

Notre Dame High School's Summer Bridge Program is designed to provide incoming freshmen with an exciting and rewarding transition into high school. Course offerings include the Survey of High School as well as courses designed to improve algebra mastery, or allow placement in Algebra Honors courses. Incoming freshmen who enroll in the Summer Session typically benefit both academically and socially during their first year in high school.

### **Mid-Morning Session**

Period 3: 10:30AM – 11:25AM

Period 4: 11:30AM – 12:25PM

## Survey of High School

This course is recommended to all incoming freshmen and introduces them to strategies for successful learning across multiple disciplines. Learning strategies include active learning, time management, content mastery, test preparation, and study skills. The course also introduces students to the culture of Notre Dame in an effort to acclimate students to the academic and campus life of a Catholic college-preparatory learning environment. The course takes a holistic approach to the students four years at Notre Dame. An emphasis is placed on success during the freshman year as a foundation for a successful four years at Notre Dame and matriculation into a four-year college or university. Activities will include campus tours, guest speakers (counselors, student ambassadors, peer ministry, athletic trainer), and familiarizing with technology platforms and apps used at Notre Dame.

## Algebra Review

This course is designed to increase student mastery of algebra for students needing review before entering Algebra I. This course will review and reinforce the four operations on rational numbers in order to prepare the students for success in Algebra. The course will cover addition, subtraction, multiplication and division of positive and negative integers within the context of equations, and with decimals and fractions. Successful completion of this course will result in a recommendation from the teacher for freshman math placement (Algebra, Honors Algebra, Geometry, Honors Geometry)
