

Paulding High School

Mission Statement

We, the staff of Paulding High School, recognize that each student is a unique individual. We believe that it is our mission to provide students with opportunities and encouragement that permit students to develop their full potential as citizens of tomorrow.

The interaction within a school system should provide students with concepts of respect, responsibility, courtesy, and individuality. The interaction within the school community should provide students with acceptance of other's ideas, belief, and opinions.

As our students leave Paulding High School and enter society, they will have the skills to become an integral part of the global community.
