

# Bienvenidos a la clase de Español AP

Me emociona muchísimo tener la oportunidad de aprender con ustedes otro año. 😊

There is no true summer homework assignment, but rather a few things for you to do that will help prepare you for AP Spanish.

1. Join the [remind](#) so that we can communicate! Text: @gibsonap23 To: 81010

2. Enjoy as much entertainment *en español* as possible

- It doesn't matter what you watch/listen to - just make sure the language is set to español!
- To start, you might choose a movie or series with which you are already familiar then change the language to Spanish!: Netflix, Amazon Prime, Disney +, YouTube are all excellent resources
- Any music *en español* or a PodCast (try [Coffee Break Spanish](#) or [Dreaming Spanish](#))
- For some cultural experiences try these YouTube Channels: (PS - I haven't watched EVERY video so I can't be certain it's all G-rated - BEWARE!!

Try: [Yalitzta Aparicio](#), [Ford Quarterman](#), [Los Gringos TV](#), [Anet Aylin](#)

3. Increase your vocabulary

I like to describe AP Spanish is "A social studies class done in Spanish". We discuss and write about various themes set by the college board. I've prepared a set of vocabulary lists that may help with each of those themes. College Board does NOT set a specific list of terms that one should know, but rather assesses your ability to communicate those themes. Typically the biggest hurdle for students is not having a sufficient vocabulary. These lists will help not only with the discussion of the themes, but with the tasks set forth by College Board. You will NOT be quizzed on this vocabulary when we return in the fall, this is simply an opportunity to be better prepared for the school year. I HIGHLY recommend studying these quizlet sets in your spare time over the summer. Don't stress about it, simply consider spending 10 -15 minutes each day reviewing the lists. **I guarantee you will benefit from this next year!**
