

## Women's Health

At SSM Health, our providers are committed to helping patients improve their quality of life when it comes to pelvic health. Our multidisciplinary clinical team has expertise in the evaluation, diagnosis and treatment of conditions that affect the muscles and connective tissue of female pelvic organs. These include pelvic pain, pelvic organ prolapse and incontinence, vulvovaginal disorders, vaginal pain, conditions that affect as many as one in three women.

We believe in treating every patient as a whole person. While diagnosing pelvic floor disorders can be complex, our doctors take the time to listen to patients and complete a thorough examination. It's important to us that we understand your physical, emotional and mental health needs.

Amanda will be seeing patients on August 22<sup>th</sup> from 9am – 5pm. **Call 608-825-6977 to make an appointment!**

### Amanda Blackthorn, APNP

Amanda Blackthorn is a Nurse Practitioner specializing in Urology and Pelvic Health. Her current practice locations are Dean Medical Group East and at our South Madison Campus. Services are available to Sun Prairie Area School District and Sun Prairie City employees, spouses and dependents that are on the SPSSD and City health plan.
