

ACPS Teaching and Learning Model

The goal of ACPS is to ensure that *every student succeeds!* Teaching and learning in ACPS involves a rigorous curriculum, effective planning, balanced assessment, proven instructional strategies, and relationships with students that communicate high expectations and a commitment to student success.

ACPS uses a staff-developed 21st-century curriculum focused on helping students become critical thinkers and problem solvers. All classrooms should be interactive, engaging, and structured to promote student communication and collaboration. More information on the ACPS curriculum can be found at www.acps.k12.va.us.

Effective Assessment and Progress Monitoring

Student data provides feedback about what students are learning and what they still need to learn. Data collected informally on a daily basis and formally at the end of units and specific milestones throughout the year help to guide learning and teaching. This data includes:

- Virginia Standards of Learning (SOL) Assessments
- Daily teacher observation and formative assessment
- Daily student work products
- End-of-unit assessments
- Nationally normed screening instruments, including Think Through Math (TTM)
- Reading assessments such as running records and Reading Inventories (RI)
- Common assessments in English Language Arts, Mathematics, Science, and Social Studies
- Transfer tasks and other forms of performance assessment and projects that emphasize student transfer of learning to real-life settings and problems

What Can I Expect for My Child in the 5th Grade?

The mission of Alexandria City Public Schools is: *“Every student succeeds: Educating lifelong learners and inspiring civic responsibility.”* Our vision is: *“Our students achieve at high levels, are well-rounded, critical thinkers, and have a passion to learn.”*

Principles

- ☀ We Believe in Educational Excellence
- ⚙ We Believe in High Achievement for All
- 🤝 We Believe in a Culture of Collaboration
- 🔄 We Believe in Continuous Improvement and Accountability
- ♻ We Believe in Environmental Stewardship
