How frequently do you vote in local elections?

1. ALWAYS
2. USUALLY
3. SOMETIMES
4. RARELY
5. NEVER

How long have you lived in the Yellow Springs Exempted Village School District?

1. Less than 1 year
2. 1 year but less than 2 years
3. 2-4 years
4. 5-9 years
5. 10-14 years
6. 15-19 years
7. 20 years or more

Do you rent or own you home? Do not read

1. Rent
2. Own
3. Other

How closely have you been following news about the school facilities planning process?

1. VERY CLOSELY
2. FAIRLY CLOSELY
3. NOT TOO CLOSELY
4. NOT AT ALL CLOSELY
5. DK/refused

Randomize Q1/Q2 with Q3/Q4/Q5

1. At this time, the School District is currently exploring plans for a new addition to and renovating school buildings in the community. One idea being considered is a two phase plan. Phase one is the partial renovation and an addition to the Middle School / High School at its current location on Enon Rd. Phase two is a renovation and addition at Mills Lawn Elementary School. Would you be for or against this plan?

1. DEFINITELY FOR
2. PROBABLY FOR
3. PROBABLY AGAINST
4. DEFINITELY AGAINST
5. Unsure / no answer

Intro

Suppose for a moment that an \$18 million dollar facility plan (addressing Middle School / High School as phase one of two) was on the ballot.

For each of the following scenarios, would you be definitely for, probably for, probably against, or definitely against the \$18 million dollar facility plan.

2. The plan would cost property owners about \$14 per month for each \$100,000 dollars of assessed property value and all residents would pay an additional quarter (.25) percent income tax. Would you vote for or against it?

1. DEFINITELY FOR
2. PROBABLY FOR
3. PROBABLY AGAINST
4. DEFINITELY AGAINST
5. Unsure / no answer

3. An idea being considered is to construct a K-12 Campus at Mills Lawn. Because of its central location in the Village it provides operational efficiency. Would you be for or against this plan?

1. DEFINITELY FOR
2. PROBABLY FOR
3. PROBABLY AGAINST
4. DEFINITELY AGAINST
5. Unsure / no answer

4. What is the biggest reason that you oppose a single-site location at Mills Lawn? (don't read items)

1. Wouldn't vote for it under any circumstances
2. Younger and older kids should be separate
3. Loss of green space
4. Traffic congestion
5. Do not want taxes to increase / taxes too high
6. Other, specify \_\_\_\_\_
7. Unsure / no answer

Intro

Suppose for a moment that a \$34 million dollar K-12 comprehensive facility plan (addressing all needs for all students simultaneously) was on the ballot.

For each of the following scenarios, would you be definitely for, probably for, probably against, or definitely against the \$34 million dollar K-12 facility plan.

5. The plan would cost property owners about \$26 per month for each \$100,000 dollars of assessed property value and all residents would pay an additional half (.5) percent income tax. Would you vote for or against it?

1. DEFINITELY FOR
2. PROBABLY FOR
3. PROBABLY AGAINST
4. DEFINITELY AGAINST
5. Unsure / no answer

6. One possible funding strategy being considered is a combination of local funds and applying for \$4.7 million dollars in state matching funds. The state funds could save taxpayers approximately \$5.50 per month. Would you be for or against this funding strategy?

1. DEFINITELY FOR
2. PROBABLY FOR
3. PROBABLY AGAINST
4. DEFINITELY AGAINST
5. Unsure / no answer

7. Thinking about possible ways to fund a facility plan, would you prefer to fund the project with A) Property Tax, B) Income Tax, or C) a combination of Property Tax and Income Tax.

1. PROPERTY TAX
2. INCOME TAX
3. COMBINATION OF PROPERTY TAX AND INCOME TAX
4. Unsure / no answer

8. Thinking about possible ways to address planning for additions and renovations to buildings in the community, which plan would you prefer A) a single-site location combining grades K-12 at Mills Lawn or B) separate school facilities at the existing locations.

1. K-12 Campus at Mills Lawn
2. Separate school facilities
3. Unsure / no answer

9. Another idea being considering is a public / private partnership to build a Performing Arts Center for school and community use. The public portion of the plan could cost property owners about \$5 per month for each \$100,000 dollars of assessed property value. Would you vote for or against it?

1. DEFINITELY FOR
2. PROBABLY FOR
3. PROBABLY AGAINST
4. DEFINITELY AGAINST
5. Unsure / no answer

Question modified 10/2/2017

9. What if you knew that the plans for renovations/additions to the existing school facilities would include a public/private partnership to build a Performing Arts Center for school and community use included in the cost? Would you vote for or against it?

1. DEFINITELY FOR
2. PROBABLY FOR
3. PROBABLY AGAINST
4. DEFINITELY AGAINST
5. Unsure / no answer

**What is the biggest reason that you oppose a single site location at Mills Lawn? Other, please specify**

- Also, I don't want to demolish buildings and then build new, I would rather renovate.
- Athletic field is at the high school location and it doesn't make sense
- Consider using school we are renting to Greene County.
- Don't want to build a new building for environmental reasons.
- Existing buildings could continue with improvement
- far away from sports facilities
- I don't feel like it's necessary.
- I don't know if the number of people in the community fill up classrooms anymore.
- I don't think it would be adequate for the long term growth of the village. The renovation needed on the other buildings is not that significant and the prior renovation done at Mills Lawn was poorly done. They need to focus on spending money on higher quality renovation rather than a new building.
- I don't think there is anything wrong with the buildings they have now.
- I don't want another big building across from a big building.
- I favor re-using facilities instead of building new buildings for environmental reasons.
- I feel like the location could be better utilized.
- I feel that there are other options that are more viable. For example, the Antioch University site could be used.
- I like it the way it is and that children have a place to play outside.
- I like that the elementary kids have a place to play outside.
- I oppose a single-site location at Mills Lawn because I don't want them to cut down all the trees. They've been planting native Ohio trees for years and there are 200 year old oak trees.
- I really don't see what is wrong with the other facilities, my children didn't have problems with the school. This is an unnecessary waste of taxpayer dollars.
- I think it isn't feasible.
- I think there are other options that would suit the community better. I think the plan to re-do the high school first is better.
- I think they should do renovations instead of building a new facility.
- I think we should utilize the buildings we already have and it's their fault the schools haven't been properly maintained.
- I want them to renovate buildings instead of building new.
- I would like a more specific study done on the infrastructural impact of that facility on the community.
- I would like to keep the high school intact. Also, I've always liked that we have a group in mills lawn that's just for young kids.
- I would like to see them buy the Antioch college building across from the high school instead of constructing a whole new K-12 facility at Mills Lawn.
- I would rather renovate buildings instead of building new buildings. Building new would require using more of the Earth's resources.
- I would rather reuse and renovate facilities than build new buildings
- I would rather see existing space renovated.
- If they want to do K-12 together, why not do it at the larger plots of land where the Jr. high and high are

- It does not solve the problems sufficiently. We would still have to maintain the athletic facilities at the old locations.
- It is a multi-used property that is used for a lot of events
- It isn't necessary to build new school buildings, we should make do with what is already built.
- It isn't the proper location because there's no room or parking spaces
- It just seems like too dense of a development for that amount of space. and to build a new facility on that land seems like it would not eventually meet all the needs.
- It will take away the character of the downtown area.
- It would abandon the high school and the town would have to live with an abandoned building for years.
- It would be a lot of additional work to build. There's no attempt at cost control on the board. It would be a burden on citizens, especially elders.
- It would be using the space too intensively
- It would change the entire area downtown and Mills Lawn.
- It would ruin the looks of the whole town. Also, you don't need another big building downtown.
- It's in the business center of town and there would not be enough parking for high schoolers.
- It's irresponsible.
- It's kind of a combination of the expense and the location. I would rather the existing facilities be fixed and maintained rather we build one new one.
- It's not appropriate for older and younger kids to be together, location, sports facilities
- It's not the best location for a K-12 campus because it will upset people in the town.
- Kids need exercise in our society and that's the place for kids to play. Too many people are overweight in our society.
- Location has no parking, constructing building will have chaos in downtown.
- logistically crazy for everything that happens in yellow springs, transportation for kids, parking, mad house
- mills lawn also serves as a location for community events.
- Mills Lawn doesn't seem large enough to house the entire K-12 campus including sports facilities, parking, etc.
- Not the intention for the land and if they read the information from when they bought the land they will see that. They're going to get sued if they try it.
- Parking is already a problem, not sure we need new buildings
- tears up downtown
- The buildings don't need updated.
- The location has minimal parking and there is no room to grow downtown.
- The population density in downtown Yellow Springs.
- The space at Mills Lawn doesn't accommodate a K-12 campus.
- There are lots of other options that aren't as costly. I think having a massive K-12 facility in the middle of the village isn't wise
- There is already a beautiful and expensive campus for middle school/high school and would ruin everything a K-12 campus by Mills Lawn. They would need to find a new place for sports.
- There is no need for a new school because we already don't have a lot of students enrolled.
- There would be no room for athletic facilities. There would be a lack of room for an outside playground for recess.
- there would be too many kids in a small space.

- There's not room at Mills Lawn.
- They don't need any more improvements.
- too close to downtown
- too close to the business district
- track is at high school
- we don't need to build all new buildings.
- We pay more in property rent compared to other people in the county.
- We put the high school on a big property so it could have room for expansion in the future. Also, there is no parking downtown and no athletic facilities at Mills Lawn.

Suppose for a moment that a \$34 million dollar K-12 comprehensive facility plan (addressing all needs for all students simultaneously) was on the ballot.

The plan would cost property owners about \$26 per month for each \$100,000 dollars of assessed property value and all residents would pay an additional half percent income tax. Would you be for or against the \$34 million dollar K-12 facility plan?

Suppose for a moment that an \$18 million dollar facility plan (addressing Middle School / High School as phase one of two) was on the ballot.

The plan would cost property owners about \$14 per month for each \$100,000 dollars of assessed property value and all residents would pay an additional quarter percent income tax. Would you be for or against the \$18 million dollar facility plan?

One possible funding strategy being considered is a combination of local funds and applying for \$4.7 million dollars in state matching funds. The state funds could save taxpayers approximately \$5.50 per month. Would you be for or against this?
