#### Tornado Season

March begins the time of year in which our school will start having tornado drills. We like to prepare the children so that they know what to do in the event of a real tornado warning. During drills, an announcement will be made announcing the drill. Students and staff members proceed to the basement (lower level of the building). Once they are there, they crouch down on their knees along the walls with their heads tucked and hands placed on the back of their heads to protect their heads. In the event of a real tornado warning, staff and students follow the same procedure.

##### ClassDojo

Welcome to the ClassDojo Community – A community of teachers, parents, and students who are passionate about making a positive impact in classrooms, schools, and communities around the world.

##### Focus on creating a positive culture

Classrooms are full of positivity! Teachers use regular, positive feedback to encourage students and give them recognition for their efforts and progress.

##### Foster a student-driven classroom

Students decide on class values together, discussing skills they believe are the most important to their classroom community, and encouraging them through ClassDojo. Students take ownership of their learning by creating digital portfolios that showcase their growth throughout the school year. They love posting their work for their parents to see!

##### Keep your door open to families

Teachers keep parents in the loop! From photos of students working together to videos of class projects. Teachers and parents are on the same team, collaborating on how they can help students thrive both in and out of the classroom.

##### Collaborate with others

Classrooms work together as part of the school community to encourage shared school values and share school-wide moments home. Teachers collaborate with others, helping teachers in their school and in other schools create amazing classrooms, too.

##### What is a Class Story?

Class story is a way for a teacher to share photos, videos, and announcements about a class with all parents connected to that class. It is used to send home permission slips, share photos of group projects, post videos of class presentations, and more! Only the teachers of a particular class and the parents connected to that class can see class story.

##### What is school story?

It is a way for all teachers in the school to collectively share a story of the school with all parents. Teachers share information, pictures, and videos about school events, assemblies, spirit weeks, student achievements, and more. School story will show up on your class Story.

**If you do not call your child in or send a letter the next day, your student's absence will be unexcused.**

Exciting and important news :)

## Our class is using ClassDojo!

Hi parents,

This year I'm using ClassDojo to encourage important skills, like working hard and participating. I'll also use it to communicate with you: we can instantly share messages, updates and photos from class. It's the easiest way for you to see how your child is doing at school and to get in touch with me.

I'd like all families to join me and sign up for ClassDojo! You can use it on any device: it is a **simple, free mobile app** for iOS and Android, and can also be used from a computer at: [www.classdojo.com](http://www.classdojo.com).

I will need your cell number or email to invite you to ClassDojo. Our class goal is for every family to **fill out and return the slip below by tomorrow!** Feel free to ask me any questions.

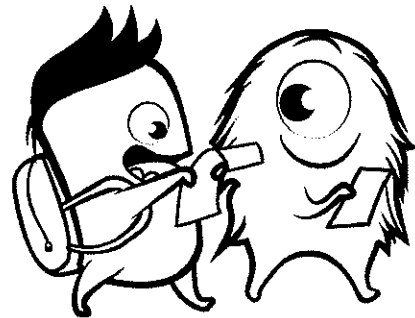

Thank you so much!
