Summer Reading

MIDDLE SCHOOL

UPPER SCHOOL

Our summer reading choices this year are exciting explorations of space!

The Upper School choice -- *Project Hail Mary*, the new mystery novel by Andy Weir (award-winning author of *The Martian*) -- follows an astronaut with amnesia through space as he figures out what he was sent to do and how he can accomplish the unimaginable. Filled with real-life and hypothetical science scenarios, it is an engaging read that will keep students on the edge of their seats.

Our Middle School choice, *The Hitchhikers Guide to the Galaxy* by Douglas Adams, is an irreverent, sci-fi classic loved by millions of middle schoolers and adults alike. It's wacky, wild, and profound enough to ask the big questions and ponder potential. Its readers will discover the answer to the universe!
