is considered absent unless permitted by state statute or regulations. Students with fewer than 45 days in membership are excluded from attendance calculations.

Chronic Absenteeism

This table shows the number and percentage of students in grades K-12 both overall and by student group who were chronically absent during the school year. The last two columns show the chronic absenteeism state average for students in the grades offered and whether the rate for each student group was above the state average (“Not Met”) or less than or equal to the state average (“Met”).

Student Group	Number of Students Chronically Absent	Percent of Students Chronically Absent	State Average	Met State Average?

The New Jersey Department of Education migrated to a new reporting system, the Student Safety Data System (SSDS), starting in 2017-18, which includes improved definitions, new reporting fields, and updated guidance for reporting incidents. Comparing current data to data from 2016-17 and earlier could lead to inaccurate conclusions in many reporting categories.

Violence, Vandalism, HIB, and Substance Offenses

This table shows the number of incidents reported by type. A single incident may be counted under multiple incident types. The total unique incidents row provides an unduplicated count of incidents. The last row shows the rate of incidents for every 100 students enrolled.

Student Disciplinary Removals

The first table shows, by removal type, the number and percentage of students who received disciplinary removals during the school year. Removal types include students receiving one or more in-school suspensions, one or more out-of-school suspensions, one or more suspension of any type, removal to another school or other educational program, expulsion with no further educational services, or arrest. The second table shows the total number of days missed due to out-of-school suspension for all students during the school year.

Per-Pupil Expenditures by Source

The link below produces a table summarizing the most recently available expenses for regular and special education students taught at schools in the district. The amounts shown include expenditures for instruction, support services, administration, operations and maintenance, and extra-curricular activities.

For more information regarding this table please refer to the guidance for school level reporting, which is available on the [NJDOE webpage ESSA School Level Reporting Information](#). More in-depth information about district and charter school spending can be found in the [User Friendly Budget](#) and the [Comprehensive Annual Financial Report \(CAFR\) and Auditor Management Reports \(AMRs\)](#).

Please be aware that the total district expenditures represented in these reports are taken from audited district financial data, but the subsequent allocation of these resources to specific schools is not audited or otherwise verified by the New Jersey Department of Education. If you have specific questions about the assignment (or lack of assignment) of school-level amounts, please contact the district for additional information.

An option to [download all school-level summaries by district](#) in one spreadsheet is also available. However, because districts have flexibility in how certain costs are allocated to individual schools, school-level costs should not be compared between schools in different districts.

New Jersey's school accountability system identifies schools that are in need of comprehensive and targeted support as required by the Every Student Succeeds Act (ESSA).

Every three years (last identification in 2019, next identification in 2022), NJDOE will identify schools in the following three federal categories:

Comprehensive Support and Improvement - Overall Low Performing: Schools with a summative score in the bottom 5% of Title I schools.

Comprehensive Support and Improvement - Low Graduation Rate: High schools with a four-year graduation rate of 67% or less

Targeted Support and Improvement - Low Performing Student Group: Schools with one or more student group with a summative score that would be in the bottom 5% of Title I schools

Annually, NJDOE will identify schools in the following federal category:

Targeted Support and Improvement - Consistently Underperforming Student Group: Schools with one or more students group that missed annual targets or standards for all indicators for two years in a row

For more information about New Jersey's accountability system, how indicator and summative scores were calculated, and how federal accountability status is determined, see these [accountability resources](#).

ESSA Accountability Progress

The table below shows performance on each of New Jersey's ESSA accountability indicators for the last three years. ELA and Math Proficiency represent the percentage of students that met or exceeded expectations on statewide assessments (NJSLA/PARCC or DLM). ELA and Math Growth represent the median student growth percentile. Four- and five-year graduation rates represent the adjusted cohort graduation rates. Progress toward English Language Proficiency, which was first available in 2017-18, shows the percentage of English Learners that demonstrated the expected amount of growth on the ACCESS for ELLs 2.0 Assessment for English Language proficiency. Chronic absenteeism represents the percentage of students that were absent for 10% or more of the days enrolled during the school year.

ESSA Accountability Indicator	2016-17	2017-18	2018-19
ELA Proficiency	53.7%	56.0%	57.0%

Accountability Summary by Student Group

This table shows whether student groups in the district met annual ESSA accountability targets and standards for each indicator. Annual targets for proficiency and graduation rate were set based on a district or student group’s performance in 2015-16 or the first year data was available. The standard for student growth is a median student growth percentile of 40-59.5. The target for chronic absenteeism is the statewide chronic absenteeism rate based on students enrolled in the grades served by the district. For more details on accountability targets, see these [accountability resources](#).

In fact, about half of our students participate in one or more of the 16 athletic programs that we offer, including Boys and Girls Lacrosse, which we will add in the 2019-20 school year. We take great pride in the teamwork, sportsmanship, and leadership, as well as the dedication and hard work, that our students demonstrate in the classroom and on the fields and courts.</p>
 <p>Clubs and Activities:</p>	<p>In Sayreville we recognize the correlation between student engagement in the total school program and academic success. Thus, we provide a number of opportunities for students to participate in clubs and other activities. In fact, along with our growing Air Force Junior ROTC program, and Odyssey of the Mind, Future Business Leaders of America, and Distributive Education Club of America teams, we offer an array of other student clubs for the students in our middle and high school to participate in.</p>

 <p>Before and After School Programs:</p>	<p>Along with athletics and clubs at the secondary level, in Sayreville we provide before and after school activities. Springboard Education offers before and after care for our elementary and middle school students. Likewise, we provide tutoring in math and language arts for students at risk of failing. In addition, our schools and PTOs offer a variety of enrichment activities for our students before and after school. Finally, our students participate in Special Olympics Unified Clubs and Sports.</p>
 <p>Staff and Professional Learning:</p>	<p>In Sayreville we embrace the empirically accepted fact that the number one factor in student learning is the effectiveness of the teacher. Therefore, we provide an abundance of professional development opportunities for our instructional staff, including three full day in-services. In fact we created a program several years ago called Sayreville University, which is dedicated to training and professionally developing our new and seasoned certificated and non-certificated staff. In addition, to increase leadership capacity, we provide our aspiring administrators the opportunity to develop their leadership skills in our Leadership Academy. Likewise, our teachers who want to develop their leadership capacity but not leave instruction, are given the opportunity to participate as teacher leaders in our Teacher Leader Network.</p>
 <p>Postsecondary Information:</p>	<p>Each year approximately 85% of Sayreville War Memorial High School graduates participate in a post-secondary education program. In addition, about, 50% attend a 4 year college, while about 35% attend a 2 year school. Of the students that attend 4 year colleges, many of them remain in New Jersey, particularly at Rutgers University. However, several have attended Ivy League schools, such as Princeton, Columbia and Cornell. Of those who attend 2 year colleges, many go to Middlesex County College, while some attend Brookdale CC.</p>

 <p>Student Supports and Services:</p>	<p>In Sayreville we take tremendous pride in the educational services we provide to all our students, particularly those with disabilities. We provide 504 services, which include related services, for our students who have diagnosed disabilities that result in a substantial limitation of a life skill. In addition, we provide a free and appropriate education consisting of a full continuum of programs and related services for students identified as preschool or school aged children with disabilities.</p>
 <p>Student Health and Wellness:</p>	<p>In Sayreville our nurses and other health and wellness practitioners take pride in the manner in which they care for both students and staff. Along with our nurses meeting all NJ Department of Education and Department of Health regulations and guidelines, are district food services also comply with all state and federal child nutrition regulations and guidelines. To oversee both vital district services, several years ago the district created a Nutrition, Health and Wellness Committee.</p>
 <p>Parent and Community Involvement:</p>	<p>In Sayreville we value the partnerships that we have cultivated with our parents and the greater community. In fact, we believe that we can greatly enhance student performance by increasing the amount of time our parents involve themselves in the education of their children. Thus, each of our schools have very active parent teacher organizations and/or extra-curricular booster clubs. In addition, Sayreville PROUD, provides support and advocacy to the parents of our students with disabilities. Lastly, parent leaders from PTOs, booster clubs, PROUD, and from the community are invited to serve on the Superintendent's Parent Advisory Council.</p>

<div> </div> <div>Climate Surveys:</div>	<p>In the past 4 years, the Sayreville Public Schools has surveyed the school community on their satisfaction with the culture and climate we provide for our students and staff. While there is still more that we can do to provide the optimum educational environment conducive for student learning and professional development, our constituents demonstrated satisfaction with security, the safety and sanitation of our facilities, student behavior, and the overall morale of students and staff.</p>
<div> </div> <div>Facilities:</div>	<p>There are seven schools and one central office building in the Sayreville Public Schools. Although one of our buildings is less than 20 years old, the rest of our buildings are more than 40 years of age. Nevertheless, our dedicated and hard-working custodians, maintenance, grounds, and stockroom staff that make up our buildings and grounds Department work tirelessly to repair, refurbish, and clean our buildings. In fact, despite their age, our buildings are very safe, sanitary, and charming.</p>
<div> </div> <div>School Safety:</div>	<p>The safety and security of our students and staff is our highest priority in Sayreville. Thus, over the past several years we have made many changes to increase the security of our schools, most notably installing full interior and exterior video surveillance in all our schools; constructing secure retention vestibules in our high school, middle school, and upper elementary schools; installing metal detectors and student identification card systems in our high school and middle school; staffing 16 full time and 2 part time campus security monitors, and funding the staffing of an armed Sayreville Police Officer in each of our schools when students are present.</p>

Technology and STEM:

In the district's 2017-2021 Strategic Action Plan, a heavy emphasis was placed on technology and STEM education. In fact, the district recently received a grant from the NJDOE to create and implement advanced placement computer programming classes. Similarly, the district has been developing a STEM Career Academy at our high school for the past two years and will be implementing it during the 2020-21 school year. To assist in the development of it, the district has received several grants from companies such as Dupont, Ashland, and BASF. Likewise, the district also received a grant from Bristol-Myers to create a Robotics Program in our elementary schools.

Early Childhood Education:

We are proud to announce that beginning in the 2019-20 school year the Sayreville Public Schools will receive Preschool Expansion Aid for the purposes of providing free full-day preschool for all 3 and 4 year old children in Sayreville. Thus, by the year 2021-22, the district anticipates educating for free its projected preschool universe of about 850 children in its acclaimed Project Before preschool program.
