Series 500: Student Policy: Activities

Policy No. 507.2

Policy Title: School Clubs: Membership, Advisor, Funding

Page 1 of 1

It is the policy of the Board of Trustees to recognize school clubs or organizations with the membership from the student body that are under the supervision of an adult employed in the school district designated by the principal. The club or organization must have an approved constitution and by-laws, hold elections, and submit records of any funds to the principal for district audit.

Parents or guardians may indicate in writing to the building principal that they do not want their student to join or participate in a specific school club or organization. Club or organization advisors will review if parents/guardians have opted out of joining or participation for their child.

The school district, upon receipt of a parent request, will make a good faith effort to prevent their student from participating in club activities. However, opting out is not a guarantee that a student will not be associated with or have casual, unofficial participation in an activity, organization or club.
