

Retirement of Buildings

Buildings operated by the Bethany Public School District (District) may be retired from use when the Bethany Board of Education (Board) determines they are no longer educationally useful to the District and/or are unsuitable to current or projected District needs. The Board Facilities Committee shall consider facility closing and the plan shall require examination of remodeling possibilities or other uses for the facilities.

Because building closures are sensitive community issues, the Board will appoint an ad hoc committee representing a cross-section of the District and community to study and recommend alternatives for Board consideration – including facilities retirement, continued District educational use, possibilities for remodeling and refurbishing, alternative uses, and other recommendations the committee chooses to make.
