**Following adoption and after any revisions, the EMP and diagrams of the facilities shall be provided to local first responders.** Annually, the principal is responsible for working with the district office to ensure that local first responders have a current diagram of the school that notes the primary and secondary evacuation routes, the severe weather safe zones, and the exterior and front entrance access points. Documentation of this distribution to first responders will be reported to the school council by *the September meeting*, maintained in the principal's office, and a copy sent to the district office.

**Due to the need to maintain student and staff safety and security, the EMP and diagram of the facility does not have to be and shall not be disclosed in response to any Open Records request per the Kentucky Open Records Law.** The EMP may be disclosed to necessary school personnel, local first responders, and to other persons with the permission of the principal.
