SCRANTON, PENNSYLVANIA 18503

The Scranton School Board of Directors held a Special Meeting for General Purposes on Wednesday, June 23, 2021 at 7:00PM in the auditorium of Scranton High School, 63 Munchak Way, Scranton PA 18508.

1. Call to Order

President Gilmartin called the meeting to order at 7:08PM with a Pledge of Allegiance to the Flag.

2. Roll Call – By the Secretary.

Present: Directors Cruz, Fox, Hume, Malloy, McAndrew, Yanni and President Gilmartin.
(Director Fox was present via teleconference)

Absent: Directors Dempsey and Welby

3. Transaction of Business for Which Special Meeting was called.

President Gilmartin announced the Purpose of the Meeting which was duly advertised.

4. Discussion - High School Transportation

Mr. Pat Laffey spoke about previous discussions that the district had planned on using ESSER funds to pilot a high school transportation program for the 2021-22 school year and the goal was to track student attendance and performance to see if any improvement with regards to that. In speaking with PDE they felt that was an allowable use of the ESSER funds so they prepared an RFP for this service, they solicited proposals from eleven or twelve vendors both locally and nationwide. A bid opening was held last Friday and unfortunately there was only one proposal that was an alternate proposal to what we were seeking and what we were seeking was proposals for 72 passenger buses with the idea we would approximately maximize 45 seats per bus with high school students. The only proposal received was a proposal for 10-12 passenger van service. There was another correspondence from a vendor that they declined to bid due to some challenges they were experiencing but they looked forward to possibly speaking with us and negotiating other ways that they may be able to assist us with the service. Mr. Laffey said at this time they were hoping to be bringing a motion to the board to consider an award for that RFP but they don't have anything to present this evening. Mr. Laffey said they feel there may be some other route that they can look at, obviously one is negotiating with individual vendors to see if the service can be provided but also pursuing possibly something through public transit from a formula regarding reimbursement and a lot of times the rate that you pay for public transit or a fair based approach is 100% allowable cost so from a reimbursement standpoint it would work out well for the district but at this point we just wanted to provide the board and public an update on this and get some thoughts on what direction they should head next.

Director Yanni asked Mr. Laffey if he researched any alternative plan to the RFP or anything to look into.

June 23, 2021

Mr. Laffey responded that he thinks they can possibly look into speaking with individual vendors or contacting public transit systems to look at a fair based approach from a subsidy standpoint they believe it would be beneficial and also typically fair based transit is similar in style to what they were planning for the high school students which was more of a loop system allowing them to get on at various stops on their way to school and when he said it would 100% allowable cost, you never receive 100% reimbursement; you receive 100% of the allowable cost at your market value aid ratio which for Scranton is approximately 77% so the 23% we were hoping to fund with ESSER and according to the Division of Federal Programs they felt that the methodology that they were discussing; linking student achievement to student attendance was an approach that would be allowable and from the Division of Subsidy and budget, they thought as long as the record keeping was accurate it would be something that we could claim for reimbursement.

Director Yanni thinks that's a good solution and they should definitely look into. Mrs. Yanni thanked Mr. Laffey for the work he put into this.

Superintendent McTiernan added that as Mr. Laffey makes progress they will continue to update the board and the public.

5. Public Comment

Marie Shiffer, resident and employee spoke about the changes in health care and informed the board and administration of the troubles she has had with the new Performance Health Insurance plan. The board and administrators assured Mrs. Shiffer that it will be looked into and rectified.

7.11 {E-4} Approve Asset Essentials (School Dude) Contract Renewal

Agree to retain Dude Solutions as our work order systems provider for the Asset Essentials software platform for a contracted term of 3 years beginning 07/01/2021 and concluding 06/30/2024.

Dude Solutions 3-Year Agreement Terms			
Item	2021-22	2022-23	2023-24
Asset Essentials Core	\$13,947.57	\$14,784.42	\$15,523.65

Director Hume made a motion, seconded by Director Malloy; motion passed unanimously on roll call.

ON THE QUESTION:

Director Yanni asked if this system is working out well and asked for an update.

June 23, 2021

Mr. Kevin Kearney responded that Dude Solutions has been an excellent addition to the Operations Department and up to this point they've had nearly 800 work orders put through the system. Everything is funneling through that system, there's no more work being done on the side, no more calling of technicians to do work and the principals are overseeing what is being done in their buildings, things are being approved through the foreman, Mr. Pugliese, and with Mr. Rucker there is constant oversight of what's being done in the buildings so it has turned out to be a very good tool. Mr. Kearney added that P.O.s are being attached to work orders so anytime they're spending money P.O.s are being done for the work orders that are being completed so they can now go back and trace where they're spending money.

Mrs. McTiernan added that it's an accountability piece and some of this falls back on if an administrator says something is not done they're asked if it's in School Dude and there are a lot of tickets in there so the Operations Department has to look at it, analyze it and then order what needs to be done according to what is high priority and what is not so they're trying to move everything into that technology piece where they can have some accountability and make sure it's done, then when the work is done her understanding is they receive a ticket that it is completed.

Mr. Kearney agreed, adding that from start to finish the work order is notifying that it's been accepted into the system, in progress and the status of that work from start to finish.

Director Yanni asked if the building principals are aware of everything that needs to be done in their building.

Mr. Kearney said yes, a building principal can go in and see all the work that's being completed in their building or submitted, they have complete oversight of everything that's going on and the way the system is set up is everything goes to the maintenance supervisor and funnels through them so we're being efficient; not sending all electrical work to the electricians where we're wasting their time and having them go to the buildings, the maintenance supervisor will decide if something needs to go to the electricians and then if the electricians felt it needs to go to someone like Scranton Electric it'll go to Mr. Pugliese or Mr. Rucker and they'll decide if it needs to go to that 3rd party contractor.

7.12 {E-5} Approve Northeast Intermediate Emergency Lighting Project

Motion to approve the upgrade of the Northeast Intermediate School lighting system.

The financial impact will be determined on June 22, 2021 when the bids are presented to the Scranton School District at a bid opening and presented to the board on June 23, 2021. \$70,000 – Urban Electric.

Director McAndrew made a motion, seconded by Director Malloy; motion passed unanimously on roll call.

ON THE QUESTION:

The bids were opened by D'Huy Engineering and bid is \$70,000 to Urban Electric.

Director Hume asked what is this lighting system and what are we doing to it.

June 23, 2021

Mr. Rucker explained it is the emergency lighting system that if the power drops at the building the emergency lights will kick on and currently the emergency lighting system is running off of he believes is equivalent to twelve car batteries in the basement which is extremely old and inefficient. Mr. Rucker added that during the last power outage a week to a week a half ago the emergency lights did not come on.

Director Hume asked how many bids were received.

Mr. Rucker was aware of four and they were opened in Bethlehem by D'Huy so he did not attend the bid opening.

Director Hume asked if this is the recommendation and if the work will be completed in the same time frame as the other work at Northeast.

Mr. Rucker said yes, it will be completed by the start of school.

7.13 {E-6} Approve Purchase of Tractors

Motion to approve the purchase of tractors to replace equipment that has reached the end of life.

Financial Impact: \$30,009.30

Director McAndrew made a motion, seconded by Director Malloy; motion passed unanimously on roll call.

ON THE QUESTION:

Director Yanni asked if these are just regular grass cutting tractors to be used cutting grass.

Mrs. McTiernan said yes.

7.14 {F-1} Approve Personnel Report

Motion to Approve Personnel Report as attached.

Approve Assignments and Appointments, Retirements, Leaves of Absences and Resignations as attached.

Director Cruz made a motion, seconded by Director Malloy; motion passed unanimously on roll call.

June 23, 2021
