

Counselor's Corner Bethlehem Elementary

We have reached the final month of the 2021-2022 school year! What an amazing year of learning you have all achieved. We started off the school year reading "The Magical Yet" in all classes. I encourage everyone to think about the things that you did not yet know in September and how much you now know. Imagine the possibilities that still await you!

The 5th graders have been working hard on their Career Projects in the library. All students should have their trifold boards completed and back to school by Thursday, June 9th. They will have time to share what they've learned with their peers the following week.

I wish you all a safe and fantastic summer. Remember to keep up with your reading and math facts throughout the summer to help avoid that "summer slide". Just because we are not in school does not mean that we should stop learning!

And remember, just because you can't do something now, doesn't mean you won't be able to do it later. You just can't do it YET!

As always, please do not hesitate to reach out.
 In Good Health,
 Mrs. Sizer

The students have done a wonderful job this year growing their emotional intelligence. I encourage all families to explore the mood meter at home, help your students visualize what it means to be their best self and to take a meta-moment when faced with big emotions. These tools will help students regulate their emotions and express their needs better.
