Pre-Construction Internship

Sure Steel Inc. is looking for a talented individual that is interested in building relationships based on the immutable principles of ability, integrity, benevolence, safety, environmental responsibility, and continuous improvement. You will be part of developing solid relationships of trust with our clients, coworkers, suppliers, and all other stakeholders in order to advance our business model in current markets and expand into new ones.

Responsibilities and Essential Functions of the Job

This individual must be able to perform pre-construction functions and will focus primarily on the following:

- Document control
- Sending quote requests and coordinating documents with vendors
- Data entry
- Quantity takeoffs
- Assisting in writing proposal documents
- Attending meetings and taking meeting minutes
- 1-2 site visits (if possible) to see our jobs

Ability

The right candidate should have an aptitude for engineering, be able to analyze, compare and interpret detailed information. They should be able to make sound and accurate judgments, be detail oriented, assertive, and self-confident in presenting and supporting conclusions. They must have strong communication and interpersonal skills.

Integrity

The right candidate should be able to take on new challenges, is willing to learn, take responsibility, and set a positive tone for the workplace. Applicants must have a good work ethic coupled with honesty and trustworthiness.

Benevolence

Be passionate, be honest and dependable, be a positive influence, and be committed to always improving.

Sure Steel adheres to CDC guidelines and has implemented protocols and procedures to ensure that our employees work in a safe environment.

About Sure Steel, Inc.

Our mission is to create relationships built on the immutable principles of ability, integrity, benevolence, safety, environmental responsibility and continuous improvement. We believe these principles are the foundation of solid relationships of trust with our clients, coworkers, suppliers, and all other stakeholders in order to advance our business model in current markets and expand into new ones. Such relationships make us the preferred steel solution in the marketplace for the design, fabrication, and installation of structural steel, pre-engineered metal buildings, and associated components.

Candidates must be legally authorized to work in the United States.
