Hospital Educational Programming

Educational services and school programming are provided to school-aged patients admitted to a hospital setting.

Different levels of educational interventions are provided to the patients depending upon their cognitive and educational status, the reason for their hospital admission, the length of their admission, and the medical unit to which they are admitted. These services are provided at the following locations:

Penn State Hershey Select Medical Rehabilitation

Penn State Hershey Children's Hospital

Penn State Hershey Medical Eating Disorders Clinic

Pennsylvania Psychiatric Institute (PPI)

Roxbury Treatment Center
