

POST FALLS SCHOOL DISTRICT NO. 273

Procedure Title: Student Attendance

Section Title: Dual Enrollment

Sub-Section No. 501.13a

Page 1 of 2

Enrollment:

A nonpublic student or charter school student wishing to enroll in a school in Post Falls School District must provide evidence of residence in Post Falls School District, acceptable evidence of date and place of birth, evidence of immunizations required by the State of Idaho (or suitable waiver), and must comply with the registration procedures required by Post Falls School District which includes providing complete records of the student's academic history.

Registration Procedures:

Before entering a program or activity a nonpublic student or charter school student must complete registration and gain admission to a school in the Post Falls School District. Registration shall include, in addition to routine procedures, the providing of all student records and testing information (where necessary) to qualify for admission as a nonpublic student or charter school student and to identify appropriate placement for the student. Such registration and admission procedures are required even if a student is requesting dual enrollment status only for participation in an interscholastic or non-academic activity.

Transportation:

A nonpublic student or charter school student shall not be entitled to have transportation to or from school furnished by Post Falls School District.

Interim Periods:

If a nonpublic student or charter school student is dual enrolled in classes or activities which are not contiguous in time (i.e., a first period and a fourth period class), the student shall not be on the school premises other than when the program or activity for which the student is enrolled is taking place. Post Falls School District shall not be responsible for the care or supervision of the student in any form for periods before, in between or after the programs or activities for which the student is properly enrolled. Any transportation needs for such students not provided for otherwise under this policy during the school day shall be the sole responsibility of the student and his/her parents or guardians.

Extracurricular Non-academic Activities:

Any nonpublic student or charter school student involved in extra curricular activities shall be subject to all the same eligibility standards as a regular full time student as determined by the Idaho High School Activities Association.

Class Size/Withdrawal:

Pursuant to Idaho Code 33-203(1), if enrollment in a specific class or program reaches the maximum for the program, priority for enrollment shall be given to a student who is enrolled full time in the public school. If a class or program is full and includes a part time nonpublic student or charter school student when a regular full time student transfers into the school during the semester, the district's normal enrollment procedure shall remain the same, and the nonpublic student or charter school student may not be withdrawn to provide space for the full time student. Regular full time students will be given priority for enrollment at the start of each semester.

School Rules, Regulations and Policies:

A nonpublic student or charter school student shall be subject to all the same policies, regulations and school rules as any regularly enrolled student during the times that the nonpublic student is present at school. Such policies, regulations and rules will include but not be limited to those relating to attendance, grades, prerequisites, classroom conduct and discipline.

Prerequisites:

A nonpublic student or charter school student must meet all prerequisites for enrollment for a program or activity which are required of public school students.

Mixed Curriculum:

If a nonpublic student or charter school student wishes to attend activities or programs in a particular discipline in a class or grade where the curriculum is merged or integrated, such request shall be made in writing indicating the subject matter and grade which the student wishes to attend (i.e., art instruction in a third grade class). The teacher and principal of that school shall, upon request, provide scheduling information to the nonpublic student or charter school student. It shall be the nonpublic student's or charter school student's responsibility to contact the district and ascertain when the subject will be presented. Where certain subject matter is integrated into a mixed curriculum, no change in the presentation need be made because of a nonpublic student's or charter school student's request to attend. It is also the intent of this policy to insure that the teacher's right to integrate disciplines and be flexible in planning and modifying the daily classroom presentations shall not be hindered or restricted in any way.

Graduation:

A nonpublic student or charter school student must meet all grade and other graduation requirements of the district in order to graduate and obtain a diploma from the Post Fall School District. In order to graduate and receive a diploma, a student must be enrolled full time in the Post Falls School District during that student's final semester.

IDEA/ADA/Section 504 Students:

Parents who wish nonpublic students or charter school students to be enrolled in special programs must comply with the requirements of the Individuals with Disabilities Act (IDEA) and the Americans with Disabilities Act (ADA) or Section 504 of the Rehabilitation Act of 1973 (Section 504). If a request for referral is made by said parents, and if the evaluation of the student by the multi-disciplinary or child study team determines that special services are appropriate for the student, then such programs will be provided when possible. Until such determination is made, such special educational services or accommodations will not be provided. In the case of charter school students, the school attended more than 50% of the instructional time shall be the school responsible for such services provided. However, when a student attends a charter school and the district's school(s) equally for educational purposes, the charter school shall be deemed the principal provider of instruction and shall bear the responsibility of providing services under IDEA or Section 504.
