# Introduction Paragraph

## STUDENT HANDBOOK AND DISTRICT NOTIFICATIONS

To achieve our mission and objectives for the highest level of student success, the district has established and will enforce reasonable rights and responsibilities related to student expectations.

The purpose of the student handbook and annual notifications are to provide a framework of resources for your experience as a student, whether you are full-time, part-time, online or in-person. This includes information so that you can develop an understanding of the general rules/expectations and guidelines, along with notification of board policy or state statute.

Items noted with an asterisk [\*] indicates notice is required by State statute. Items noted with two asterisks [\*\*] indicate notice is required by School Board policy.

Besides the policies that are included and/or referred to in this Handbook, students are expected to be aware of and to abide by all of the District's policies. All of the District's policies can be found on the [District's website](#). Students should pay particular attention to the policies in Section 500 that specifically pertains to students. Questions regarding policies can be directed to your building administrator.
