1	YSHS site is ideal to create a next level k-12 PBL campus learning environment that would become the Gold standard in the country.	4/25/2017 11:16 PM
2	green space and cost	4/25/2017 1:13 PM
3	High school students downtown. Traffic. K-12.	4/25/2017 11:39 AM
4	Space for outdoor learning areas/field research	4/24/2017 1:23 PM
5	It's bothersome that the community comes to our playground during school hours. A fence with a gate that is locked during school hours would be ideal.	4/24/2017 10:20 AM
6	The building and parking would ruin the green space that is there and the lure of HS kids to go downtown is concerning.	4/21/2017 1:02 PM
7	Seems like it would fill the whole lawn area and destroy the green space.	4/21/2017 12:32 PM
8	No concern	4/21/2017 10:52 AM

9	Parking, multiple cafeterias, separate buildings?	4/21/2017 10:15 AM
10	I most align with "not enough space/site congestion," but my biggest concern is becoming land locked. YS Schools are growing, the population is expanding, and the MLS site is limited to it's ability. With that being said, there is green space behind the current facility, but a staff member pointed out it had numerous memorial trees and placards. Not all would be saved, which might negatively impact those in the community. Being down town does lend itself to more partnerships, but again, we are landlocked by streets and space. Green space might also be overtaken by parking issues. We barely fit there as a staff now.	4/21/2017 8:33 AM
11	Having older students with younger students on the same campus.	4/21/2017 8:31 AM

### Q7 Supposing for a moment that a K-12 campus is proposed at the High School site, what is your greatest concern with this plan?

1	No concerns.	4/25/2017 11:16 PM
2	Loss of connection between the school and the village and also the Mills history in YS	4/25/2017 2:53 PM
3	K-12.	4/25/2017 11:39 AM
4	None	4/25/2017 11:17 AM
5	No concern	4/21/2017 10:52 AM
6	I think locating close to downtown, Glen, etc. would expand our options for PBLs, internships, nature experiences, etc.	4/21/2017 8:44 AM
7	We need the space that YSHS site offers. We do not have biker/walker issues currently, but we do need more bike racks! We would need to improve and/or design an effective parking region. Ex. Staff park at "x" entrance with appropriate keys/access to their building. The drop off lane would have an entrance/exit that was effective, H.S. would have a share lot that the ESC and visitors could use, while still having appropriate access to the building. Currently our set up causes congestion in the morning/PM pick-up and can be improved prior to building in design/function.	4/21/2017 8:33 AM

**Q8 Suppose that a bond issue were to be placed before voters in May of 2018 to address school facilities, and the final plan selected seemed to have broad support from teachers and District leadership. Do you think the community would vote for or against it?**
