

## Lake Local School District

# End of year parent reminders for bussing for 2022-2023

- If you currently have an alternate stop in place for this school year and will **NOT** be using it for next school year, please contact Transportation to make the necessary changes so that your student gets placed on the correct bus for the upcoming school year.
- Please remember that Final forms **Does not** change your students bus stop information, if your student(s) have never ridden the bus or if you are changing to a daycare, you must notify transportation.
- If you are moving over the summer, please make sure to notify your students school, bussing cannot be put into place until you have done so.
- The Bus stop APP is not where you look up your student(s) bus number and time, that is only for when buses are running the route during the school year, so that you can track the school bus. Please read attached paper for **Bus stop information** in order to verify your student(s) bus # and where your student bus stop is located.
