Upper Elementary Reading for Summer 2022

Our goal for the Summer Reading program is for students to continue to be engaged and motivated readers over the Summer Break. Following current reading research, it is our understanding that reading throughout the summer is vital to ensure reading development. Research shows that of all the activities children participate in outside of school, time spent reading is the greatest indicator of reading achievement. Audiobooks offer increased vocabulary fluency and are a perfect option while traveling. Student recommendations are an important part of our classroom culture, so we have also included books recommended by current students.

Requirement: Read *The Smartest Kid in the Universe* by Chris Grabenstein plus **four additional books from the list.**
