

**AP PHYSICS SUMMER ASSIGNMENT 2022: SKILLS FOR PHYSICS
AP PHYSICS 1 AND AP PHYSICS C**

DUE THE FIRST DAY OF SCHOOL!

Your summer assignment is on WebAssign. You can access WebAssign at <https://www.webassign.net>. Select the "Login" button. Your username is your school email address. Your password is your school password with "SEA" added at the end. If you have used WebAssign before, and you changed your password, use that password.

When you log into WebAssign, you will see a list of assignments. The Summer Assignment is the only assignment listed. Click on the link to open the assignment. You do NOT have to do the whole assignment at once. You can do one problem at a time and submit the assignment – only the problems you have answered will be scored. The whole assignment is due the first day of school, Aug 8th, at 8:30 am.

If you need help on any part of this assignment, post your question in our AP Physics Team in the Physics Help Desk channel, and tag Mr. Moehnke. You can also email Mr. Moehnke at moehnke@tusd.net.
