

Management of Covid-19 cases

Covid Protocol at ABA as per the MOH guidelines

COVID Symptoms:
If child(ren) or parent(s) have any symptoms such as fever, sore throat, headache, muscle aches, sneezing, coughing, breathing difficulty, stomach pain/diarrhoea/ nausea/ vomiting, child(ren) must stay home and contact the school Health Office nurse@amaoman.org immediately.

Close Contact: People living together in the same house with a person who has tested positive and anyone who has had exposure to a positive case for over 15 minutes without masks.

Vaccinated: A person who has received two doses of a MoH approved Covid-19 vaccine and completed 14 days from the administration of the second dose is considered as vaccinated.
Non-vaccinated: Students under 12 years of age are considered to be non-vaccinated.
