KIER CONSTRUCTION

EXPERIENCE THE DIFFERENCE

ABOUT US

Since 1986, KIER has steadily grown from its roots as a small family development company into one of the Intermountain West's most experienced and respected providers of construction management services. We oversee projects ranging from small interior renovations to some of the most recognizable communities throughout the West. We approach each project with a collaborative mindset, working with our clients, architects and subcontractors toward a common goal... successful project delivery. Our diverse construction portfolio insures that each project is matched with the appropriate resource and expertise. Through technical skill, preconstruction services and self performance capability, we anticipate project challenges, and develop solutions that meet our clients objectives.

KIER Construction has a talented and experienced staff comprised of over 80 full-time employees. With annual revenues of approximately \$150 million, our portfolio includes over 10,000 units constructed in 9 states. Collectively the KIER goal is to provide the best customer service the industry has to offer. We invite you to "Experience the KIER Difference."
